LEISURE VILLAGE WEST ASSOCIATION
Special Medical Needs Snow Removal List
2026–2027

Each year, Leisure Village West Association updates its Special Medical Needs Snow Removal List to identify residents who require priority snow removal due to regularly scheduled medical treatments.

Please note the following requirements:

- Priority snow removal is limited to residents receiving dialysis, chemotherapy, or radiation treatments.
- Your treatment center must provide confirmation of your scheduled appointments, including the days and times of treatment. You must attach the treatment center's confirmation to this form.
- Confirmation may be dropped off at the Association or Maintenance building or emailed at association@lvwa.net.
- Confirmation that does not include the scheduled days and times of treatment will not be considered complete.
- This information must be updated annually to remain on the Special Medical Needs Snow Removal List.

Please complete the form below and return it with the required treatment center confirmation.

Date: _____

Treatment Type: ☐Dialysis ☐Chemotherapy ☐Radiation

Days and Times of Treatment: _____

Resident Name: _____

Address: _____

Phone Number: _____

Resident Signature: _____
