# **I1-** LIGHT INDUSTRY

§ 153.021 (D) Industrial Districts. Three districts, I1, I2, and I3, are established to meet the present and future needs of the city for industrial development operations, including some ancillary services for industry and employees. A brief description of the industrial districts follows. The I1 district incorporates many of the existing industrial developments and provides for their expansion. Generally, the permitted uses will include only those where all of the operations, including the storage of material, are confined within a building and the performance characteristics are compatible with uses permitted in neighboring districts.

#### **USES: PERMITTED\***

\*All uses not found on either of these lists will require a Variance hearing in front of the BZA. Applications can be found in the Plan Department.

Advertising agencies
Advertising structures
Auto body shop & painting without
disabled vehicle storage

Minimum Street Side Yard: 10'

#### Minimum Rear Yard:

Adjoining Residential District: 25' Not Adjoining Residential District: 15'

Maximum Building Height: ----

Maximum Lot Coverage in % of Lot Area: 75% Vision Clearance on Corner Lots: YES

### § 153.065: SIGNAGE\*

- \*All new, refaced, and temporary signs require a permit from the Advisory Plan Department.
- -Not more than 150 square feet of the total sign area shall be permitted for any one building.
- -No sign or part thereof shall be attached to or extend over any public street right-of-way.
- -The area of a sign or advertising structure shall be calculated by multiplying its maximum vertical dimension by its maximum horizontal dimension, if the sign is combined on a single sign face. If separate letter or symbols are used and attached independently, the actual size of each component shall be calculated to determine sign size.
- -A double faced sign may be erected having the allowed sign area on each side of the sign; provided, the maximum dimension between the two faces of the double faced sign shall not exceed 24 inches or 10% of the maximum dimension of the face of the sign whichever is the lesser.
- -No sign or advertising structure shall be erected at the intersection of any streets in such a manner as to obstruct free and clear vision of operators of motor vehicles, or interfere with, mislead or confuse traffic.
- See § 153.061 for separate Vertical Sign requirements.
- -Lights used to illuminate signs or advertising structures shall be so installed as to concentrate the illumination on the sign or advertising structure and to minimize glare upon a public street or adjacent property.
- -Signs may be painted upon the surface of a building; only if lights do not shine directly at a residential district.
