

Andersen Middle School prepares Students to be responsible citizens, problem solvers, and lifelong learners in a global community.

Principal Message

Dear Parents and Students.

This school year the Andersen Middle School, School Improvement Team has continued to develop the School Improvement Plan under the leadership of our two SIP Co-Chairpersons (Doris Ada and Lillian Taitano). Throughout the school year our Staff and Parents have worked very hard to prepare our SIP plan for next year's NCA visitation to be held in February. This is an ongoing process that takes a great deal of time and effort by everyone on the Andersen Middle School staff to implement our goals and interventions.

The AVID Program (Advancement via Individual Determination) at Andersen Middle School was citied as a school of Distinction late in the spring of 2007. This school year under the direction of Theresa Hotelling, Andersen Middle School has received the highest honor given in the AVID program - we are now a Demonstration Model. Congratulations to our students, staff, and parents as only one other school in DoDDS Pacific has ever received this type of accommodation.

The parents of our military community should be very proud of the students they have entrusted to the professional staff at Andersen Middle School. We have by far the best student body that I have ever experienced during my tenure in education. "Andersen Middle School Students are the best students in DoDEA." Our students represent the school locally, throughout DoDDS Pacific, and nationally in the areas of AVID, Art Athletics, Computer Science, Music (Tumon Bay Music Festival and Friendship Fest), Science Fair, National History Day, Academic Challenge Bowl, Junior Science and Humanities Symposium, Geography Bee, and our Culture Program. This school year our science students measured the temperature on Jupiter (Gavert Program) which requires a tremendous amount of coordination with the schools science department and the Gavert Program (Radio Telescope) in California. We have exceptional students attending this school and they are highly involved in many programs the Andersen Middle School Community should all be very proud of our student's

Andersen Middle School has exceptional students and we are fortunate to have exceptional staff members with a deep commitment for learning. Our staff wants every student to excel and be able to leap tall buildings; take their education seriously, plan to take their place in the global community, and become responsible productive adults. This school year Mrs. Mary Williams a seventh grade Social Studies teacher represented the DDESS/Guam School District in Washington D.C. as Teacher of the Year. Our teachers compassion and dedication to each student in our school has not gone unnoticed and most certainly is noteworthy.

Andersen Middle School is the place to be, our students and staff are alive and make the education process challenging and foremost in everyone's mind as they prepare for their future. Truly, I am honored and it is a pleasure to be part of this process and watch our students grow throughout this school year
