MOVING IN, MOVING ON, MOVING OUT

What does the term "Moving In, Moving on, and Moving Out" mean? Well, it all started the first day of school, August 25, 2008. The 6th graders were just moving in to the school, and how did they feel about that? "I felt very nervous because I thought I'd be lost even though I've been inside the school before." said Alona Paja. The 7th graders are moving on for another year at Andersen, and how did they feel about that? "I felt very confident because I have been in this school for a year already," said Emily Nosek. Last, but not least, the 8th graders are moving out of their lockers and out of this school. And how did they feel about that? "I felt very confident and excited because we get to go to high school," said Jordan Foster. "The stories that I hear, and the movies that I watch make me scared to go to high school," said Taylor Hession, another 8th grader.

Also, as most of our parents are in the military, we know how it feels to be moving out of our house, and sad to leave the people we've met. Some of us cry when move in, move on, and move out because of the great joys and moments we had at ANDERSEN MIDDLE SCHOOL! Andersen Middle School is a great school, and also has a great staff. We can't ever forget these great moments.
