Yearbook Staff

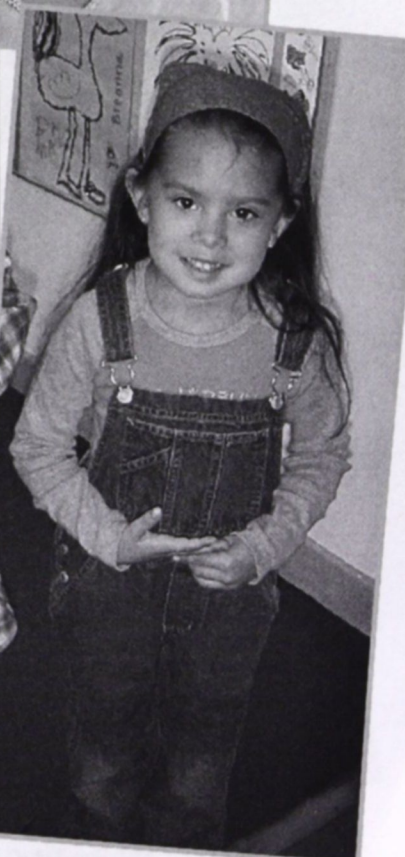

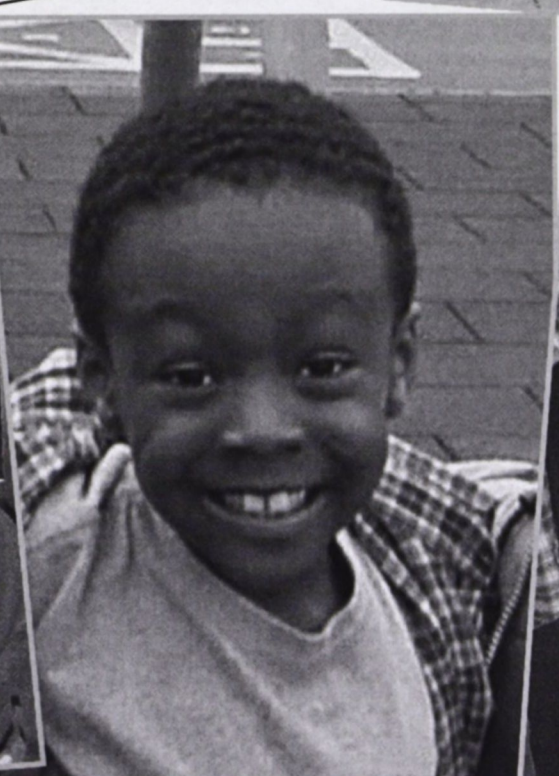

Say
Cheese!

What wonderful writers! What fantastic photographers! What creative layout designers! The yearbook staff really knows how to do it all. They spent a lot of time interviewing different people around the school, writing articles, taking pictures, scanning pictures, and creating lovely layouts for our yearbook. Ms. Hobler is the yearbook sponsor. She is so impressed with how quickly the students learned interview, writing, and computer skills, and with how creative their minds are! Just glance through this beautiful book to see what a terrific job they did.

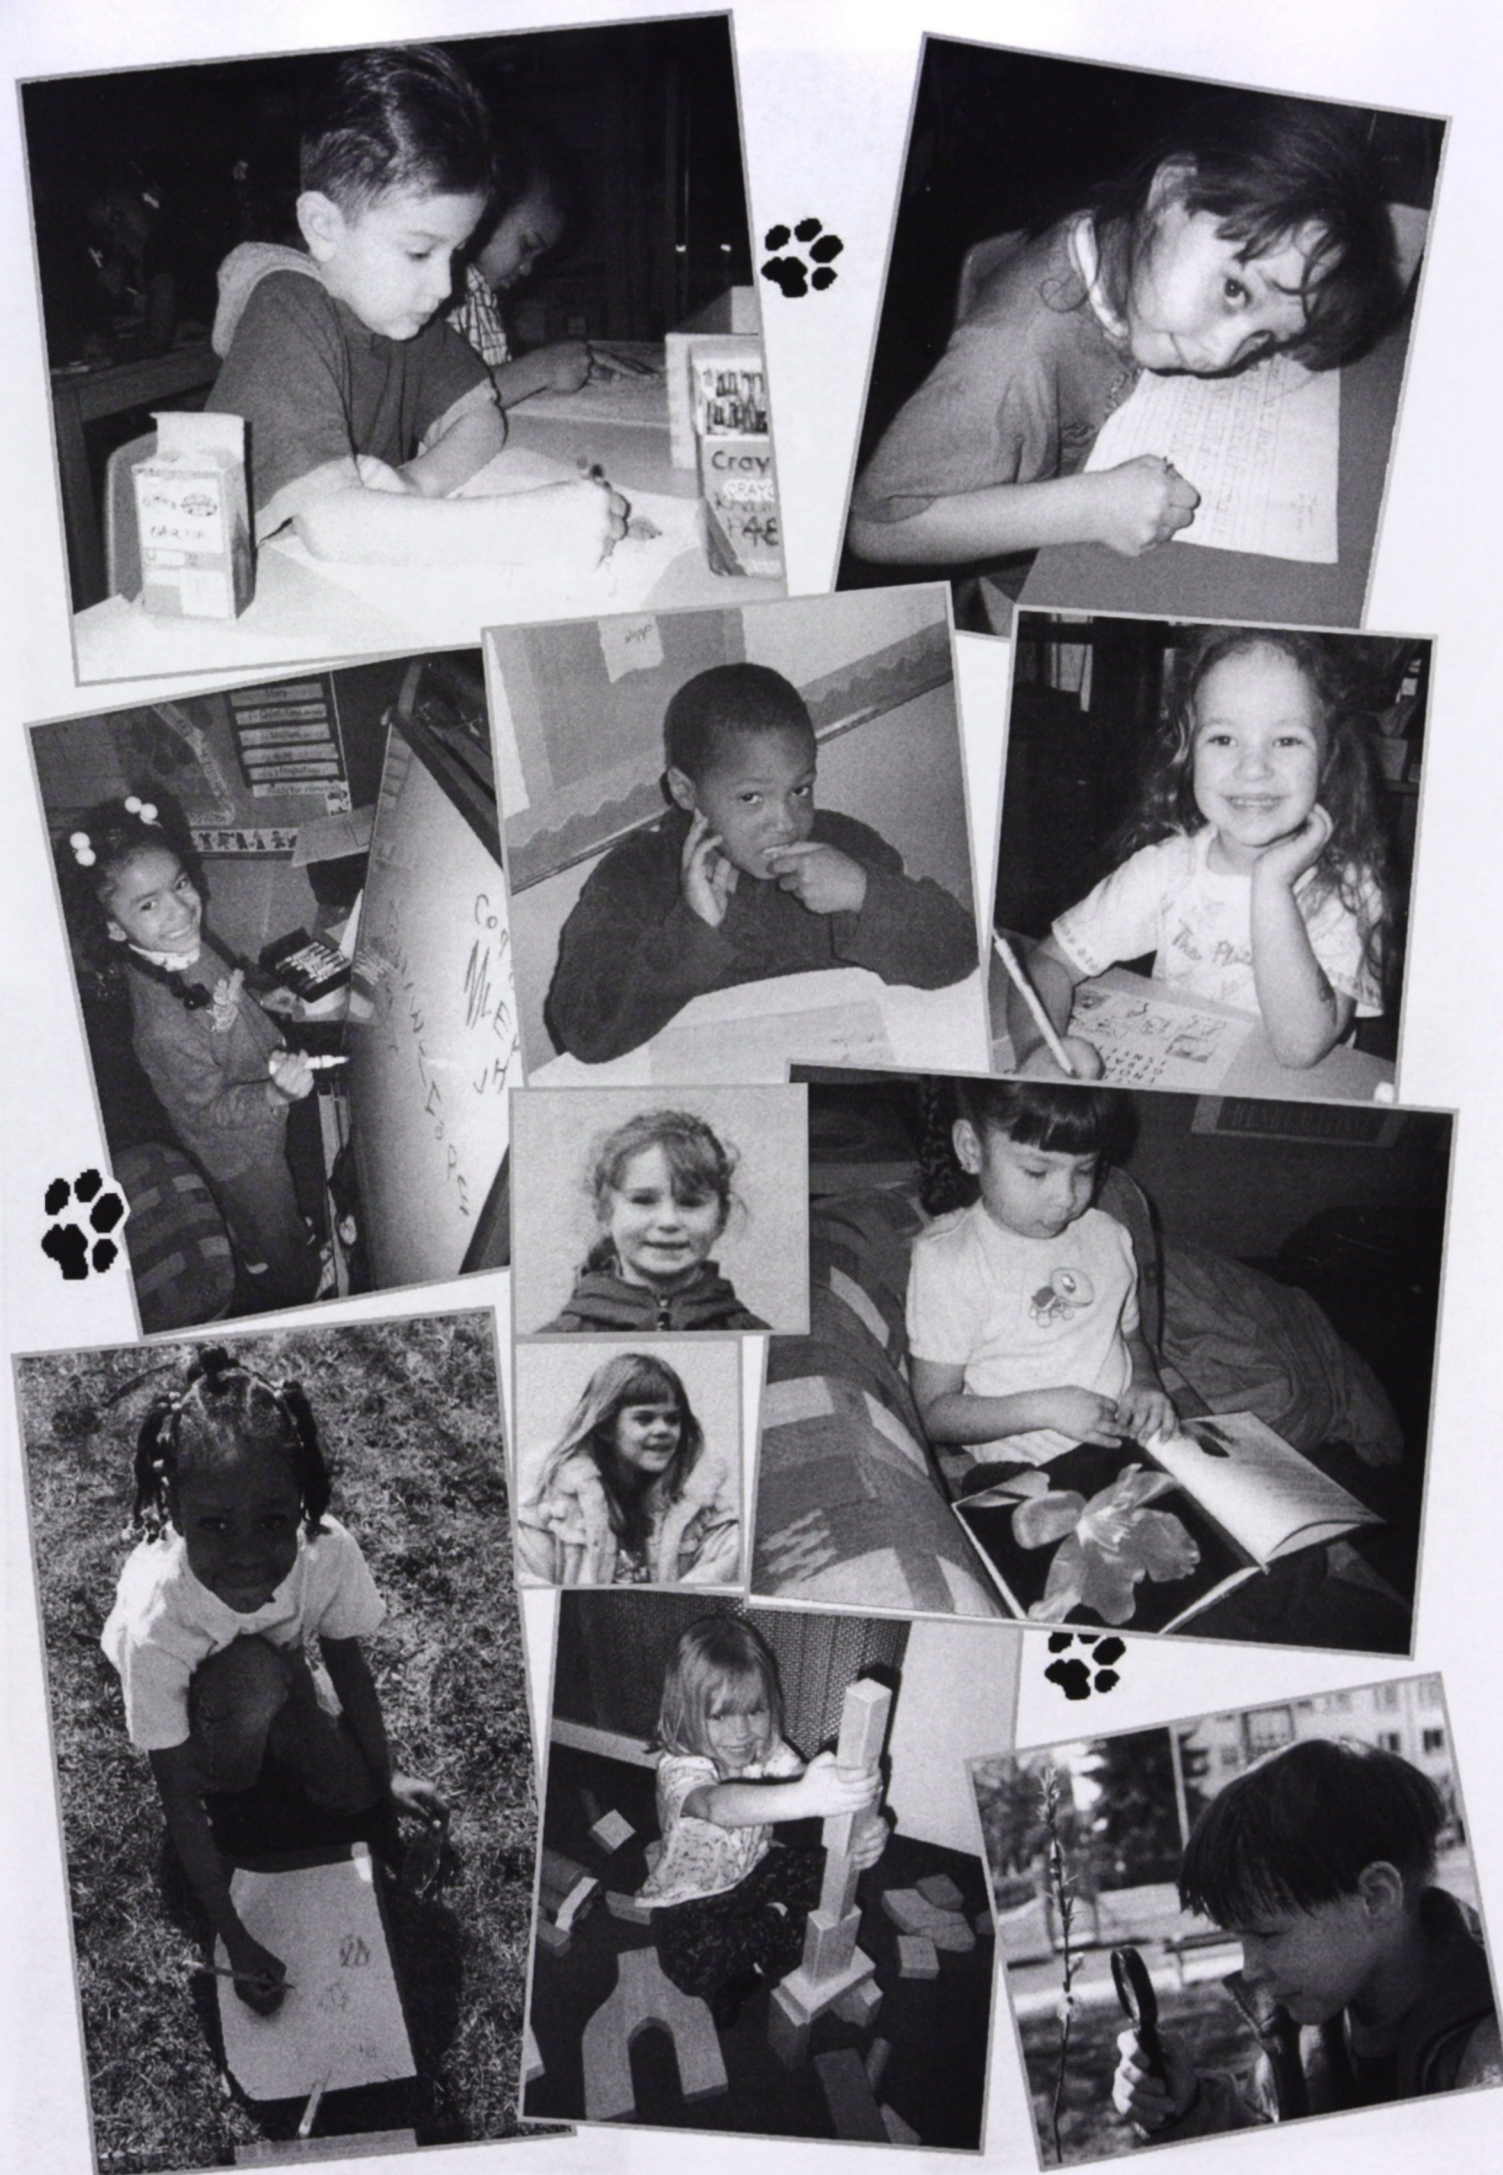

Welcome New
Students!

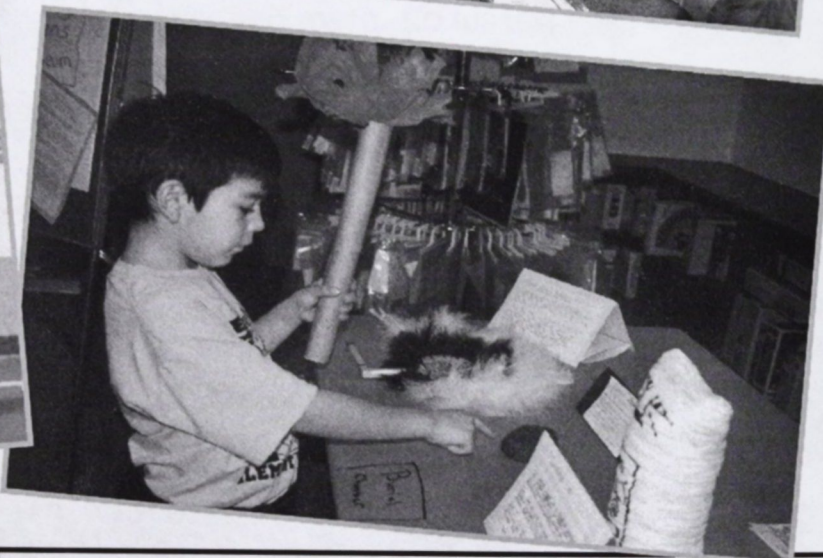

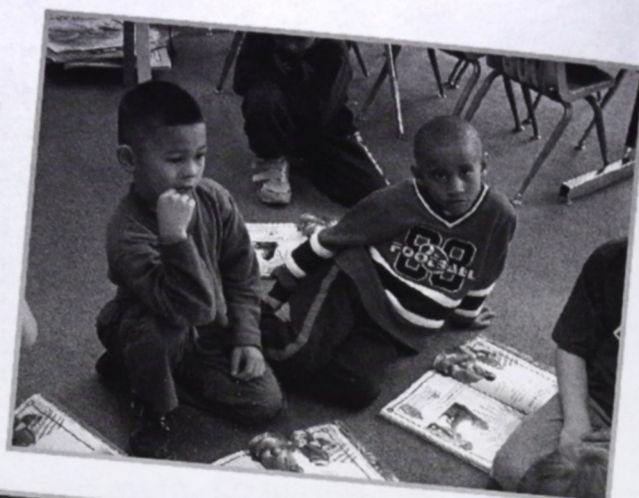

The Smallest Cubs of Them All

Remember when you were in kindergarten? Well if you don't, this year's kindergarteners could remind you all about it. During the day the kindergartners do several activities with the calendar, learn letters and words, do math games, and go to different stations like a rice table, dress up area, and computer station. On Fridays they have upside-down Friday where they do every thing backwards. Don't forget the teacher! She loves to be silly with the kids. At the same time as they are learning, the kids are having a blast in kindergarten. In fact, the kindergarteners have had so much fun this year that they don't want to go to first grade! But the kids are ready for first grade because they have learned their numbers, letters, and math. So watch out, the kindergarteners are roaring to 1st grade.

By: Amanda Davidson

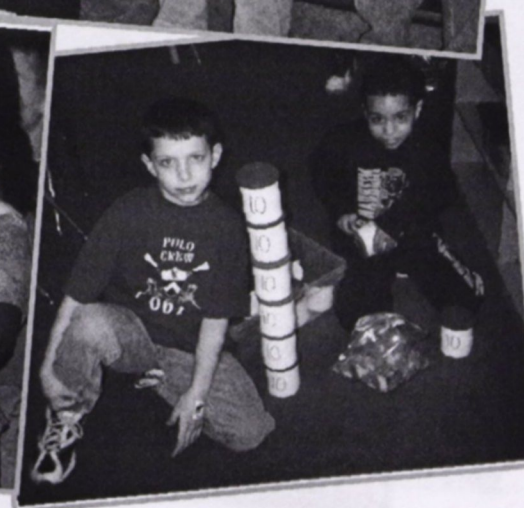

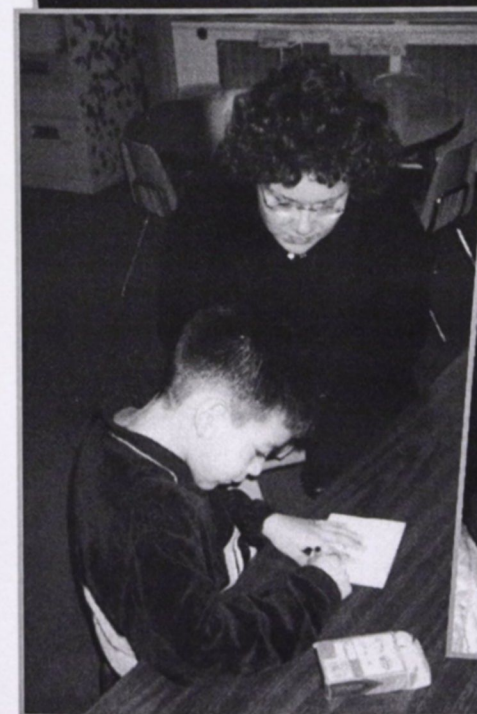

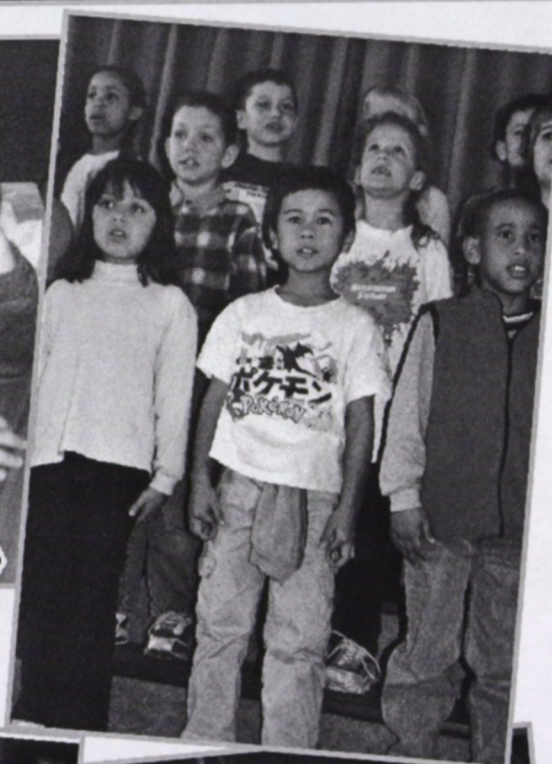

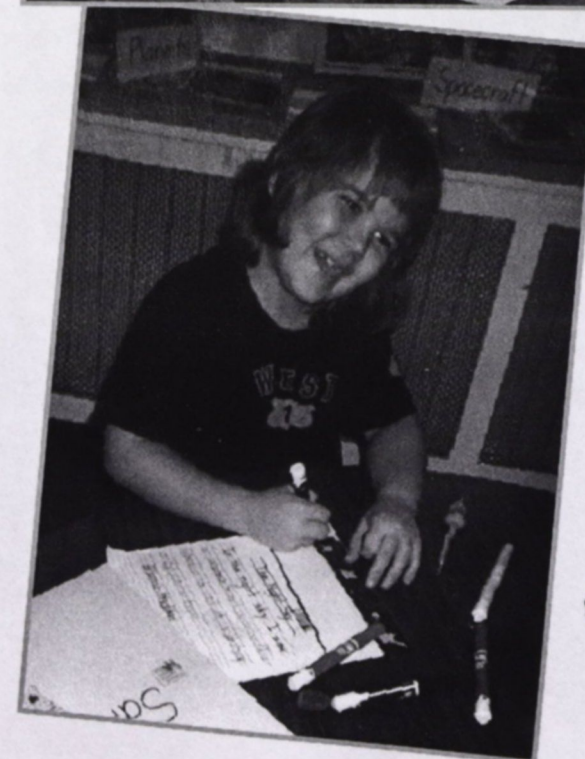

The Exciting First Graders Having Fun!

This year Ms. LaForge's first grade class worked hard and had fun! Ms. LaForge likes teaching first grade because she likes the growth during first grade. She said that this year's first graders are very good at friendship and problem solving. One of the first graders, Douglas, said Ms. LaForge is very nice and kind. Another first grader said her favorite activity was Dr. Seuss Day because she got to make green eggs and ham. Curtis said that what school means to him is learning and working. That's what the wonderful first graders had to say about their year!

By Curtis James

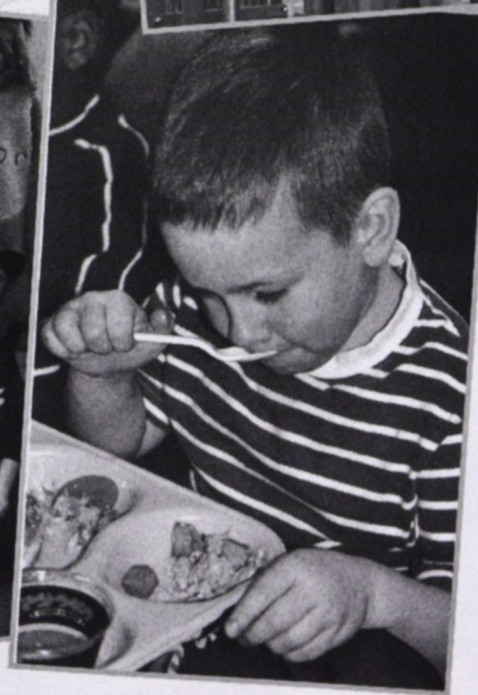

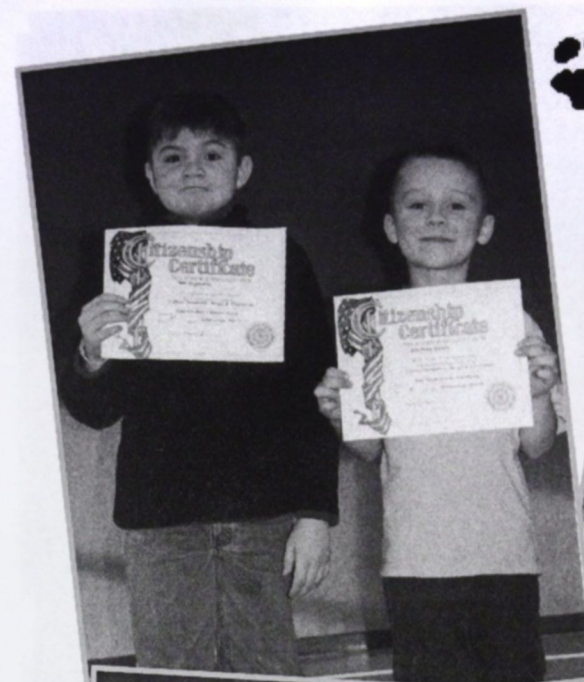

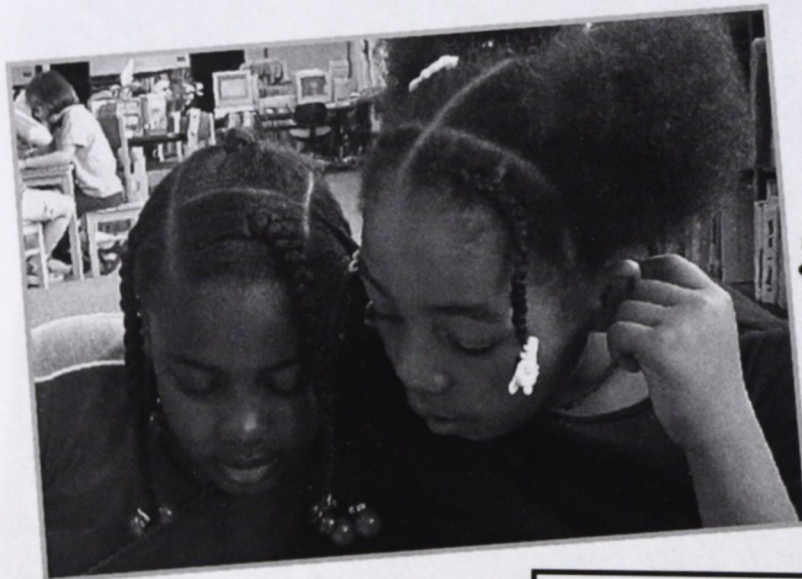

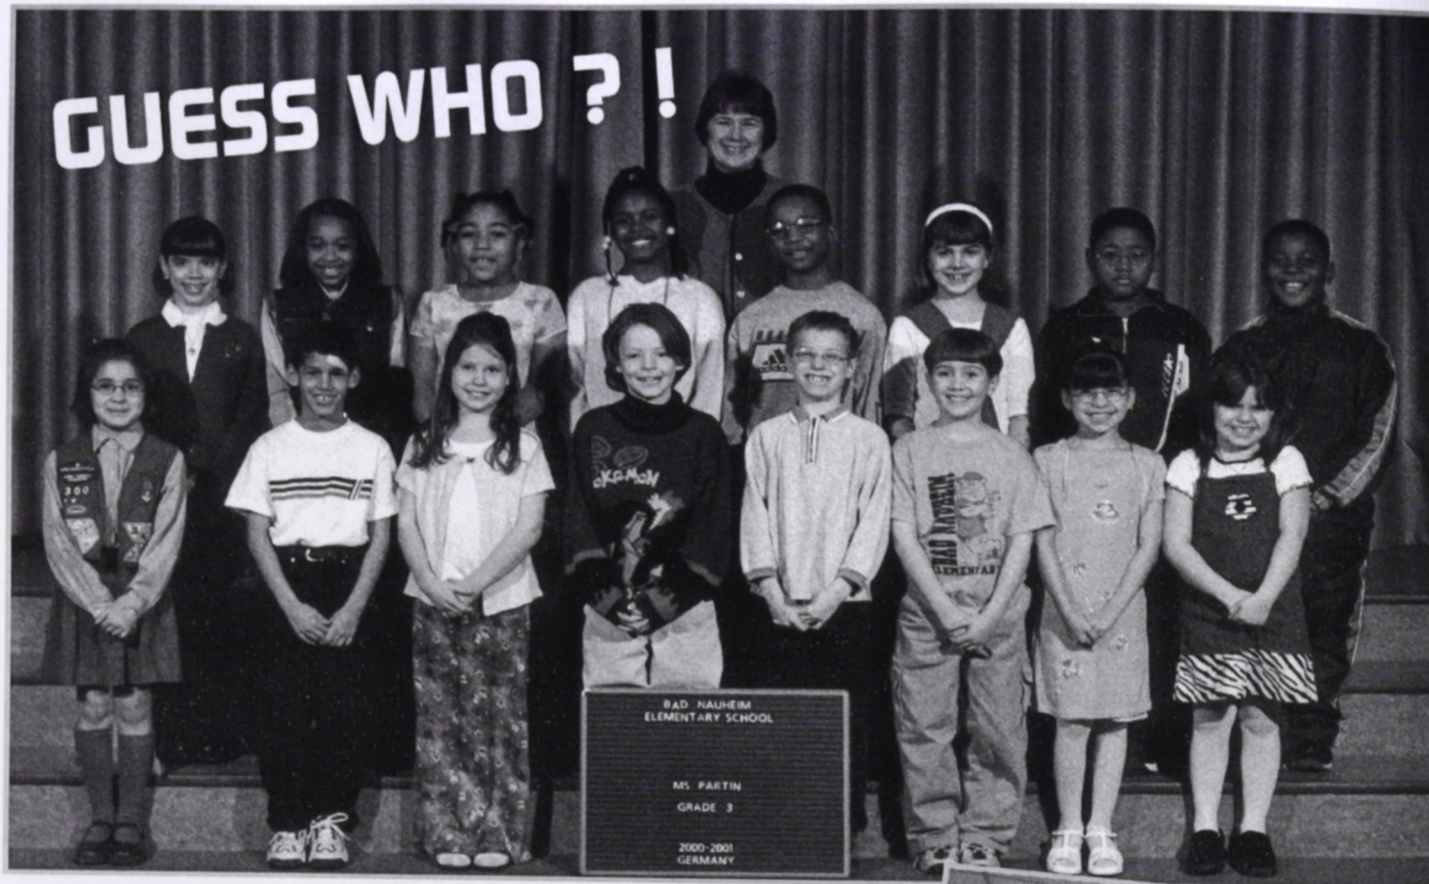

Have you ever wondered what 2nd graders do in class? They are very active throughout the day.

Here is why. Mrs. Dees explained that her classroom is very busy because the more active the students stay, the more they will remember. One of the activities they do in class is Centers, which is when they have a free choice of their activity. Some other activities they have are reading, language arts, math, and science. By the way, did you know that Mrs. Dees has been teaching for 15 years? All of those years have paid off because these second grade "darlings" have been doing great this year!

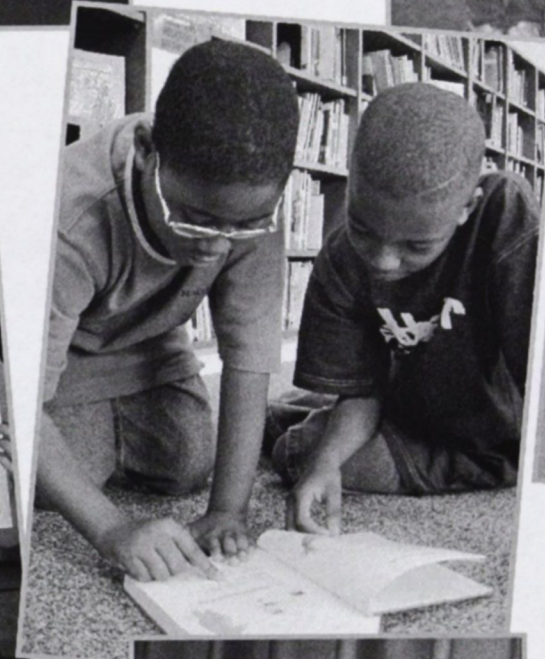

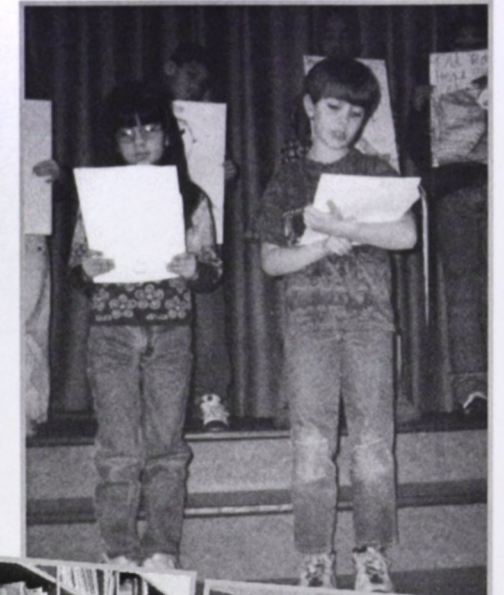

By Derrick Tillman

Riddle: Can you guess who we are? We study the Universe, the human body, communities, the 50 states, and countries. We learn to write cursive, use computers, multiply, and divide. Our teacher has short hair and she reads very expressively! This year our class performed a folktale for African-American History Month. We also went to the Christmas Market in Frankfurt. We are a class with more than one grade. We love lunch, recess, and free time! We also love group guidance, going to centers, reading, and going to the library. We learn a lot and do very hard work. Have you figured out who we are? We're Ms. Partin's **SECOND & THIRD GRADERS!**

By Brianna Sage Vaughn

FLY to Fourth

Favorite subjects: reading, science, math

Goals: to work hard, have fun, get ready for the fifth grade
Fourth graders have lots of jobs to help around the classroom

Ms. Harvin has been teaching for 26 years, 18 at Bad Nauheim ES
number of students: 22

They study the 50 states, adjectives, stories, sounds, geometry

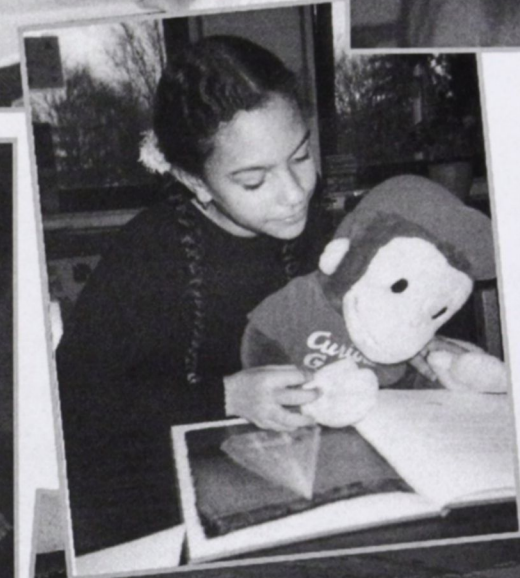

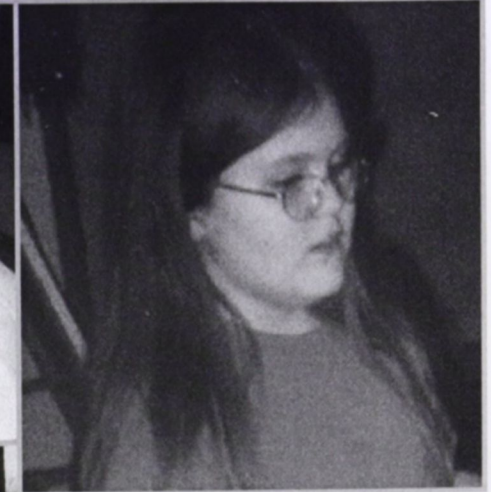

Ms. Harvin teaches, organizes, motivates her students

Room 44

Ms. Harvin sometimes acts as a nurse, mother, lawyer, friend
during the year they studied inventions, weather, women's history, Hispanics, simple machines, and peanut day

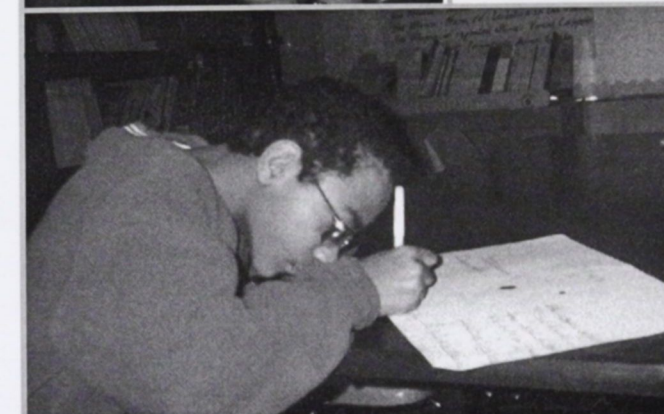

the year has ended, all the fourth graders are becoming fifth graders!

By Christina Kaczmarek

Who's had a Blast?

"We have", said 5/6 grade!

Mrs. Hohe's Fifth and Sixth grade class has had an interesting, exciting year. We have done lots of things this year like writing, reading, science activities, problem solving, reports, Power Point, news reports, and much more. Studying these subjects helped us learn to get along, learn how to take notes, and organize our thinking. "Science and math were the most interesting," said Mrs. Hohe. Amanda said, "Meeting new people was fun." "My favorite part of the year was when we had the Valentine's Day Party," said Curtis. Everyone agrees, it was a great year, and we're ready to move on to 6th grade and middle school!

By Star Scott

HUBERTUS: CAMP DAMP

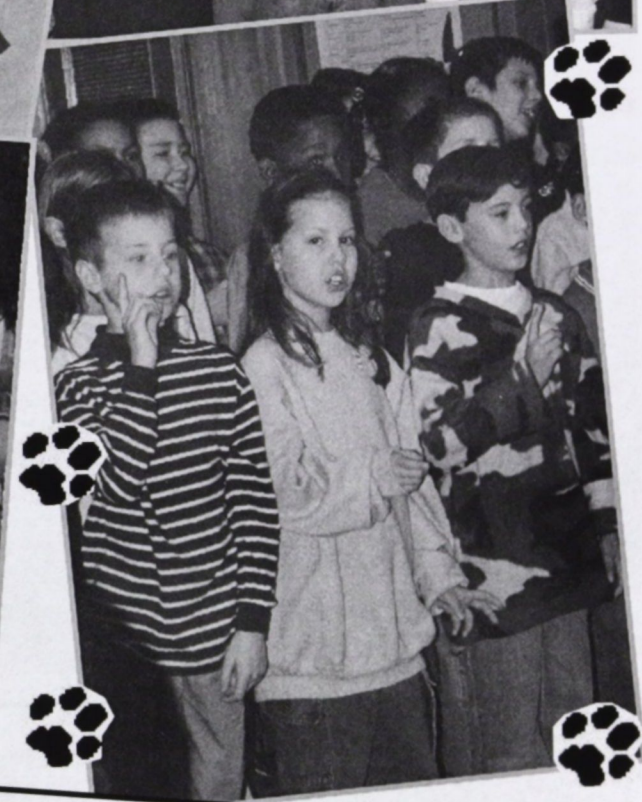

"Today's weather forecast: rain, sleet, hail, snow, and a good chance of fun."

Okay, what about tomorrow's weather? You're probably thinking, well all that matters is that the 5th and 6th graders came back from Hubertus in one piece!

Hubertus is where the 5th and 6th graders leave their home sweet home to study science at a camp called Hubertus. They are fed by the excellent Hubertus chefs, and are taught well by Mrs. And Mr. Hohe. After their trip the students have learned about science and have taken on lots of responsibilities, and still had fun in the process . . . not to mention some wacky weather!

By Ryan Walker

Funky Field Trips

This year we have had tons of fantastic field trips. Mrs. Partin's third graders and Mrs. Dees' second grade class had a terrific time at the Senckenberg Museum in Frankfurt! "It's a good chance to learn and to have fun!" said Mrs. Dees. Also, the 3rd, 4th, 5th and 6th grade classes took the train to the Frankfurt Main station, then took the underground to the Römerplatz to visit the Christmas Market. At the end of the year, Kindergarten and first grade visited the Opel Zoo and the Senckenberg Museum. Wow, look at all these field trips we've had! I wonder what great trips we'll take next year?

By Chelsea Michelson

Our Main Lions!

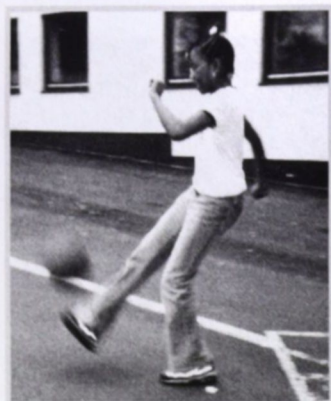

T = Teachers and staff, what would we do without them?
 E = Every day they are there to put a smile on our faces!
 A = A special part of our school spirit.
 C = Could we keep them?
 H = How would we get through a school day without them?
 E = Everyone give a hand for all of them.
 R = Rapidly we build friendship with them!
 S = See the strong feelings we share with them as well!
 &
 S = So let's all recognize our teachers and staff members.
 T = To thank them very much.
 A = And to say how important they are to us.
 F = For we are somehow a part of each other.
 F = Forever until the end.

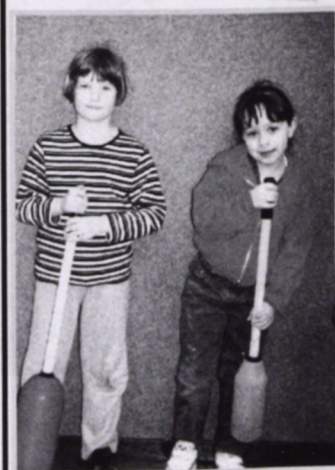

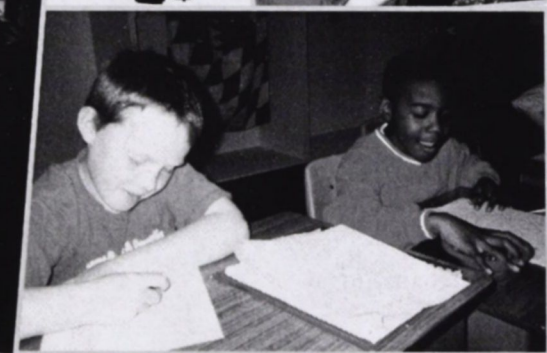

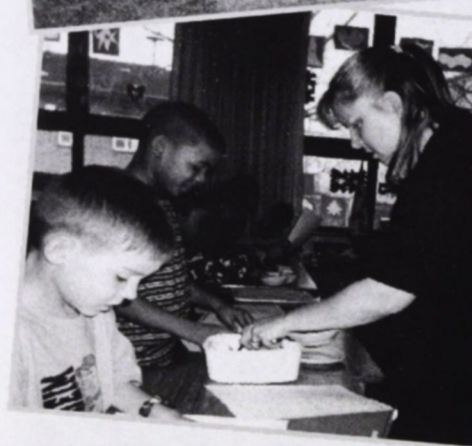

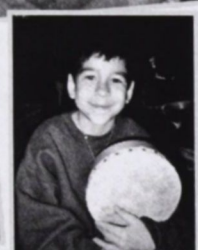

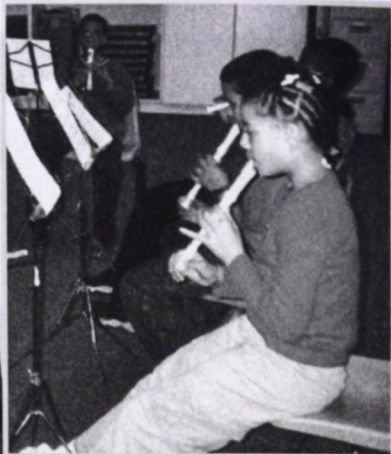

Ms. Hammack's Lions!

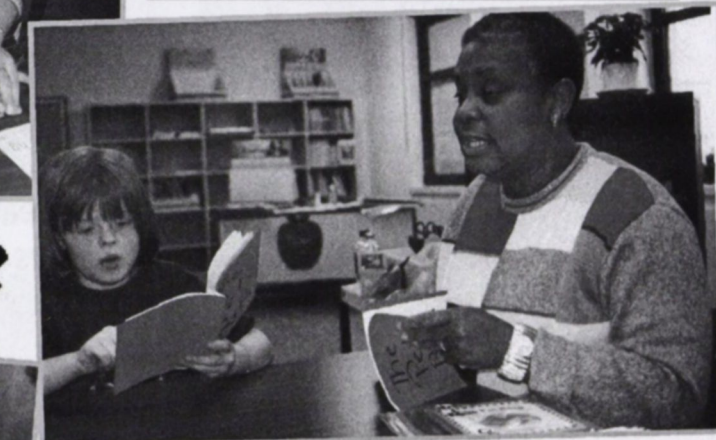

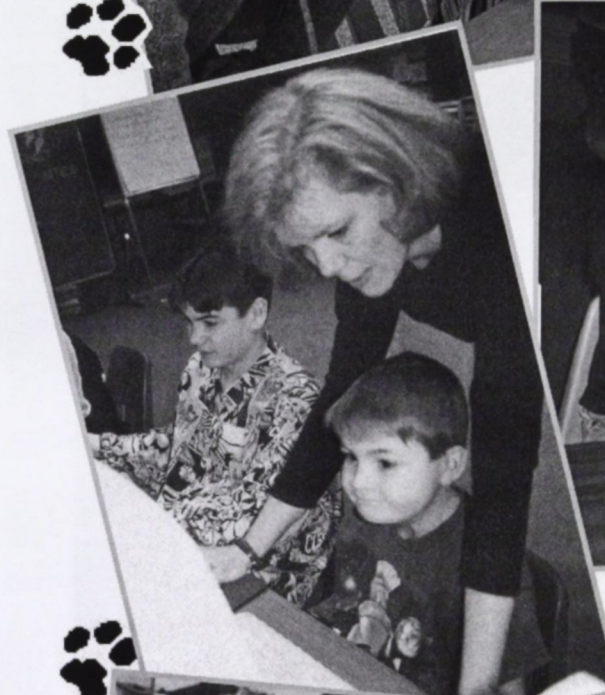

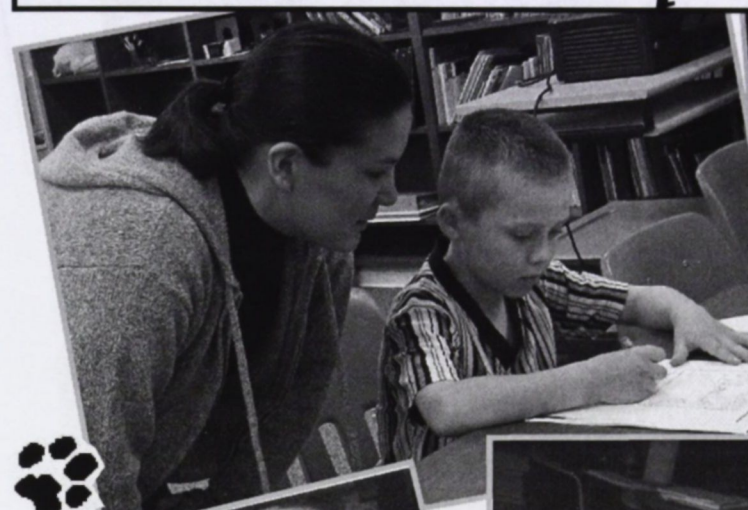

Special Specials

Cubs learn the most extraordinary things! The Cubs at Bad Nauheim learn about sports, German, art, guidance, and music. Mrs. Cooke was our music teacher this year. In music we sang, played instruments, and learned lots of things about music. Mrs. Cooke said the kids were "enthusiastic and willing to try things I ask them to do." Mr. Stump was our P.E. teacher. He hopes that when the kids learn something in P.E. that's really fun, they will continue playing it outside of school. Our German teacher was Mrs. McCrimmon. She said she learned a lot more German when she started teaching the kids! Our guidance teacher was Mr. Faddies. He helps us adjust to life and learn right from wrong. This year we had two art teachers, Ms. Haberman and Mrs. Tomasino. They both said that when we walk through the Art Room door, we become artists. Cubs sure had a tremendous time in specials this year! By: Brianna Vaughn

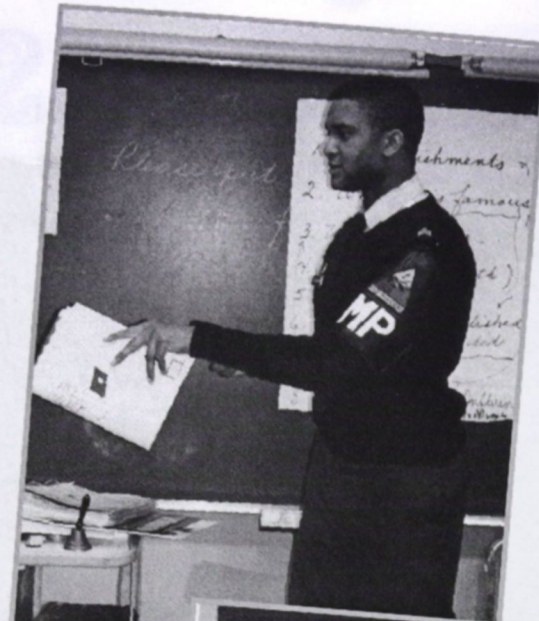

Academic Specials

Ms. Ching, Ms. Connor, Ms. Holland, and Ms. Butler are the teachers who teach special lessons. Ms. Ching teaches LI and Comp. Ed., Ms. Connor teaches TAG, Ms. Holland teaches ESL, and Ms. Butler teaches Speech. These teachers are fit for the job because they love children so much and they work with them well. Ms. Ching said she just loves the kids because of all the smiles they give and seeing their progress. With these teachers kids make tons of progress—thank you very much!

By Alina Beck

Wonderful Visitors

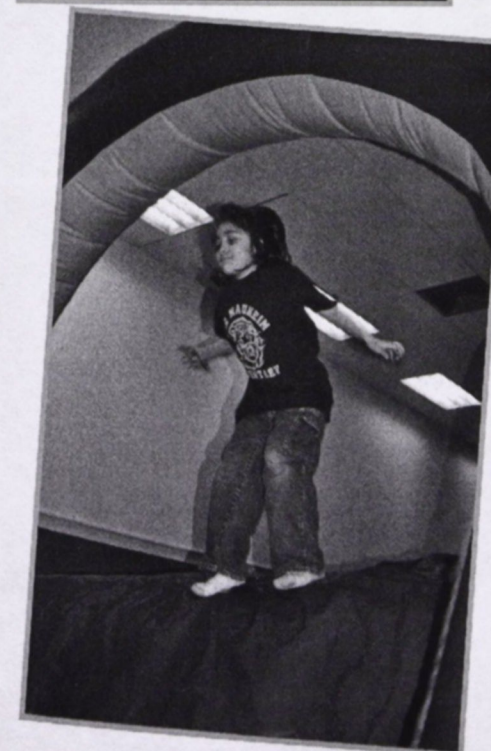

This year we have had tons of very entertaining visitors. Jeff Benoit, a Greek myth actor, came to our school to demonstrate some of his great talent. Kicking Deer, a Native American dancer, came to our school and performed an awesome dance. The Giessen High School students did a super job helping us on Dr. Seuss Day. Mr. Cooke came and did a splendid job of showing and telling us about the Boy Scouts. During Dental Health Month, Dr. Carla and her assistants came and checked our student's precious teeth so we can keep our beautiful smiles. The Dare officer comes to our school every Friday and tells us so much about how we can keep ourselves safe. Also Chaplain Peterson came and told all of us about the changes that would happen when the moms and dads came back from Kosovo. And those are the very **WONDERFUL VISITORS!!!**

By: Chelsea Michelson

Wonders Of The PTSA

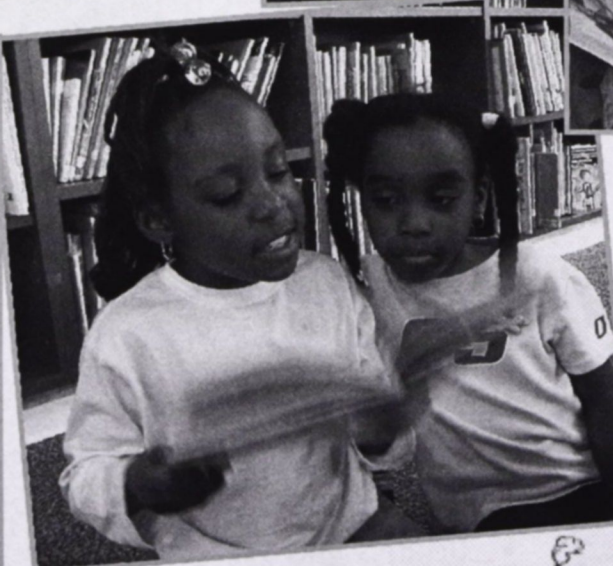

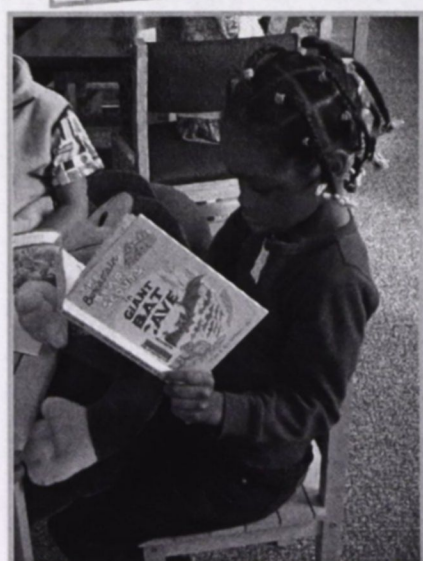

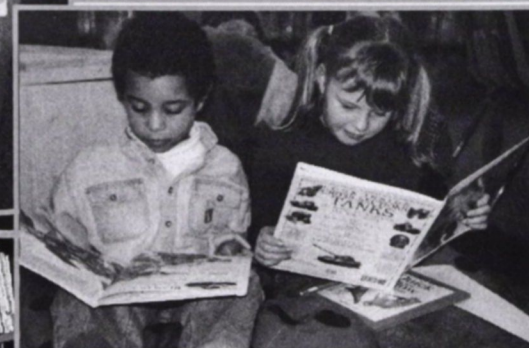

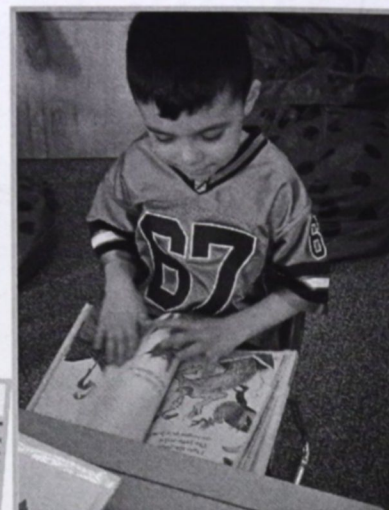

They're Amazing!

The PTSA has done a lot of wonderful activities for our school. The president Mrs. Rosa Kaczmarek, vice president Kim Koenig, secretary Anne Marie Buch, and treasurer Liz Hornung helped come up with the events we have done this year. Some of the great activities were: the winter carnival, the book fair, principal's reading round table, dances, birthday table, ice skating, swimming, muffins for mom, donuts for dad, field day and much, much more! The PTSA has also provided is with wonderful volunteers, so everyone, students and staff, would like to say "Thank you!" to all the PTSA members.

The Lovely Library Angels

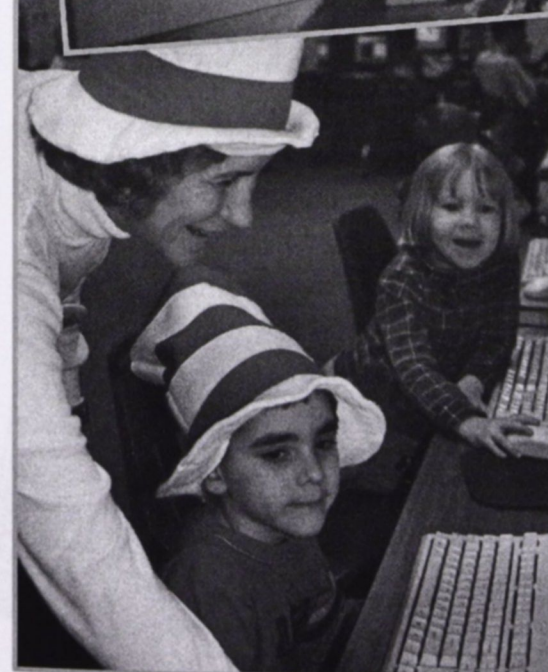

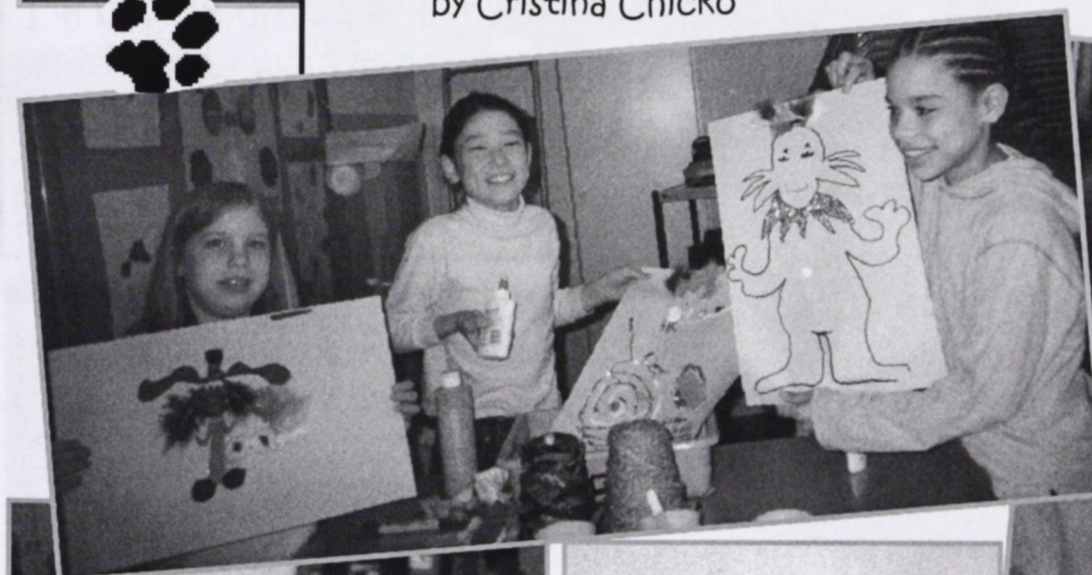

By: Christina Kaczmarek

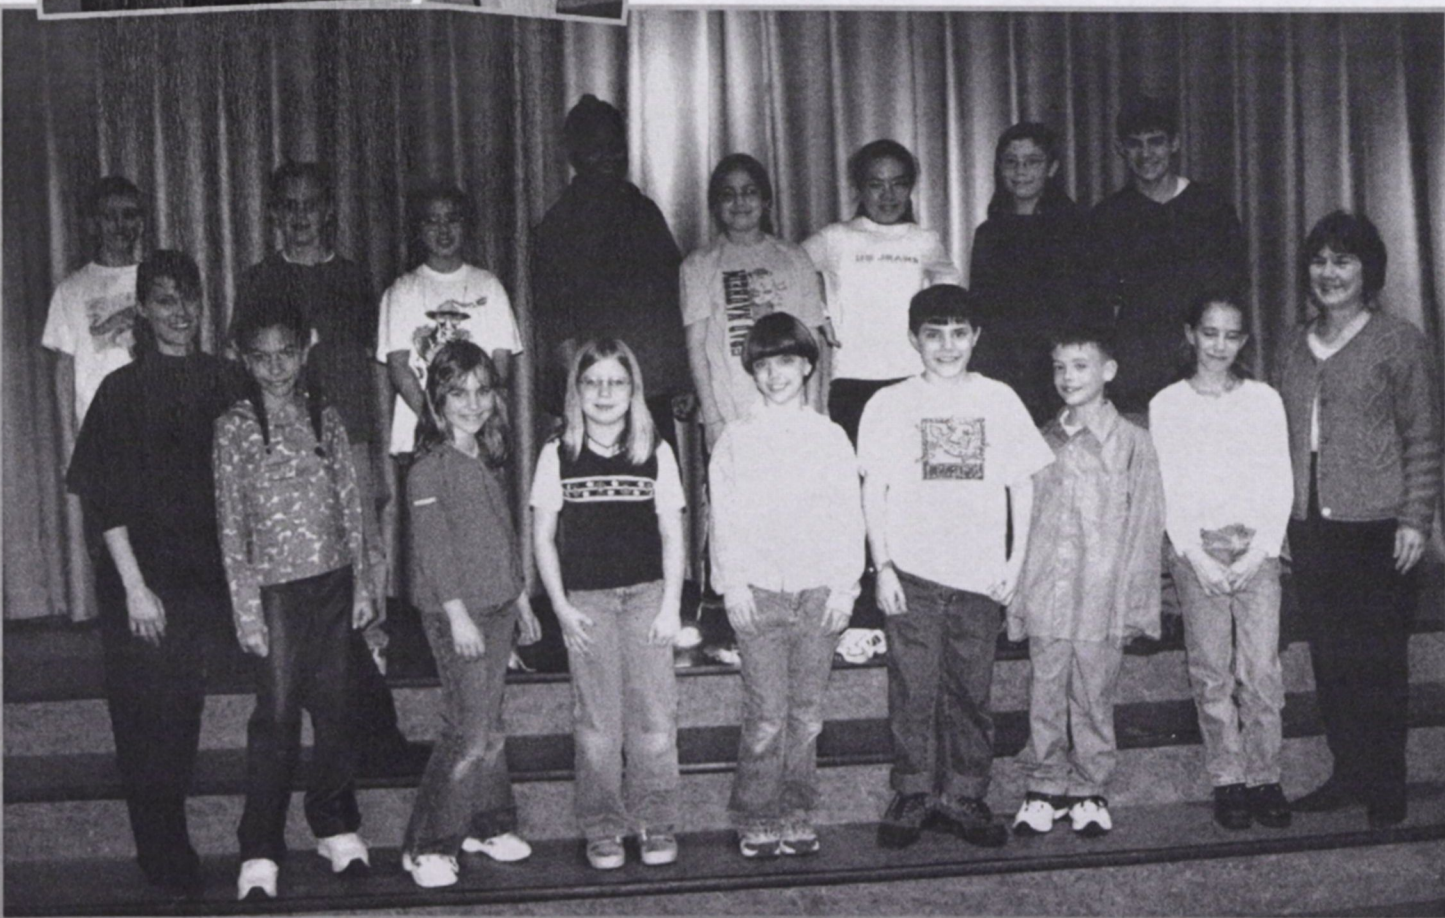

Hip Hip Hooray for Dr. Seuss Day!

Did you see Thing 1 and Thing 2 in the library? Well if you did, you must have been here on Seuss Day. Seuss Day was on Friday March 2, 2001. We had fun with the high school students and parents who came to help us. They read to us and also did activities with us. Some of the exciting activities were creating your own Dr. Seuss character, making a footprint, and cooking green eggs and ham. Students also got to hear a lot of Dr. Seuss stories such as Did I Ever Tell You How Lucky You Are?, Hooray for Diffendorfer Day, and The Foot Book. We had a super day with everyone. Thank you to the volunteers for a terrific time!

by Cristina Chicko

YEE-HAW FOR THE COUNTRY- WESTERN DANCE TROUPE

Howdy Partner! Are you ready to hear about the Country Western Dance Troupe, 'cause that's what I'm hear to tell ya' about. Mrs. Tomasino and Ms. Partin have been working with these little "cub"boys and "cub"girls to learn three different dances for the country-western show on May 17. The dances are called, the Electric Slide, Boot Scootin' Boogy, and Cotton-Eyed Joe. These dances have a lot of action in them and the kids are doing their best to memorize them make the dances as creative as possible. And if I am not mistaken, they have been doing great.

By: Derrick Tillman

STAGE STARS

Is it your dream to become a star? If your answer is yes, then you might want to know

about the Bad Nauheim ES Drama Club. The Drama Club started on October 12, 2000. Mrs. Partin, the third grade teacher, started it and she was the director. She said that the most interesting part of directing the actors in the Drama Club was making the stories come alive on the stage. She wanted to direct because she loves working with children and she loves theater. The plays the Drama Club performed were "The Crystal Heart" and "Savitri".

By Andrew Cooke

KICKIN' KUK SOOL WON

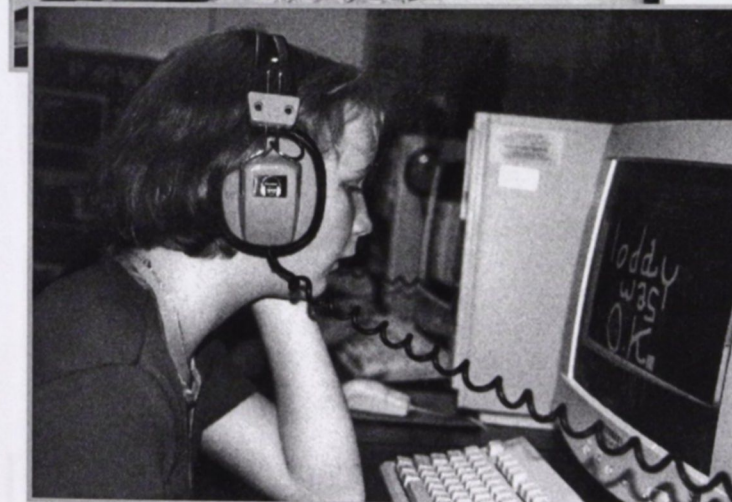

Hiyaaaaaa! Mrs. Tomasino teaches the kids a Korean Self Defense Activity called Kuk Sool Won. The students who take Kuk Sool Won learn to punch, kick, block and more. But mostly they learn Etiquette, Self Control, and Discipline. When Mrs. Tomasino sees these three things in a student, they advance to a higher rank, like in any other Martial Art club. Thank you Mrs. Tomasino!

By: John Willis - Morris

Wonderful Computer Club

The computer club has had a fun year this year. Computer Club lasted from October until January. Ms. Hoffman thought that the most interesting part of the session was the neat pictures the kids would make on Kid Pix. She also enjoyed seeing new cool Internet sites. Kids should get free time on the Internet, shouldn't they? Yes they should, that was the most fun part. Brianna said, "Computer Club was super fun. "Internet surfing was the coolest," said Amanda. Andrew said, "I love the computers most, because without them we couldn't even have the club." Ms. Hoffman said, "I really enjoy sharing technology experiences with the kids."

By: Star Scott

Spectacular Science Seekers

Have you heard about the super science club? Well, if you haven't, read on! Ms. Hoffmann is the terrific teacher for the Science Seekers. The kids in this club have a wonderful time with her. Ms. Hoffmann is very nice to the kids. When they go to the club they learn a lot. They learn by doing experiments and using the scientific method. This year they performed experiments about color separation, air quality, air pressure, density of liquids, and much more! The best thing about the Science Seekers is that the kids learn extraordinary things.

By Cristina Chicko

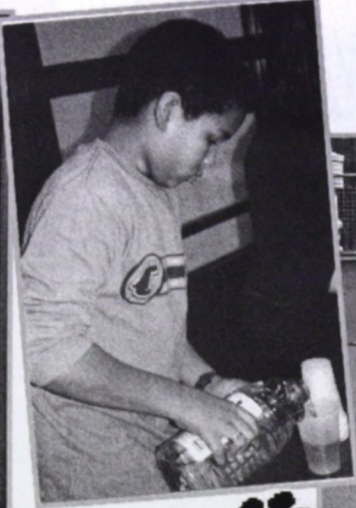

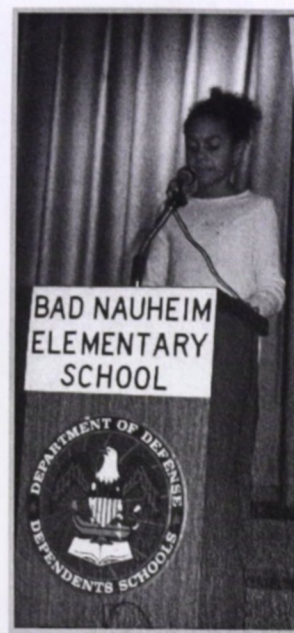

ENTERTAINING CELEBRATIONS

We've had some fun celebrations this year. Our first celebration was Halloween. For Halloween the Kindergarteners dressed up as story book characters and paraded all over the school. The second celebration was Thanksgiving. For Thanksgiving, the fourth grade held a Thanksgiving feast and invited all the special teachers to it. The third celebration was Christmas. For Christmas we had a nice program with songs that were sung by every grade in the school. The fourth celebration was Valentine's Day. The Student Council threw two Valentine's parties, one in the cafeteria and the other in the multi-purpose room. And last but not least, we celebrated African-American History Month. For this celebration stories, songs, and poems were performed by all the students of our school.

By Andrew Cooke

SUPER LIONS!

Class Representatives

The Officers with Ms. Holland

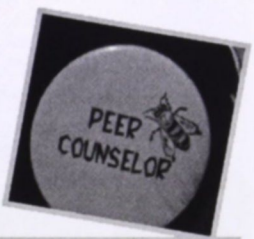

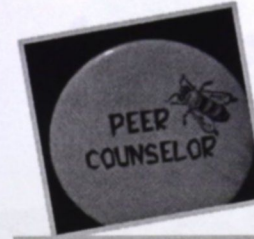

This year our Student Council has worked really hard to support our school. The Student Council is a group of students representing the ideas of the student body. Second through Sixth grade each has two representatives and there are four officers. The responsibility of each member is to be a spokesperson for their class, plan activities, and promote a positive school environment. Ms. Holland is the sponsor of the Student Council. She likes working with the students and helping them be representatives of their classmates. She believes that our students have the potential to become leaders in their school and community. Some activities that Student Council planned this year were Christmas and Valentine's Day parties, door decorating contests, snowman contest, spirit week, and a talent show. If you want to show leadership, Student Council is the right place for you next year!

By Curtis James

Bad Nauheim's Problem Solvers

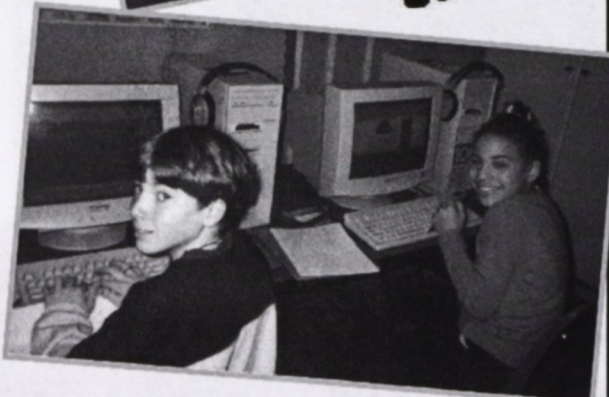

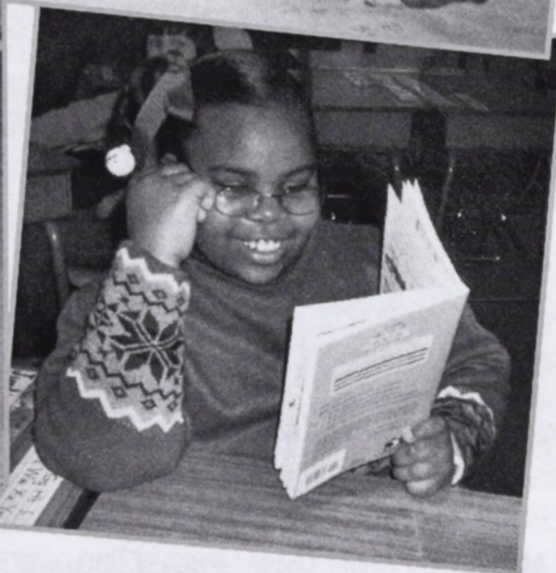

Have you ever wondered why Peer Counseling is so important to our school? Well, you are about to find out! Peer Counseling has been going on for 7 years, and the sponser is Mr. Faddies. Peer Counseling is very good for the older kids because it teaches them to solve problems. It is also good for the younger kids because they know they can count on the Peer Counselors to help them. When Peer Counselors solve a problem they feel really great because they have done something awesome. Peer Counselors have to follow rules of problem solving. For example, they have to be fair, be willing to help everyone, and not give up. This is a good experience for kids because when they grow up they might become police officers or other jobs where they have to cooperate with other people. They will right away know how to solve any problems! So, if you want to be a Peer Counselor next year, give it a shot because Peer Counseling will help you throughout your life!

By: Amanda Davidson

Yearnin' for Some Learnin'

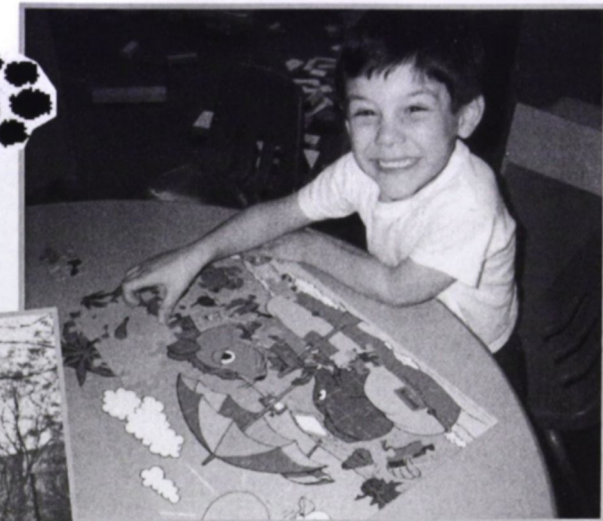

I'm sure everyone at some point thinks to themselves, "Why do I have to work?" Well, the answer is: You need an education. Every day except Saturday and Sunday we have to go to Bad Nauheim Elementary School and work from 8 a.m. to 2:30 p.m. so we can get an education. Some kids say that the most interesting things to learn in school are math, art, computers, and science. Some kids say that the most fun part is learning. Some also say that the most important thing is homework! Amazing! So remember: Halfhearted efforts will only get you halfway to success. If it really matters, devote yourself completely.

By Brian Cooke

PLAYING WITH LIONS

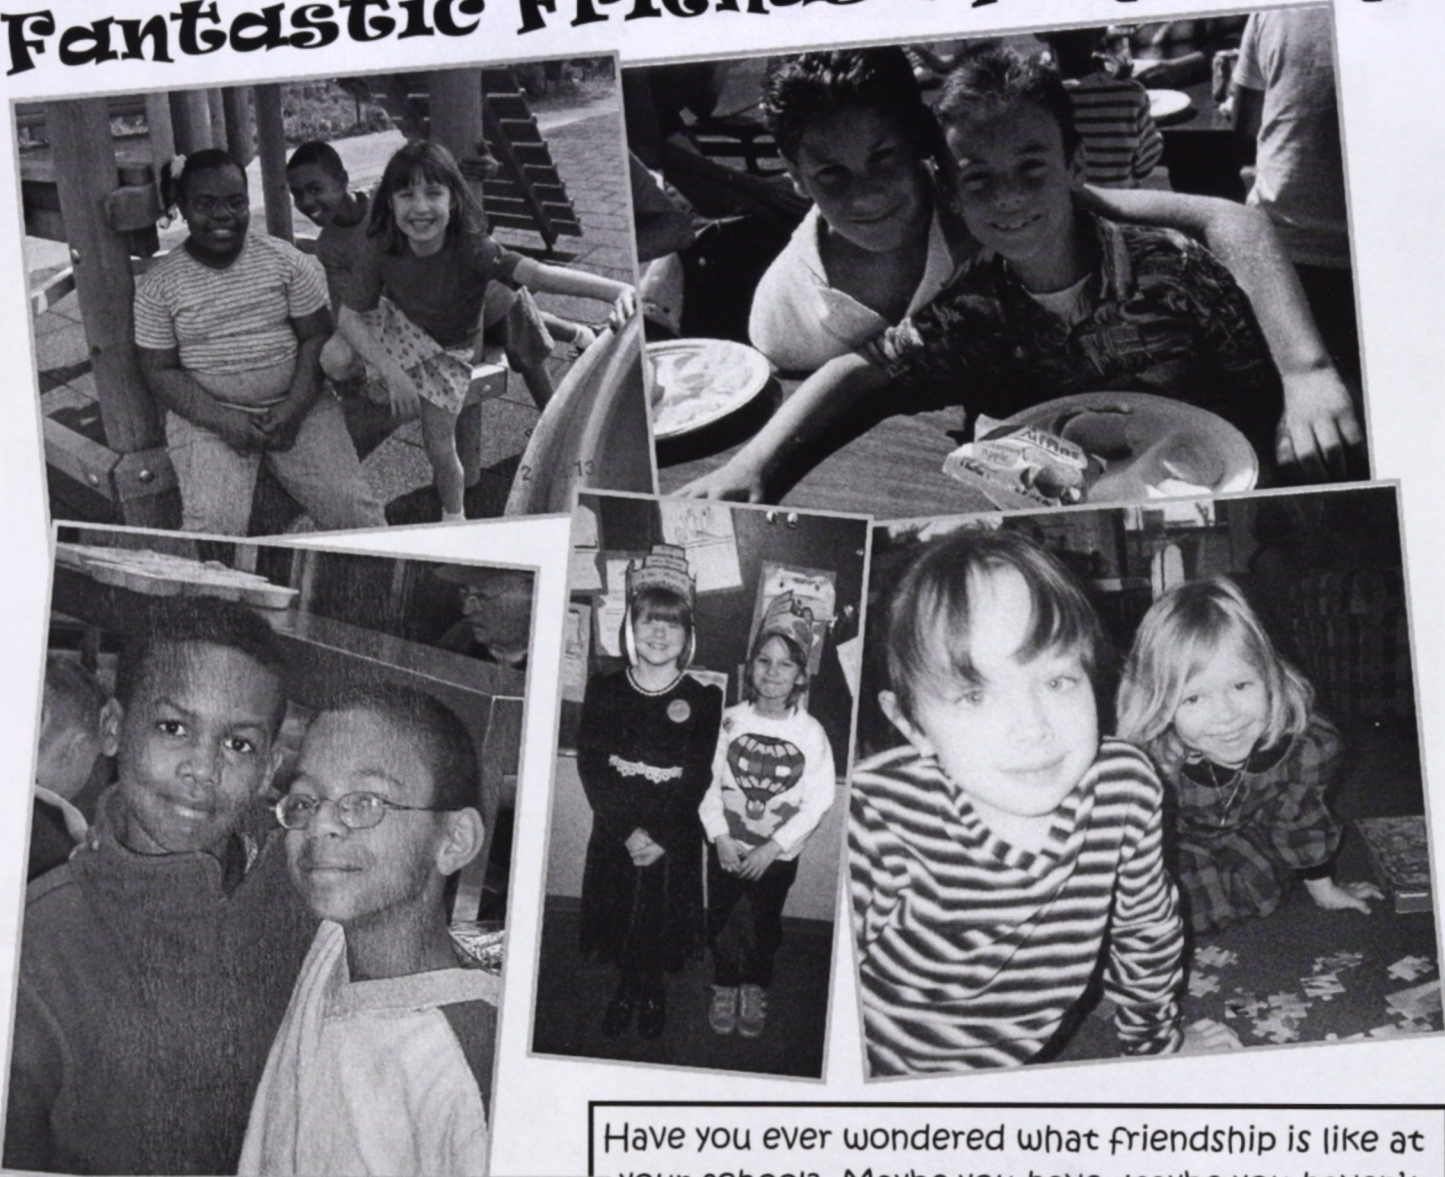

At some time of the day each one of our lions, no matter how big or small, Kindergarten through sixth grade, us lions get to . . . PLAY! Kickball, soccer, basketball, tag, jump rope, or just plain playing. These lions are always ready for fun!

By Ryan Walker

Fantastic Friendship

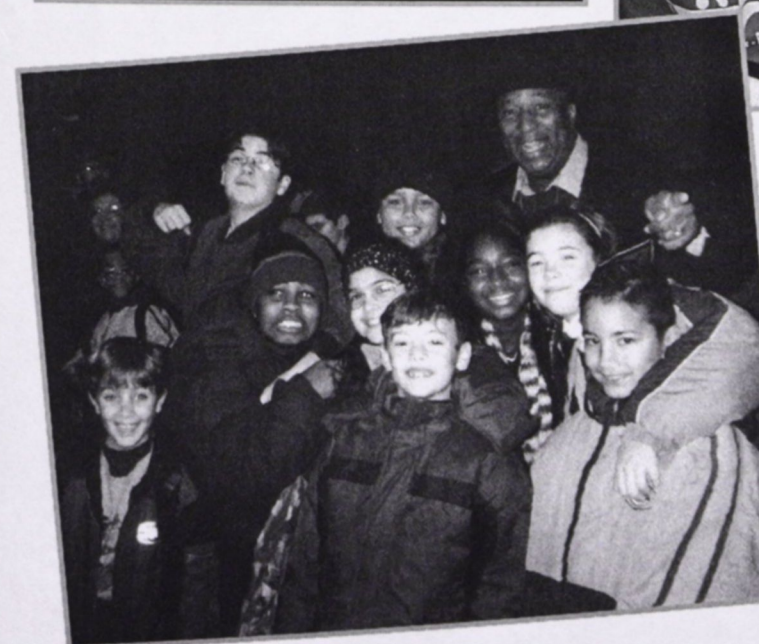

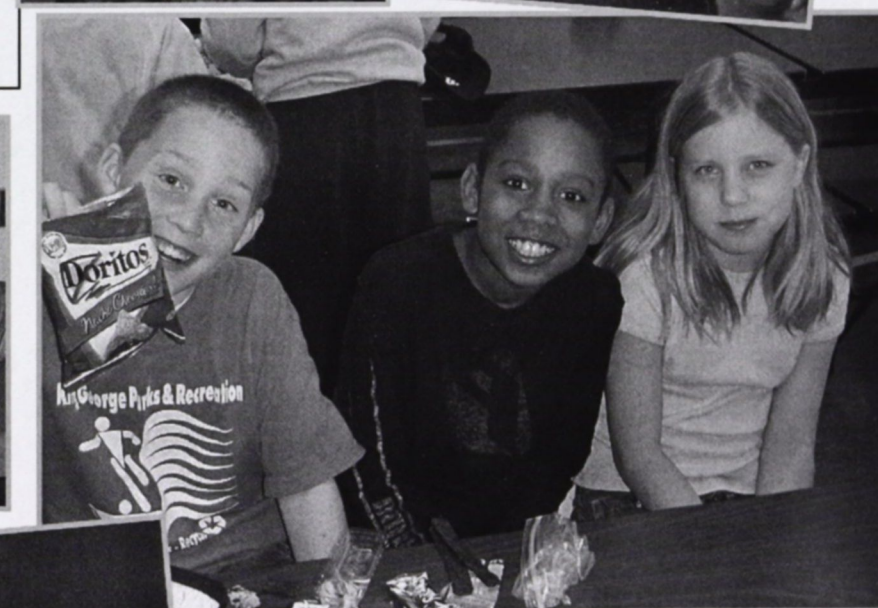

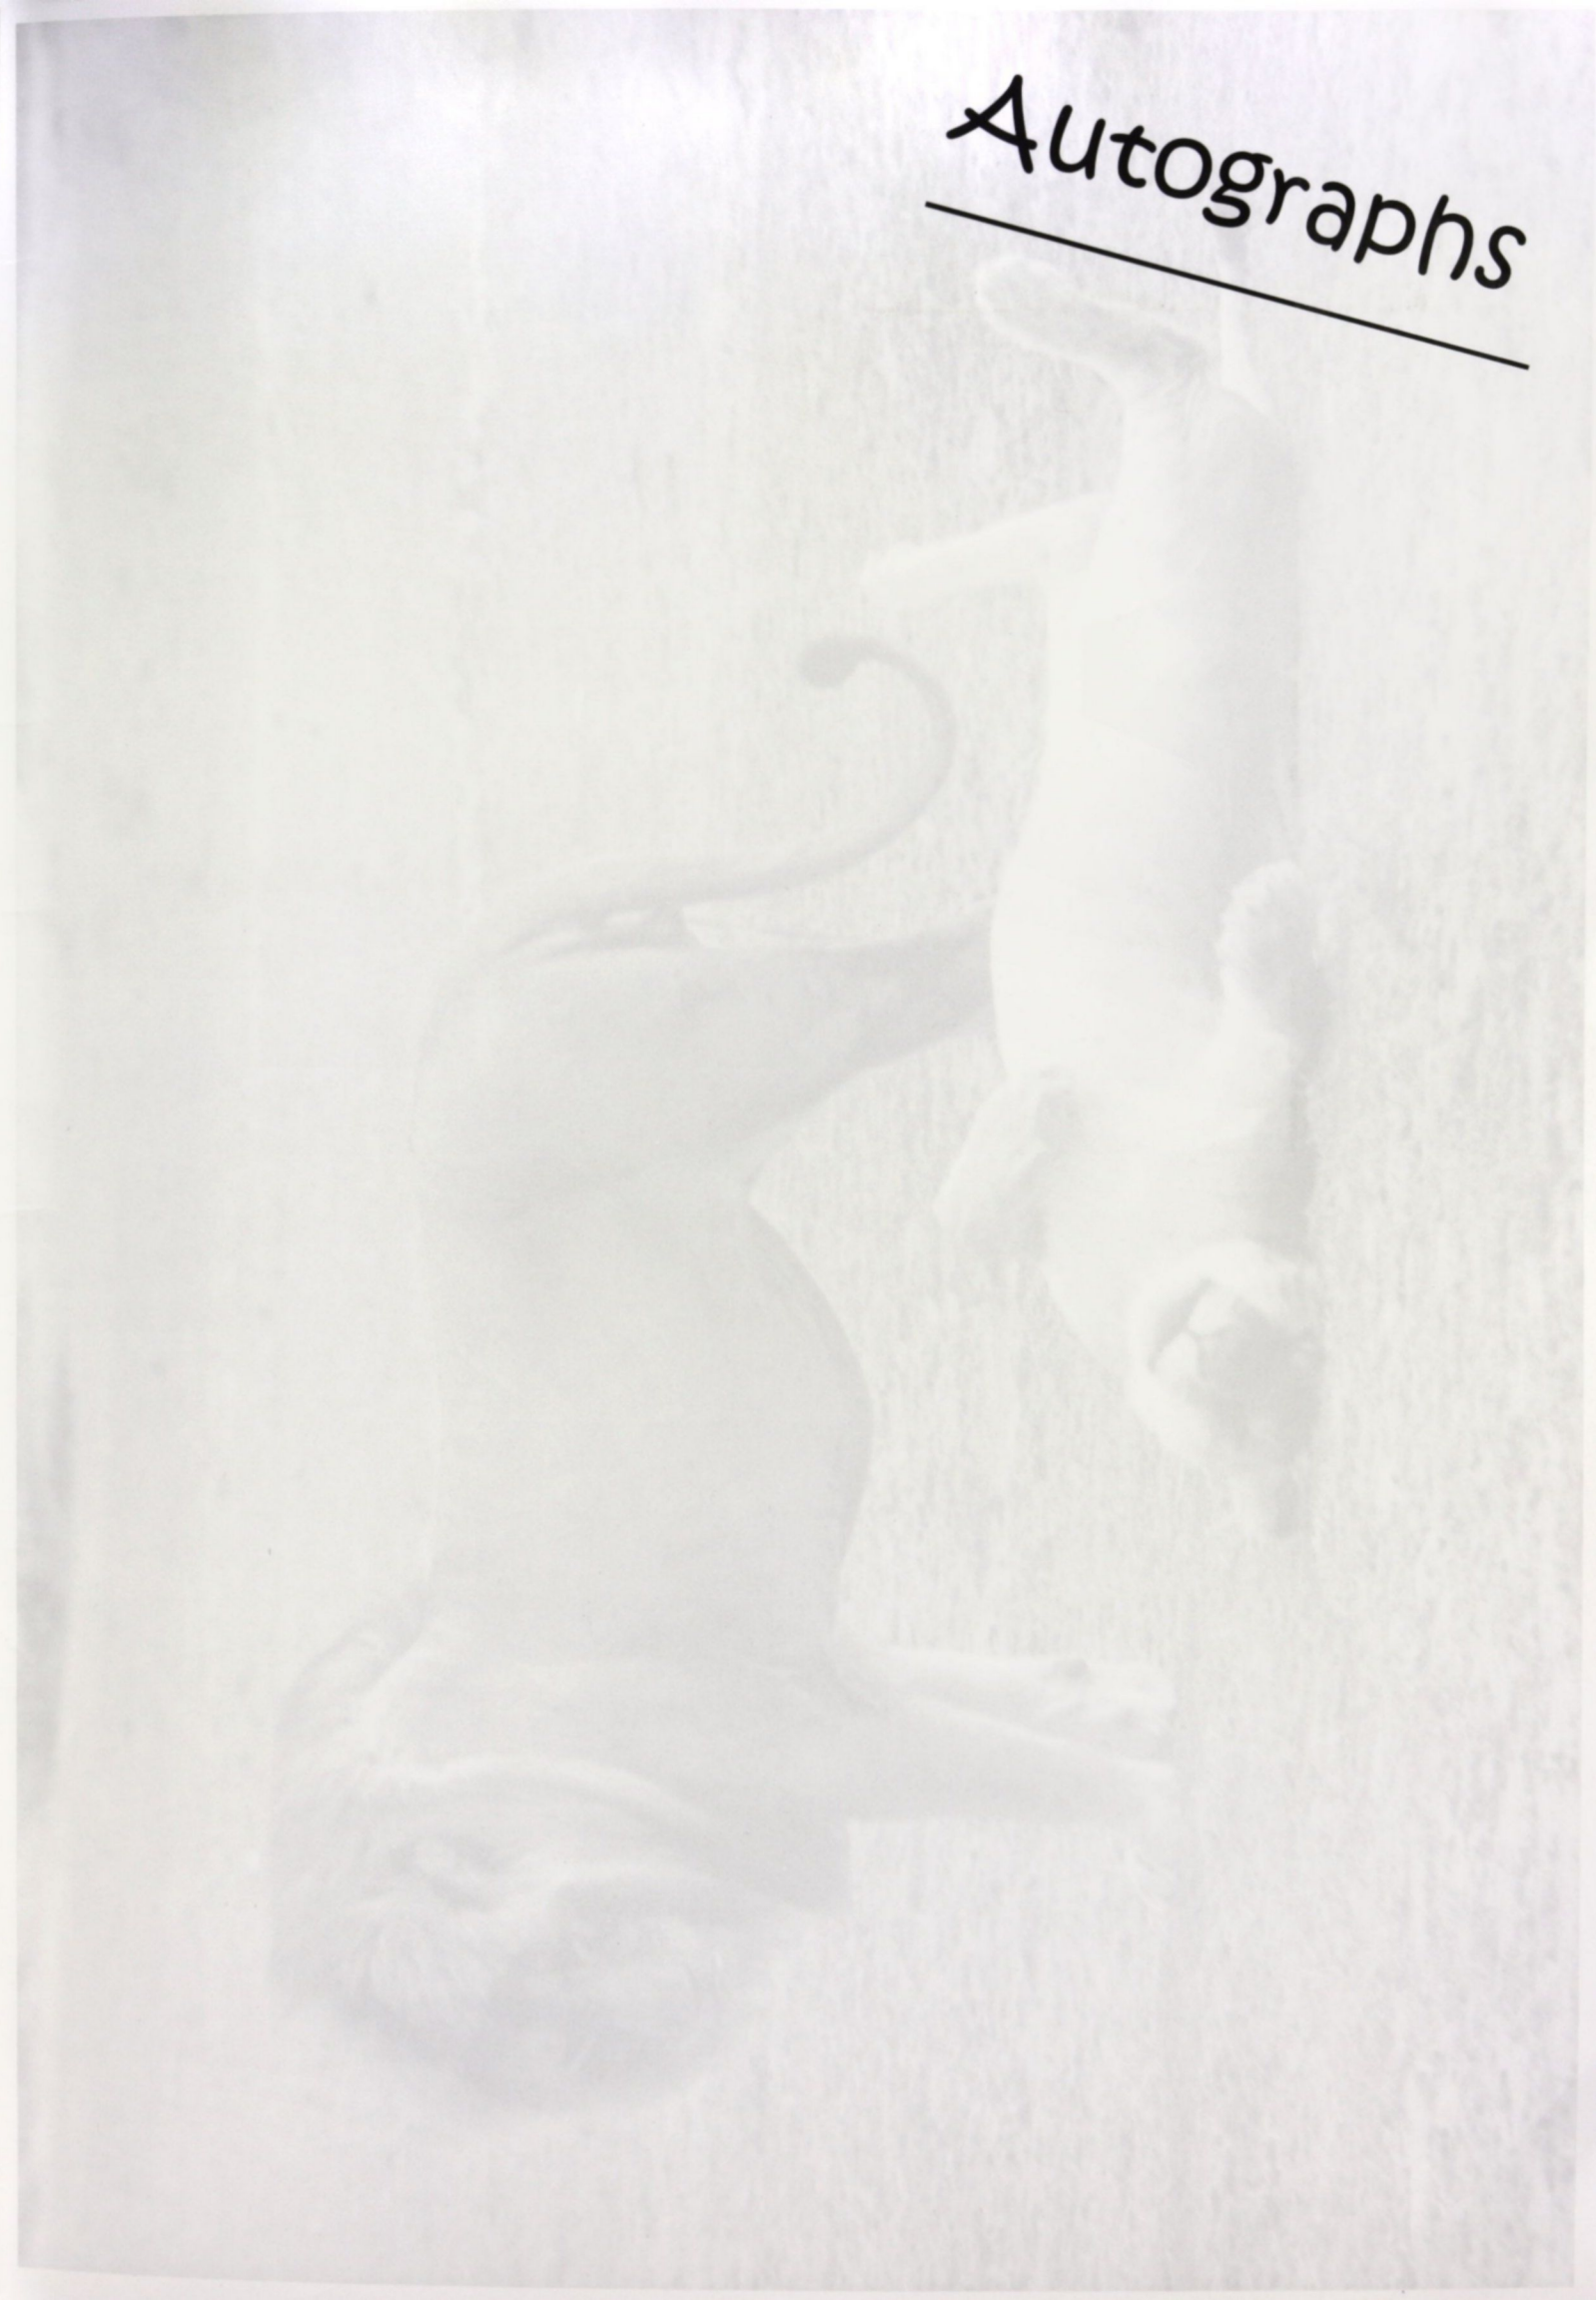

Have you ever wondered what friendship is like at your school? Maybe you have, maybe you haven't, but in case you have here is what it is like at your local education center, Bad Nauheim Elementary. Cristina Chicko said that in her classroom there are a lot of friends. Christina Kaczmarek says that Ms. Hohe's class is really friendly. John Ross says that he likes to play sports with his friends. Some other things kids like to do with their friends are play video games, do homework together, talk on the phone, draw together, watch movies, and make each other laugh by telling jokes and having fun. It is a privilege to have the amount of friendship that we do at our school, because without it, we wouldn't have the School Spirit to keep us as smart, kind and polite as we are. I think many of you would agree.

By: Derrick Tillman

... More
Fantastic
Friends!

Auf Wiedersehen!
Good-Bye!
See you next year!

Made by kids, for kids!

This yearbook was made for you with love by the Bad Nauheim Elementary School Yearbook Staff: Derrick Tillman (Assistant Editor), John Willis-Morris, Brian Cooke, Brianna Vaughn, Chelsea Michelson, Star Scott, Ryan Walker, Curtis James, Andrew Cooke, Cristina Chicko, Alina Beck, Amanda Davidson, Christina Kaczmarek, and Ms. Hobler (Editor).

Thank you to all the student photographers, Kindergarten through sixth grade, who took beautiful pictures throughout the year. Thank you also to the many parents and staff members who contributed photographs, assistance, ideas, and support to the production of this yearbook.
