Foreword

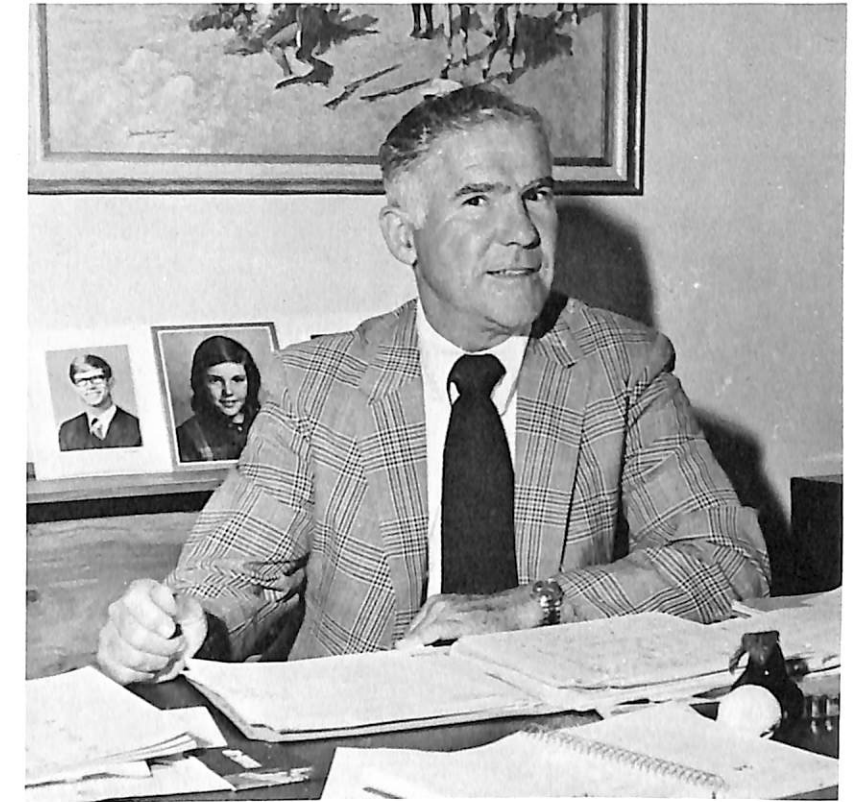

Thoughts - thoughts are an important aspect of life. They help us to see different views of things. They enable us to understand others and, above all, to know ourselves. This is a book presented to make you think . . . with it you should hopefully have thoughts of the past, of the present, and of the future to come.

GRADUATING CLASS OF 1974

LAST WILL AND TESTAMENT

We the graduating class of 1974, leave

To the Junior Class

The ability to make as much money as we did,
you'll need it, good luck.

To the Sophomore Class

The ability to wish they were seniors
two years longer.

To the Freshman Class

The power to change that which they feel must
be changed and the wisdom to know when to
leave well enough alone.

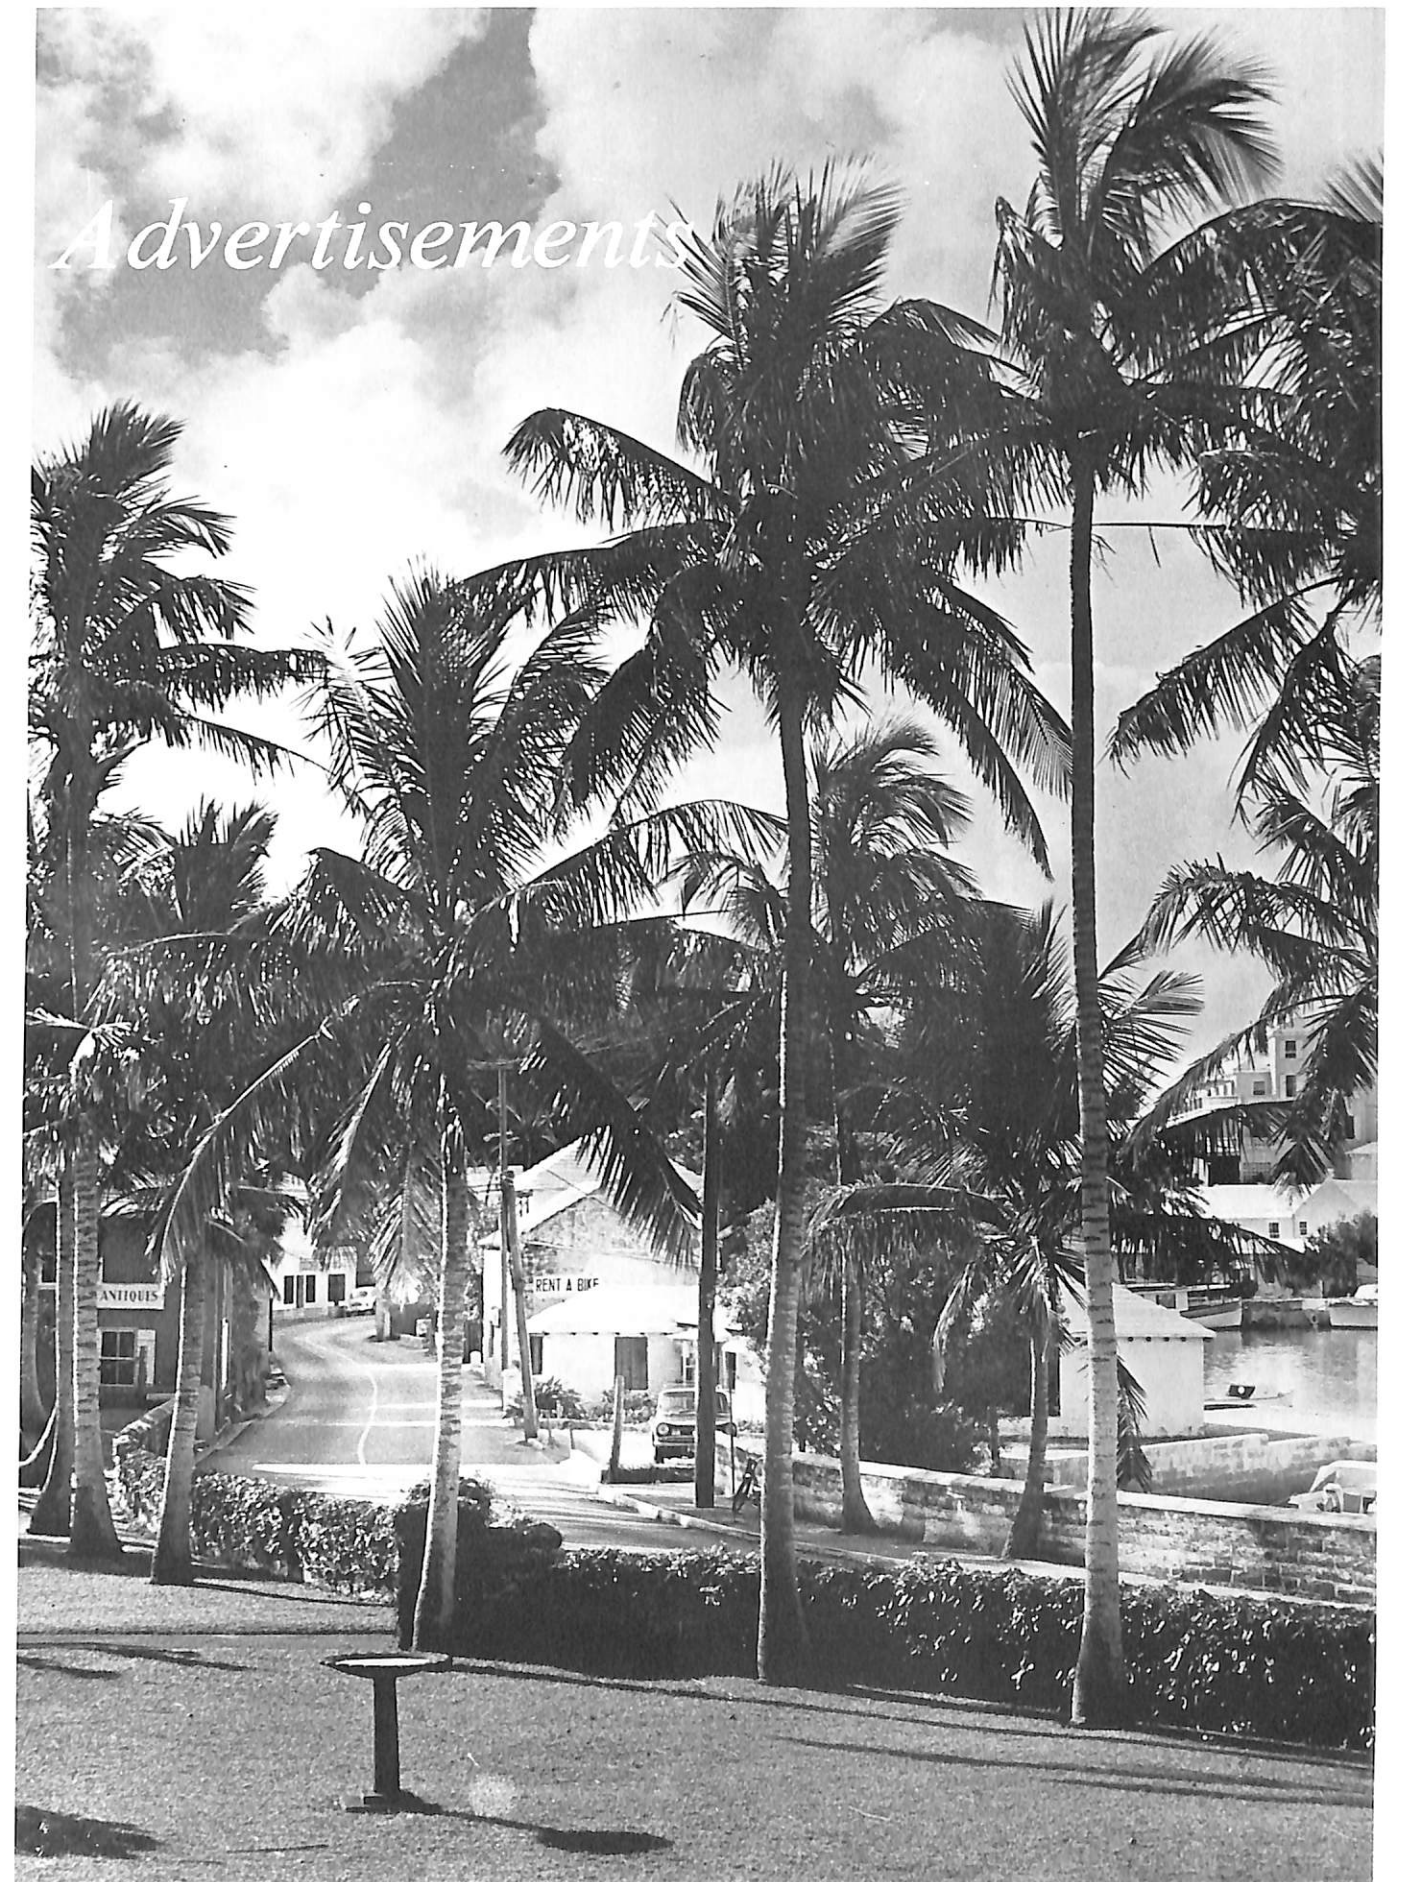

To the Eighth Grade

The realization that four years must pass
before they will be in our places.

To the Seventh Grade, we leave

The realization that time really does fly.

When you're buying a watch for somebody young, buying too cheaply can be a false economy. Tissot build a whole range of watches which can stand up to whatever a boy or tom-boy can hand out to them. Especially waterproof, especially rugged, but not especially expensive.

With one thing in common; the quality built into them, the quality that is the reason why more Swiss buy Tissot than any other make of watch.
