Principal's Message

Students,

As my first year as Principal draws to a close, I continue to have a strong sense that I am living my dream! It is a privilege to serve the wonderful students, families, teachers and staff here at Delalio Elementary School. I clearly have so much to be thankful for! I would like to take the opportunity to offer a few reflections. What really matters? That's a big question and the answers we give can change as we grow, have new experiences, and our perception of life changes.

I guess as a person with a great deal of responsibility for our school, one would expect that the importance of getting good grades or scoring well on Terra Nova Tests would be the dominant theme of my yearbook comment. However.....life, experiences, and personal beliefs have shaped my perspective and made me ever more aware that in the grand scheme of things test scores and good grades are not what matters the most. Of course I would hope that each of you develop your talents, abilities and be the very best you can be in your academic endeavors. Without a doubt I want each student to excel academically.

Our emphasis at Delalio has always been to develop in each of you the necessary skills that you will need for a sound educational foundation. This foundation will not only serve you well in your pursuit for higher education, if that is your goal, but will be of advantage to you in your social and business endeavors. Each of your teachers has had much to offer you. They have contributed and influenced your intellectual, social and emotional growth. You have the necessary tools to get the job done. We clearly have so much to celebrate in this area at Delalio Elementary School. But, it seems to me that it is really important that we keep perspective and remember the things that really make life worthwhile.

So, what would I wish for our families, students, and especially the 5th graders that will be moving on to middle school next year? Two things stand out to me. First, be committed to doing what's right NOT because it is convenient or popular; do it because it is the right and honest thing to do. Be a person of character and unwavering integrity! Next, love your family and those around you, and love yourself enough to become the wonderful person you were created to be. In my opinion, these are two areas where compromise should not exist. If you can be "successful" in these two areas the rest will follow!

I am certain our world is in good hands as you grow and become the leaders this world desperately needs; intelligent, caring, people of strong character! I wish all of you the very best in the days ahead!
