Kindergarteners like "show and tell time" and "story time." They also like getting "smiley faces" and doing good work. Two of their favorite activities are learning to read, and cutting and pasting things. They also enjoy going to the library for stories, books, and movies. Most really like helping their teachers, especially by being "line leaders." Holiday parties are extra special fun-filled times for the kindergarteners. Many little students like "everything about kindergarten!"

In second grade we get to do a lot of things. Some of the things that we like the best are reading and math. We like going to music, P.E. and other special classes. We like going on field trips, especially with our German teacher and we like recess after lunch and quiet time for listening to stories.

Third grade is fun, because we learn about our bodies in science, and we learn multiplication in math. The third grade teachers are nice and so is the German teacher. Music and P.E. are fun, and so is playing with friends at recess. Working on the computer is nice, too. Having parties for special holidays are a good part of third grade. All of these things make the third grade a lot of fun.

JOURNALISM CLUB

The fifth grade Journalism Club began in October. It was the idea of Mrs. Smith, the Publications Advisor. The Club meets weekly and works on the yearbook, our newspaper, "The 5th Edition", or the SAC newsletter. We practice writing, editing, joke telling and other things that make the Club a funfilled learning experience. To the left is a photo of Mrs. Smith and Mrs. Schmitt who work with us. Below are photos of some of the Club members doing layouts for both the newspaper and the yearbook, and others having fun at a reception that we held for a guest speaker from the "Stars & Stripes."
