## NEW - Solving your problems with astigmatism

Quite some people have an astigmatism, which makes it impossible to see as well with contact lenses as with glasses. Now most of these problems can be solved by using a new kind of soft contact lens invented by CIBA Vision and called CIBA TORIC. These lenses are also disposable and cost DM 257.90 tax free for 1/2 years supply.

#### NEW – Choose your moment – Change your color

Wesley Jessen, the world leader in color contact lenses presents FRESH LOOK, the first disposable contact lens range in colors. Four stunning lenses in blue, green, hazel or violet will transform your eye color. Anyone can wear fresh look even if they do not require sight correction. Fresh look gives you the freedom to change the color of your eyes – again and again. You can use your existing contact lens prescription; the cost for one pair of lenses is only DM 60 tax free.

We hope you take advantage of these special offers and look forward to your visit, please phone for an appointment
