ODE TO DMS

She holds our memories and remembers our names
A silent witness to our learning, growing, and games

Welcoming back students both the old and the new
Through all the seasons, she remains steady and true

As we prepare for summer to relax and to roam,
We say goodbye to DMS, our school, our family,

Our HOME.....

We're trying to work here!!!

To the window..... To the wall....

A large collage of numerous small photographs showing students in various school settings. The photos include individual portraits, group shots of students in classrooms, students working on projects, and students outdoors. The collage is arranged in a grid-like fashion with some photos overlapping others. The students are shown in various activities, such as sitting at desks, standing in groups, and working on projects. The background of the collage is a solid dark color.
