Visit us on the Internet at: www.beutel.de

BEUTEL
Augenoptik

Directions from Heidelberg or Frankfurt take Autobahn 5; exit Pfungstadt / Darmstadt - Eberstadt; turn left at the first traffic light; turn right at the next light; follow street to end; then turn left; drive 10 meters and turn right. Beutel is the 3rd building on the left. Park in customer lot behind the house.

To the 05-06 Tigers:
Thanks to each and every one of you for a great year. Best wishes to you wherever your future takes you!
Special note to our 8th graders: Take your Tiger Pride and desire for excellence with you to your high school and college, and do your best!

Your principal,
Dr. Liz Dunham

Hurricanes Wreak Havoc on Southern States

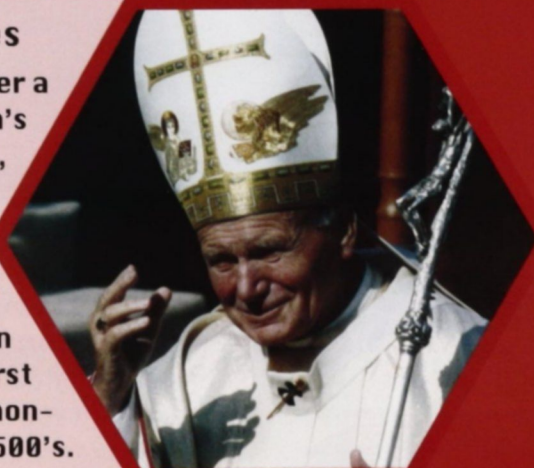

On August 29, 2005, Hurricane Katrina, a category 4 storm pounded the Gulf Coast. Parts of Mississippi were hit particularly hard. The following day New Orleans, which had been spared the full force of the storm, suffered calamitous damage as levees holding back flood waters broke submerging around 80% of the city.

A mere month later, on September 23, a category 3 storm (Rita) causes waves to flood parts of New Orleans and breach yet another levee. Total damage done to New Orleans is estimated at over \$7 million.

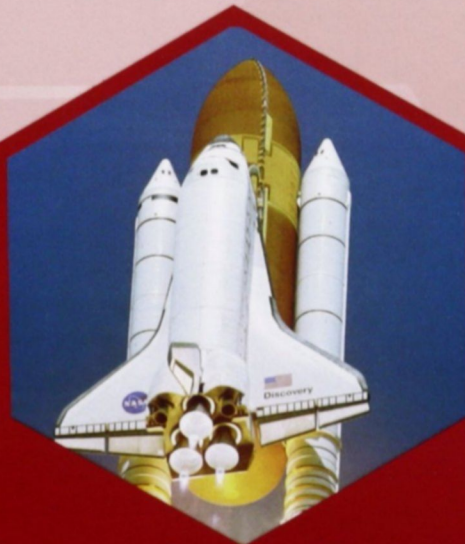

Pope John Paul II Dies

Pope John Paul, 84, died after a long struggle with Parkinson's disease on April 2, 2005. On April 8, he was laid to rest in St. Peter's Basilica after 26 years of leading the world's Catholics. Leaders from more than 70 nations gathered for the largest funeral for a Pope in history. John Paul II was the first Polish Pope and the first non-Italian Pope since the 1500's.

Space Shuttle Discovery

On July 26, 2005, Space Shuttle Discovery lifted off. The mission of the shuttle was to deliver supplies and test new safety procedures at the International Space Station. Despite difficulties at take off, and two missed passes at a landing, the Discovery and its crew landed safely on August 9, 2005.

Happy Birthday!

On July 17, thousands of Disney fans came together to celebrate Disneyland's 50th birthday in Anaheim, California. Since the 1955 opening of Disneyland in California, ten other Disney parks have opened worldwide, one of the most popular being Disneyworld (FL) in 1971.

2005 Was A Long Year...

Actually, slightly longer than usual. An extra second was added to the end of 2005 to make up for the slowing down of the Earth's rotation. "Leap seconds" used to be very common. This is the first in seven years and shows the unpredictable nature of the planet's behavior. The International Earth Rotation & Reference Systems Service keeps track of time by measuring the Earth's rotation, which varies, along with an atomic clock, which is unwavering. When a difference between the two appears, IERS adds or subtracts a second to keep the two timing systems in sync.

Around The World...

Steve Fossett completed a 23,000 mile flight on March 3, 2005. He's the first person to make the solo non-stop journey around the world.

Doin' Time

Domestic diva, Martha Stewart, was released from a women's prison facility in Alderson, West Virginia after a 5 month stay. Stewart was convicted on four counts of obstructing justice and lying to investigators about a well-timed stock sale.

Bombs Explode In London

Four coordinated terrorist attacks on London's subway transit system during rush hour kill over 50 people including the attackers, and wound more than 700. The attack coincided with a summit meeting of some of the world's most powerful nations. British Muslims were said to have been responsible.

Largest Passenger Plane Launched

A prototype of the Airbus A380 had what was considered a very successful test flight in Toulouse, France in January, 2005. The plane is a whopping seven stories high and can seat 555 passengers.

The third installment to George Lucas's prequel trilogy made its big screen debut in 2005. Star Wars Episode III: Revenge of the Sith is one of the top ten highest grossing films of all time along with Star Wars Episode I: The Phantom Menace.

A Melty Mess

An attempt to set a world record for 'largest popsicle' ends in a sticky mess in June of 2005. Snapple beverage company's attempt at the record was squashed by a warm June afternoon, leaving local fire fighters to clean up the fruity mess.

BIG HITS ON THE BIG SCREEN

- Harry Potter And The Goblet of Fire
- The Chronicles of Narnia - The Lion, The Witch, and The Wardrobe
- Madagascar
- March of the Penguins
- King Kong
- Charlie & The Chocolate Factory

FUN MOVIE FACTOID:

Did you know that Deep Roy, the face of the new Oompa Loompa, actually played every single Oompa in the movie? He was digitally replicated to make it seem like there were dozens of the pint sized, cocoa bean loving workers running the factory.

Golden Boy (& Girl)

Reese Witherspoon and Joaquin Phoenix hold their Golden Globes for best actor and best actress for their work in the movie "Walk the Line", the story of country singers Johnny Cash and June Carter Cash.

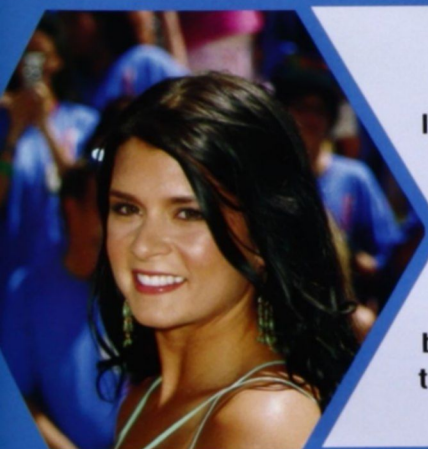

THE WORLD OF SPORTS

- The Chicago White Sox swept the Houston Astros claiming the World Series Championship in game four.
- The San Antonio Spurs beat the Detroit Pistons in game 7 of the NBA championship with a final score of 81-74.
- The Sacramento Monarchs defeated the Connecticut Sun in the WNBA Championship. The final score of game 4 was 62-59.
- Superbowl XL was taken by the Pittsburgh Steelers in a 21-10 victory over the Seattle Seahawks. The Steelers now share the title of "Most Superbowl Wins" with the San Francisco 49ers and the Dallas Cowboys with 5 wins each.

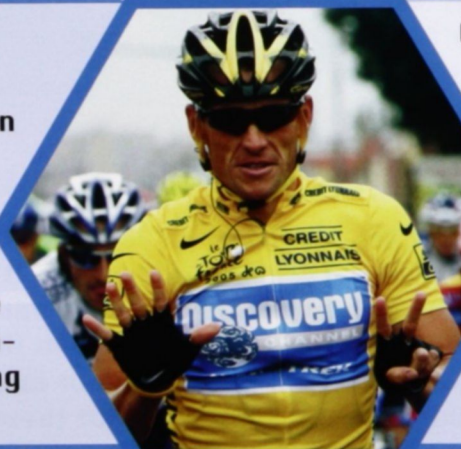

DID YOU KNOW?

In 2005, Americans spent \$23.84 billion dollars in the home video industry? \$342 million of that was just on the rental and purchase of the Disney/Pixar production, The Incredibles, released in 2004.

Her Rookie Year

Danica Patrick took the IndyCar Series by storm in 2005. The 23 year old isn't the first woman driver in the series, but she has quickly proven herself to be the best so far in terms of on-track performances during her first year.

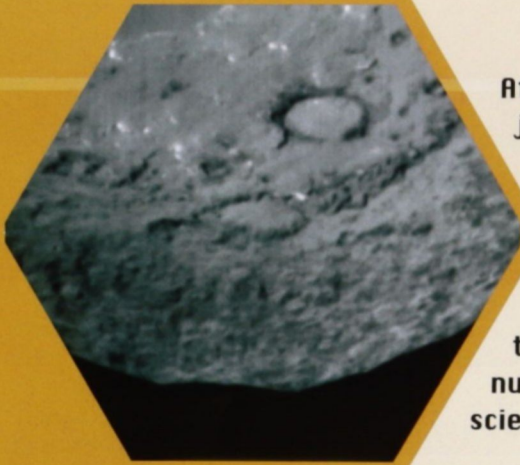

One More Time

Lance Armstrong wins his seventh Tour de France on July 25, 2005. Earlier in the year, he had announced his retirement from the sport when he completed this year's race.

A Discovery Down Under

Researchers recently found a new dolphin species along the coast of Australia. The new Snubfin dolphin was given its name because of their bluntly rounded noses and a stubby dorsal fin on their backs. This is the first new dolphin species in over 30 years. Researchers were actually studying another type of endangered dolphin along the coasts of Asia and Australia when they stumbled across the new species. It's estimated that there are only around 1,000 Snubfins in the world making them susceptible to many threats.

Comet Crash

After a 6 month, 83 million mile journey, NASA's Deep Impact probe hit a comet with a brilliant flash of light. The probe was designed to provide information to scientists about the inside of the comet. Using special cameras, the probe took pictures of the nucleus and sent them back to scientists on Earth to study.

King Of The Mountain

15 years ago, Ed Viesturs, 44, set out to hike to the top of the world's highest peaks. In 2005, he finished. Viesturs, a Seattle resident, is the only American to climb to the top of the world's 14 highest mountains.

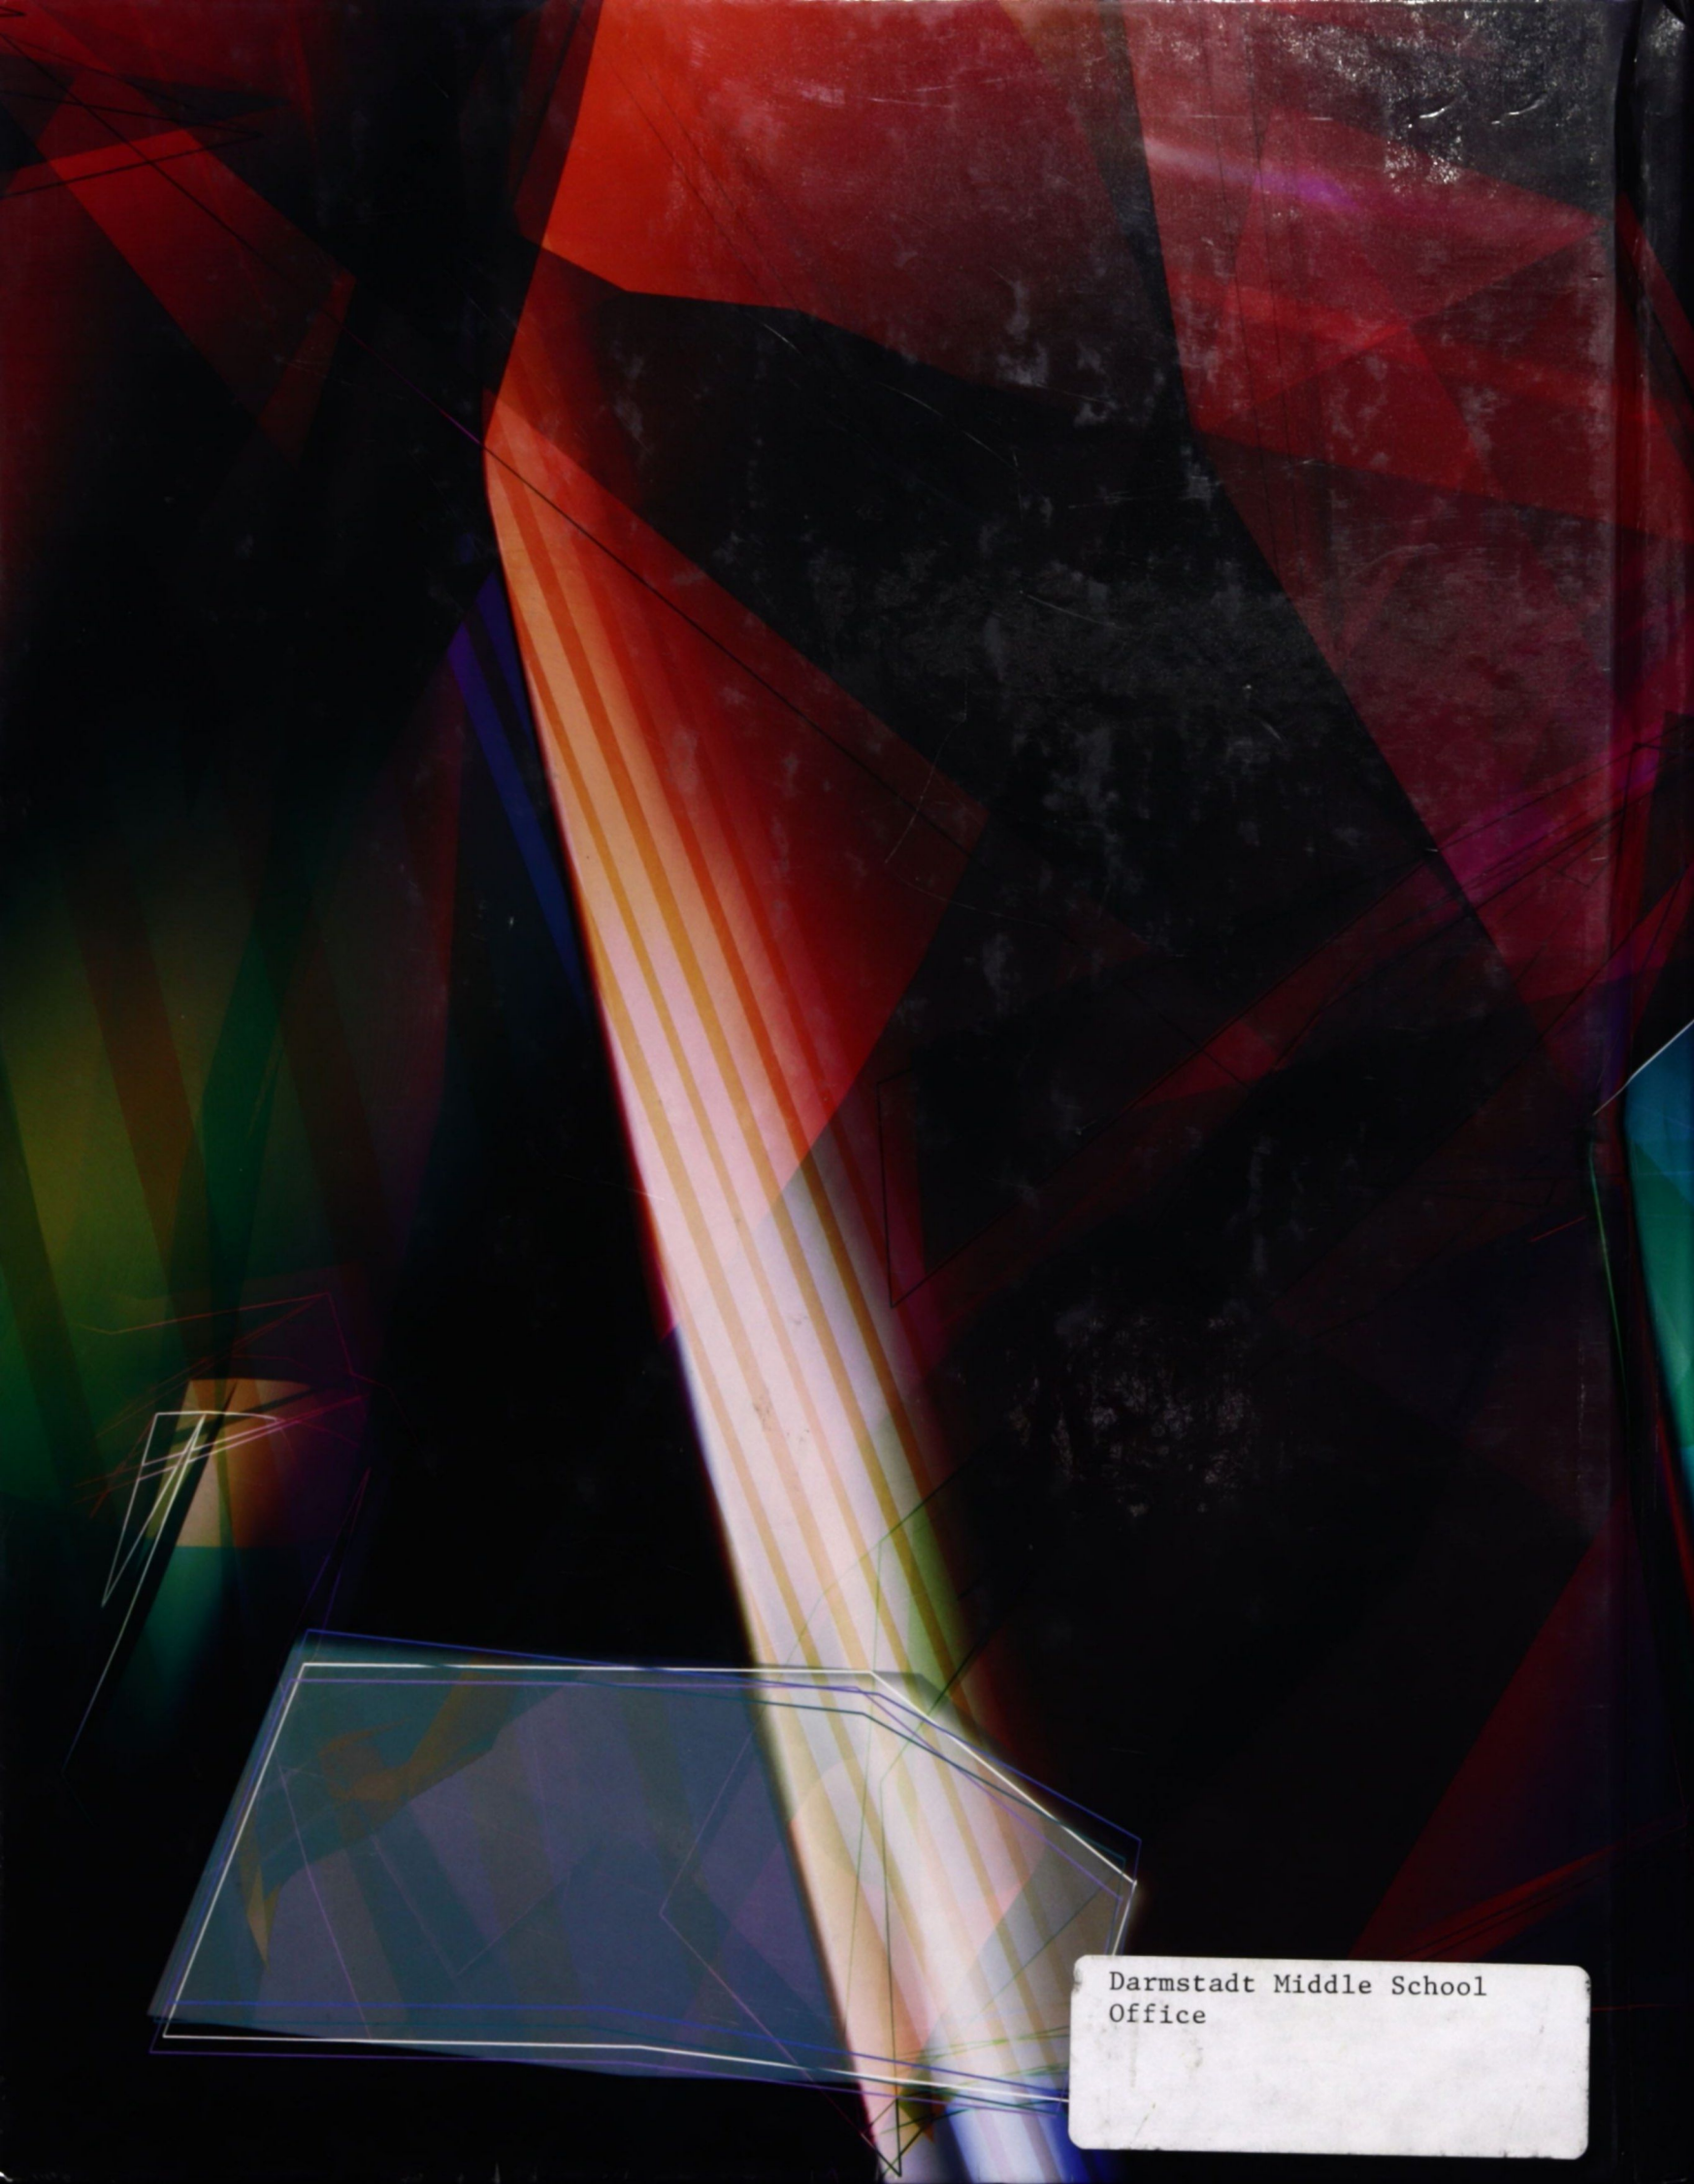

Iraqi Election

Iraqi expatriates from fourteen countries around the world were able to vote in the election for a Transitional National Assembly in January of 2005. Iraqi people proudly displayed the purple ink on their fingers as a symbol that they had cast their absentee ballot. Iraqis were able to vote if they were born in Iraq, or if their father holds residence in Iraq.

The war in Iraq continues, over two years after its start. With so much going on in our everyday lives, it's easy to forget how many of our fellow Americans have sacrificed to protect us and make a difference in the world today. Remember our troops overseas; our lives wouldn't be the same without them!
