## DEDICATION

To the young people of the world who are prevented by oppression from expressing their own ideas freely and creatively, we dedicate this record of our schools in Europe, an example of the foundation of our democratic philosophy.

*The year 1952 will present an alteration in our status in Germany. Our presence here will be as co-partners and defenders of the freedom of the West. This will involve new attitudes and a new conception of our responsibility in this country.*

*Our country continues to play a most important role in the preservation of the peace and freedom of the western world and, from all appearances, it would seem that this is going to continue to be the role of the United States for many years to come. For this reason, all of us should take advantage of every opportunity while we are here to understand the people and customs of the German people with whom we now live. Your studies in this environment, if energetically followed, can be of unusual advantage both to you personally and to the future of your country, and in intelligent application to them you can perform a service quite comparable to that of your parents.*

United States High Commissioner  
for Germany

*It is a pleasure for me to congratulate you, the members of the graduating class of 1952. I know that this is a happy occasion because it marks your successful completion of many years of hard but enjoyable work.*

*You are fortunate in that you have completed a part of your academic studies here in a foreign country. You have been able to learn the languages, the customs and the traditions of other people of the free world. Such knowledge will lead to better future international understandings. Your manners and customs have, in turn, been under the close scrutiny of the European people who live around you. As a very significant part of our mission here, you have brought to their minds that we Americans must also be understood and in the same way you have pointed out that our customs, our home life and our children are important aspects of the democratic way of life. I compliment you and thank you for your conduct, your sense of fair play and your tolerance — all things which I know have favorably impressed the Europeans and have assisted us in our important missions.*

*It has been difficult for you to iron out the problems of schooling resulting from your association with the Armed Forces. You have proved that you can adapt yourselves to new places and can find new friends regardless of geographical location. Many people express sorrow for students who have moved from one post to another. However, I feel that you are fortunate since you have learned to adjust to new conditions and make the best of the new circumstances.*

*I am proud to congratulate you upon your graduation. I hope that you will continue to profit by your experiences in Europe and I wish each of you the best the future can bring.*

# REPORT OF OPERATIONS

The Dependents School Service was formally established on May 4, 1946. Its purpose was two-fold: (1) to organize and maintain schools on both the elementary and secondary levels in military communities in Germany, and (2) to supply German educators with a model American school system in action, from which to draw inspiration for the reorganization and democratization of the German educational program.

The first headquarters unit was opened in the Elizabethan School in Frankfurt and included initially Messrs. Richard R. Meyering, George W. Orford, and Wilfred G. Clelland. Later the first Chief of the Division, Colonel James P. Murphy, and Lauren S. Buel, Imogene Talcott, Marion Hoch, Anne Smith, and Alfred W. Beerbaum were assigned. Major commands and community commanders were informed of their responsibilities in establishing the schools; finding adequate plants and appointing school officers who would serve as a link between the central office and the local military. Funds were made available from non-appropriated funds and from limited tuition fees. Between August and October teachers arrived from the States, all of whom had been carefully selected by Mr. Meyering and WAC Major Mary S. Bell. On October 14, 1946, 38 elementary and 5 high schools opened their doors to more than 2000 children from all 48 of the United States. The schools were as American as could be, except that the locale was that of a German community, some of the teaching staff were German nationals, and most of the children elected to study German as a regular school subject. By the end of the school year, kindergartens had been established in five communities and the total enrollment in all schools — kindergarten 103, elementary 2353, and high school 626 — reached 3087. The North Central Association accredited high schools at Berlin, Frankfurt, Heidelberg, Munich, and Nuernberg, and impressive graduation exercises were held for high school seniors in historic halls and German civic auditoriums.

The second year of operations, 1947—48, showed many changes. Colonel Joseph C. Haw came to Headquarters as Chief of the Dependents School Division replacing Colonel Murphy, who retired. The physical appearance of school plants was greatly improved, better school furniture replaced the make-shift items in classrooms, and newly adopted textbooks and workbooks had arrived from the States in large quantities. The peak enrollment during this year was 4200 in all schools. High schools established in Wiesbaden and in the Bremen Enclave were fully accredited. The DSD program was now financed for the most part from appropriated funds and the teachers were employed under Civil Service contracts. During the third year, 1948—49, DSD continued to improve and to grow. Peak total enrollment of 5146 was reached. Considerable difficulty was encountered in getting enough teachers from the States to take care of the steadily increasing enrollment. It is significant that nearly half of the total enrollment was concentrated in kindergarten and the first two grades. However, by this time it was possible to plan more adequately for each succeeding school year on the basis of past experience and Army forecasts on the number of families coming to EUCOM.

The fourth year of operations, 1949—50, was marked by many changes, brought about chiefly by a large increase in enrollment. Now there were

39 kindergartens with a total enrollment of 1274, 57 elementary schools with 5582, and 7 high schools with 891 — a grand total of 7747. In February Colonel Russell F. Albert was announced as the Chief, Dependents School Division, replacing Colonel Joseph C. Haw, who returned to the ZI. Courses of study, developed through the cooperation of the teachers and comparing favorably with the best offered in the States, were published and put into use in all schools. Classroom and office furniture, textbooks, teaching supplies, and playground equipment were becoming modern and up to date. High school athletic teams were contending for conference honors in football, basketball, and baseball just like their contemporaries in the States. Many other normal extra-curricular activities were finding their way into school life. At the close of the school year 145 high school seniors received diplomas and 337 pupils graduated from the elementary schools. Ten of the high school graduates had completed all their high school education in EUCOM.

During the fifth year 1950—51, the enrollment grew to kindergarten 1072, elementary 7176 and high school 1009 — a grand total of 9257. New elementary schools were opened in Bonn, in the British Zone, and in Bordeaux, La Rochelle, Orleans, Paris, and Verdun, in France. The teaching staff in the DSD schools numbered 400 American teachers and 265 German teachers and assistants. Diplomas were awarded at the close of the school year to 183 high school seniors and 363 graduates of the elementary schools. On 3 July 1951, the headquarters was reorganized into three services: Educational Services, Supply Services, and Manpower and Budget Services. A summer "Opportunity School" was introduced and proved to be a great success.

This brings us to the present school year, 1951—52, and we are proud of the progress of DSD during these past six years. This year the enrollment — kindergarten 1929, elementary 7634, and high school 1083 — shows a grand total of 10,646 (1 January 1952). New elementary schools have been opened at Amberg, Bad Kreuznach, Baumholder, Berchtesgaden, Heilbronn, Kaiserslautern, Leipzig, Pirmasens, Schwaebisch-Gmuend, and Wildflecken, in Germany. New elementary schools were established at Captieux, Metz and Perigueux, in France and the Paris High School was opened. It seems likely that more elementary schools will open in Germany and France before the end of the school year. DSD schools are staffed by 493 American teachers and administrators, 265 German teachers, assistant teachers and clerks, and seven French teachers. Dormitory facilities have been provided at Frankfurt, Heidelberg, Munich and Nuernberg to serve students living in areas too distant to commute daily to the high schools.

Many and colorful are the incidents that have marked the life and growth of DSD. Six years ago we started from nothing and with our rapid turnover very few students and teachers are able to look back to our beginning. Soon graduation will be here for 186 seniors who will take with them happy memories of school life in Germany. This Annual, our fourth, is a glowing testimony to the vigor and spirit of the American schools in EUCOM. Truly the two-fold purpose for establishing DSD is being achieved. The guiding force behind DSD development has been the Headquarters Staff, with offices at Karlsruhe, whose pictures appear on pages 9, 10 and 11 of this Annual.

## SCHOOL HISTORY

T. A. R. Berlin opened in October, 1946 for American dependents. Originally the well known Gertrauden Girls' School, the name was changed to honor Lieutenant Colonel Thomas A. Roberts, one of the first men to die in the Battle of Berlin. The enrollment of the high school has fluctuated erratically since 1946 — 60 in 1946, 107 in 1947, 22 in 1948 (this number dropped to 18 during the Berlin Blockade), 36 in 1949, 29 in 1950, and 40 in 1951. Of the original 1946 enrollment, one pupil, one teacher, and two staff members remain.

T. A. R. has weathered polio epidemics (when school was conducted via AFN) and the historic Berlin Blockade and airlift.

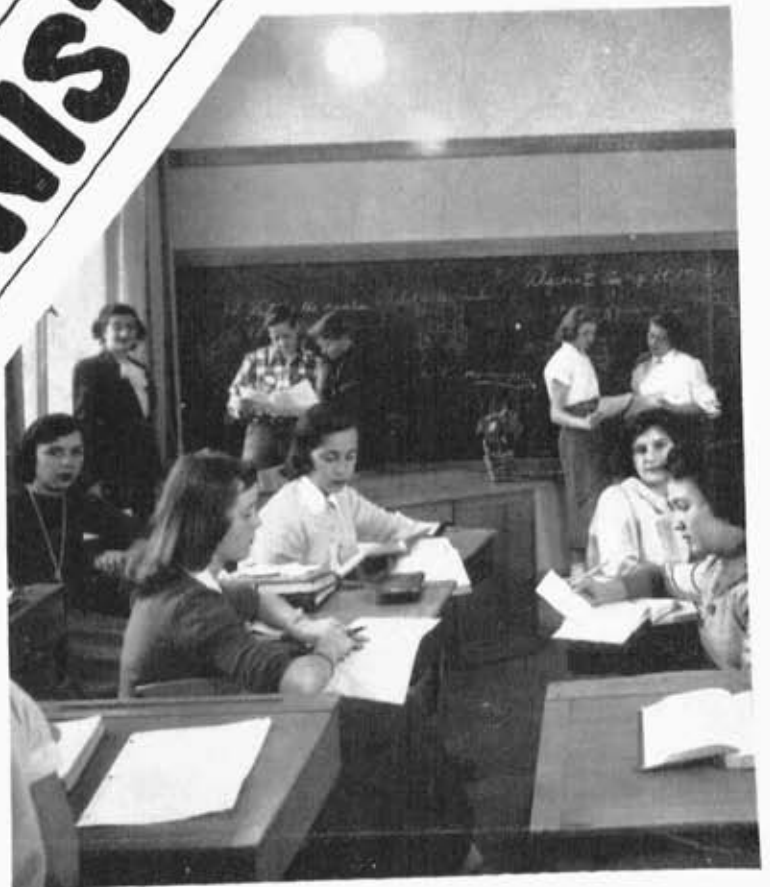

Always a center of communist aggression, Berlin has been the scene of two major communist youth rallies, but to quote the students, "We're still here". We expect to stay as long as our compatriots in the U.S. Zone do.

Miss Eunice S. Chute, our T. A. R. principal, has been associated with the school since the autumn of 1946, first as English teacher and then as principal. She holds a B. A. degree from Georgia State Womens' College and an M. A. from George Peabody College. Miss Chute's home is in Folkston, Georgia.

## SENIOR CLASS HISTORY

As we, the Seniors of 1952, take our place at T.A.R., we hope that the page we have in the history of this school will be a happy and interesting one.

Our senior class this year has ten members, of whom only two are new at T.A.R. These are Alice Lyon and Sigfried Schreyer. Among the old-timers in Berlin, we find Laurel Coleman, who first entered T.A.R. in 1946; Jim Bender, Diann Smith, Don Gray, and Talmadge Gilliam, who have studied here since their sophomore years, and Ann Worrell, Bob Partain, and Irene May, who joined us last year.

Senior officers are: Ann Worrell, President; Don Gray, Vice-President; Diann Smith, Secretary; and Talmadge Gilliam, Treasurer.

Freshman Week. We carried out our plans on the 26th, 27th, and 28th of September. We are quite positive that this event will be remembered (at least by the freshmen) long after we seniors have graduated from T.A.R., for it was one of the most colorful in the history of this school.

After the hullabaloo of Freshman Week, we settled down to work, and with good reason; for most of the key positions in T.A.R. had been assigned to seniors. Ann Worrell is head cheerleader. Jim Bender, Talmadge Gilliam, Sig Schreyer, Bob Partain, and Don Gray are members of the football and basketball teams. Diann Smith was elected President of the Student Council; Ann Worrell was elected Editor-in-chief of the Bear Facts, and Laurel Coleman was elected Editor-in-chief of the annual. Alice Lyon is President of the Dramatic Club.

As this writing goes to press, we seniors are looking forward to a grand and glorious semester at T.A.R. in the hopes that we may each and every one graduate with many fond memories and lasting achievements.

# CLASS OF '52

## SENIOR CLASS HISTORY

As the Berlin-bound plane taxied out onto the runway, that brisk morning of January 17, 1962, a staff car pulled up to the well-guarded gates, and Irene May, special secretary to the commander of Allied Forces in Europe, stepped out and gave directions as to the disposal of her luggage. She was on her way to Berlin, the scene of her high school days, after her vacation in Italy. Much to everyone's surprise, Ann Worrell, famous social worker, and Diann Smith, pediatric nurse, had been watching her arrival with awe, for they, too, were members of the Class of 1952 at T.A.R. "Maybe", Anne ventured, "this is going to be one of those unexpected reunions that everyone used to talk about." "Non-sense", answered Diann. "It's just a coincidence". And so the three of them sat down in the waiting room until time to board the plane. As they waited, they gave accounts of themselves.

WE  
THE  
Senior  
Class of  
the Berlin  
High School,  
being of sound  
mind and body,  
do hereby bequeath  
the following assets  
to our successors:

- I, Irene May, leave my glasses to Nancy Leone.
- I, Alice Lyon, leave the bed in the health room to Mary Ann Corcoran.
- I, Ann Worrell, leave a banana split, topped with whipped cream to Betsy Mathewson.
- I, Sig Schreyer, leave Dennis Dix to Frau Schrimmer.
- I, Jim Bender, leave my basketball ability and shoes to Bill Garnett.
- I, Dee Smith, leave my effervescence to Barbi Garnett.
- I, Don Gray, leave my diffidence to Lilla Lyon.
- I, Talmadge Gilliam, leave my rapport with blondes to George Shepard.
- I, Laurel Coleman, leave my complacency to Skip Babbitt.

We, the senior class of 1951-52, collectively will, to Mr. Kyrios, the Berlin bear, should there be a shortage of man power next year.

Anne and Diann were both on a mission to aid the underprivileged children of Berlin. Thus, up to date, they began wondering about the other members of T.A.R.'s 1952 Senior Class.

Through the mist of nostalgia that veiled their eyes, they thought it was only their imagination when they saw a familiar face across the room. It was altogether real, however, as Don Gray checked in as pilot of the Berlin-bound plane. It was, he stated, ready to go, and stewardess Alice Lyon had given the o.k. for passengers to come aboard. Smiling and waving to the three former TARians, Don went back to his plane and checked over the flight list with Alice. She didn't tell him that their old classmate Bob Partain, had sneaked into the baggage compartment. She didn't want to expose such a distinguished stowaway and hoho; but upon hearing that Anne, Diann, and Irene were also going to be on the flight, she

was tempted to tell Don about Bob as soon as the plane took off. Checking the flight list, Alice noted the name of Sig Schreyer, who was on his way to the big ski-meet in the Alps, and Talmadge Gilliam, great general of the Army, who was going to Berlin on an inspection tour. Before she had read any further, she glanced out the plane window to see Jim Bender, irascible building contractor, on his way to the plane. He was going to the four-power city to build a bridge from East to West. As she surveyed the group of her old schoolmates, Alice realized that only one member of their former class was missing. "Where's Laurel?" she said aloud.

A calm voice right behind her startled Alice terribly, as Laurel Coleman, the "Maggie Higgins of the Week" took her place among the reunited seniors. Bob came out of the baggage room, and the whole class was together once more. Gayly, with a sense of satisfaction, they sang their old school songs in the clouds above Berlin. As the strains of the singing floated over the city, a small bird turned his head to one side and gave the plane a questioning look. "What", he wondered to himself, "was that?"

**NANCY LEONE**  
Secretary-treasurer

Behold, the "almost" mighty Juniors! Bill Garnett, an old-timer of T. A. R., President; Betsy Mathewson, our little spark-plug of energy, Vice-President; Nancy Leone, whose twinkling pianist's fingers qualify her for the job of Secretary-Treasurer; Dennis Dix, whose scholarly tastes presumably influenced his choice as Student Council representative; Jim Scott, efficient Sergeant at Arms, and, well, Norman Deutschlander must have gone to Wiesbaden to escape being the object of so many official caretakers. Small we may be, we move around like twenty! Betsy is continually running around, pencil in hand, as art editor of the annual and Bear Facts, secretary of the G.A.A., and vice-president of the Teen Canteen. Bill and Dennis, our athletes, are on the football and

basketball teams. Dennis' interest in sports also extends to being sports editor of the Bear Facts, as well as sports announcer of "Teen Canteen on the Air". Bill is president of the Teen Canteen and also possesses great dramatic talent, as was seen in our last Dramatic Club play. Jim Scott's executive ability emerged as football, basketball and track manager. Nancy adds "culture" to our class by her piano playing.

In January, we sponsored a Vocational Assembly Program, and at Freshman Initiation, we acted as impartial jurors for the Kangaroo Court.

Behold the Juniors? Well, maybe they're moving around so fast you can't take a good look, but don't worry, we're trying to keep up the illusion that there are more than five of us by Perpetual Motion.

# SOPHOMORES

## SOPHOMORE CLASS HISTORY

Webster defines sophomore, as taken from the Greek, a "wise fool", which some have had the audacity to declare fitting to our class. If this is true, T. A. R. is rapidly becoming a foolish place, for around here we are "big wheels". Lilla, our president, is continuously harassed by incomplete Annual and Bear Facts articles. George, our vice-president, prefers his positions on the first-string football and basketball teams, with Barbie, our versatile secretary-treasurer and Skippy, the old-timer of the class, to cheer him enthusiastically on. Barbie's talents also extent to the field of art for Annual,

Dramatics, and Bear Facts. Susie expends her energy in Student Council, since

Janice's departure for the States. Archie and Bill have also deserted us for Nurnberg, leaving Ray to see to the sports department. Mary Ann, the "ever-eager" scholar, and Donna, our lil' Southern accordionist, complete the rapidly diminishing class.

When the time for taking charge of assembly approached, we decided to put on a variety show. Although we are a talented group, we gave the other grades a chance to show their stuff, and our job was finding the talent. At Christmas, we gave a gay party with the freshmen. Luckily, during all our activities, Mrs. Riordan has been around to survey her sparkling sophomores with detached scientific calm.

## FRESHMAN CLASS HISTORY

The stormy past of junior high and initiation is behind us; the Freshmen now occupy the calm corridors of T.A.R. High School. Phil Shepard is our athletic president. Nancy Worrell manages to be vice-president between executing cheers with our other vivacious Freshman cheerleader, Mitzi Neville. When Mary Lou Moore left for Munich, we, and the Student Council, lost the secretarial ability hidden under that red hair. Tonia Dolozik, our treasurer, left in the middle of the year. The Bear Facts mourned the loss of her writing talents. Jeannie and Wayne Kirsch, assistant football and basketball manager, and Liz Schreyer, our Salt Lake City songstress, arrived to take the place of all our departing members. Jeannine Smoot also left, early in the year, for Nurnberg, with a broken toe as a sad

souvenir to restrain her constant pep. Barbara Schreck, an old T.A.R.ian, Peyton Ellis, another class athlete, and Ronnie Egan, our polyglot Dramatic Club secretary, and talented Bear Facts reporter, complete the class.

### TAR FOOTBALL SEASON

The TAR football squad made sports history by going through an undefeated, untied football season, to win the Eucom six-man football Championship.

Overcoming the major obstacle of having the smallest enrollment in the Eucom schools this year, the fighting Tarians, under the tutelage of Coach Alexander Kyrios, swept through Bremerhaven, 53 to 13; Wiesbaden, 33 to 12; Linz, 14 to 7; and finally Nurnberg, 20 to 6.

Jim Bender, stellar all-around athlete, scored ten touchdowns to lead the Cubs in their offensive attack, and was nobly assisted by Don Gray, Dennis Dix, and John (Gillie) Gilliam. Bob Partain, George Shepard, and Bill Garnett were defensive standouts through the season.

## BASKETBALL

The T. A. R. quintet, under Coach "Able Al" Kyrios, garnered a victory in their first conference game against Bremerhaven. In two non-conference games, the Kyrios Klan gave larger, more experienced squads a good fight. In spite of limited manpower, the Tarions are expected, through constant practice and determination, to hold their own throughout the coming season. Scores of games played: Nurnberg 49 — Berlin 25; Bremerhaven 35 — Berlin 25; Frankfurt 50 — Berlin 28.

### CHEERLEADERS

"Victory, victory, that's our cry!" It was, too, with the effervescent five, Ann Worrell, Mitzi Neville, Skippie Babbitt, Barbara Garnett, and Nancy Worrell. Annie, our peppy head-cheerleader, and Skippie were also cheerleaders here last year, while Nancy and Mitzi cheered for the Junior High. Barbi acquired her special agility by cheering two years stateside. Mrs. Riordan, their faculty adviser, coached the quintet in the technique to match their continuous enthusiasm.

### BERLIN FAREWELL

We, the 1952 Seniors of Berlin, say farewell, in the hope that we have added worthwhile pages to the history of this school. We wish to express our thanks to the faculty, who, as our advisers, have guided us toward better methods and inspired us to greater wisdom.

### THE AMERICAN HIGH SCHOOL IN BREMERHAVEN

The American High School in the Bremen Enclave will be five years old in June 1952. Bremerhaven students commuted to Bremen in 1947—48 and since that time the situation has changed and the Bremen students must now do the traveling.

Our building is a part of the pre-war German merchant navy training school in Lehe Barracks. Across from us is the temporary Rathaus, and in the quadrangle at our front door is the parade ground for present-day Bremerhaven.

Our Student Council, now a flourishing steering committee for student activities, was organized in 1948. In that year we were also fortunate in producing the Eucom championship basketball team. Mr. Boyer, at present Chief of the Education Branch in Karlsruhe, Mr. Cobb, Mr. Bale, Mr. Heiges, and Mr. Brown have successively been superintendents of our school system.

1950—51 marked our lowest enrollment and the change in name from Dependent School to American School, as well as a championship in the Class B section of the Eucom junior high school basketball contest. This year our enrollment has increased but our numbers have justified only a six-man football team and a small squad of basketball hopefuls. Socially our year has started most successfully with a small welcome dance, a fine Hallowe'en party in conjunction with the Teenage Club, and a Christmas dance. These will be followed by the Valentine dance and the Junior-Senior prom. We have also produced a Christmas program which included numbers by all classes from kindergarten through senior.

Since we are situated in the Hanseatic section of Germany, we have opportunities to visit Hamburg, Luebeck, Oldenburg, and Fischereihafen — the largest fishing port on continental Europe which provides a fascinating field trip.

## PROPHECY

It is the summer of 1972 and the Class of '52 has returned to Germany to vacation in Garmisch. At this gathering we discover that each member has carved out his niche in the world. Pat Hewitt is head nurse for the Mayo Brothers in Rochester, Minn. Al Prouty owns a swanky restaurant in the Bronx. Larry Bittner is a successful businessman in Phoenix, Arizona; and last, but not least, Jack Donahue is now chief conservationist in the Department of Interior.

## HISTORY

Not only is Bremerhaven the smallest high school in Eucom but we also boast the smallest senior class. Pat Hewitt, our oldest member in point of residence, has been here two and one-half years but leaves for the ZI in December. In the early spring of '51, Jack Donahue and Al Prouty came from the States. Larry Bittner came all the way from Hawaii to join us in October, and John Gilliam has recently arrived from Berlin which claims his prior senior allegiance so he appears in their section.

Our interest has centered on sports, quite naturally, we feel. But in a class of our size we all have to be Jacks of all trades, so we have contributed to the school newspaper and the "Key". In September Jack and Al seized the opportunity to visit Belgium, Holland, and France on a bus tour with a German-American Students Club in which both were active members. Our adviser on the "Key" and on school problems (as well as matters of the heart) is Miss Kay, to whom goes our sincerest appreciation.

Since our number has been constant at four, we chose as our theme, "Die Bremer Stadt Musikanten", one of the most famous old nursery stories of North Germany, to illustrate our Senior pages.

## WILL

- I, Larry Bittner, leave my ability in German to Bob Payette.
- I, Jack Donahue, leave my prowess on the dance floor to Jimmy Payne.
- I, Al Prouty, leave my interest in school activities to Ann Lord.

Pat Hewitt leaves her friendly personality to all oncoming senior girls.

## JUNIOR CLASS HISTORY

Hi there! Why not stop awhile and read about the class of '52? What an exhilarating feeling to be next to the top!

You should have seen Miss Grych's face that first day of school when the huge total of our class was four. Those two handsome males, Dean Jergensen and Bob Payette, have been in Eucom five years. Dean comes from California and is one of our star football players. Bob, our class president and Student Council representative is from Minnesota. Both boys are ardent hunters and never a day goes by that the female half of our class doesn't hear about wild boar shoots and other deeds of derring-do.

The weaker sex is well represented by Lois Lingner from Georgia, Jill Strohm from California, Ann Lord from Louisiana, and Edythe Henry from Minnesota. Lois has been in Bremerhaven since 1950. She is secretary-treasurer of our class and editor of the "Keyhole". Jill joined us in December and is busy renewing acquaintances in Eucom where she spent 1947 in Berlin and 1948 in Heidelberg. Ann is vice-president of the class and also of the Student Council. Before coming to Bremerhaven she attended Heidelberg High and has been in Germany for three-and-a-half years. Edythe Henry arrived in December so is busy getting used to school in Deutschland.

So far this year we have taken active part in the Student Council cake raffle and are looking forward to sponsoring the Junior-Senior Prom. We borrowed the "robbers" whom you see on this page from the story of the "Bremen Town Musicians". We use them as a warning to the Seniors that next year we will be stealing home plate from them!

## SOPHOMORE CLASS HISTORY

Looking over the harbor I see all our tugboats hard at work. Some of last year's valuable tugs have been lost but brand new ones have taken their places. A little new tug with the name of Gerry Bittner has been sent over to us from Hawaii. Twin tugs from Texas with the names of Joanne and Janice Lowe are getting ready for the big festival. There'll be tugboat Jimmy Payne from Kentucky to toot us some hillbilly music, while tugboats Jeanie Smith from England and Spike Barr from Massachusetts will do some towing. There goes tugboat Al Vermette from Maine to bring in the big liner President Eddie Haugh from Delaware. The transport Vice-President Sylvia Nixon from New York is waiting with a great big toot for our president. The freighter Jeannine Vermette from Maine has just come in to unload her cargo and stay for the musical festival but will leave shortly thereafter. Another visitor to the Port of Bremerhaven is cruiser Frances Prouty from Pennsylvania who has come in for the basketball tournament. Oh, oh, got to leave now for here comes our patrol boat, Miss Hallock.

## FRESHMAN CLASS HISTORY

In September fifteen wide-eyed and bewildered freshmen entered Bremerhaven High. Eight of us are holdovers from last year's Junior High graduates, five are from Bremen, one from Heidelberg, and one from Nuernberg. All but one of us have been in Germany longer than one year, with those old-timers, Karen and Ronnie, being five-year attendants in the Dependents Schools. All of us had glimpses of high school life during our grade school years, but it didn't take long for us to realize it wasn't all as much fun as we'd thought it would be. Freshman initiation, ugh! Despite this, hard-working freshmen have made their marks in school activities. Most of the boys are concentrated in the freshman class so they are a valuable asset in football and we expect them to do great things in basketball. Not to be outdone, the girls are very active in Glee Club, G. A. A., and as class officers, where they scored a clean sweep in elections. Sherry and Jerry are our Student Council representatives. Some of us have worked on the "Key-hole" and some on the "Key". We also had great fun taking part in "A Visit from St. Nicholas", the Christmas pantomime.

## WORLD TRAVELERS TODAY - WORLD CITIZENS TOMORROW

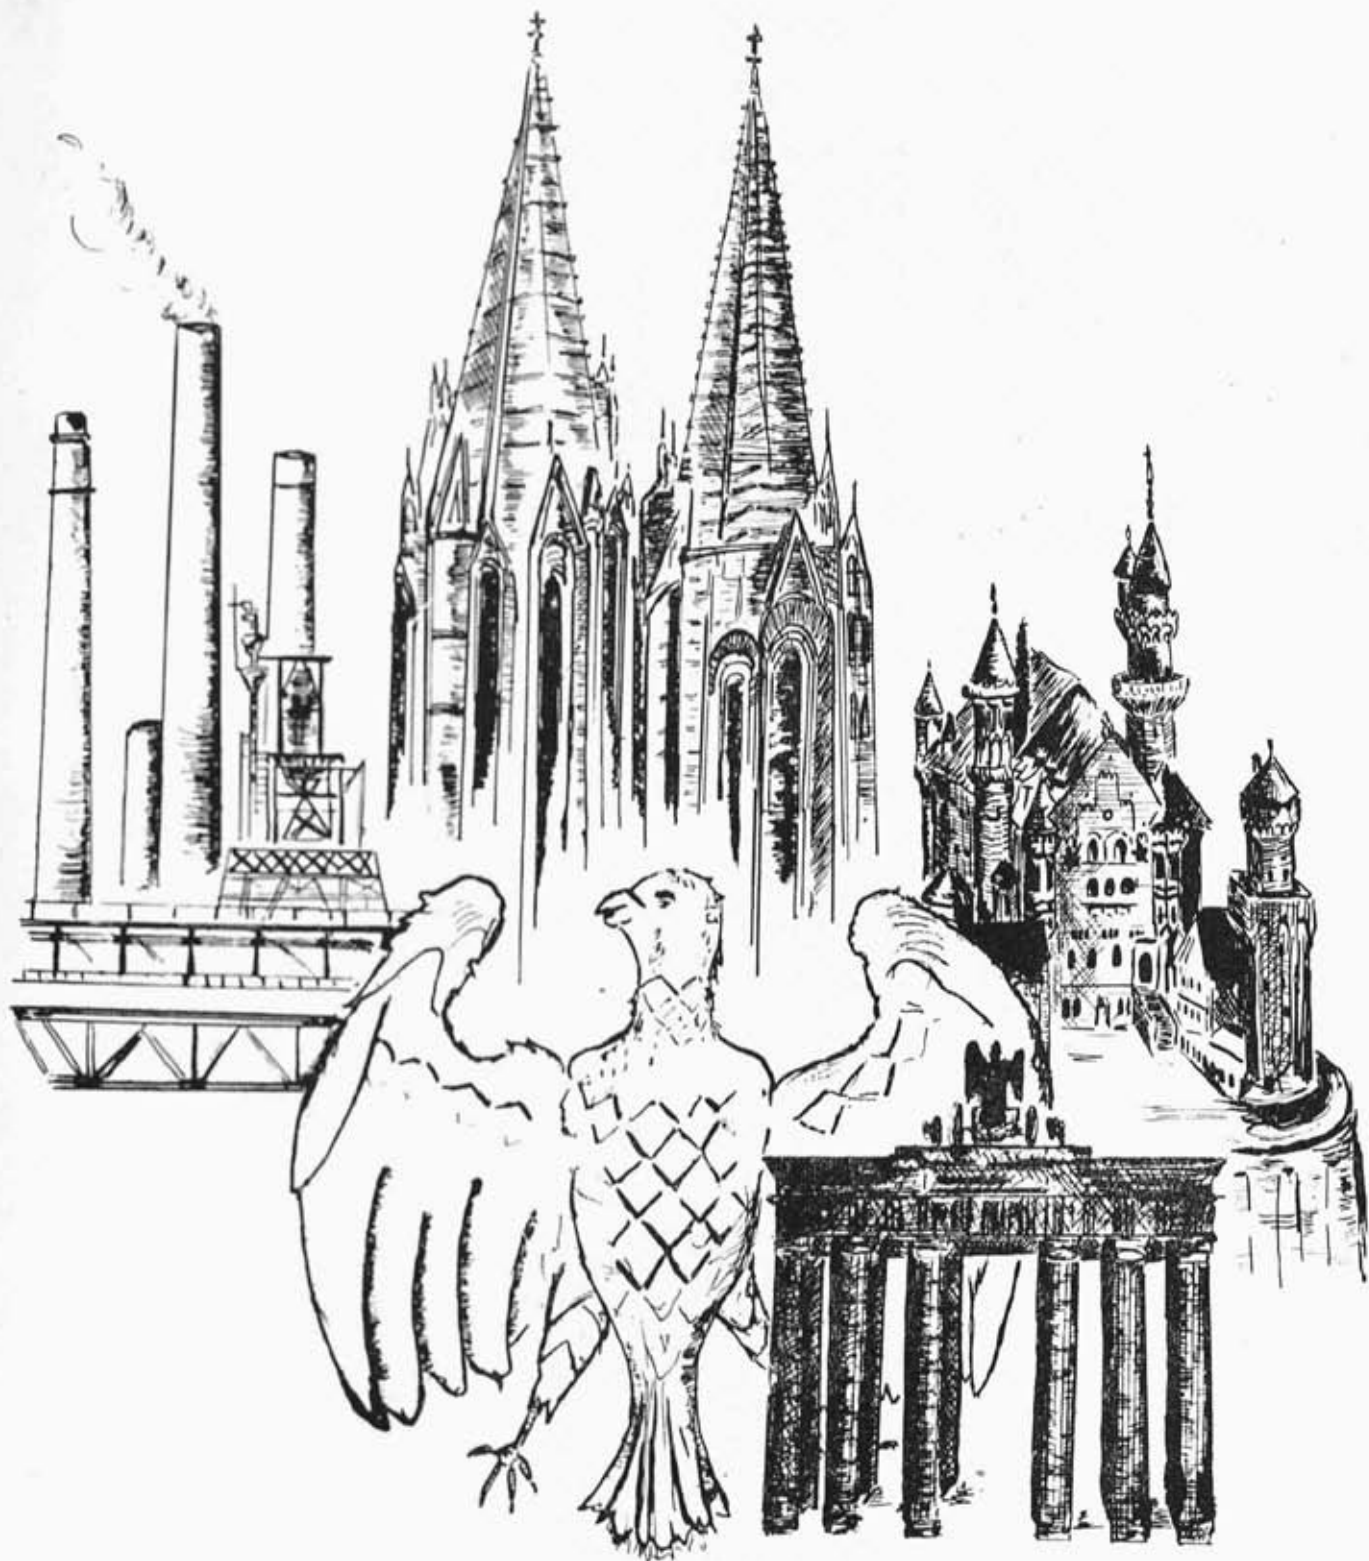

In 1945 Hitler's Thousand Year Reich collapsed and Germany lay prostrate at the feet of the Allies. Now, six years later, the Occupation which brought us here is drawing to a close. Many of us have found this birth of the German Federal Republic of great interest. Yet a far more significant and revolutionary movement is growing in Europe. At last a sincere effort is being made to unite this continent under one co-operative government. If successful, this movement will be one of the most radical steps in the history of the world. At any rate, those of us who have lived in Europe cannot fail to notice the desire of the people around us to try this great experiment.

The discerning traveler with an interest in people has an unrivaled opportunity to acquaint himself with the real beliefs and hopes of the citizens of other lands. Never before have such a large number of American students lived abroad in surroundings which provide so many occasions to learn to know the customs of other people. Never before have so many of us had a chance to meet and talk with them. Living not only in Germany, but also in Africa, Austria, Belgium, and France, we can hardly avoid having a broader outlook on life and a better understanding of the main problems of the countries in which we live than those Americans who have never left the boundaries of the United States. Poverty in Italy, inflation in France, and socialism in England are more real to us, seen with our own eyes, than read about in a newspaper. The difficulties of uniting Europe can be appreciated far more after actually experiencing local jealousies and prejudices. The hindrances of passports and customs barriers bring home the shortcomings of the present system of national states.

A first-hand knowledge of political developments in Europe is by no means the only advantage of going to school in Germany. With distances relatively short, travel has enabled many of us to become acquainted with the finest scenery and the innumerable attractions this continent has to offer. Nowhere else could we have the opportunity to hear so many fine operas and concerts. The best works of Da Vinci, Michelangelo, Rembrandt, and Rubens can easily be seen, while history takes on new meaning with castles and battlefields scattered thickly throughout the countryside. All these rich influences help to make our experiences very different from those of ordinary American high school students.

The Frankfurt High School building has also been greatly affected by many and varied influences. Originally intended as a model for progressive education during the Weimar Republic, this modern, many-windowed building was taken over by the Nazis, and during the war was transformed into a hospital and a warehouse. Now it is once more fulfilling its original purpose, as many instructors and students from German schools have become acquainted with the American system of education being put into practice here.

In the following pages we hope to present some of these features of life in Europe which have played such an important part in molding our character.

## SCHOOL BOARD

Captain George D. Carlson; Major Adrien L. Bregnard; Lieutenant Colonel John L. Bates; Colonel John H. Riepe, President; Lieutenant Colonel Wilfred J. McCall; Chaplain (Major) Elvin A. Burgess; WOJG Delbert J. Goforth; Master Sergeant Don H. Long.  
Not present: Mrs. S. H. Linch.

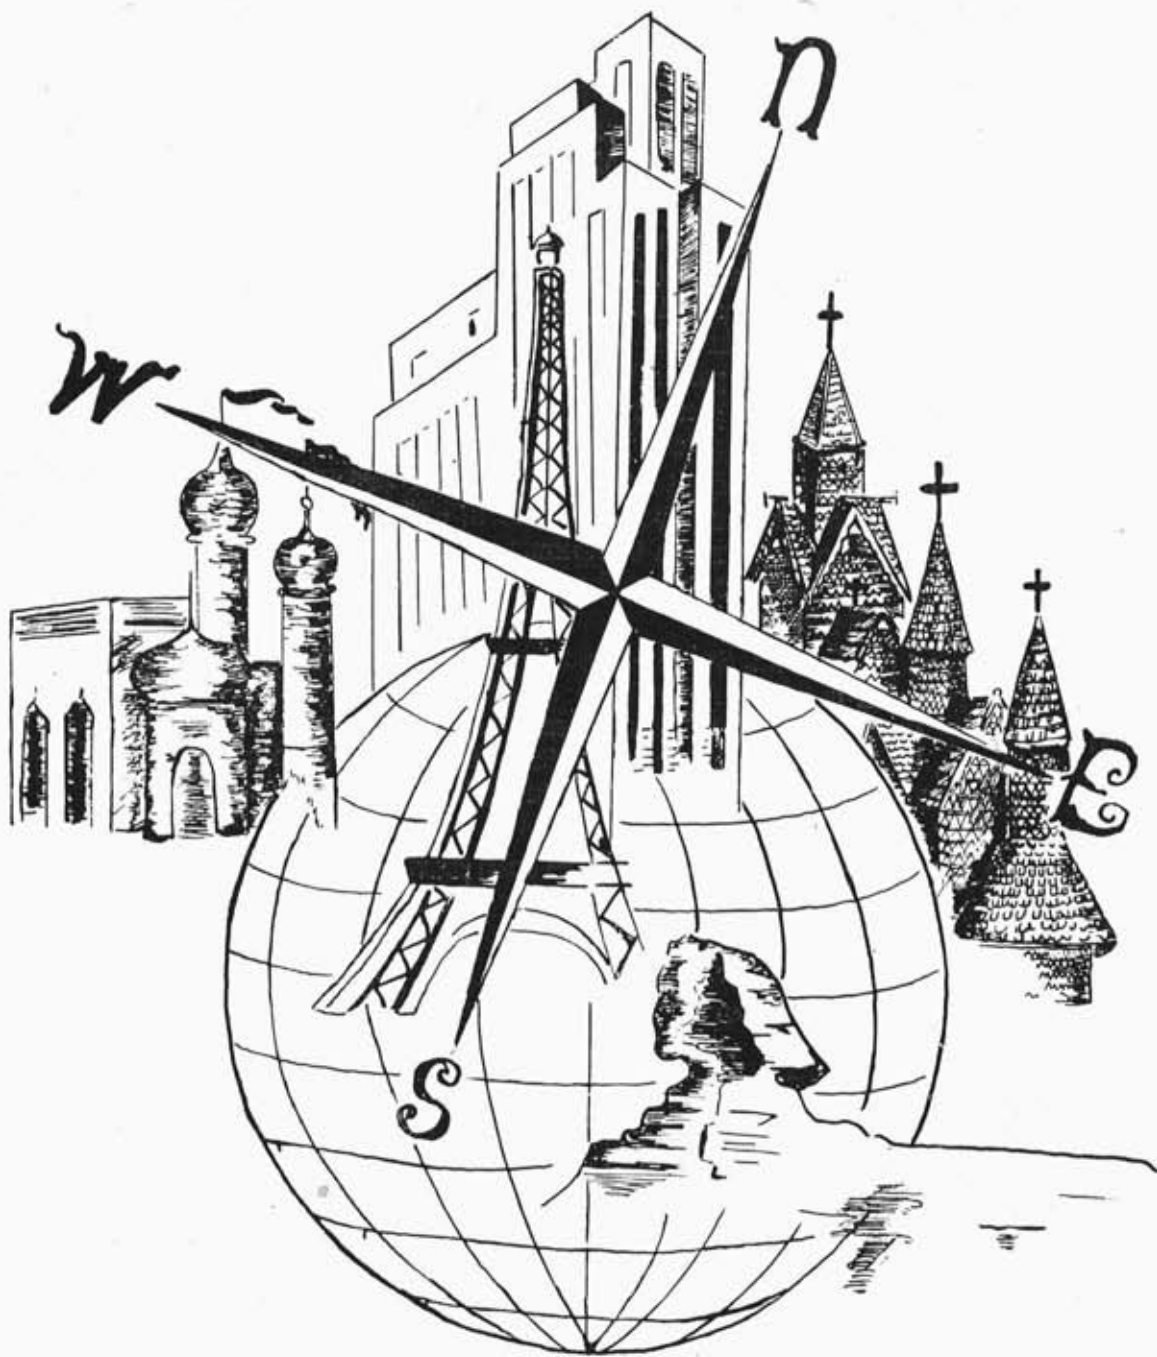

## PARENT TEACHERS' ASSOCIATION

Mrs. George Stump, President; Colonel Ralph A. Devine, Vice-President; Mrs. J. R. Trough, Secretary; Mr. Paul Lesko, Treasurer.

## PARENT TEACHERS ASSOCIATION

The Parent-Teachers' Association furnished the necessary liaison between our parents and our teachers. This year the various associations throughout the Zone were combined into a unified organization. One objective of the new groups was membership in the National Parent-Teachers's Association. The local P. T. A., along with its closely related organization, A. Y. A., provided funds and other assistance in refurnishing the Frankfurt Teen-Age Club and in supporting such important events as the annual Christmas Formal. Thus the P. T. A. aided invaluablely in making possible a normal social life for the teen-agers.

# SENIORS

# Senior History

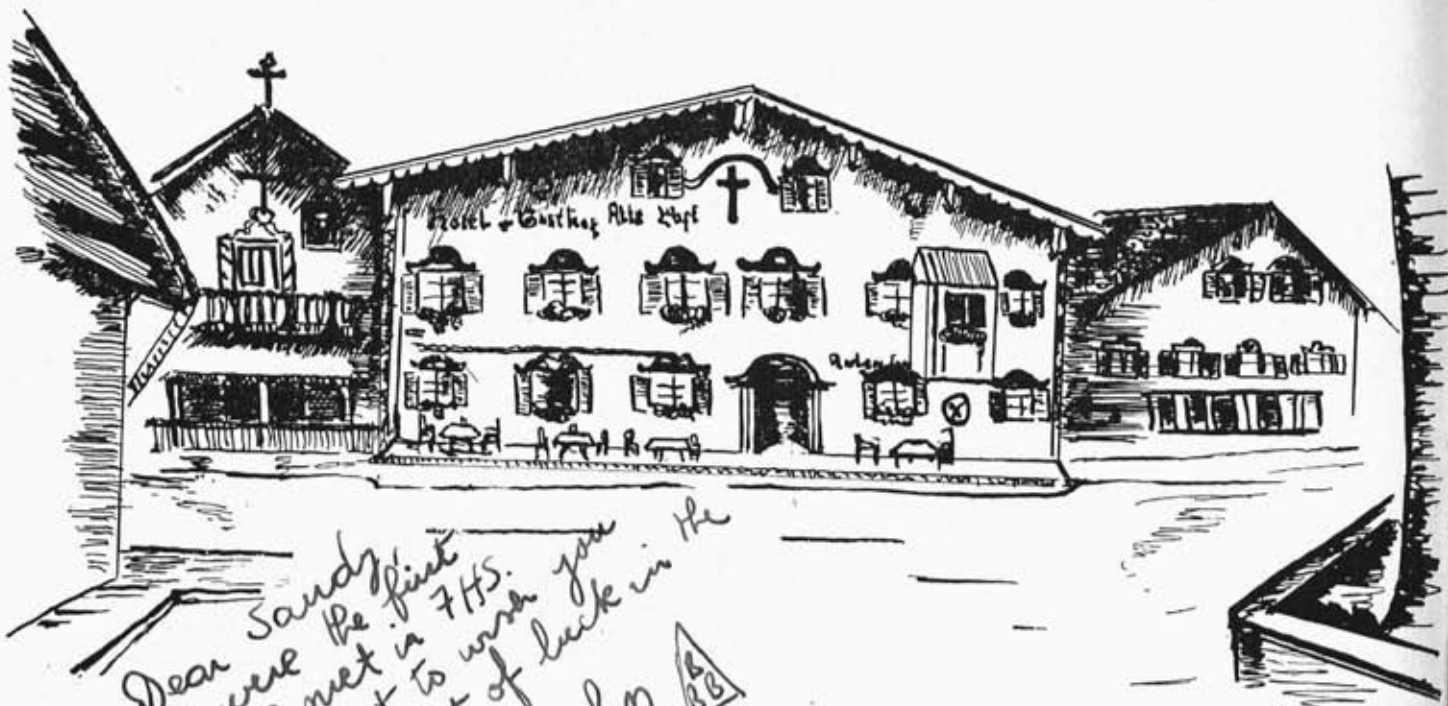

After three long years of high school we entered our senior year with an air of confidence. Along with the pride of having successfully completed the three preceding classes came the prestige and privileges of being members of the upper class.

We were by no means ordinary seniors of an American high school, however. We were living in Germany, far from home, in the midst of a chaotic Europe and a troubled world. It was a great experience, for we had first-hand glimpses of the problems and anticipations of other peoples and felt the influence they, in turn, had upon us. Since our freshman year Europe had experienced many changes — social, political, economic — changes from the life of the insecure present to a life of hope for future security. The rest of the world, too, underwent a tense period of anxious waiting and anticipation.

But school life was not really so different from that of other high schools. Early in the year we held our class elections and had an unusually colorful campaign for Student Council officers. The simulated Congress in American Government class gave each of us a chance to try his hand at lawmaking, and the ever-increasing number of clubs offered us the opportunity to engage in any of our special interests.

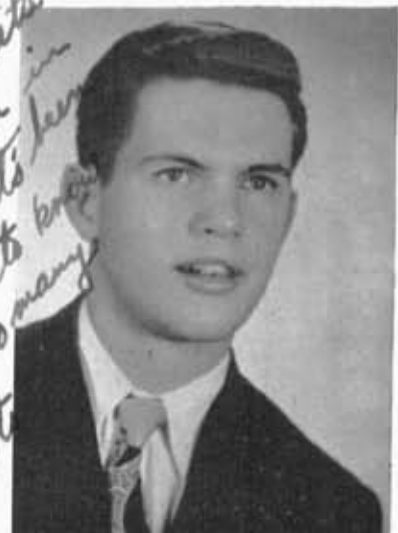

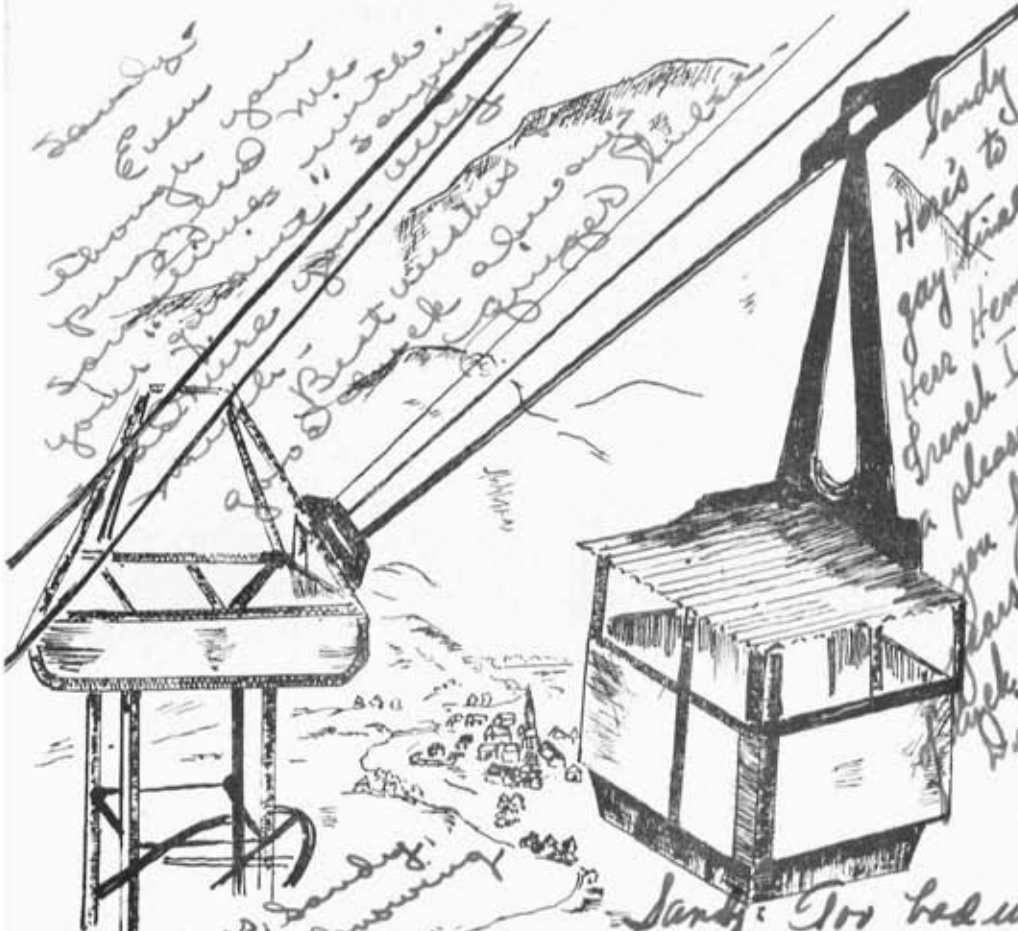

The social events, too fell into the traditional pattern. With Halloween came the annual costume ball, and December meant the Christmas Formal. Finally spring brought the long-awaited and highly successful Junior-Senior Prom, which we as juniors had worked so hard to perfect last year. There were many other activities, like the inter-class basketball tournament and Senior Education Day, which will all bring back the treasured memories of high school life.

Then came that final day, graduation, on which we bade farewell to Frankfurt High and school life, and stepped out through the gates of opportunity into an insecure world, ready to accept our responsibilities in the world of tomorrow.

## DIPLOMATS VISIT RECONSTRUCTED GERMANY

Diplomats visit their old school. Left to right are John Warnock, George O'Grady, Joyce Lunde, Richard Cooper, Harry DeVore, Fred Treitz, and John Griffin.

## CURE FOUND FOR POLIO

Washington, May 31 (WP) — The American Medical Association yesterday announced the development of a new cure for polio.

Dr. John Hare, and his assistant, Francis Kingham, R.N., made this discovery last November while caring for patients in the Walter Reed General Hospital in Washington.

Three doctors and two nurses, working together at the Walter Reed Hospital, have tested the cure successfully on more than 200 cases of infantile paralysis during the last year. They were Dr. Joseph Jenike, Dr. Morley McCall, Dr. Sandra Vadney, Doris Leonard, R.N., and Arleen Rose, R.N.

A full report has been given to the Universal Medical Journal, and will appear in the July issue.

## SOCIAL WORKER SAVES CHILD

Brooklyn, May 30 (WP) — A child and her heroic rescuer are recovering today in the Sunnyside Central Hospital from burns received in the fire which swept the Paradise Playground yesterday.

Nine year old Susan Doe, daughter of dancer Jackie Perrine, was trapped in the wooden playhouse in the corner of the playground, when a short in the wiring of the building caused it to catch fire. When the other children were marched out from the burning building, Susan was missed. Hearing her screams, Patricia Sizemore re-entered the building and brought her out.

Reverend Harrison Simons, director of the playground, announced today that rebuilding of a modern brick playhouse will begin in the near future.

## PRESIDENT ENTERTAINS FAMOUS ENGINEERS

Washington, May 31 (WP) — President Von der Muhl entertained three of America's most noted engineers at a luncheon conference today.

Under discussion was the problem of a Federal grant of \$ 100 000 000 needed to complete the Pan-American Super Highway.

Since the President has long been known as an advocate of closer ties with the South American Republics, Mr. Bacher, Mr. Lund, and Mr. Fisher have high hopes of gaining his support for the bill, which will shortly be brought up before Congress.

The heroic struggle of these three brilliant engineers to overcome the immense difficulties presented by the dense jungles and treacherous swamps of Central America has captured the imagination of the entire country. When completed, this highway will extend from Nome to Magdalenas, and will have cost over \$ 30 000 000 000, chiefly contributed by the American taxpayer.

## INTERNATIONAL TEACHERS ASSOCIATION MEETS

Philadelphia, May 30 (WP) — The International Teachers Association held its annual meeting here on Tuesday.

Toya Wynn, president of the association, and Joan Hahn, the physical education teacher who became famous several years ago when she defied the Girls' Athletic Association to revive girls' basketball, represented the United States.

Joan Hahn spoke on "Recreation for Girls", and Toya Wynn spoke on "Organization of the Student Council".

After the meeting, the two women were swamped by admiring students who had attended the conference.

## ALMA MATER IS FIRST STOP

Frankfurt, June 1 (WP) — A group of eight Americans arrived here yesterday aboard the atomic powered airship, Sultan, for an extended tour of reconstructed Germany.

Heading the group are John Warnock, famous lawyer and winner of the Nobel Peace Award in 1958, and Secretary of State Richard Cooper, also well known for his work in nuclear physics.

Army Chief of Staff General George O'Grady, Admiral Harry DeVore, Admiral Jack Griffin, Major General Harold Young, Admiral Fred Treitz, and Joyce Lunde, official secretary, were also among the group.

An extensive tour through this city and neighboring ones has been planned, but as yet the group have visited only the Neue Frankfurter Universität, in which they are sentimentally interested. The original building of this modern university, which covers one hundred acres just outside the city limits of Frankfurt, was formerly the Dietrich Eckhart Schule; during the occupation of Germany following World War II, these prominent leaders attended the Frankfurt American High School once located in this building.

## TEACHER WINS AWARD

Newark, May 30 (WP) — Miss Luise Kramer was today chosen "teacher of the year" by delegates from every part of the United States.

The presentation committee consisted of two of America's most distinguished columnists, Michael Boerner and Patricia Virden (both former students of Miss Kramer's), who awarded the prize at the annual National PTA Conference, held in the Newark Municipal Auditorium.

Miss Virden, making the presentation of the award, introduced Miss Kramer as the symbol of America's greatest resource — its educators. This was met with a thunderous ovation from the floor.

Mr. Boerner, famed columnist for the New York Times, has also gained a large following in the field of humor by his book, *How To Enjoy Misery*, and his series of essays, *Life (?) In Texas*.

Miss Virden's literary endeavors have largely been concerned with exposés and vigorous attacks on all governmental corruption, but she is also known for her book on Indian reservations in Oklahoma.

## SOCIETY NEWS

### MRS. SMITH ENTERTAINS WITH DINNER PARTY

Guests of Mr. and Mrs. R. Q. Smith at a dinner held last evening in honor of the wife of Maj. Gen. Z. K. Jones, the former Sara Serff, were Dianne Gochnour, chief costume designer for RKO Studios in Hollywood; William Holmes, the versatile genius whose new novel, *Myself and Why*, is fast becoming a best seller; and Dr. James Lucas, distinguished psychiatrist.

A delicious dinner of Southern fried chicken was served in the spacious dining room of the Smith's new ranch style home on Riverside Drive. Mrs. Smith, the former Jeanne Shettle, served coffee in beautiful Meissen china, which reminded the guests of their years together in Germany.

After dinner, Mrs. Jones entertained the group with a delightful history of her travels since the days when they attended Frankfurt High School. These travels included a tour of duty in Alaska, six months in the Caribbean, two years in Brazil, several months in the Philippines, two years in Germany, and numerous brief visits in America. Mrs. Jones showed her friends some of the silks and rugs which she had brought from Japan, their last station.

### REVUE HELD MONDAY

New York, May 3--The annual Summer Fashion Revue of the Broadway Fashion Shoppe was held Monday evening in the Blue Room of the Ritz Hotel. Modeling a white organdy cocktail dress by "Allie", was Powers' model Jean Hahn.

Alta Minthorn, who goes by her trade name "Allie", was present at the revue. She wore one of her own creations, a black velvet gown with French lace over the skirt and around the shoulders. Several other of "Allie's" designs were modeled, including a stunning date dress for teen-agers, a green gabardine suit, and a bridal gown of white satin and lace.

### VOGL HOME ROBBED

Jewelry valued at \$200,000 was stolen from the home of Mr. and Mrs. Ridge Vogl Tuesday evening.

Mrs. Vogl, the former Marilyn McKenzie, was with her famous lawyer husband at the Starlight Hotel at the time of the robbery.

## THEATRE NEWS

### NEW THEATRE OPENS

New York, June 1 (WP) - Selections from the works of the famous American composer, Irwin Setzer, were brilliantly executed on Monday evening by Craig Chance at the opening of Orr Music Hall, a new theatre in Manhattan.

Mr. Chance, whose tours throughout Europe and the United States have been highly successful in the last several years, amazed his audience with his skill on both the accordion and piano. His first selection was "Cobblestones" from Mr. Setzer's recent, *The Bahnhof Circle*. Other of Mr. Setzer's works, including the "PX Blues", "Stomp On The Strasse", "Git Outta Ma House," and the *Wetzlar Concerto*, added a light touch to the evening's entertainment.

The theatre, which was built by the fabulous millionairess, the former June Orr, was named in her honor. She and her husband were both present at the opening, and she consented to sing only after much coaxing from the audience. Her voice proved to be as beautiful as ever, even after ten years of retirement. Also present in the audience were Roger Spenser, two-time winner of the Academy award; comedian Gerald Stanley, star of stage, screen, and television; Kenneth Gilbreth, chief engineer of CBS; and Mamie Shelton, red-headed designer of "Mamie's Cosmetics for Redheads."

### THE SPOTLIGHT BY JOYCE DIXON

If you haven't yet bought your ticket for *Moon Over Broadway*, drop this paper immediately and call the nearest ticket office, unless you are content to wait until the first rush is past in six months or so. Paul Zietlow's latest comedy is the best thing that's hit Broadway since *Oh Those Kisses!* was a memory a decade ago. Witty, urbane, and sparkling with life, this play seems destined to have a record run in a town which has seen so many smash hits linger on and on.

Only a habitual theater-goer will remember Mr. Zietlow's pathetic first production, *A Dutchman's Dilemma*, which went bankrupt at the end of its first week in Hartford. It seems incredible that the same man could write this polished jewel of humor.

Yours truly saw Mr. Zietlow at the Stork Club last night, but it took football tactics to break through the mob of well-wishers surrounding him. He confessed that he had been worried about the reception his work would get. However, if first-night crowds mean anything, New York is going to hold onto this play for a long, long time.

## SPORTS

### BARNES SIGNS CONTRACT

New York, June 1 (WP) -- Tom Barnes, the Yankee ace whose magnificent clutch pitching enabled his team to win the Universe Series, has signed up for another year with the Yankee Club, it was announced here today.

Barnes, favorite player of sports fans throughout the nation, was reported to have signed for the staggering sum of \$150,000 a year plus expenses. If this rumor is true, Barnes will be the highest paid player in the game today.

### COACH HONORED BY GRADUATES

America City, May 28 (WP) -- Ronald Ballinger, who coached his great University of America team to the America-Eurasia Championship last fall, was presented with a silver cup by the graduating members of the football team at the Senior-Faculty Banquet last Friday evening.

In his "thank you" speech, Coach Ballinger modestly disclaimed credit for the team's sensational upset in the annual fall classic.

### LOCAL TWINS PERFORM

Jersey City, May 29 (WP) -- During a personal appearance by actor Robert Lamb and singer William Martin at the Ritz Theatre last night, Betty and Freddy Brown, twin daughter and son of Mrs. Sandra Green née Beckleheimer, modeled twin outfits advertising "Platztik Buttons, Inc."

Mr. Thornley Walker, president of "Platztik Buttons, Inc.", introduced the twins between acts by Lamb and Martin. Betty and Freddy are both three feet tall and have curly blond hair and blue eyes.

Immediately after the performance the twins were flown to Hollywood by ace pilot Earl Wilson in time to appear on a new television show, "Which Twin Is the Phony?"

### TEACHER INHERITS FORTUNE

New York, June 1 (WP) -- Miss Gay Long, the arts and crafts teacher who retired from her position at Columbia University several years ago to tour Europe and the Far East, has inherited \$1,000,000.05.

As the government no longer demands the payment of taxes by teachers since their salaries are so low, she decided to donate the five cents to the cause of the country.

XI XII I

**ANOTHER DAY**

It's time to get up . . .  
 I've just got to get up.  
 The days are so long and the nights are  
 so short,  
 Oh, dear! I forgot that report!  
 Gotta get up!  
 The bus bounces along . . .  
 Over the cobblestone road;  
 We jog past the sleepy-eyed guard at  
 the gate,  
 Pile off the bus and find we're late;  
 We're LATE?!!  
 We race up the stairs . . .  
 Not detention again.  
 We tear to the office to pick up a pass,  
 Then to our lockers and on to class.  
 Detention!  
 Our classes begin . . .  
 Gotta listen today;  
 The teacher is talking, her voice fades away,  
 My daydreams drift off to a happier day;  
 She calls my name.  
 I go to the board . . .  
 It's as blank as my brain;  
 The chalk's in my hand, but the answers  
 won't come,  
 If only I just weren't so dumb!  
 Bell, won't you ring?  
 And then the bell rings . . .  
 So I sigh with relief;  
 I'm saved by the bell and it's three-  
 thirty again,  
 Gee, what a relief to my brain;  
 Just homework, now.  
 We pick up a snack . . .  
 Then some ice cream and coke;  
 We talk and we talk and the hours fly by,  
 My homework's not done, and why?  
 I'm sleepy.

The Money men ride again! For two years we had heard about the worries of the junior class in earning money to finance the Junior-Senior Prom. But we never suspected the understatement of those tales. Even our president had to work! First there were the endless meetings to decide how to raise the money, and then the slow realization that it wasn't going to be as easy as we had thought. The seniors were bursting with ideas for us to work out, but we finally decided to follow their precedent and become actors, actresses, and stage hands in producing our own play.

There was a little more to being a junior than entertaining the seniors with the Prom. As a matter of fact, quite a bit more, particularly since we were upperclassmen at last. Our classwork was more advanced, and we found that we were now eligible for courses such as typing and chemistry. We re-fought the Civil War in American history class, and read the **House of Seven Gables** in English. There was homework and school and homework and school and then some more homework.

Now that we've earned all of the money for the Prom and supposedly made passing grades in all of our subjects, the realization that we are next year's seniors is slowly dawning on us. Our friends in this year's class are being graduated, and by this time next year they will be out in the world beginning the task of accomplishing those things that we only dream about now, while we await our turn. Our junior year has truly been one of the best we have ever spent; what will our senior year bring?

## SOPHOMORES

Sophomores at last! After a year of apprenticeship as freshmen we were at last on the second rung of the ladder of high school education. It sounded new and wonderful to our ears during the first few weeks, but we soon got used to it. Now we could feel the pride of achievement when we looked at the new and green freshmen. Could we possibly have looked so young and bewildered the year before?

Being the largest class in school (as we had been the year before), we naturally had much to contribute to school activities. We had boys participating in every sport and boasted several cheerleaders as well.

The days seemed to fly faster as the year progressed. Mr. Altschuler kept his geometry classes jumping as we sped toward the end of the course. Mr. Wiksten explained the p's and q's of history, while Herr Berner taught the unpopular subjunctive to us in German. In the English classes of Miss Halberstadt and Miss Barker, we were initiated into the mysteries of speech and composition.

Thus, as we advance toward our ultimate goal of graduation, we look back with pleasure on our year of 1951—52 as sophomores.

## FRESHMEN

We were scared, that first day of school last September. Ever since we had registered, we had been anticipating that day with both excitement and dread. We stood around in tight little groups, feeling awkward, envying the rather loud self-assurance of the upper classmen, and wondering what to do. All of the wild tales we had heard about freshman initiations ran through our minds, and the books the teachers began giving out made our elementary school books look like **Mother Goose**.

The days passed slowly and school life became a familiar routine. We met more and more new friends — most of them in our own classes — but occasionally a condescending sophomore, and, ever so rarely, even a junior or senior! We elected our class officers and sent three representatives to the Student Council. Before we knew it, our Christmas vacation was gone, and the fall months were memories — — faint pictures of dances, football games, the confusions of straightening out our schedules, and silly crushes on seniors we could never hope to win.

We sponsored the Valentine's Dance, and in our opinion it was the best one of the whole year. By that time our freshman basketball team was our main topic of conversation. Some of our boys were good enough to be on the varsity, we thought.

We had really begun to feel we "belonged" by the time spring came. April and May flew by, and it was June. We were singing the alma mater in the auditorium, and just happened to see a tear trickle down a senior's cheek. It was funny for a second, but suddenly we realized that we might not feel so different three years from now — — if we're still here, that is!

plain stuff,

## Student Council

This year the Student Council was reorganized on a new basis. Representing the student body were one representative from each homeroom, the class presidents, and the student body officers. This arrangement proved to be a marked improvement over the previous set-up and provided for a closer participation by the students in the school government. As the Student Council progressed, it acquired new duties and a wider scope of authority. The first job on its agenda was to organize and sponsor the annual Christmas Formal, which was carried out successfully. Besides meeting the ordinary problems which confront the Student Council, this group planned and conducted a large vocational program, during which numerous outside specialists spoke to selected groups of students about particular vocational fields.

The Student Council provided not only the opportunity for self-government now, but also invaluable experience in developing leadership for the future.

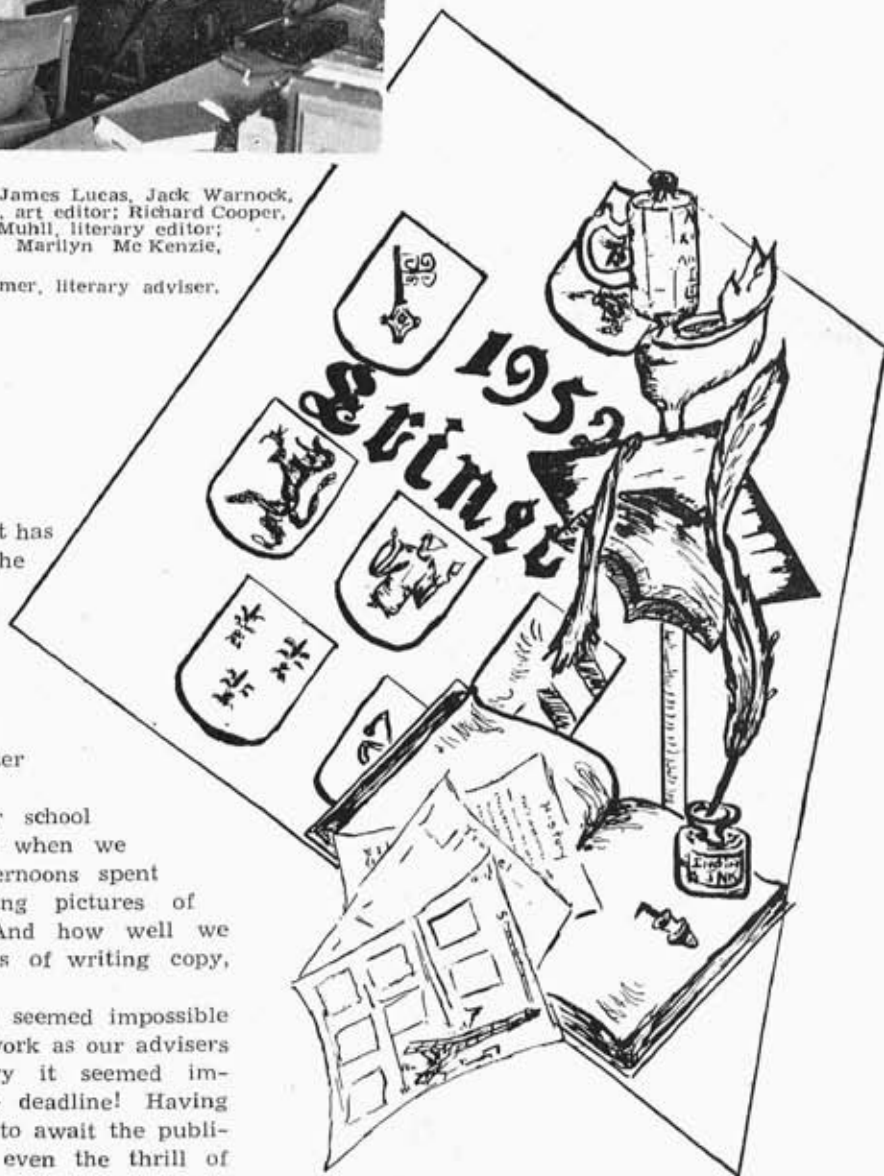

Seated: Joyce Dixon, George O'Grady, James Lucas, Jack Warnock, Jeanne Shettle, Dianne Gochmour, art editor; Richard Cooper, editor-in-chief; George Von der Muhll, literary editor; Arleen Rose, Sandra Vadney, Marilyn Mc Kenzie, Morley Mc Call, Jackie Perrine.  
 Standing: Miss Long, art adviser; Miss Kramer, literary adviser.

## Annual Staff

This year's Annual staff was the best that has ever worked on Frankfurt's section of the **Erinnerungen**. The art staff surprised Miss Long with their inspired masterpieces, the literary staff composed models of scintillating prose, and amateur photographers poured in their snapshots by the thousands! It was almost like a dream. As a matter of fact, it was!

There were the days we stayed after school until six, and there were Saturdays when we worked all day. There were the afternoons spent tramping around everywhere, snapping pictures of everything from operas to the P.X. And how well we remember the seemingly endless nights of writing copy, rewriting copy, and editing copy.

At the beginning of the school year it seemed impossible that the Annual would require as much work as our advisers predicted. By the middle of January it seemed impossible that we could ever meet the deadline! Having accomplished our task, we settled back to await the publication of our "masterpiece". But not even the thrill of seeing our part of **Erinnerungen** in print can overshadow the experience we gained, and the memories of our work together as an Annual staff.

## GIRLS' DORMITORY

It's ten-thirty in the girl's dormitory at 123 Grünebergweg, and except for a faint light peeking from under the door of the office, the building has supposedly quieted down for the night. A girl tiptoes across the hall on the first floor, and as the boards squeak under her feet, the music that was coming from the corner room suddenly disappears. After a few minutes, the music begins, and then . . . . . RRRRRRing!

The girls sit up, listening. Seconds pass, and . . . . . RRRRRRing! the telephone rings again. Feet are heard pattering across the hall, and a pair of beady eyes peer down from the stairs . . . . . RRRRRRing! More heads appear along the banister. A distant flop . . . flop . . . flop is heard and the heads disappear into the darkness, but not too far back to hear, "Hello? . . . Yes? . . . This is the girl's dormitory. Long distance? I'll wait." The heads re-appear along the banister.

"Hello . . . Yes? . . . No, I do not know what has four legs, eats oats, has a tail, and sees equally from both ends!" There is a clatter of a receiver being slammed back on the hook, and a voice mutters, "A blind horse", as the flop . . . flop . . . flop dies away into the darkness.

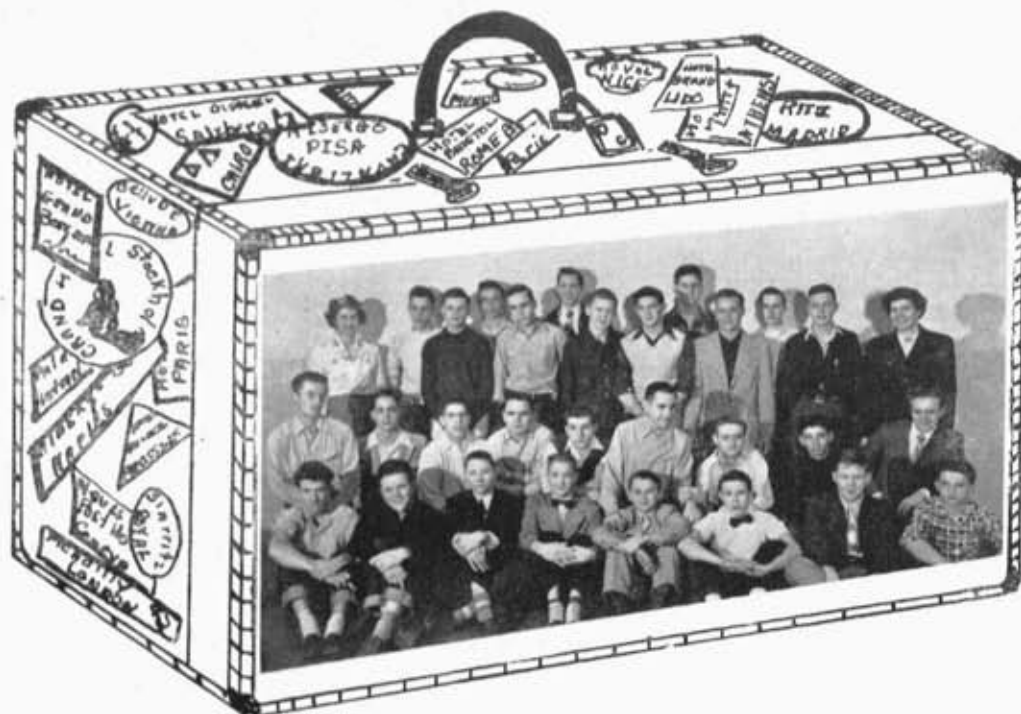

Ten-thirty becomes eleven, twelve . . . and it's seven o'clock. There are three loud shrills from the bell; a girl crawls out of her cot, and stumbles out into the hall. She opens one eye slowly, and glares at the list of names on the wall; she's CQ again. She opens one of the doors and mumbles, "Seven o'clock." Then she goes into her own room and crawls back in bed.

At ten to eight the building suddenly becomes alive with screams for the electric iron, lost books, and nail polish. When the bus stops in front of the big, gray building, girls stream out . . . some with their hair in curlers, and some without lipstick. The bus rattles away at last, and the dormitory settles down for the sleep it didn't get during the night.

Life in the dormitory has been an experience, or several experiences, that none of us who have lived there will ever forget. We started the year off with the introduction of our new "mother", Mrs. Ervin, and the election of our dorm council. There was the freshman initiation, when all of the upperclassmen adopted "little sisters" from the underclassmen. Our "birthday party" was the big event of the month, especially since we tried to outdo the boys, who took turns giving the party. But the highlight of each week was Friday, the big day when we boarded trains, planes, and anything else that would roll, and left Grünebergweg for Verdun, Kassel, Giessen, Brussels, Bonn . . . those far away places with the strange sounding names, our homes.

## BOYS' DORMITORY

The bus creaks to a weary stop before the green three story building at 63 Cronstetten Strasse, and boys, boys, and more boys pile off and go into the building to begin another week at Frankfurt High School. This is Sunday night and Miss Pittenger and Miss Weaver, the two dormitory supervisors, know what's coming.

The boys drop their bags and head for the front door again. That is the last that is to be seen of them until nine-thirty, when they have to be in. Then the fireworks begin. The "lights out" bell is only the warning for them to duck back into their rooms, but then... WOW! Perhaps just a little bit of light betrays a boy on the second floor, or a laugh that is just a little too loud brings the supervisors upstairs, or "Music Till Midnight" has a song that is just a margin louder than "The Stars and Stripes"... In any case, the demerits pile up on Sunday night.

The rest of the week is relatively quiet except for a few card parties or ping-pong games that are too exciting to keep calm about. Dragging a guy through the showers on his first night in the dorm, or crumbling graham crackers in a friend's bed are only a few of the "darling little things" that our "angels" from Cronstetten Strasse enjoy.

Between nine and ten (right after study hall until "lights out") the longest line in the dorm is that to the phone, because it only takes four twists of the finger to get a connection with the girl's dorm... unless someone else has the line.

School life from the dormitory point of view is different, to say the least, from that of a student living at home. Of course there is a lot of good-natured griping about the restrictions that living with such a large group places upon you, but when the final analysis is made, the advantages far outnumber the disadvantages. We have companionship that we otherwise would not enjoy; we have an independence that other boys our age do not have, and therefore learn to use it more wisely; and we probably do more studying than we would have done at home, because of the regular study hall between seven-thirty and nine.

Friday comes, slowly but surely, and once more the bus pulls up to the dormitory, ready to carry the boys and their bags to the train. Thirty boys bid farewell to 63 Cronstetten Strasse and happily climb on, not to return until Sunday night rolls around once more.

First Row: Bud Dixon, James Mass, Garry Silvers, Bill Troescher, Durwo Traudt, Sonny Daniels, Leo Fox, Bill Fr. Second Row: Tom Williams, Tom Barn, Jack Platt, Jack Willard, Thorn Walk, Jim Lucas, Gerald Stanley, Burt V. Leuven, Dave Rose. - Third Row: M. Weaver, Dormitory Counselor, Geor Mitchell, Mike Boerner, Jim Sherra, John Garrett, Ray Jewett, Dick Persa, Ted Robinette, Joe Jenike, Ted Coll, John Hare, Bill Holmes, Miss Pitteng, Dormitory Counselor.

First Row: Carolyn Dixon, Pat Sizemore, Ardis Saltino, Virginia Barnes, Arleen Rose, Frances Kingham, Carol Pullis, Melva Lou Toming.  
Second Row: Gail McCall, Jean Zwicker, Torley McCall, Marilyn McKenzie, Dianne Johnson, Joyce Dixon, Barbara Wolfberger, Phyllis Hodge, Ruth Hansen, Sandy Vadney, Carol Blanchard, Lorraine Lewis, Marlene Grigg, Mrs. Erwin, Dormitory Counselor.

## FOOTBALL

Frankfurt High entered this year's Football season with a new coach and, with a few exceptions, new players. In the short time available, Coach Bownes whipped the inexperienced team into form, but the first game brought Frankfurt a 14-0 defeat. Although the second and the third games, too, resulted in defeat, intensified practicing and scrimmaging enabled the team to outgain its opponents in net yardage. With each game the squad gained invaluable experience and showed progressive improvement.

The fourth and final game, which ended in a 6-6 tie, proved to be a great moral victory, bringing the season to a successful though premature close from the team's point of view.

Row One: Wally Lund; Paul Zietlow, co-captain; Jack Willard; Harry De Vore; Richard Cooper; Ronnie Ballinger, co-captain; Barry Wiksten; Kenneth Washburn; Bill Frye, manager.  
Row Two: Bob Castle; Fred Treitz; Jack Platt; Earl Wilson; John Hare; Ted Robinette; Jim Arbour; Thorn Walker; Willy Sanders; Phil Hesse; Tony Knox.

Row Three: Mr. Bownes, coach; John Walker; Jim Fitzwilliams; Don Long; Jim Dixon; Dick Person; Harold Young; David Ballinger; Julian Stevenson; Sherman Smothers; Jim Casale; Bill Green, manager.  
Missing: George Von der Muhll; Jack Meier; Todd Alles; Jim Searcy; Mike Virden.

## BASKETBALL

The Frankfurt High basketball team, with valuable contributions of players and a coach from other schools in the Zone, got off to one of its most successful starts in years. Despite the lack of a regular practice court, the squad's skill and teamwork were immediately apparent to the enthusiastic spectators from the very beginning of the season.

However the first big test of the year, in the opinion of players and students alike, was the game with Munich. In one of the roughest but most exciting contests yet seen in Bloss Hall, Frankfurt came out on the long end of a 38—35 score. With high hopes for the tournament the team now faces the second and more difficult half of the basketball season.

Kneeling: Bill Frye, manager; Jack Platt; Jesse Dale; Thornley Walker; Bob Castle; Ronnie Lyons; James Spivey; Dick Person, manager.  
Standing: Ted Robinette, manager; Irwin Setzer; Bob Bacher; Woody Long; Wally Lund; Joe Jenike; Bill Martin; Will Beal; Coach Jack Bownes.

## On wings of song

First row: Miss Barker, choir director, Jackie Perrine, Claudette Devine, Barbara Santoro, Nera Lee Quesnot, Jean Hahn, Sandy Beddiehlmer, Joan Davenport, Edna Garcia, Theresa Alex, Phyllis Hodge.

Second Row: Salita Burch, Nancy Clark, Esther Devlin, Cora Gear, Pat Prophet, Gloria Henninger, Laurine Foreman, Ardis Saltino, June Orr, Joan Hahn.

Third Row: Pat Ritter, Shirley Williams, Barbara Melzer, Edna Levens, Marilyn Ringey, Carolyn Millican, Toya Wynn.

Fourth Row: Bert Van Leuven, Ted Colley, James Massey, Ken Washburn, Don Long, James Outland.

Fifth Row: Thornley Walker, John Setzer, Jim Fitzwilliam, Harrison Simons, Charles Brown.

The chorus, under the direction of Miss Barker, this year participated in many activities both in and outside of school. The first major undertaking was a Christmas program, given for the students in school and for the public at the Little Theater. Singing for the patients of the 97th General Hospital proved to be most enjoyable to the members of the choir as well as to the listeners. Spring brought the highlight of the choir's various programs, the May Music Festival. Here groups from all over the Zone gave a public performance and competed with one another. The chorus has become one of the school's most active organizations.

## And the band played on

First Row: Jan Alexander, Salita Burch, Ray Jewett, Frances Doherty, Harry DeVore.  
Second Row: Barbara Wolfspurger, Nancy Clark, Lorrain Lewis, Joyce Dixon, Marilyn Ringey, Alta Minthorn, Joan Davenport, Helen Bailey, Virginia Gilmore, Miss Barker.

Third Row: Barbara Santoro, Gail Garrett, Carolyn Millican, Marilyn Landmesser, Barbara Melzer, James Fitzwilliam, Dick Person, James Massey, Bert Van Leuven, Jane Timm.

Fourth Row: Jim Lunde, Chuck Brown, Denver Garner, Bob Griffin, Pete Frankum, Claude Langas, Edward Distin, Morgan Lamb, David Ballinger, Donald Fisher, Robert Blackwell, Jack Griffin.

Almost fifty students with little or no experience in instrumental music signed up for the band at the beginning of the year. Miss Barker organized classes for the various sections, including woodwind, brass, and percussion, and from this group a band slowly evolved. As instruments were next to impossible to obtain, and practically all of the talent was untrained, this year has been spent in working out the rough spots so that in future years Frankfurt High School will have a band of which we can be proud.

There's more to photography than just snapping a picture. The members of the Camera Club delve into the intricacies of photographing and film processing, including developing, printing, and enlarging. After learning the finer points of taking pictures, the club held a contest in which the members competed for the distinction of having taken the best photograph. For the shutterbugs this club provided a chance to compare their work with others and gave an insight into the many other phases of photography.

The Science Club was an innovation at Frankfurt this year. For the scientifically minded it provided an opportunity to probe into the secrets of physics, chemistry, and biology. Members could spend their lunch hours and free periods in the laboratory doing experiments supplementary to the science courses, or they could touch on entirely new fields. Sponsored by Mr. Doherty and Herr Richter, this club offered unparalleled advantages for individual research in the pure sciences.

## Engineers of tomorrow

Second Row: Richard Cooper; Wally Lund; Mr. Altschuler; Joe Jenike.

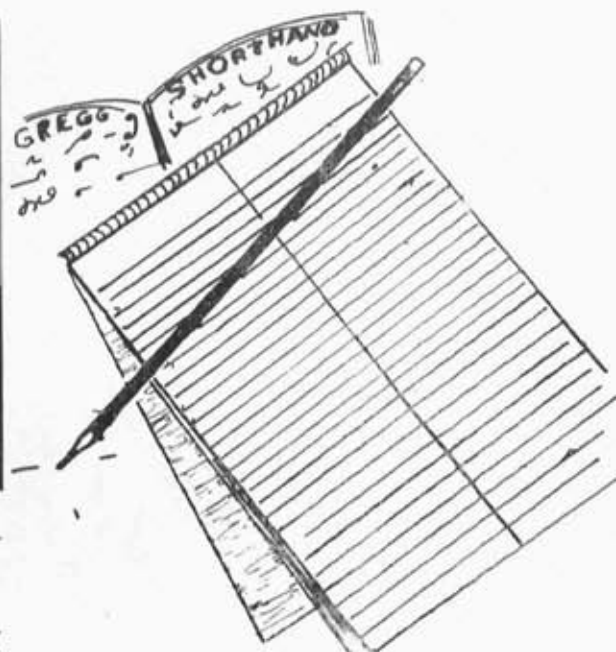

For the advancement of students interested in mathematics, a math group meets twice a week with Mr. Altschuler and Miss Wright. While the general purpose of this organization is to advance the individual member's knowledge in specific math fields, the instructors are always aiming at the thorough preparation of the members for the mathematics phase of their college entrance examinations. The members have, in addition to some college algebra, a working knowledge of the slide rule, and an elementary knowledge of analytical geometry.

As the Frankfurt curriculum does not have room for a course in shorthand, Mr. Stevens organized a club at the beginning of the year which met the demand for such a course. Meeting every Monday, Wednesday, and Friday at 12:25, this group of interested students managed to master the fundamentals of Gregg shorthand and dictation.

With the purpose of teaching the rules and moves of chess, and improving the playing ability of the members already familiar with the game, the Checkmate Club has become one of the best patronized gatherings in our school's club program. Mr. Altschuler, its able instructor, is particularly interested in having the members know and observe the courtesies of the game.

This year's members are classified in two distinct groups — one for beginners, the other for those who desire to improve their game. In addition to intra-club competitions of various types, tournaments with nearby high schools and with several German groups were held.

Frankfurt's peppy cheerleaders, led by their captain Sara Serff, added several new cheers to the list of our old favorites and once more made a substantial contribution to the school spirit of Frankfurt High.

Under the sponsorship of Miss Nish the cheerleaders supplied that spark of life and color to our football and basketball games which means so much to spectators and players alike.

*Handwritten:* Sandy, look going to feel funny next year. Oh well, I'm happy. I'll be a cheerleader next year. Team! Team! Team!

The Lettermen's Club consists of those who have received letters for their participation in the various high school sports. This honorary group provided a social group easily called together for planning and carrying on dances and other social activities. In addition to this, the Lettermen's Club has frequently assisted in such school duties as patrolling the lunch lines and maintaining order at basketball games.

The Pep Club, which was organized last year, is made up of junior and senior girls, with the cheerleaders as honorary members. Miss Nish, the new physical education instructor, is their sponsor. The girls were very much in evidence at the football and basketball games. Making pompoms, distributing programs, and cheering the team on, they greatly assisted in maintaining school spirit.

During this school year the Girls' Athletic Association has gone on with the program that was set up throughout EUCOM in the fall of 1950. The Spring Playday, in which the physical education departments of all the American high schools in our area participated, was the big event of the year. But the daily activities of the girls — hiking, bowling, skiing, tennis, and innumerable others — were the important work of the GAA. The girls earned a certain number of points for each hour of both supervised and unsupervised activity in the qualifying sports. These activity points counted at the end of the year toward awards set up by a committee of the physical education teachers, and helped to encourage participation in all types of sports.

The Jazz Club was an innovation this year and attracted much attention. Under the guidance of Miss Barker the club studied the development of jazz through an interesting program of field trips, concerts, and noon-time listening sessions. The success and popularity of this club seem to assure a steady increase in membership during the coming years.

The Bowling Club, under the sponsorship of Miss Nish, got off to a rolling start this year. Teams were chosen and every Tuesday afternoon the alleys at Betts Area were crowded with the various teams, each trying to get the highest score of the week. Early this year a tournament was held on a handicap basis, thus enabling the inexperienced members to compete with the old-timers. The Bowling Club hopes to extend its activities by instituting a series of tournaments with other high schools in Germany.

# WE MEET

"A country is known by its people... What people think about your country depends on you!" How often, during the month, year, or years that each has spent in Europe, have we heard that expression! We are separated by the Atlantic Ocean from the communities in which we were brought up. On the other hand we enjoy the opportunities that Europe offers us for developing a broader outlook on life and a greater understanding of the world in which we live while we act as unofficial diplomats of democracy.

Contacts with the public are innumerable in everyday life; we meet the Germans in the opera, the French in their cafes, and the Belgians in

their shops. We exchange visits in homes and schools. Since our environment plays such a great part in our life in Europe, it is important that we make the most of our encounters with these other people, and that we encourage these relationships. They benefit not only us, but also those with whom we come into contact. Since America is in a position of prominence in the western world, the European people look to her for leadership and advice. There is no better medium for furthering democracy than the free exchange of ideas, and there is no better way to a fuller understanding of a complicated Europe than close associations with its people.

As we seniors bid farewell to Frankfurt High, we are leaving behind us not only our school life and friends, but also the unique advantages which living abroad has given us. Because of this opportunity we have been able to broaden our education by first-hand acquaintance with the cultural traditions of the Old World. Sharing as we do European art, literature, and music, we have been fortunate in our chance to visit the birthplace of Western civilization. Many of us, moreover, have a direct interest in this continent, since we are removed from it by only one or two generations. These circumstances, combined with our American background and outlook, have opened new vistas for us all. — With the world growing ever smaller, we can no longer afford to be ignorant of other lands and other peoples. As we become increasingly aware of the ties that bind Europe and America, we feel confident that these experiences in the Old World will help us to understand and cooperate with the people among whom we have lived during our high school years.

Now is the hour

Now is the hour when we must say good-bye,  
Though we are parting, memories <sup>will not</sup> ~~never~~ die;  
All through the year, wherever we may be  
Dear Alma Mater, we'll remember thee.

### Senior Class Song

To the halls of Frankfurt High School  
We bidding our farewell,  
For we are awaiting  
Our last dismissal bell.  
We've shared these years together  
These years of work & play,  
And we will not forget you  
Though we're far, far away.

HEIDELBERG

### HEIDELBERG HIGH SCHOOL HISTORY

Heidelberg High School was founded in October of 1946. The original school was located in the Bunsen Schule, near the old university. Bunsen Schule was built by funds donated by Robert Bunsen, inventor of the Bunsen burner. The fine facilities made for a fine school, but the student body soon outgrew its size. In 1947, the school moved across the river to a German teachers' college, where it occupied the left wing of the building.

By Easter of this year, work was completed on the new school, located at Eucom Headquarters. The High School occupies the third floor, while the other two floors are occupied by the Elementary School and Junior High. The building is completely modern, with new chemistry and physics laboratories which the school has badly needed. There is also a large gym, to be ready for use next year.

During its existence Heidelberg High School has had only two principals. The first, Miss Baxter, was called back to the states in 1947, after a year's service. She was succeeded by Miss Linck, who has ably supervised school activities since then.

TIME: 1972

PLACE: Metropolis, U.S.A.

SCENE: A Tea Room

A sheet of rain blankets the city. The streets are pooled with water. A figure patters from shelter to shelter, stops on the curb, and searches for a break in the traffic. Seeing one, she dashes across the street to stand dripping in the doorway of the Abbie Mae Tea Room. The door opens and a man attempts to pass. In the light thrown from the interior, he recognizes the person and exclaims, "Why, aren't you Dorothy Arnold?"

"And you — you're Mr. Brown! What a small world."

"Well, let's not stand here; let's go inside and talk over old times."

They enter, order, and simultaneously turn, saying, "Isn't that . . ." They stop, laugh, and Miss Arnold says, "That girl reminded me so much of Gerry Maurer. But it couldn't be."

"No, replies Mr. Brown. She is raising white mice for the Mayson Research Laboratory, one of the many foundations financed by that world renowned philanthropist, Morgan Mayson. Have you heard from any of our other '52 seniors?"

"Why, yes, some of them. Let's pool our efforts and see if we can place everyone."

"Karen Baldry has just returned from her tenth trip to the Congo where she bagged her sixth depertia. Ed Rehmann was there, too, making sketches of the African Pygmy for the Encyclopedia Britannica. I heard that while he was there he ran into Hudson Phillips who is a missionary to the Pygmies."

"I know that Jimmy Partin is modeling for Mary Fillinger who is doing the illustrations for Joan Muschamp's latest book, *A Day in Sparta*."

"Bill Tulley has spent these twenty years in a vain search for some way to restore his curly locks."

"Isn't it wonderful how many of our former students now serve humanity? The International Society of Physicists selected Vera Lea Virant as the 'Scientist of the Year'. And there are so many in children's work. There's Ann Furuholmen packing bundles for the underprivileged children in Slobbovia, and Fred Jacobs is writing kiddie stories."

"I read yesterday that Willis Teale is returning to Germany this summer to take up his new duties as head of the GYA. And did you know that Dick Rogers is a County Probation Officer for the Juvenile Court here?"

"No, I didn't. I heard that Mary Ann Harvey is county sheriff. I wonder what happened to Walt Parsons?"

"Hadn't you heard? He is down in Bryan now as head of the Parsons' Home for Texas Brags. His most prominent boarders are Dot Nelson and Sue Brooks. Oh, yes, Chuck Raymond and Jim Baker

are heading the Anti-Homework Union in New Jersey. Joe Zingales is there, too, raising prize chin-chillas for a living."

"I'll bet you haven't heard of Dick Coleman's being selected moderator of the Bird Watchers Association."

"As a matter of fact, I did. I heard about it from Bob Springer yesterday. Bob is leaving with Cob Bakken next week for Nuernberg. You know, those boys are still bachelors after all these years."

"Dave Kendall's a bachelor, too. Guess he just can't settle down."

"Say, Haldean, have you tasted these brownies? They're delicious!"

"As a matter of fact, they were baked by Josephine Ferree and her Girl Scout troop. Speaking of Girl Scouts, I hear that Shirley Archibald is the new Council Executive here."

"I hear that the March of Dimes Drive is doing very well. With Anita Williams as coordinator, they can't go wrong. Oh, Hal, would you mind turning on the TV set over there? I never miss Mary-lou Bernard and her home cooking demonstration."

"Not at all, do you ever listen to Jim Gunther on his program, 'Uncle Herbie reads the Funnies'? And yesterday Robert Hess gave that beautiful harp recital."

"I heard that. Several of our students are in the music field. In the Marblehead Philharmonic Orchestra we have Roger Hall playing the bassoon, and Bill Duryea is the first violinist. That reminds me Jim Radcliffe sings tenor in the church choir on Park Street, and Shirley Valentine is a favored soloist on NBC."

"Yes, and at the State Fair last year David Kendall had the concession of 'Bumper Cars'. Ruth Ann Gjelsteen won the walking horse competition with her horse, 'Peppy'. Barbara White was there, too, with her new feedbag creation."

"There's Shirley Rowan, who is married and has triplets. And Barbara Driver — whatever became of her?"

"Barbara is the new director of the Casa Carioca. You know that Liz Nash is the star of the new ice show there."

"Yes, and Keith Walters is physical culture director at William and Mary. Earle Ormiston is also at William and Mary seeking information for his book, **Motorcycling, Your Road to Health.**"

"Let's see whom we've left out. There's Johnnie Johnson who is now playing the part of Bloody Mary in **South Pacific**. Tony Phillips teaches now at Heidelberg High, and Dick Shipley has just published his new book, **How to get through College — Easy.**"

"Hmmm. Well, Dorothy, it has been nice to see you again after all these years. I'd best get back to my relativity experiment."

"And I to my antique shop. I hope to see you again. Goodbye."

# LAST WILL AND TESTAMENT OF THE SENIOR CLASS

WE, THE GRADUATING CLASS OF NINETEEN HUNDRED FIFTY TWO OF HEIDELBERG HIGH SCHOOL, HEIDELBERG, GERMANY; BEING OF SOUND MIND AND BODY, DO HEREBY DECLARE THIS TO BE OUR LAST WILL AND TESTAMENT:

I, Shirley Archibald, bequeath my height to Donna Heine;  
I, James Baker, will my warm spot on the football bench to Ludlow Adams;  
I, Marylou Bernard, leave all the stitches I've dropped in knitting to Carol McManaway;  
I, Bill Duryea, bequeath my football birdcage to the Junior with the prettiest schnozzle;  
I, Mary Fillinger, will my quiet ways to the loud Freshmen;  
I, Ruth Ann Gjølsteen, leave my "P-E-P" to Anna Mae Ferree;  
I, Roger Hall, bequeath my quaint personality to Hal Lyons;  
I, Jane McEldowney, will my interest in military academies to Pat Poucher;  
I, Joan Muschamp, leave my twenty-one inch waist to Bonnie Bailey;  
I, Bill Phillips, bequeath my beret and a Musketeer foil to Ray Bell;  
I, James Radcliffe, will my football ability (?) to next year's team;  
I, Ed Rehmann, bequeath six inches of my height to Mike Johnson;  
I, Dave Schamber, leave my "Kendall-Ration" to Bill Holland;  
I, Jim Skelly, bequeath my leg cramps to anyone who wants them;  
I, Willie Teale, leave nothing — I take it all with me;  
I, Bill Tulley, will my hair to anyone who needs it more than I do;  
I, Shirley Valentine, leave my athletic abilities to Barbara Adams;  
I, Anita Williams, leave my cheerleading abilities to Bev Williams;  
I, Bob Hess, will my basketball ability to Scott Marshall;  
I, Johnnie Johnson, leave my "Come on, guy" to a dumb Junior;  
I, Vera Lea Virant, leave my Senior year to my sister, Nita;  
I, Joe Zingales, leave my Joe College hat to Bud Howard;  
I, Mary Ann Harvey, bequeath my hand-me-down book reports to posterity;  
I, Walter Parsons, leave for God's Country in "Aggieland."

## HISTORY OF THE JUNIOR CLASS

The Junior Class in Heidelberg High this year is the largest class that the school has ever had. In September the class elected officers. Walt Morgan, the Vice-President of the Sophomore Class last year, became president this year.

The treasury was slowly but surely built up through the year until we reached our goal of six hundred dollars shortly before the Senior Prom. All the Seniors agreed that it was the best dance of the year. The money-raising events included a cake sale, the sale of beanies which were so popular during the year, the leap-year dance, and also the sale of programs which gave "class" to our basketball games. The battle cry of this year's Junior Class was, "Wanta buy a ticket to the . . .?"

The class was the best represented on this year's championship football team. On the team were Walt Morgan, Andy Johnson, Larry Burchell, Bud Howard, Ray Radcliffe, Bill Henning, Red Hutchison, Ray Bell, Hugh Robie (co-captain), Lucky Jenison, Jerry Moyers, Chuck Cunningham, Hal Lyon, Phil Roberts, Graham Stokes, Bob Moore, Gene Livensparger, Bill Murphy, and John Hill. Dave Rogers was Student Manager of both the football and basketball teams.

On the basketball team we had Larry Burchell, Chuck Cunningham, Bill Roosma, Bob Moore, Walt Morgan, Lucky Jenison, and Clark Valentine.

And let us not forget the girls! Margie Stephens, Pat Poucher, and Sari DeJuhasz represented us as our peppy cheerleaders and did a find job of instilling school spirit into Heidelberg this year. Margie left in February and Sari took over from her.

Our advisers — Miss Scott, Miss Wall, and Miss Frazer — have helped us in our success this year, and Boy!! are we ever looking forward to being Seniors next year!

## HISTORY OF THE SOPHOMORE CLASS

Heidelberg High School had an unusually large Sophomore class this year. We were divided into three home rooms with Mrs. Watson, Miss Ayton, and Miss Foard as sponsors. The class offices were held mostly by boys. Our president, Charles Maxwell, was also a capable basketball player and honored us along with Chick Harrison by being on the Heidelberg basketball team. The elected vice-president was Chick Harrison; the Secretary, John Ferrick; Treasurer, Gay Burkett; and Student Council Representatives were Pat Towers, Frank Chilton, and Reid Grover. Dacia Custer and Sally Brown represented us on the cheerleading squad at Heidelberg. We were proud of their efforts to instill school spirit at athletic contests and assemblies.

The Sophomore basketball challenges of the Senior team resulted in one win, 53-49, and one loss, 63-59. The team is made up of Bill Maxwell, Lennie Katsarsky, Jack Houston, Richard Stevens, Ray Burgamy, Frank Chilton, Bob Dey, Jim Searcy, Harry Foster, Reid Grover, and Gary Schipporeit, and manager Bill Wood. Also, we had Lennie Katsarsky and Ludlow Adams on the Championship Football Team at Heidelberg.

We are looking forward to many more happy times next year as Juniors.

# FRESHMEN

Bill Zierdt  
President

Richard Johnson  
Vice-President

Jill Carson  
Secretary

Benjamin Evans  
Treasurer

On the fateful morning of the Frosh Initiation we arrived at school in fear and trembling knowing that at least for that day the most unhappy people in Heidelberg High would be ninth graders.

True to tradition the masculine part of the class were brightly painted with lip-stick and clothed in sweet little skirts at the becoming length of three inches above the knees. Combat boots added the finishing touch to their foolish attire.

The freshmen girls were pale and washed out without their make-up and with their pig-tale hair-do's. To add insult to injury every braid was tied with a different color ribbon. We were glad when the initiation was over, but to let you in on a secret we rather enjoyed it, too. Now we are looking forward to initiating the next freshman class.

During the year we elected outstanding members of our class as officers. Bill Zierdt was president, Richard Johnson was vice-president, Jill Carson was secretary, and Ben Evans was treasurer. There have been two homerooms: Miss Simmon's in 201 and Mr. Baldwin's in 304. We have had separate officers for each homeroom and have re-elected new ones every six weeks.

Most freshmen belong to Army families although we have a few Navy and civilian representatives.

We have had two girl's basketball teams and an excellent boy's team. We also elected some cute and peppy little cheerleaders: Jill Carson, Elizabeth Custer, Juna Fincher, and Lyn Mc Clure. Many new people have entered our class during the year and we look forward to a bigger and better year as sophomores.

## FOOTBALL

The Heidelberg High Lions won the 1951 football championship with no defeats and one tie. The Lions downed the Frankfurt Eagles twice by the scores of 14-0 and 27-12, and defeated the Munich Mustangs 14-7 in the big game. Heidelberg's tie came in Munich when the Mustangs came from behind to even the score at 12-12.

The boys who scored the points in the backfield were Bob Springer, Jim Skelly, Co-captain Hugh Robie, Bob Moore, Dick Rogers, and Gross Jenison. The capable Lion line consisted of Phil Roberts and Graham Stokes at center; Co-captain Cob Bakken, Al Howard, Ray Radcliffe, and Andy Johnson at guard; and Bill Tulley, Walter Morgan, Ed Rehmann and Jerry Moyers at tackle. Alternating at the end spots were Larry Burchell, Bill Duryea, Bill Henning, Chuck Cunningham, Hal Lyon, and Gene Livenspargar.

Much credit is due to Coach Clayton, Heidelberg's new Head Coach; and also to Coach Lohela, Major Hall, Lieutenant Dabble, Miss Linck, and the rest of the faculty and the student body for their work in making this season so successful.

Standing: Manager Dave Rogers, Coach Clayton, Keith Walters, Walt Morgan, Larry Burchell, Lucky Jenison, Morgan Mayson, Bob Hess, Bob Springer, Bill Tulley, Dave Murphy  
 Kneeling: Charles Maxwell, Jim Skelly, Hal Lyon, Cob Bakken, Roger Hall, Chuck Cunningham, Chuck Harrison, Bill Roosma, and Bob Moore

The year 1952 was especially favorable to Heidelberg's basketball team. Boasting the return of last year's first string plus the addition of topflight material from the states and other Eucom high schools, the "Lions" established themselves as the team to beat in league and tournament play.

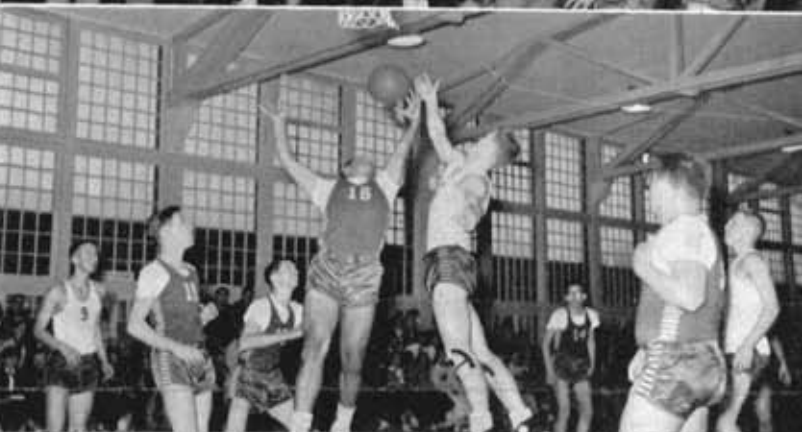

In the season's opener they gave early indication of their deep strength on the bench by trouncing Wiesbaden 73 — 24. They then went on to defeat Munich 50 — 37, Bremerhaven 53 — 13, and Nurnberg 79 — 35. They ended the season as champions of the 1952 Eucom Basketball Tournament.

# HONOR SOCIETY

Membership in the National Honor Society is the highest honor to which a student in Heidelberg High School can attain. It represents not only outstanding scholarship, but also high character and service to the school.

The members are chosen by the faculty. President for this year was Ann Furuholmen, and the other members were: Jim Baker, Hal Lyon, Gary Roosma, Bob Hess, Walt Morgan, Dave Rogers, Morgan Mayson, Bob Springer, Sari De Juhasz, Willis Teale, Bill Roosma, Jim Skelly, Roger Hall, Brian O'Neill, Dave Murphy, Andy Johnson, Bonnie Bailey, Bev Williams, Elizabeth Krayer, Anna Mae Ferree, Vera Lea Virant, Karen Baldry, Joan Holmes, Anita Williams.

# STUDENT COUNCIL

The Heidelberg High School Student Council operates with one goal in mind: the betterment of the school. During this year the Student Council has done much toward achieving this goal.

The president for this year was Morgan Mayson, and the faculty adviser was Mr. Lohela. Meetings were held on Monday of each week, and discussions were held on suggestions given to the council by the student body.

- Standing: Larry Burchell, Walter Morgan, Bob Moore, Reid Grover, Richard Johnson, Dave Kendall, Ben Evans, Mr. Lohela, Frank Chilton, Bill Zierdt
- Seated: John Standley, Charles Harrison, Jim Skelly, Barbara Adams, Betsy Doucett, Morgan Mayson, and Charles Maxwell

## A GERMAN-AMERICAN CLUB

Under the sponsorship of Mr. Lohela from the high school, and Mrs. Henry and Frau Weber from Amerika Haus, the Heidelberg German-American Club was formed in early November for the purpose of promoting better relationship between the students of Heidelberg High and the various German schools in Heidelberg.

The club has had many activities, during the year, and we feel that we have really achieved our goal by being instrumental in creating better understanding between American and German teen-agers in Heidelberg.

# ANNUAL

Early in October the annual staff was chosen and work was begun on the 1952 **Erinnerungen**. From this time until after the Christmas holidays, the long, hard hours of work were continued.

Miss Arnold and Mr. Brown, our advisers, helped immensely with the overall production of the Annual, and Mr. Gorte was invaluable in his help with the art work.

Our staff included: Mary Fillinger, Ray Radcliffe, Shirley Valentine, Jerry Maurer, Bettyann Craft, Elizabeth Krayner, Bill Hagert, Roxanne Thomas, Shirlee Rowan, Dave Schamber, Helen Hunt, Ray Bell, Larry Burchell.

# GIRLS DORM

If you happen to walk in the door at 37 Quinkerstrasse (it would have to be by accident because if you had time to think about it you would never cross that threshold) you would, no doubt, be greeted by a screeching cry of "Let me tell you!" Don't react to your first impulse to crawl under the nearest table. It's only Ruth Ann and the Hart twins giving out with the latest news.

If you succeed in eluding this "peppy" three, you will continue through the vestibule into a large sitting room where you might have to duck to avoid being kicked by Pat and Anita, our cute cheerleaders, going through their latest cheers.

From one corner of the room come the faint chords of "Jezebel". Investigating, you find Ann Eryavec accompanying Shirley Valentine, Mary Peyton, and Roxanne, while they kill the latest tunes in the Hit Kit.

Suddenly there is the tinkle of a telephone followed by a mad scramble of females seemingly coming from all directions at once. It seems that someone is expecting a call. Soon all come dragging back; a few yelling over their shoulders at Molly to "make it short."

Amid all this clatter you might search for a nice quiet corner in which to retreat. You find just such a place occupied by two girls diligently knitting argyle socks. Take it easy Joan and Barb. You'd think the boys were getting cold feet.

The quiet of your newly found retreat is shattered by the pounding of feet, accompanied by excited shrieks of "Hurry up Helen!" It's only Jerry, Helen, and the Giezentanner twins rushing off to their riding lessons.

Probably by this time you might think this is no place for a sane person wishing to stay that way; so amid the mass cutting of poodle haircuts you make your hurried exit — if you're lucky.

# BOYS DORM

Early in September the "hungry herd" from Stuttgart, Karlsruhe, Kaiserslautern, Würzburg, Baumholder, and Darmstadt descended upon 69 Quinckestrasse, and residents of the city of Heidelberg ran once more to their wartime air-raid shelters to escape the sign-snatchers so well remembered from the last year. There were several of the same boys who had "raised Cain" last year, with an addition of many new boys who came to Germany during the summer; and after getting accustomed to a chronic state of shell shock, our new adviser, Mr. Bath, settled down for a hard year's work.

Mr. Bath has been an excellent counselor performing such duties as lending his beautiful suits (which managed to fit everybody), being well-versed on all subjects from mental hypnosis to texture of snowballs, and rousing people out of bed after he has called them for the fifty-third time.

If someone were asked to write an essay on the character of the boys' dorm, it would be an easy task. The boys' dorm has more characters than any other institution of its size! It takes a newcomer several weeks to get used each boy's personal eccentricities.

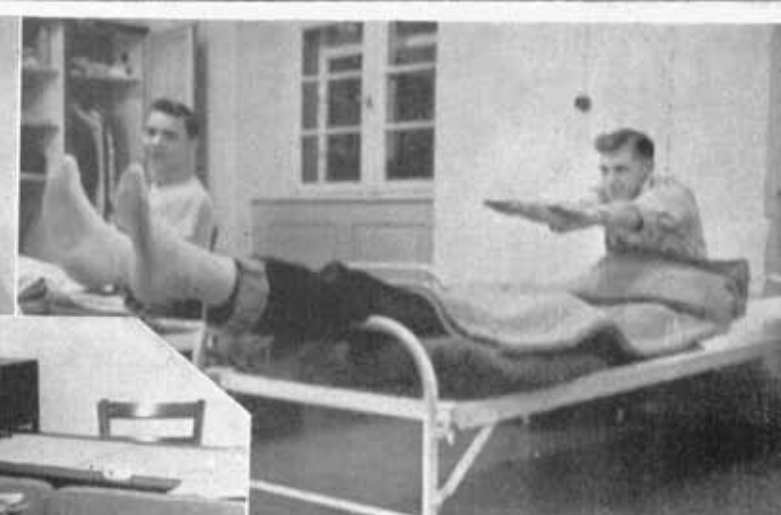

Several new steps have been taken this year under the guidance of Mr. Bath. Special new privileges were given to the "almighty seniors" - such as staying up an hour later for study in the day room and an extra night out each week. A Dorm Council was also chosen with Ed Rehmann as President. Dorm meetings were held once a week. The year has produced more successful student government without taking away the good times that we enjoy in the dorm.

## SCHOOL HISTORY

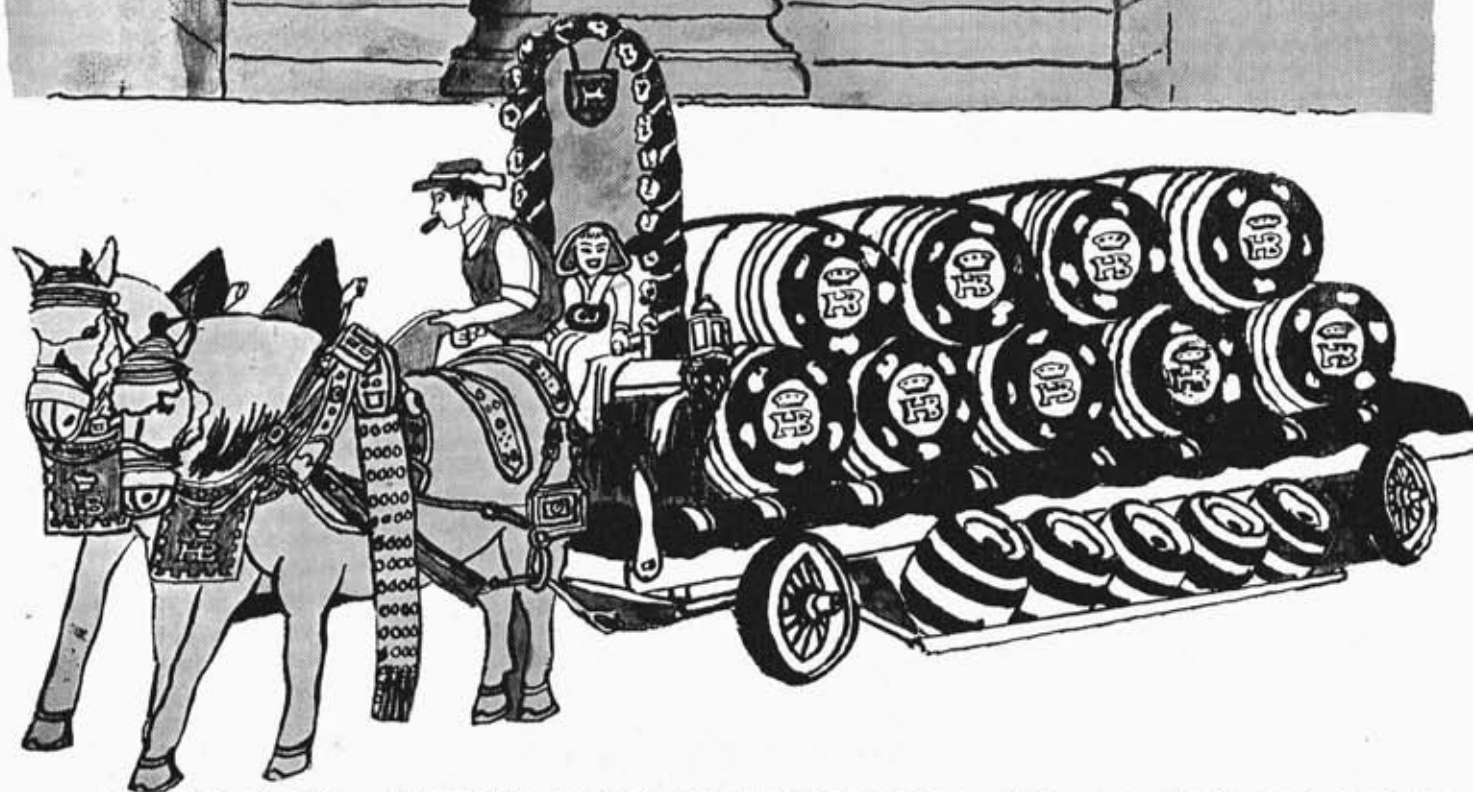

On October 14, 1946, the Munich American High School was first organized. At the beginning of this initial year both the grade school and the thirty-two eager high school students were taught in two private German homes.

However, 1947 saw an increase of thirty students over the ninety-six total of the previous year. The faculty also gained one new member. This raised the number of teachers to six.

The school was forced to find a new location in 1948 because the houses became overcrowded and inadequate to accommodate the increase in enrollment. The wing of a German school, therefore, became the new American school. On February 9, 1948, the transfer was made. During the year the seniors numbered twenty-five, and the total high school enrollment was 159.

In 1949 another jump in enrollment occurred, and finally, in 1950, the school became so crowded that a new school was erected. The high school once again moved on January 3, 1951, to the new building. This year, with Mr. Rex L. Gleason as principal and Mr. Roy T. Diduk as superintendent, the total high school enrollment reached 197. The senior class enrollment was 29, and the faculty increased to 19.

The Senior Class of Munich had its beginning back in the days of 1948 and 1949 when 50 freshmen entered the doors of M. H. S. to begin a new and exciting phase of life. Class officers were Bill Green, Harry Webster, Pat Clay, and Richard Walthers. Dave Friske was elected Student Council representative.

The sophomores of 1949-1950 were 60 strong. Class officers were Dave Friske, Don Hayes, John French, John Bell, Marian Smith, Betsy Ball, and Alden Kirkman, who led the class in many activities. Student Council representatives were Jo Ann Godfrey and Bill Thode.

The junior year of the class of 1952 was spent in planning many activities, participation in athletic events, and working on many school projects, such as the school newspaper. Only eight members of the previous year were with the class, but all of these participated in numerous school activities. The class elected John Hare, John Bell, Jo Ann Godfrey, Bill Wood, Leslie Foster, Pat Hopkinson, Bob Norby, and Don Hayes as class officers to guide them through the 1950-1951 school year. Dave Friske and Doug Pung represented the class on the Student Council. In this final year, the class of 1952 has the smallest enrollment of its history. Only 34 seniors came through the doors of M. H. S. to enter the homeroom of Miss Priscilla Brown. Of these seniors only two enrolled as freshmen in Munich; they are Dave Friske and Ronald Rackleff. Charles Pickett is president; Jack Woodard, vice-president; Melba Tetidrick, secretary; and Pat Hopkinson, treasurer. These class officers are to be commended for their leadership. The Student Council drew three seniors this year. President of the Council is Simon Simons; Bob Cannefax is vice-president; and Bill Ricker, class representative. The class is well represented in the athletic field, in the scholastic line, and in various school activities, sponsoring particularly the school newspaper and the annual.

Because of the representation of this class in the present year and those preceding, we, the Senior Class of 1952, hope that we have left a memory of trust, loyalty, achievement, and dignity that will never be forgotten.

## SENIOR CLASS WILL

We, the senior class of 1952, declare this to be our last will and testament.  
We will to the juniors our sponsors, Miss Brown and Mr. James, with the knowledge that they will guide the new seniors as well as they have guided us.  
We will to the juniors all of the senior parties and good times that we have had throughout our days at Munich High School.

We also will to the juniors our lamb on Miss Leamer's desk, inherited from the 1951 seniors, in the good faith that they will treat it kindly.

- I, Tommy Barr, will my lung power to Mike Pagano.
- I, Bob Cannefax, will my scholastic ability to Ronnie Painter.
- I, Connie Crawford, will my ability to lose more physics experiments than my lab partner to any junior willing to take the blame for it.
- I, Nancy Fish, will my plaid skirt to Anna Dean Wilkerson, so she will have two just alike.
- I, Leslie Foster, will my plane geometry book to any unfortunate junior who has not yet completed the course.
- I, Terry Fox, will my size to coach Burns so that he can drive his Renault without sticking his head through the top.
- I, Dave Friske, will my stupendous height and my basketball ability to Claude Fernandez.
- I, Jo Ann Godfrey, will my ability to light a Bunsen burner to next year's chemistry students.
- I, Mary Gosser, will my absence slips to Ellie Savage — she may need them.
- I, Don Hayes, will my "Slu-feet" to Dicky Dalton and may he use them wisely.
- I, Dawn Helmer, will my Brooklyn accent to Jeanne Cain.
- I, Pat Hopkinson, will the fifteen buttons on my red corduroy skirt to Mike Pagano, who has always been slightly baffled by their presence.
- I, Polly Humphries, will my ability to make up more excuses in the shortest length of time to anyone who gets caught without one.
- I, James Killough, will my ability to be the only senior without anything to will to John Winter.
- I, Gaylord Long, will my special seat by Miss Leamer in senior English class to Barry Bannister.
- I, Delores McIver, will my dancing ability to Betty Campbell.
- I, Pat McManis, will my ability to give oral book reports to Cynthia Piper.
- I, Oro Mitchell, will my red pants and "manipulatable" toes to David Funk.
- I, Charles Pickett, will my personality to anyone who doesn't have one.
- I, Ed Prendergast, will my little feet to Tom Hickman.
- I, Ronnie Rackleff, will my red hair to Lois Demming.
- I, Bill Ricker, do not will anything for I'll need it all where I'm going.
- I, Margaret Rockwell, will my cat at the dorm to Jeanne Cain to keep her company at night.
- I, Si Simons, will my part in the senior class play to Mickey Ward knowing that he will make the most of it.
- I, Gene Smith, will all of my photographic ability to David Funk so that he too may some day be an expert.
- I, Helen Taylor, will my long, flowing, curly hair to Mary Dean Beiter and Richard Aarhus to share equally.
- I, Melba Tetidrick, will my quiet and reserved personality to Jean Cassidy.
- I, Mary Venditti, will my basketball ability to Buddy Clark.
- I, Ann White, will my vivacious personality to Sandy Landau.
- I, Paul Whiteside, will my three years' experience in the boys' dorm to any brave person.
- I, Eddie Wilkerson, will my basketball shoes to Bill Cade.
- I, Jack Woodard, will my driver's license to Mac Gosser.

# JUNIORS

Munich opened its doors to the class of 1953 in September, 1951. In all, there were 44 juniors enrolled, 13 of whom were dormitory students. Twenty-five of last year's 61 sophomores are back again this year as juniors.

The junior class is divided into two homerooms, with Mr. Fowler and Miss Shultz as homeroom advisers. When elections were held in Mr. Fowler's homeroom, the results were: Jeanne Cain, president; Ronnie Painter, vice-president; Mary Deane Beiter, secretary-treasurer; and Dorynne Patterson, Student Council representative. In Miss Shultz's room the president is Claude Fernandez; vice-president, Gail Kautz; secretary-treasurer, Maida Davis; and Student Council representative, Buddy Clark.

The juniors are well represented in all the school activities this year. Six of our boys — Jack Brower, Buddy Clark, Claude Fernandez, Tom Moncrief, Ronnie Painter, and Phil Stapleton — contributed much to the 1951 Munich football team. Three junior girls — Jeanne Cain, Ellie Savage, and Billie Jean Winter — are proud to have been chosen as part of the MHS cheer leading squad. Many juniors are on the paper and annual staffs, and some of our girls are members of the G. A. A.

Among our many activities to raise money to sponsor the Junior-Senior Prom, was the sale of pom-poms and ribbons at the last football game of the year with Frankfurt.

By the time the second six weeks period had begun, plans were well underway for the prom. The prom was a huge success and something we hope the seniors will always remember.

We are all looking forward to next year when we will be "mighty seniors".

## HISTORY

Sixty hale and hearty students were enrolled in the sophomore class on September 6, 1951. Since then many students have moved away and have been replaced by new ones. The sophomore class is divided into two homerooms. Miss Longdon and Miss Howard are the homeroom "wardens".

Early in the year the sophomores elected class officers. In Miss Langdon's room the officers are: Cloyd Marvin, president; Konni Taylor, vice-president; Murray Hale, secretary; Stewart Williams, treasurer; Cynthia Piper, Student Council representative; and Sue Snowden, newspaper reporter.

Class officers in Miss Howard's room are: Gardner Piper, president; Vance Henry, vice-president; Harry Blackburn, secretary; Dorothy Holland, treasurer; Donald Roberts, Student Council representative; and Ruth Hoffmann, newspaper reporter.

The sophomore class is justly proud of having Cloyd Marvin represent it on the Student Council as treasurer.

The sophomores have been well represented in all sports and other school-sponsored activities. Though our sophomore year has been lots of fun, the class eagerly anticipates next year's fun as juniors!

## FRESHMEN

The freshman class began as usual — plenty of initiation! After putting our clothes on right and removing the lipstick, we settled down to divide the amazing number of approximately seventy-five students into three homerooms. The homeroom teachers are: Miss Thompson, Mr. Lancaster, and Mrs. Ashbaugh.

Our officers were then elected. They are: president, Mike Godfrey; vice-president, Terry Patterson; and secretary-treasurer, Myrtis Pickett. We have the honor of having three freshman reporters on the "Mustang Messenger". They are Sheila Nelson and Cynthia Wolfe, who write the freshman news, and Garnett Moreau, who writes the junior boys' dormitory news. We are also proud to have a freshman, Patsy Hanks, secretary to the Student Council.

As the year draws to a close, we sadly say good-bye to our teachers — Miss Vogel, chorus; Miss Thompson, world geography; Miss Langdon, English; Mr. Fowler, general science; Mr. Lancaster, algebra; Miss Howard, algebra; Frau Hellerer, French; and Dr. Sutter, German. We wish to express our appreciation for help throughout the year to the faculty and Parent Teachers' Association.

The Student Council has been an active organization in Munich High School since 1946. This group works for closer co-operation between the students and the faculty. The council plans the annual Christmas formal, arranges the student assembly programs, and organizes other school activities throughout the year. In 1950 three members attended the Student Council Conference held in Heidelberg. Two of the officers elected this year are underclassmen; only the president and the vice-president are seniors. The officers and representatives are working together to improve our school.

## HONOR SOCIETY

First row: Gene Smith, Dawn Helmer, David Friske.  
Second row: Polly Humphries, Connie Crawford, Jo Ann Godfrey.

The Munich chapter of the National Honor Society was established in 1949. It is an honor society organized chiefly for juniors and seniors; however outstanding sophomores who qualify may be elected for probationary membership. Students who have a "B" average and are outstanding in service, leadership and character are selected by the faculty for membership. The chapter plans an active year emphasizing the development of qualities of leadership, character, and service, as well as encouraging higher scholastic achievement for the student body as a whole. The present members would like to express their appreciation for receiving this great honor and join together in hoping that the coming year will bring many new members.

The sponsor is Miss Ora Schultz. The executive committee consists of the president, Dave Friske; vice-president, Gene Smith; secretary, Pat Hopkinson; treasurer, Connie Crawford; and program directors, Polly Humphries and Jo Ann Godfrey.

VOLUME VI NUMBER 1

MUNICH, GERMANY

OCTOBER 1951

## 30 ENROLLMENT DECREASES

On September 6, 1951, the Munich American Dependents School reported its doors to students of the school in grades 9, 10, 11, and 12. The enrollment for the school last year was 130 for the entire school year of whom were enrolled in high school.

The principal of the school in Munich this year is Mr. Roy T. Diduk. Mr. Rex L. Gleason is the school principal in the States. Miss Tilley, graduate school principal. Maj. W. M. School officer.

## SPORTS OFFICERS

The Girls' Athletic Association, under the supervision of Mrs. [Name], has renewed its activities. The newly elected officers are: president, Polly Hummel; vice president, Cynthia; and secretary, Sandra Foster.

This is a sports organization which any high school girl is eligible to join.

The association meets the second Tuesday of each month for the business meetings and Tuesday of each week for practices. In order to become a member of this organization, a girl must attend a certain number of practices. Activities differ from school to school.

(continued on page 8)

## STUDENT BODY ELECTS CHEERLEADERS

On Friday, September 14, try-outs for cheerleaders were held. With an audience of about 100 M.C., the girls who wanted to lead the Munich High School cheerleaders were selected for the final try-outs.

Following this the girls voted to their cheerleaders for the year. The girls considered the best. The votes were counted and after the elimination of the girls because of being for the States, the girls were announced. Cain, Ann White, Erick, Ellie Saville, and Jean Winters.

Congratulations, girls! We'll be yelling right with you at every game.

## TEEN AGE CLUB WELCOMES NEWCOMERS

September 12, the Teen Age Club welcomed the newcomers to Munich High with a Let's-Get-together Dance.

The club attended the dance which lasted from 8:00 PM. During that time acquaintances were made and friendships were strengthened. The decorations were on a "back-to-school" theme. The girls were covered with blackboards, and the teachers.

## CLUB HISTORY

The Teen-Age Club, located at 3 Gabriel Max Strasse, was first opened the latter part of 1946 under the direction of Sergeant Lockman. There have been three directors since Sergeant Lockman left. The present one is Sergeant Yerkie who has done much for the club since his arrival last July. The club owes much to the Dad's Club which gives financial support and has a senior council to serve as an advisory group.

At present the junior council is David Friske, president; Don Hayes, vice-president; Pat McManis, secretary-treasurer; and Tom Hickman, sergeant at arms. Patsy Hanks and Ronnie Painter are dormitory representatives.

The club has sponsored a great many dances and parties. Included were a "Summer Swing", "Get Acquainted Dance", "Halloween Party", and "Sadie Hawkins Dance". Recreational facilities include tennis, badminton and volleyball courts, an EES snack bar, pool table, radio-phonograph, and a hobby shop. The tennis courts are frozen over in the winter for ice-skating. Plans for skating parties, sleigh rides, and skiing trips are in the offing for the rest of the year.

The Girls' Athletic Association was organized at the beginning of 1951 under the supervision of Mrs. Ashbaugh. This organization provides a sport program for any high school girl wishing to join. Points are given for different activities and records are kept of these. When a girl accumulates a required number of points, she is eligible for an award. The organization proved successful last year and has been continued this year. The officers for 1951-1952 are: president, Polly Humphries; vice-president, Cynthia Piper; and secretary-treasurer, Sandra Foster. The membership is steadily increasing, and plans have been made for another successful year.

## FOOTBALL

The Munich High School Mustangs were toppled from their 1950 championship perch in the 1951 grid season but fought valiantly to retain the coveted title and remain atop the EUCOM football circuit for another year. With only a few veterans returning from last year and a very large majority of newcomers, to both Munich and the game, the new Mustang coach, Mr. Herbert Burns, moulded a lightning fast, hard hitting aggregation. Though finishing in second place, the Mustangs bowed only once to experience and weight during a season that in most respects was the best in Munich's history. Since success is not measured by a title or championship alone, but by team play, unselfish sacrifice, excellent sportsmanship, and enthusiastic performance such as the Mustangs displayed throughout the season, we can feel proud of our team. A sufficient number of freshmen and sophomore veterans will return for the 1952 season to assure Munich High School of a fine showing on and off the athletic field.

## BASKETBALL

First row: Ed Wilkerson (co-captain), Don Hayes, Bill Cade, Dean Collins, Gaylord Long, Buddy Clark (co-captain), Ed Prendergast, Cloyd Marvin, Stewart Williams, Tom Hickman, Ronnie Painter.

## BASKETBALL

Mr. Herbert Burns  
(coach)  
Ed Wilkerson  
(co-captain)

The 1950-51 basketball season brought to Munich the EUCOM High School Conference Basketball Championship. Munich's squad bowed only once during a season that was thrill packed with excitement.

With the 1951-52 school year the call for basketball candidates again went out. Munich's coach, Mr. Herbert Burns, has only a few veterans returning from last year, but these have developed into a fighting unit that will perhaps bring to Munich High School another championship. This season the Mustangs have met opposition in both varsity and junior varsity games and have the same record for both levels. The Mustangs lost a hard fought ball game to Heidelberg and have outclassed both Linz and Wiesbaden High Schools in other games played. The squad shows evidence of becoming a tough team to beat when mid-season and tournament form are reached.

## 1950-51 EUCOM CONFERENCE BASKETBALL CHAMPIONS

First row: Tom Hickman, Bob Stepp, Ed Wilkerson (co-captain), Charlie Pickett, Don Hayes, Byron Burch (manager).  
Second row: Cloyd Marvin, Buzzy Bright, Buddy Clark, Bob Marvin, Chuck Atchison, John Bell (co-captain), Mr. Algray Verssen (coach).

300 m. Relay Team: Charlie Pickett, Jack Woodard, Mr. Algray Verssen (coach), Larry Jones (manager, kneeling), Ronnie Painter, Don Hayes.

## BASKETBALL

The Munich baseball team finished the 1951 season as runner up in the second place position. Munich's record was six wins against four losses. The Mustangs were hampered by lack of experience at many positions, but with many veterans returning from last year and a host of new candidates, this year's team will undoubtedly recapture the crown for Munich.

## TRACK

The Mustangs tied for honors in the regional track meet held in Heidelberg and lost their EUCOM High School Track and Field crown by only a few points in the final meet of the season in Nurenberg. Even though the Mustangs did not retain their title, they did set many records that will take a lot of doing to beat. Outstanding participant in track for Munich was Don Hayes, stellar dash man and anchor man on the relay team. Hayes and a host of other track and field men will return this year and promise to give Munich a fine representation in the meets.

## TENNIS

In the second EUCOM High School Tennis Tournament, Munich High School was ably represented by six participants. Although Munich's participants did not capture any of the tennis titles, they did annex second and third place ratings to make a fine showing. Munich entrants in the tournament were: Gail Wicks, Karen Wicks, Connie Crawford, Mike Dwyer, John Landerdahl, and Joe Friske. No tournament is scheduled for this year, but if there were, Munich would undoubtedly again come through with as fine or better showing than last year.

# GIRLS HISTORY DORM

House number 15 on Harthausenstraße opened wide its gates to thirty-two high school girls on September 6, 1951. That day marked the beginning of the sixth year of honorable service since October, 1946, when only fourteen girls were enrolled. Mr. and Mrs. Walter Glick supervised in 1946; Miss Sally Zoickler, from 1947 to 1948; and Mrs. Bertha Mansour, from 1948 to the present time. Seven of the girls who had previously lived in the dorm welcomed her back. The other twenty-five were just beginning dorm life.

Within the first few weeks of school, elections were held and a dorm council was established. The gig system designed for student government was set up in order to iron out problems that occasionally arise with so many girls living under one roof. Gig monitors for each floor were elected to keep the gig charts intact after the council made the list of possible offenses and it was approved by the dorm body and Mrs. Mansour.

The "old dorm girls" quickly noticed all the changes that had been made through the summer. New clothes closets and night tables had replaced the old, and new rugs decorated the first floor. The dining room was a thing of the past; the girls soon heard that their meals were to be served in the school cafeteria.

A number of activities were planned which served to make dorm life more fun and colorful this year. Among them were dorm parties, evening snacks in the kitchen, singing sessions around the piano, and early morning "gab fests". The dorm mother and girls agreed that by working together to establish a happy, congenial atmosphere, such as that generated within the walls of the Munich girls' dormitory, everyone thoroughly enjoyed the whole business of "going to school". Best of all, many wonderful, lasting friendships were made.

Bob Cannefax, vice-president; Phil Gallagher, court recorder; Simon Simons, president; Mike Pagano, social committee chairman; and Gene Smith, secretary.

## SENIOR DORMITORY HISTORY

The first boys' dorm, located on 70 Gabriel Max Strasse, was opened in 1946 under the supervision of Mr. Rex L. Gleason, our present principal. In 1948 the dorm was moved to 85 Harthausen Strasse, its present location. In 1949 a second dorm was opened to take care of the increased number of boys.

This year the upper-classmen live at 85 Harthausen Strasse. The counselor is Mr. Edward Hascall, who hails from Michigan, and who was also the senior dorm counselor last year. About the third week of school, officers were elected and committees formed.

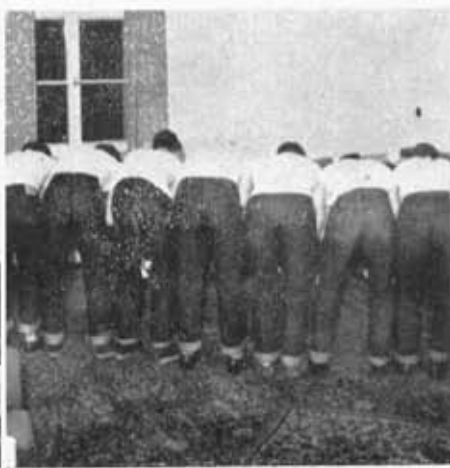

The dorm had its share of social life this year. The boys sponsored a swimming party at Furstenfeldbruck and joined in to help the girls' dorm give a big Christmas party.

## JUNIOR DORMITORY HISTORY

On September 11, under the supervision of Miss Esther Mueller, all of the freshmen and some of the sophomores moved into the new dorm on 2 Faistenberger Strasse. This did not find favor with the seniors and juniors though because last year they had the new dorm. After a friendly fight with the juniors and seniors the freshmen and sophomores won out.

The first thing the junior dorm did was to elect, by house vote, a dorm council. George Mitchell was elected president; Harry Blackburn, vice-president; and Gardner Piper, secretary-treasurer. Garnett Moreau was elected reporter and Durwood Pate and John Williams, the fire wardens. Danny Jones is Teen-Age Club representative; Donald Roberts, scholastic chairman; and Larry Southard, music chairman. Each week a different court fines those who disobey house rules. Every night an Officer of the Day makes his rounds to see that every one is in bed, and these O. D.'s form the court of the week.

#### SENIOR FIELD TRIP

The Senior Class was graciously received on November 7, 1951, by the students of Neu-Buergern German School. While there, the seniors had the opportunity to observe the teaching methods and conduct of the German teenagers in their classrooms. After dinner there was an hour of leisure in which were featured singing, dancing, and sightseeing. Three weeks later Munich played host to forty-two of these German students. These field trips have definitely promoted a better understanding of German and American teenagers and their school methods.

**P.T.A. OFFICERS:** Mrs. Wilhelm H. Roberz, secretary; Lt. Sherman Logan, vice-president; Mrs. David B. Vail, president.

The P.T.A. of Munich is the largest in EUCOM. The 550 members are very active and are very much interested in the school. The association started off the year with a successful open house. This beginning was followed up by a reception for the new teachers at the Burgerbrau Keller. The organization's panel discussions at one meeting gave the students an opportunity to express their views on school before the parents. The school system of England was discussed by a speaker from England at another meeting.

We, the students of Munich High School, wish to express our appreciation for this worthwhile organization.

# Foreword

Transportation in Germany—that is the theme we have chosen to present on the pages of the 1952 VOYAGER. Because Americans in Europe are constantly moving, footloose transients, this selection seems extremely apropos.

Furthermore, what is more representative of this quaint land than its system of transportation, with hordes of bicycles, ancient trains, three-wheeled trucks, and ox-carts? For embodied in these odd conveyances are Germany's past and her present, as well as an insight into the inventive genius of her people.

Thus the objective of our art staff is two-fold; first, to preserve for posterity impressions reminiscent of our sojourn in Deutschland, and second, to capture a bit of the spirit and feeling of the German people.

The editors are deeply indebted to the Signal Corps photographers of Nurnberg Military Post for their tireless efforts in aiding us to publish this Annual. Toni of Erlangen took the portraits and many of the group pictures.

# ADMINISTRATION

## NEW SCHOOL

On January 3, 1952, the new American School in the apartment area near Furth was officially opened. Built at a cost of two million Deutsche Marks, the building boasts the utmost in modern educational facilities. Such things as large bright classrooms, a fine laboratory, an enlarged library, and excellent lighting throughout the entire building make it a pleasure to attend school. Symbolized in the clean pure lines of the building is one of the mightiest achievements of our country — education for all.

## OLD SCHOOL

Since 1947, this gray stone building on Tannen Strasse has housed the Nürnberg American High School. After serving as a girls' school for thirty-five years and as a hospital during World War II, the structure was requisitioned by our occupation government and pressed into service as an educational institution. For four years now, the familiar bustling atmosphere of school has held forth in its halls, but now all this has been removed to a new location and the building returned to the German authorities.

## SENIOR CLASS HISTORY

As graduates, we stand at the threshold of life; before us lies the fulfillment of our dreams. But we linger, and do not hasten; for the road ahead is not an easy one. Pitfalls lurk on every side; disappointments prevail. Is it not reasonable, therefore, that we turn our backs with reluctance? How often we are reminded of those days in 1948 when, as naive freshmen, we experienced the traditional initiation. Then, following a brief tenure as insignificant sophomores, we assumed the role of upperclassmen, and whirled through our final period of apprenticeship in preparation for the moment when we would become seniors. However, that time has come and gone, and with it the fleeting weeks which separated us from graduation. Now there are only memories . . . and the future.

Looking backward, it seems just yesterday that we slipped majestically into the vacant desks of the senior homeroom. The first task which fell to us was that of organization.

After elections were conducted, Carl Peterson emerged as president; Diane Keeley, vice-president; Nancy Lurvey, secretary; and Wally Jones, treasurer.

Meanwhile we were seeking the answer of "To be or not to be . . .," and feverishly gathering data for our term themes.

Business does not always precede pleasure, though, as we put aside our labors to attend the colorful Halloween and Sadie Hawkin's Day dances. Tuxedos and evening gowns highlighted the Christmas Formal, while hearts and flowers reigned on Valentine's Day. With the advent of spring came the ne'er-to-be-forgotten Junior-Senior Prom.

Weeks of hurried cramming and final examinations consume the early part of June, bringing us ever nearer to graduation. When that "blessed event" at last arrives, we will greet it with mixed emotions; because, although we will be free to embark upon life's journey, an irremovable barrier arises to separate us forever from the carefree days of our high school careers.

## CLASS WILL

We, the Senior Class of 1952, being of sound mind and body, do ordain and establish this as our last Will and Testament.

We hereby leave our successors, the juniors, all the privileges and responsibilities of being seniors, and express the hope that they will become as good a class as we have been. We also leave them the inferiority complexes we have acquired from receiving so many themes returned marked with F's. The seniors, as individuals, leave the following:

**Meg Andreas:**

I, Meg, will my ability to get along with Doc Kroner to any student who gets him in the future.

**Kathryn Airaudi:**

I, Kathryn, will my brother, Gerald, my swimming ability.

**Winona Caraway:**

I, Winona, will my place in solid geometry class to anyone who can stand it.

**George Cleaver:**

I, George, will my solid geometry book and Miss Swain to anyone who may want or need them.

**Mike Clower:**

I, Valentino Clower, will my ability as a dancer to the future Don Juan of the senior class, Frank Waskowicz.

**Ellen Futch:**

I, Ellen, will my P.O.D. book to my sister in hopes that she will enjoy it more than I.

**Stanley Gappa:**

I, Stanley, leave my P.O.D. book to the next lucky person who will use it.

**Bob Gulliano:**

I, Gully, leave my ability to gain weight and to get temporary vacations to Bob Isett.

**Jinny Hadfield:**

I, Jinny, regretfully leave my skiing trips to Garmisch to my sister, Joanie.

**Roma Lee Hatfield:**

I, Ramona, will my love for Nurnberg High School to anyone who wants it.

**Stan Mason:**

I, Stan, leave to my brother, Charlie, all the time I have spent in high school.

**Janus Jones:**

I, Janus, will to Joan Robinson my luck in pool at the Teen-age Club.

**Wallace Jones:**

I, Valentino Jones, leave my dancing ability to anyone capable of handling such a grave responsibility.

**Diane Keeley:**

I, Diane, will my restriction to anyone who will put up with it.

**Joan Kohlman:**

I, Joan, will my ability to stay up until all hours to Shirley Caldwell.

**Nancy Lurvey:**

I, Nancy, leave my ability to teach ballroom dancing and my dancing classes to Mary Jo Isett.

**Angie Magliochetti:**

I, Angie, leave Miss Glick to the juniors.

**Dick Markham:**

I, Dick, leave all my F's to Ann Wyss, and then I leave — period!

**Marilyn L. Nelson:**

I, Marilyn, will my English themes to any sophomore who thinks Miss Glick will forget I wrote them and will still let them graduate in 1954.

**Beattie Owens**

I, Beattie, will my cheerleading ability to Betty Thomas.

**David Page:**

I, David, leave my semester theme to Robert Tachoir.

**Carl Peterson:**

I, Carl, will my heavy eyebrows to any John L. Lewis fan.

**Tom Ruley:**

I, Tom, hereby leave this purgatory.

**Pat Skelly:**

I, Pat, leave my sweater to the trophy case.

**Rickie Snead:**

I, Rickie, will my ability to stay in trouble to Nancy Varney.

**Barbara Vaughn:**

I, Barbara, will my ability to sleep late to all the early risers.

**Beverly Willis:**

I, Beverly, leave my nickname, "Bubbles," to Kay Salek.

**Pauline Worthington:**

I, Pauline, leave my cheerleading position to my sister Phyllis.

## CLASS PROPHECY

It all began one day as I, Nancy Lurvey, was eating lunch in a restaurant in Los Angeles. A young man came over and asked if he could share my table, as the place was exceedingly crowded. We soon struck up a conversation in which he informed me that he was traveling to New York, where he planned to board an airplane for Germany. He explained that he was a diplomat and was going there on official business.

I at once became eager to continue the conversation, as I had been to Germany myself. I told him this, and he said that he had lived there about ten years ago. Well, you know how you compare different places when you have mutual interests. It took little time to discover that we had both graduated from the same school in Germany, and that he was none other than George Cleaver. This was really a grand occasion.

I told George that I was also flying to New York on business. I said that I was a buyer for a department store in Los Angeles and that I was going to New York to view a large style show. We planned to meet the next day and leave for New York.

During the first part of the flight, we learned, quite by accident, that our air line hostess was our old classmate, Angie Magliochetti. She told us that Dick Markham was in San Francisco, and that he was a commercial pilot. During our stop-over in San Francisco, we, of course, looked him up and had a wonderful reunion.

It seemed that wherever we went, we met some old friends who knew where we could locate the rest of the class of 1952.

In San Antonio we met Ellen Futch, who is the wife of an army officer. We also met David Page and Ray Trapp, who are both army officers stationed there.

We found that many of our classmates were working in the Mayo Clinic in Rochester, Minnesota; so we stopped there to see them. Janus Jones, Winona Caraway, Pauline Worthington, and Kathy Airaudi are nurses there and really doing a splendid job. The noted psychologist there is Bob Giuliano. We met Dawn Helmer, who is a doctor of medicine, just as she was coming out of the lecture room.

We were told that if we went to Ohio, we could find Wally Jones. After landing in Columbus, it didn't take long to locate one of the best known psychiatrists in Ohio. Wally introduced us to the best doctor at the hospital, who was Bill Willis.

George and I knew that we could locate many of our old classmates in Washington, D.C.; so we made it our next stop. Beverly Willis was doing a remarkable job in the State Department; Stanley Gappa was working in the Pentagon and had a swell secretary — Joan Kohlman, of course.

Meg Andreas was also in Washington, where she enjoys a career as an interior decorator. We weren't too surprised when we were received by Meg's receptionist, Marilyn L. Nelson. They told us where to find Jinny Hadfield, so we took a taxi over to her office. Jinny is a commercial artist, no less!

We located Jeannie Nelson in Washington, too. She is also a wife of an army officer. We saw Pat Skelly, who is practicing chemical engineering in the Navy. With him was Stan Mason, also in the Navy.

We flew to New York that same day and continued our hunt for our classmates. I knew Barbara Vaughn was there, as she is a buyer, also. Through her, we located almost all the rest of the class. Dick Smith is a popular dentist there in one of the large clinics. We also found Tom Ruley practicing in this clinic.

It didn't take long to locate Frances Snead and Ramona Hatfield, whose pictures appear on many fashion magazines. They are popular models. Why did their hair look so nice? Their beautician is Beattie Owens.

Since George's plane did not leave for a few hours, we decided to fly up to Yale University, where Carl Peterson is a professor of history. The Yale coach is Mike Clower. They have a good team there, no doubt.

We had only one more person to locate, and that was Marie Coleman. We finally found her in Boston, where she is a beautician.

This completed our search for the class of 1952. The members were all doing fine and were prominent citizens. Of course, this was to be expected from graduates of Nurnberg High School.

## JUNIOR HISTORY

For the juniors, this year has been one of progress and indoctrination, growth and accomplishment; it has been their final port of call before becoming seniors. They have been initiated into the intrigues of theme writing, and they've learned to cope with the distressing fact that money does not grow on trees. The editing of the "Army Brat," a class project, developed an acute sense of responsibility in them, while a fine spirit of cooperation was evidenced by the manner in which the juniors tackled their many projects.

Early in September the class chose Frank Waskowicz president; Bob Isett, vice-president; Kay Salek, secretary; and Bob Jones, treasurer. Although few in number, the juniors were well represented on athletic squads. Likewise, their presence was felt in every organization from the glee club to the Student Council.

The highly successful costume ball, presented by the seniors-to-be, was a red-letter day on the social calendar. With school drawing to a close, the class was provided with an opportunity to prove itself; and this was done in a blaze of glory. For the Junior-Senior Banquet and Prom without a doubt established the juniors as worthy successors to the title of . . . SENIORS.

## SOPHOMORE HISTORY

When the doors of N. H. S. opened in September of 1951, the sophomores discovered that only a skeleton crew of twenty-eight was left from their sizeable group of last year. Undaunted, they soon served notice that theirs was to be one of the most industrious classes in the building.

Guided by Gayle French, John Joyce, and Gloria Bura, as president, vice-president and secretary-treasurer, respectively, the sophomores discharged their duties with a high degree of competency. After sponsoring the Sadie Hawkins affair, the class conducted a school-wide popularity contest that was received with great enthusiasm.

In the New Year they were introduced to works of one William Shakespeare; unfortunately, their reactions to him were not in complete agreement with those of the drama critics. By way of welcome relief, the class presented a Leap Year's dance to the plaudits of all. But not being content with such minor achievements, the sophomores were restlessly looking forward to next fall and their first day as upperclassmen.

# FRESHMAN HISTORY

It was a long step forward from the ranks of eighth graders to that of high school students, but the freshmen took it in stride. Because it was spared the traditional initiation, the class was able to assume its place among the others with a minimum of fanfare. Officers were elected and plans formulated to raise money for forth-coming projects. Meanwhile, several yearlings were landing positions on the athletic squads and others were regularly appearing on the honor roll. The group was not without its humor, though, for the zany antics characteristic of freshmen appeared in abundance. A trip back to "the days of old, when knights were bold" with Sir Walter Scott's *Ivanhoe* stirred the class's romantic blood, but left it thankful for its twentieth century existence.

On December 19, the Formal was held, and a wonderful one it was, too. Nearly the entire student body — girls in formals and flowers, fellas in suits — turned out for the affair, which took place in Stein Castle.

In January the freshmen were introduced to mid-year examinations for the first time, but the unpleasant memories associated with this ordeal soon vanished in deference to the feeling of expectation as the end of the year approached. At last the day arrived when they achieved that goal which had glimmered brightly ahead of them throughout the year. They became sophomores!

NEW DORM

SENIOR GIRLS' DORM

FRESHMAN GIRLS' DORM

## GIRLS' DORMITORY

For thirty-six weeks of the year, the girls' dorm constitutes a foster home for the thirty-odd assorted maidens residing therein. Of all that transpires within those walls, only a portion can be recorded here; the remainder is known only to the girls themselves.

Your observer's most vivid recollections of dorm life are those from the old buildings. Few will forget the night when the house was converted into a screaming madhouse by invading boys with fire extinguishers. Likewise, the girls' pride was injured no end when they went serenading and the boys greeted them with salvos of talcum powder followed by liberal quantities of water. On the brighter side, however, were the monthly birthday celebrations, the Christmas party, hayrides and lengthy gossip sessions. All these things and others, too, helped ease the monotony of a disciplined existence, which entailed daily study hall, early rising, dorm meetings, "lights out," etc.

When the scene changed to that of the new building, much time was consumed in rendering the premises livable from a female standpoint. Easter meant another holiday, and the accelerated beating of many a girl's heart proved once again that in the spring "a young man's fancy lightly turns to thoughts of love."

But the final weeks of the year slipped by, and soon it was all over. With their counselors' aid, the girls have absorbed another valuable lesson in living, for they came away with the ability to live together in perfect harmony.

NEW BOYS' DORM

OLD BOYS' DORMS

## BOYS' DORMITORY

Great was the surprise of the young gallants destined to room in the boys' dorms when they were confronted with women counselors upon their arrival last September. This unexpected development did not dim their enthusiasm, however, for they were soon in the swing of things.

Pillow fighting and bed dismantling prevailed as a source of entertainment during the early months of the term, while whist, imported by Wally Jones, flourished among the card players. These pastimes soon faded, though, and were replaced by pinochle. Each night-out brought endless primping and clothes borrowing; each Friday, a sigh of relief. Christmas week, with its three nights out, left the boys exhausted and badly in need of the pending vacation. This intermission also climaxed the noisy reign of the hideous cowbell which Miss Hammond employed to rouse the gang.

After the holidays, the guys found themselves in luxurious, new quarters—those in the new school plant. But the wholesale moving necessitated by the change evoked lusty gripes.

Spring fever accompanied the first days of April, and talk shifted to baseball. Then the annual agitation for a dorm skip day was heard; but before they knew it, the last days of school were upon them, bringing to a close another term in the boys' dorm.

## STUDENT COUNCIL

One of the school's most influential organizations, the Student Council, has proven to be a very successful liason between the student body and the faculty. As the Council is composed of two students from each homeroom, including the junior high, a good cross-section of student opinion is attained. In turn, through discussions attended by the adviser, Mr. Russell Stickney, these views are aired for consideration by the powers that be.

As a result of these meetings, such innovations as reduced homework assignments on nights out and senior privileges were introduced. Socially, the group sponsored a combined banquet-dance at the conclusion of the football season. By virtue of these accomplishments and its efficient manner of operation throughout the year, the Student Council earned the praise and respect of all.

Members of the ANNUAL STAFF are, first row: Frances Snead, Joan Kohman, Beverly Willis, George Cleaver, Barbara Vaughn, Diane Keeley, Mike Clower, Beattie Owens, Carl Peterson, Margaret Andreas, Marilyn Nelson, and Ellen Futch. ## SIX-MAN FOOTBALL

Forced to make the difficult transition from eleven to six-man football, Nürnberg's entry in the 1951 EUCOM pigskin scene lost three times while winning once. But more important, many boys had an opportunity to play the great game of football; and the fans were treated to many minutes of exciting combat.

The campaign got under way as Nürnberg journeyed to the port city of Bremerhaven, where its victory-bound express was derailed by the Blackhawks, 18—12. The hepped-up locals staved off a determined Eagle drive late in the fourth quarter to preserve the victory.

Scoring in every period, the Linz Panthers rolled over Nürnberg 48 to 26 at Soldiers' Field October 13. Aerial fireworks that accounted for three touchdowns kept the Eagles in contention until the final semester, but their leaky defensive alignment handed the contest to their blue-clad opponents at that point.

Bolstered by a newly acquired single-wing offense, the Green highballed into Wiesbaden and emerged with a crushing 41—13 win. Nürnberg unleashed a bruising running attack which ground out all but one of its six-pointers.

Held to an 0—0 deadlock at half-time, Berlin's Bears came roaring back like the champions they are to by-pass the Eagles 20—6 in the season's finale. Although the losers completed eight of eleven passes, their receivers were unable to reach paydirt over the puddled turf; in contrast, Berlin converted a brace of Nürnberg miscues into scoring thrusts which carried the day.

Mr. Fred Hobbs, a newcomer to EUCOM sporting circles, did a workmanlike job at the coaching reins; and stalwart Mike Clower rates mention as the squad's most valuable member.

The offensive team  
was made up of:  
Bob Isett  
Bill Killough  
Bob Jones  
Carl Peterson  
Tom Joyce  
Dick Eckert

Members of the de-

BREMERHAVEN GAME

Members of the basketball squad are: Charles Hatfield, Wallace Jones, Bob Isett, Bob Giuliano, Paul Sears, Dick Eckert, Carl Peterson, David Peterson, Dulaney O'Roark, Art Mace, Henry Hagwood, Mike Clower, Bob Jones, Don Lossner and David Page. Coach Fred Hobbs is in front.

## BASKETBALL

Approximately thirty-five boys answered the call when Coach Hobbs began basketball workouts in the last week of November. By January first, those that survived the periodical cuttings had been molded into a smooth, hard-working unit which was destined to cop a fair share of victories during the campaign ahead.

The Eagles served notice upon the court world as they captured their first opening-day win in three years by outrunning the Berlin Bears, 52—26. Bob Isett paced all scorers with an eighteen point total.

Frankfurt, reigning conference champion, handed Nürnberg its initial setback by a 66—49 count. The visitors' superior size contributed heavily to the Eagles' defeat.

Sharp rebounding and Clower's fifteen markers provided Bergers with a 51—26 conquest of Linz their next time out. Nurnberg dominated every phase of the game in annexing its second scalp.

As we go to press, the Eagles are scheduled to meet Heidelberg and Wiesbaden on successive days. Whatever the season's outcome, it appears that Nürnberg has finally arisen from the basketball doldrums which have plagued its efforts in years gone by.

Members of the first team are:  
 Bob Iselt  
 Dulaney O'Roark  
 Henry Hagwood  
 Dick Eckert  
 Mike Clower  
 With them is Coach Hobbs.

Members of the second five are: Carl Peterson, Bob Jones, Don Lossner, Wally Jones and Charles Hatfield.

General H. H. Arnold High School has an engaging, if not lengthy, history, commencing in 1948 when it branched off from Frankfurt giving the students of Wiesbaden area their own high school. The building proper was built in 1915 for use as a boys' school and was so functioning until 1945 when it was requisitioned by the occupation forces as an elementary school. After three years the high school was established in the same building.

From an original enrollment of 56 in 1948, it has expanded to one of 142 in 1952. The only acquisitions have not been students however; in 1949 the name was changed from Wiesbaden Dependent's to General H. H. Arnold High School. A gym, laboratory, and a playground had also been acquired since the opening of the high school. Further expansion came in 1950 in the form of a new wing which was in principle, at least, very much appreciated by the pupils. It made possible that separation of high school from the elementary school which is so appreciated by students and faculty of both. Yet another notable augmentation of the services offered by our future alma mater was the installation of new desks and lockers in 1951. The latest addition is the homemaking room where our female students may give vent to their culinary and modistic whims without excessively endangering the domestic tranquility of their, and consequently, our homes.

Though our classes are small for the most part, our curriculum is well balanced and properly seasoned with athletics and social life; this happy situation is to be attributed to our faculty who at all times have shown themselves to be meriting of the highest praises. And so the mirthful exuberance of a departing senior is perhaps to some degree dampened by the thought of leaving so many good friends in Wiesbaden High.

## PROPHECY CLASS

Dear Mr. Craig

Here it is June again. Looking back over the years, it seems hardly possible that fifteen years ago I was a member of that very select group in society, a "Senior". I suppose you have received many letters this month from members of the class of 1952. Still, I'm willing to wager none will be as surprising as this; here is the reason why.

On my trip across country this spring, I came into contact with all of the members of my senior class. It was wonderful and very interesting to see how things have turned out. I have been living in California these past years, but never had the time to see much of the state; so I started my tour by seeing "Cal" first. Each night I would record my adventures on paper with my typewriter. I happened to run out of ribbon in San Rafael. When I stopped in a shop to buy some, I spotted Joy Abbott selling typewriters! She never could get one in Wiesbaden; I guess she has solved her problem.

I couldn't decide which route to take east, whether to go north or south. I finally decided north. How glad I was to have decided on this direction; for in North Dakota I ran into Gail Wicks. You might have known she would be treasurer of something. This time it's the State Medical Association. By the way, Gail is engaged to the Treasurer of the United States.

While I was in Indiana, I stopped in a department store to buy a scarf for my head. All the others had blown away. The top to my convertible is broken and I can't raise it (I hope it doesn't rain!). Well, as I was saying, I bought this scarf and while I was waiting for my change, I noticed a woman who looked like Doris Moe at the next counter. When the woman turned, I knew it was Doris. She was buying socks for her twins. I spent that night with her and her husband. What quiet, well-behaved children she has!

It was a drizzly day when I arrived in New York (my convertible was still broken). Doris Moats had invited me to stay with her, so I was slightly cheered at the thought of

not struggling with hotel managers. Doris would be gone all day rehearsing for her new play, *Dead Tomorrow*, so I had loads of time to myself. One day I drove out to Long Island to see Joe. Mr. Craig, at first I was truly taken back. There were about twenty-five young boys in Joe's yard flying model airplanes. I knew they couldn't all be his. You can't imagine my relief when I was informed that Master Joseph Denniston commanded a group of "Boy Birds". I guess they're our Junior Air Force.

I was sorry to leave Doris, but I promised Debbie I'd visit her in Cambridge, Mass. She recently gave up a modeling career and Texas, for a singer in Mass. Debbie told me Joan was living in Boston. I could have saved myself the trouble of crossing the Charles River, for I had to come back again. Joan was working in the research lab at M.I.T. Joan is married and also has twins. I suppose it runs in the family. Washington, D.C. is one of the most fascinating places to see, especially if you know someone there. I ran into Doug Pung while lunching at the Statler one day. Doug just finished designing the new Library of Congress Building, and was working on the Foreign Service Building. Which reminds me, M.L. Hernandez was just appointed Ambassador to Spain. I saw him for a very brief moment. Before I left Washington, I managed to see Millard Lewis. He is still training for the International Golf Championship; it's wonderful about his success up to date.

I saw Rudolph Langer back in California, receiving his tenth degree. Rudolph is leaving for Stockholm soon to receive the Nobel Prize Award for his contributions in the field of science and educational literature.

Well, Mr. Craig, that's about all there is to tell. My husband is still at sea but my children keep me very busy. I haven't done much writing since my marriage, but this recent adventure has inspired me to write a book called, "The Trials and Tribulations of a Navy Junior in an Air Force Town".

Sincerely yours,  
Carroll

# SENIORS

## HISTORY

As we, the seniors of Wiesbaden High School, reach the end of the fourth and last chapter of our life as students in Germany, the memories of all past events suddenly seem to flood our minds. We remember all the happy experiences: the parties, pep rallies, games, that last minute cramming before tests when so many of us "burn the midnight oil". Yes, we'll remember these things with possibly a bit of sadness in our hearts. Sad to realize that this shall be no more; these are only memories to be brought out and reviewed every once in awhile in future years.

It seems as if it were only yesterday that Joe Denniston, class president, called the class to order while Doris Moats, vice-president, reviewed the "important" topics to be discussed. Will we ever forget the bits of "this n' that" on which Debbie wrote the minutes? Certainly no one will forget Gall, keeper of the senior purse, in other words class treasurer. Remember the day Rudolph was elected student councilor? Can't you just hear him exclaiming, "completely and indubitably preposterous". That business woman, Joan Manning, who was not only student council prexy, but Annual editor, seemed to be always filled with the most generally interesting conversation — a cross between promoting the general welfare of the students, and limiting Carroll's history to 500 words.

During the first few months of school, football was foremost in nearly everyone's mind. M. L. and Doug made the team, while Doris represented us in that exalted Society of Cheerleaders for Wiesbaden HI. The last ball game was played, and then came the wonderful football dance the following week. This was our first really big chance to don our "glad rags" and prove that we were really a most civilized group. The year passed all too quickly, for it was late spring and thoughts were centered around graduation. Plans for senior "skip day" were in the process of being arranged, also arrangements for the May Dance, Senior Ball, Junior-Senior Prom, and of course THE day of graduation itself. Although we'd never admit it, nerves were being fractured and a slight bit of sadness was beginning to set in. And now at last, when the end of the year is here, too suddenly we realize that we shall never again tread those familiar halls as students. Our pictures and catch phrases will no longer adorn our private inner sanctums, the hall lockers. No more

## WILL

pep rallies, or cold showers; for we are now full-fledged citizens of the world, and like the old soldier who never dies but fades away, so do our memories.

### CLASS WILL

We, the class of 1952, being of sound mind and body, do hereby declare this to be our last will and testament. To Wiesbaden High School we bequeath our loyalty and pride in her name.

To the faculty we leave our sincere gratitude and patience. To the Freshmen, Sophomores, and Junior classes we leave our well worn books of knowledge, and our everlasting friendship.

Joe Denniston leaves to Walt Schneider his "pacing shoes" to be worn when speaking to a group of people.

M. L. Hernandez wills to lucky Syd Gill his camera and a mirror so that she can take her own picture several times daily.

Joan Manning leaves her height to the basketball team.

Doris Moats wills her chartreuse slacks to Walt Schneider who thinks they're "sharp".

Doris Moe bequeaths her exuberance and booming voice to next year's cheerleaders.

Joy Abbett wills to her brother Fred her books (with the answers in them) in hopes that he will appreciate their purpose. And to next year's Civics class she leaves Miss Noddin's cold, cold room.

Doug Pung leaves — — — Gladly.

Rudolph Langer leaves, in search of higher levels!

Carroll Robbins bequeaths to lucky Peggy Corder, a gilt edged manuscript with the words to "Once In Awhile", and to her brother Berton her NAVY pennant to hang from the school flag pole!

Debbie Shirley wills to Marsha Black her bottle of peroxide, and her straight A's to anyone who needs them, especially those in Miss Noddin's American History class.

Gall Wicks leaves to lucky Dean Glazier her beautiful green stockings, and her long hair-do.

If anyone contests this will, he will be answerable to our executor, the Ghost of the class of 1952.

Highly we praise sidewalk cafes for fetes and foods and fun,  
And the gala air of devil-may-care for which Paris cannot be outdone.

Though we are looking forward to being seniors, it will take some wonderful experiences to make us forget this year as juniors.

As with every junior class, the Junior-Senior Prom is **the** event of the school year, And, like every other junior class, we worked and worked and worked.

Yet until the very evening of the dance, all our plans seemed destined for complete failure. To our utmost relief and to the immense enjoyment of everyone else, the Prom was as complete a success as could be wished for.

*To Geneva's station our delegation with fraternal emotions pulled in;

## HISTORY

Although the Prom overshadowed many activities, sports still stood out. Walt Schneider, our captain, Ted Wilson, George Shirley, and Norman Deutschlander all played football, and were cheered on by Syd Gill and Nancy Barret.

All our wonderful accomplishments could not have been achieved without Miss Wright, a very welcome addition from Bremerhaven, and our class officers Sandy Young, Ted Wilson, Susie Talbot, and Sylvia Dyke. So many other members of the junior class proved to be outstanding that we will make an all-inclusive statement and say that this was the best junior class ever!

# SOPHISTICATED CLASS

The class of 1954 has followed like sheep in the groove worn by previous sophomore classes. In a last effort, however, the recorded events as revealed by this history will break from the traditional manner of class history presentations, that is, the recording of events from the beginning to the end; and here, listed for your edification, are the events from the death of the sophomore year to its embryonic period.

On June 15, all members of the sophomore class received those cards we had been looking forward to all year. Those bits of pasteboard proved that by one means or another, that is, apples, flattery, or even actual ability we had made the grade and were now entitled to be members of the Junior Class. One wonders — will this be any better? Look at the last Junior Class. They weren't all creeps — but... Oh, well! Perhaps we will be different.

Cheered on with the aid of sophomore cheerleaders Marsha Black, Karen Wicks, Trudy Bobela, and Linda Fair as alternate, the members of the varsity ball team, Mike

Flannery, Dan Chew, John McBlain, Charles Wagner made a fine showing for us. On the varsity football team we had Jim Lash, Berton Robbins, Charles Wagner, and Jay Gould.

Our class drew the rather dubious honor of publishing the school paper, "Smoke Signals". As every publishing day drew near with much smoke and few signals, the staff of the paper gathered, emerging from each publishing ordeal ink-stained and bleary-eyed; they gazed with justifiable pride at the results they had produced.

Elected as our representatives to the Student Council were John Angle and Linda Fair. Our class officers were: president, Berton Robbins; vice president, Trudy Bojela; secretary, Marsha Black; and treasurer, Karen Wicks.

With a nod to Miss Noddin, who really never does, at least in class, we thank our class adviser who guided us, or rather, pulled and shoved us through an excellent year. Thus we write "finis" to the sophomore history.

Dear Margie,

Hello from Deutschland! We just had to write to tell you about our activities during our first year in high school.

A good part of the freshman class's success is due to our bang-up beginning; and most of the credit for that good beginning belongs to Mr. Larson, our sponsor, and the class officers — Eddie Rapp, Louis Dvorsky, Marlies Peters and Rowanne Olson.

Mr. Larson started us right in on a program of student participation which gave some special job to practically everyone in the class. It is an understatement to say we learned a lot that way, and what's more we enjoyed it. Beside all those special jobs, we had many members who participated in school activities, especially sports. It seemed as if we were the most interested and enthusiastic class in school! George Prader, Sidney Head, Richard Hudson, Neil Marshall, Eddie Rapp, Phil Barrett, Thomas Noonan, Norman Patterson, John McFadden, George Lewis and Tom Purrington all went out for football and we think they did swell for their first year. When basketball time came around, we again had the most turn-outs. And the girls, did they yell! The boys couldn't go wrong with that backing!

That's the way it went all year long. We don't want to take any glory away from the other classes, but the freshman class **did** dominate the school activities!

Next year as sophomores, the rest of the school had better beware!

# CLASSROOM CLOSE-UPS

"These dreary dumps"

"Rest, rest, perturbed spirit"

"I have been in such a pickie since I saw you last"

"There is something in the wind"

"There's a time for all things"

"O sleep, O gentle sleep"

*As on every tour we too had a boor with camera incessantly snapping.  
You may see here, above, the best results of the tour's entire entrapping.*

# ACTIVITIES

*There's nothing banal about a canal as seen in the city of Venice;  
It drives many frantic with notions romantic, but nonswimmers find it a menace.*

# GOVERNMENT

## STUDENT COUNCIL

The Student Council, aided by Mr. Ahee and Miss Kalka, acts as the governing body of the school. It is composed of two members from each class, seven through twelve, who act in accordance with the opinion of their classmates. Much of the activity this year has been confined to bettering German-American relations.

## ANNUAL STAFF

Die Krieger was prepared this year, not by the senior class alone, but by a special staff composed of members from the whole high school. This year we worked to publish what we felt was a new annual. To Mr. Craig belongs the credit for our inspiration and to Herr Tegethof go our thanks for his artistic help. Among others who made this annual possible were Rudolph Langer, who wrote the poetry, Sandy Young, Lynn Donovan, Trudy Bobela, and John Mc Blain, who did our art work. Miss Wright also deserves our gratitude for the tiring job of reading and rereading our copies.

Velma Sprinkle, Jerry Tomasvic, John Angle, Rudolph Langer, Walt Schneider, Sidney Gill, Mr. Ahee, Joan Manning, Miss Kalka, Richard Hudson, Neil Marshall, Martha Hammond, Richard Adams

Gail Smith, Carroll Robbins, Gail Wicks, Rowanne Olson, Joan Manning, Doris Moe, Mr. Craig, Sylvia Dyke, Millard Lewis

*Journalist and editor, erudite and governor, in their praise we are outspoken.  
Each in his or her own way helped to save some long past day and deserves a token.*

# SCHOLARSHIP

Millard Lewis, Sylvia Dyke, Gall Wicks, Rudolph Langer, Miss Noddin, Joan Manning, Mary Campisi

## HONOR SOCIETY

The National Honor Society was organized this year in Wiesbaden High School because the need was felt for an organization which recognized outstanding scholarship, character, leadership, and service. The members and their sponsor, Miss Noddin, have striven to carry on a program of high level activities.

## SMOKE SIGNALS

Smoke Signals, the school paper, is published each year by the sophomore class. This year's editor was Trudy Bobela, who with Miss Wright and the rest of her staff brought out a paper cram-full of the most interesting school happenings.

Miss Wright, Gall Smith, Dean Glazier, Shirley Craves, Marilyn Rutherford, John Angle, Linda Burton, Kay Reed, Marsha Black, Karen Wicks, Linda Fair, Trudy Bobela, John McElain, Russell Wells, Charles Wagner, Berton Robbins, Don Kitchens, Peggy Corder, Sidney Gill.

*This tour's had pleasure in great measure for all who've come along.  
Though some went ape at art to gape while others lived for song.*

# SPOTLIGHTING

## FOOTBALL

With the opening of the football season this year, Wiesbaden's hopes for a championship team were forgotten when the list of candidates was given — there just weren't enough men. Despite this lack of material, the work of building the team went on. Our coach, Mr. Coyne, gave all his time and effort in trying to build a strong line out of the inexperienced freshmen and sophomores. Despite this help, however, the team could not keep pace with the stronger and more experienced lines of some of the larger schools in Eucom. Sparked on by their captain, Walt Schneider, the team fought hard, but it was not in the cards to win.

Some of the scores were:

Berlin 32, Wiesbaden 12

Nürnberg 41, Wiesbaden 13

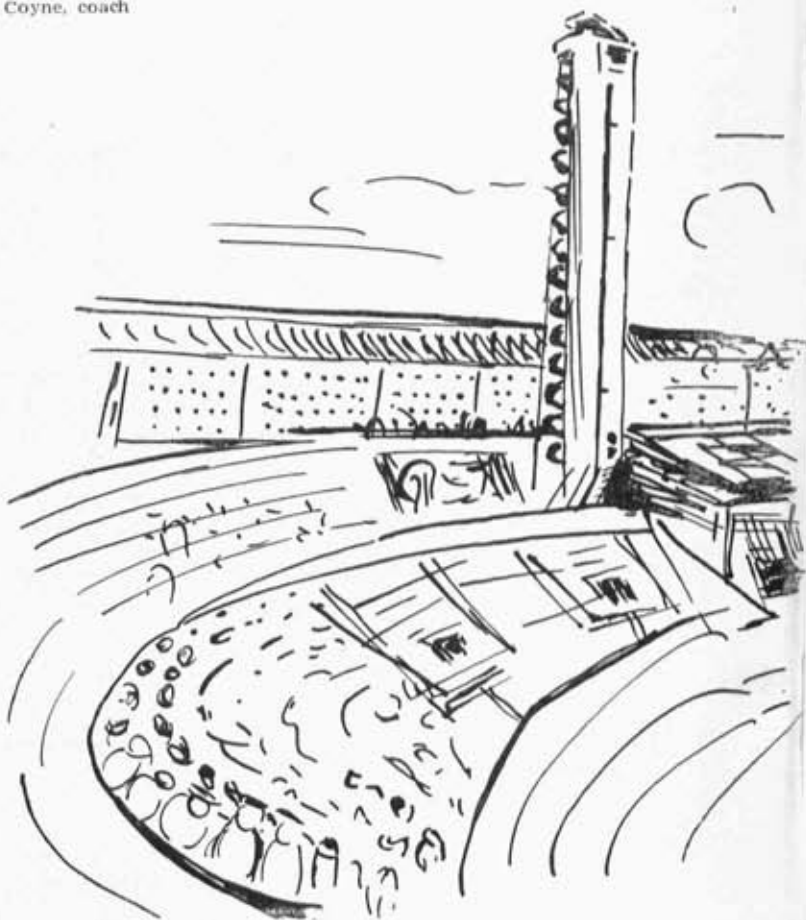

Bremerhaven 52, Wiesbaden 6

Linz 53, Wiesbaden 0

Our hopes for a stronger and better team go with these boys — Neil Marshall, Richard Hudson, M. L. Hernandez, Walt Schneider, Doug Pung, Jay Gould, Sydney Head, Berton Robbins, Ted Wilson, Charles Wagner, George Shirley, James Lash, Norman Deutschlander, and George Prader. Their determination to win and improve will foster a new championship team next year.

First row: Don Kitchens, manager; Neil Marshall; Richard Hudson; M. L. Hernandez; Walt Schneider, captain; Doug Pung; Jay Gould; Sydney Head  
Second row: John Angle, manager; Berton Robbins; Ted Wilson; Charles Wagner; George Shirley; James Lash; Norman Deutschlander; George Prader; Mr. Coyne, coach

*As the ad proclaims, the Olympic games are this time in Finland located.  
We're soon at the border with passports in order and spirits for sports are elated.*

## BASKETBALL

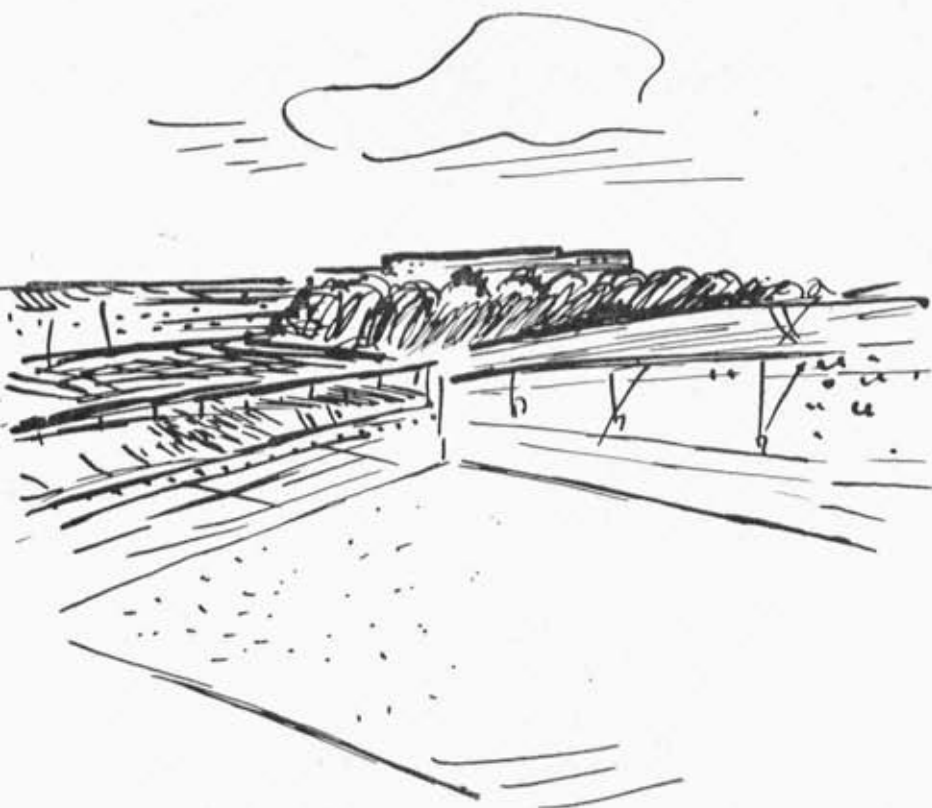

First row: Jim Wagner, manager; Eddy Rapp; Chuck Wagner; Norman Patterson; Richard Hudson; Claude Ranieri, manager  
 Second row: Neil Marshall; George Lewis; Doug Pung; Dan Chew; Barry Giffin; Tom Purrington  
 Third row: Norman Deutschlander; John McBlain; Walt Schneider; Ted Wilson; John McFadden; Mike Flannery; Coach Coyne

This year's basketball team, as in football, was small and weak due to the lack of candidates. Coach Coyne, however, was pleased with the response and set about building a team. Those daily practice sessions were gruelling, but the satisfaction of seeing the team grow was worth it. Along with the regular practice sessions, the team played games with a German team, all part of the school's program to better German-American relations.

Although our record was not impressive, we are proud of our team. The experience gained, the friendships made, have made it well worth the time and effort spent.

Some of the outstanding players were: Ted Wilson, captain; his long shots were a thing of beauty; Walt "locker room photogenic" Schneider and John McFadden, the "toughies" of the team; and Mike Flannery, the height of the team.

With such material and spirit as this team has shown, we're bound to win. No one can keep Wiesbaden down.

*Through fabulous feats we finally got seats though they were placed rather far back;  
 And if on clear days one intently would gaze, he could almost distinguish the track.*

# PEPPY

## CHEERLEADERS:

Marsha Black, Karen Wicks, Nancy Barrett,  
Doris Moats, and Sidney Gill

The cheerleaders this year have been one of the peppiest and smartest looking groups in our school. They have sponsored pep rallies, bon fires and dances in order to promote more school interest in sports.

Having walked away with the cheerleading trophy in Frankfurt a year ago, hopes were high that the cheerleaders would be able to repeat their feat of that occasion. Great was the rejoicing when the Wiesbaden cheerleaders again walked away with the cheerleading trophy at the 1952 Eucom Basketball Tournament!

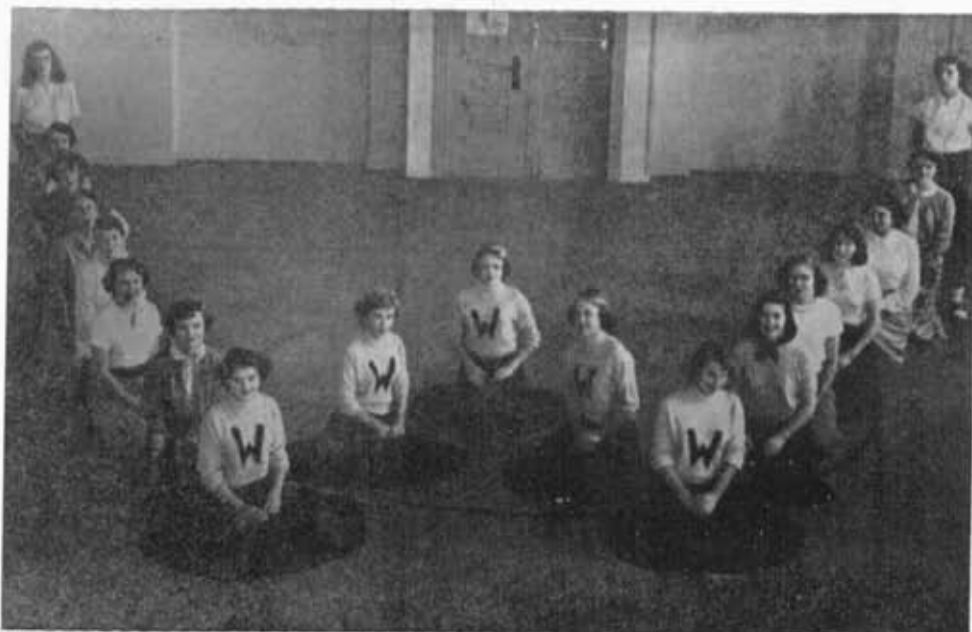

SUBSTITUTES: Linda Fair and Gail Wicks

*In varsity sports of varying sorts, the lettermen we will find 'em;  
But if up to me I'd rather see the gals who are behind 'em.*

# PEOPLE

## PEP SQUAD

Whenever a student saw those huge blue and gold banners hanging in the gym, he knew the pep squad was in action. Those peppy wide-awake girls of the club really made the school sing. The pep squad composed of the cheerleaders and fifteen active members sponsored dances, pep rallies, assemblies, and "sweeties' days" to promote school spirit and interest in school sports. Interest and attendance at games soon became greater and assemblies took on a new sparkle; school life became full and quick moving — a monument to the work of the pep club.

Starting from rear left: Joan Manning, Sylvia Dyke, Debbie Shirley, Carroll Robbins, Gail Wicks, Sally Geyer, Linda Fair, Doris Moats, Nancy Barrett, Marsha Black, Karen Wicks, Sidney Gill, Mary Campisi, Doris Moe, Susie Talbot, Muriel Wilson, Gail Peterson, and Sandra Young.

First row: Kay Reed, Karen Wicks, Jean Bobela, Carroll Robbins, Patricia Smith. — Second row: Martha Hammond, Jenelle Head, Karen Wolding, Marlies Peters, Velma Sprinkle, Roberta Shaprin. — Third row: Gail Wicks, Susie Talbot, Marilyn Rutherford, Sally Geyer, Patricia Duffy, Mary Ellen McFadden. — Fourth row: Trudy Bobela, Peggy Corder, Gail Peterson, Sidney Gill, Carolyn Murray. — Fifth row: Joan Manning, Debbie Shirley, Marsha Black, Linda Fair, Sandra Young, Miss Burt, Mary Campisi, Sylvia Dyke, Linda Burton, Jackie Jordan.

## GIRL'S ATHLETIC ASSOCIATION

The G. A. A. has been interested mainly in building up interest in girls' sports. To promote this program, we established the speed ball group, the bowling club, and German - American sports. Under the able direction of Miss Burt, the club has really progressed and we are looking forward to a bigger and better program next year.

*You're quite out of step if you've got no pep when G.A.A.'s in chargin-o.  
And you'll have no peace if they've a caprice school spirit to enlarg-o.*

# OUR MUSCLE MEN

Mr. Coyne, sponsor; George Shirley; Joe Denniston  
Walt Schneider; M. L. Hernandez; Ted Wilson

The Letterman's Club this year, under the direction of Mr. Coyne, has sponsored some unique activities. Among these were the football banquet, and the faculty-varsity basketball game to raise money for the March of Dimes. The latter was a great success due to the peppy support by the teachers who acted as cheerleaders for the "Fabulous Five". Incidentally, the faculty won 29-21.

Action during the Linx-Wiesbaden game

*"See Naples and die", with many a sigh all those who have been there have said.  
But to be quite candid, it should be expanded, "And when you see Rome, you're dead."*

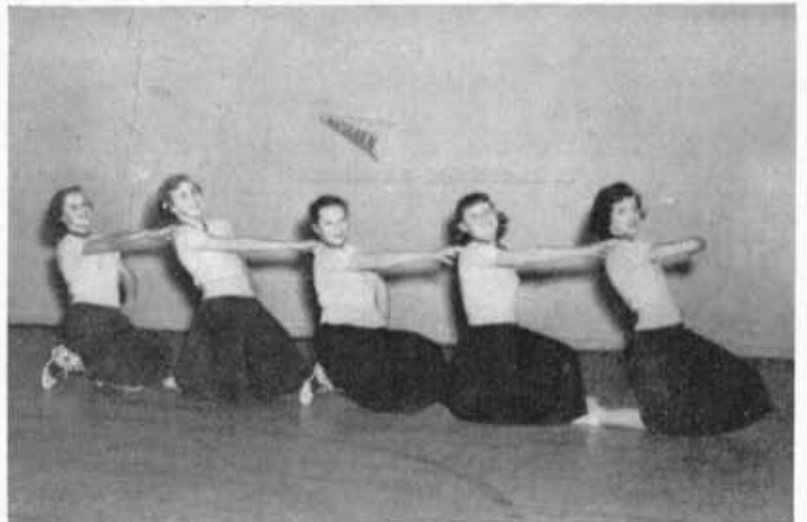

# JUNIOR HIGH VERSION

This year's junior high team has been the pride of Wiesbaden. Under the coaching of Mr. Larson, the team has risen to the top of the league. The school has been constantly amazed at the experienced ball playing that such players as Fred Shirley, James Atria, and Warren Watson have exhibited. There is no doubt that these boys will be a welcome addition to next year's high school team.

First row: James Roberts; Warren Watson; Tom Gould; Mr. Larson, coach; James Martin; "Angel" Rutherford; Ronald Deuchlander

Second row: James Atria; Tommy Rutherford; Larry Patterson; Alan Dyke; Fred Shirley

Jean Bobela; Carol Barth; Kay Henning; Pat Duffy; Mary Ellen Mc Fadden

*At the opera in Rome one feels quite at home, cause opera's at home here too;  
O, Don Giovanni sounds sweeter than honey when sung by a cast true blue.*

# STRAINING HARSH DISCORDS

"I'll speak in a monstrous little voice"

"Some of us will smart for it"

"I would fain die a dry death"

"Off with his head!"

"A morsel for a monarch"

"The play's the thing"

*In Bess's day Will had his say in actor's flowery speeches;  
And every twit that he made bit, or so Miss Wright would teach us.*

# AND UNPLEASING SHARPS

"Of an unbounded stomach"

"When shall we three meet again"

"Zounds! I was never so bethumped with words"

"A thousand blushing apparitions"

"Chaos is come again"

"I'll not budge one inch"

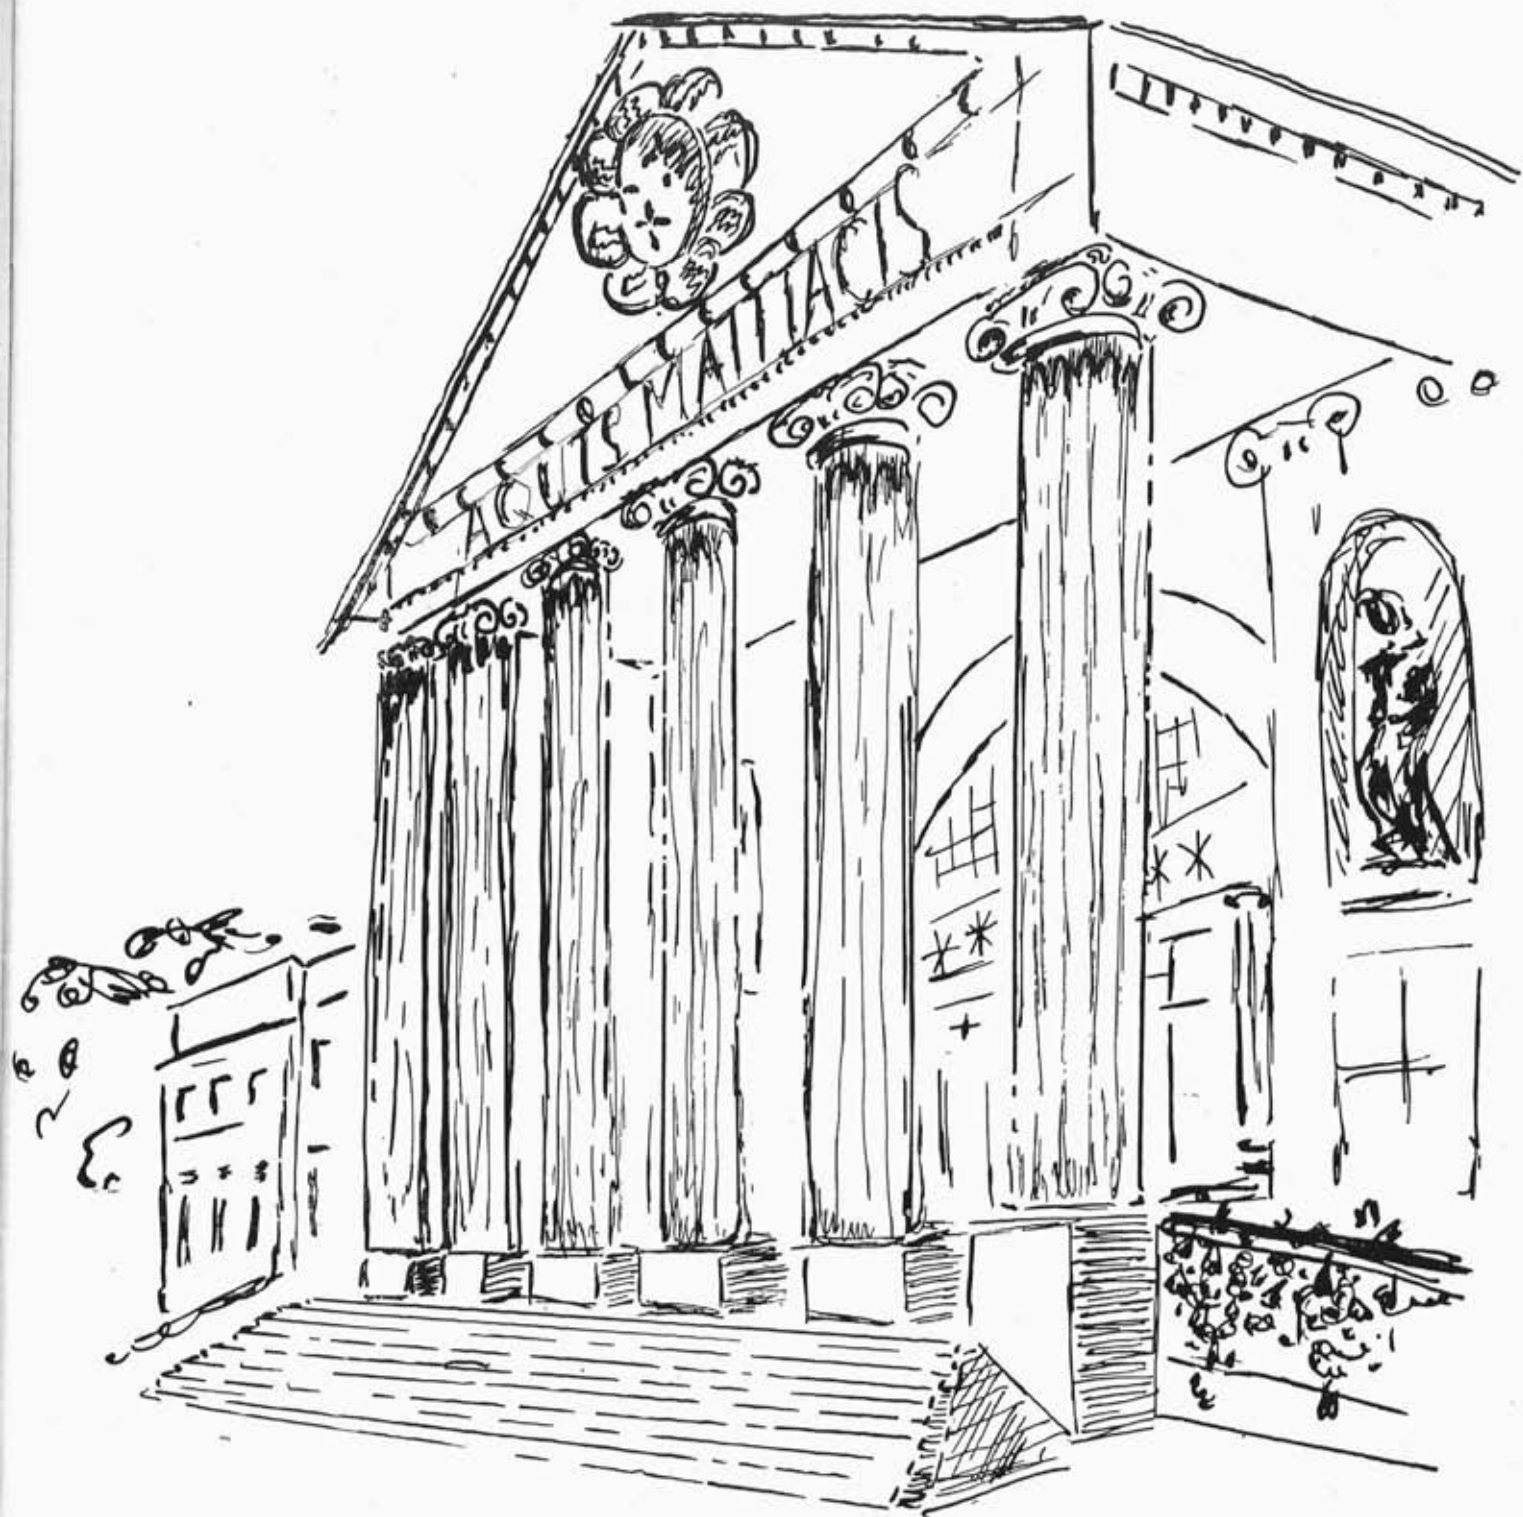

*I would avow were Will here now, he'd well describe our station;  
And that his wit would well fit a modern situation.*

We, the senior class of 1952, dedicate this annual to our senior sponsor, Mr. Robert Craig, in gratitude for his many services to the students of Wiesbaden High. We thank him for his humor, warmth, understanding; for his steadying presence in difficult times; and most of all, for his personal interest in each and every student in his classes. Certainly no one has ever worked harder or sacrificed more to make a year a success.

*We think he's great and dedicate this yearbook in his honor;  
'Cause we know now that his know-how kept it from being a goner.*

As the doors of time close on our high school years, and the final memories are dusted and put away for safekeeping, it's hard to realize that we are almost finished with high school pastimes. When we think back over the years to the freshmen initiation, the proms, old friendships, and graduation, we begin to feel a little bit sad. We remember with gratitude the help and interest that our parents and teachers gave us, and of all the good times that next year's seniors are bound to have. Most of all, we'll remember the wonderful years spent in Germany, an advantage that few Americans have. No matter where we go, or what we do, this tour will not be forgotten, and our lives will be fuller and richer because of it.

## SCHOOL HISTORY

The Stuttgart American School was still under construction, when, on October 15, 1946, it opened its doors to 42 pupils. From these 42 pupils and a small building it has progressed, by 1952, to an enrollment of 645 and a larger and roomier building. Our faculty has also increased from six to nineteen.

Additions to our school include the new Junior High School wing and a newly established press and mimeograph room. It is here that the 9th grade pupils print the Stuttgart Ram-Pages each month. The outstanding extra curricular addition is the new A. Y. A. building for teen-agers located just a five minute walk from school. All our social activities are held here. We point with pride to the "Junior High" which has contributed to the administration of our school by the safety patrols. These patrols assist with the school buses and the fire drills.

## CLASS HISTORY

Well, here we are, freshmen at last, and also the senior class of our fair school.

To represent our class we have chosen as our class officers, Jack Clymer, president; John McInerney, vice-president; Tom McInerney, secretary; and Charles Williams, treasurer. Have you noticed? They're all males!

Our colors, red and white, are displayed by our peppy cheerleaders, Nina Collins; captain, Roberta Grant, Betty Schneider, Sandra Morris, Sandra Schlegel, and Jane Lewis. Among our many activities, we list our newspaper, the Stuttgart Ram-Pages, the high school annual, our fire patrols, safety patrols, and the Teen-Age Club Council.

Our trip itinerary this year included several very interesting places visited. First, we visited the offices of the Stuttgart Post News, where we gained many pointers and ideas for the Ram-Pages. Then, to the Echterdingen Airport to view the air drop of military equipment. Our class is the only class in the school to have visited a salt mine, which is located near Heilbronn.

The social calendar boasts of several successful parties and dances, including Halloween barn dance, Christmas formal, and Faching.

All in all, it has been a very full and happy year for us, and we hope that the next three years will be as happy as this.

## PARIS AMERICAN SCHOOL

The history of our school has been rather turbulent. After the opening on October 8, 1951, hardly a day went by without the appearance of some new crisis ranging from perplexing plumbing to balky buses. Through the valiant efforts of all concerned we survived and enjoyed every minute of it.

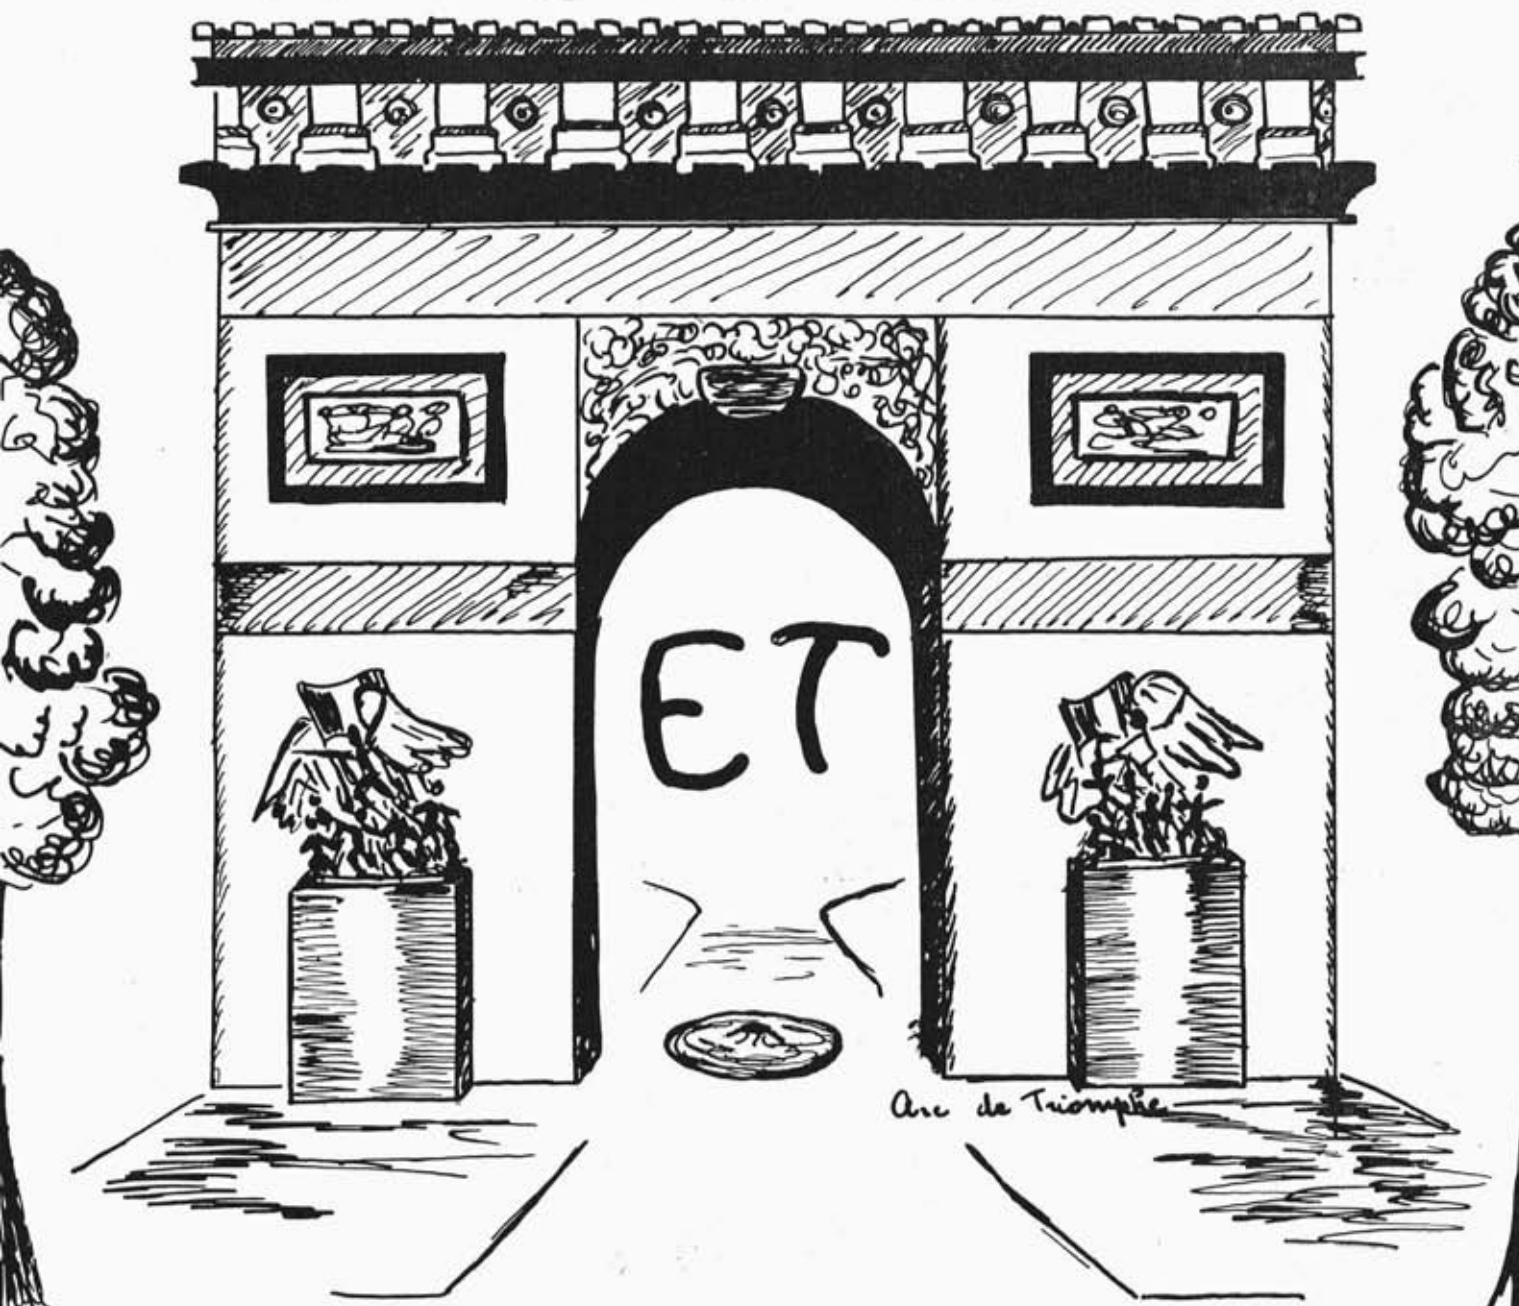

Due to a delay in the reconditioning of the high school we were forced to seek shelter for eight weeks in the office building of the 7961 EUCOM Detachment. The officers surrendered the whole first floor and one room on the third. In return we tried to be as quiet and considerate as possible. This, however, did not prevent the usual activities, such as freshman initiation, from taking place. Unfortunately, the building had been a private home and never intended for a school. The rooms were small and badly heated and lighted. In spite of the hardships we were a merry group making the best of what we had. The disadvantages served only to weld us closer together and to build a school spirit nothing can destroy. The pride and joy of every heart in the school was the Army coke machine with which we hated to part.

November 30 was the long-awaited moving day when we took possession of our permanent building at 3 Rue Cimarosa. We found it well worth the delay. It, too, had been a private residence but three months' work had completely transformed it. There are six classrooms, a library, a study hall, and a faculty room. The study hall is quite large and often doubles as an auditorium.

Around the first of December we were finally able to start a physical education program. This was partly due to the generosity of the American Community Church whose gymnasium we use.

Now as we look back over the year and survey the the results of our efforts, we are satisfied. Fifty students and five teachers have worked tirelessly together to make the school what it is today. The future holds much for our young school and we are sure that many more students will pass through her doors to carry on what we have begun.

## SENIOR HISTORY

The first graduating class of Paris American High School has the distinction of being the smallest class in the school. Though our class has only five members, state representation is wide, with students from California, Texas, Washington D.C., Louisiana and the Philippines.

Earl, (Tex) Nesbitt, for several months the only boy in our class, was born in Virginia, but he claims Texas his home state. Woe betide those who forget it! Most of his high school career was spent at Wichita Falls High, where he was active in band. Late in his junior year he came to Paris and was enrolled in the American Community School. There he organized weekly square dances and proved himself an adept caller. September 1951 saw his entrance in P.A.H.S. Being a natural leader, he was elected president of the class and of the senior-junior home-room. Tex has been active in all school functions, being a member of the basketball squad and the annual staff. This tall, good-natured cartoonist in his faded levis and cowboy boots has been a well-known figure around school.

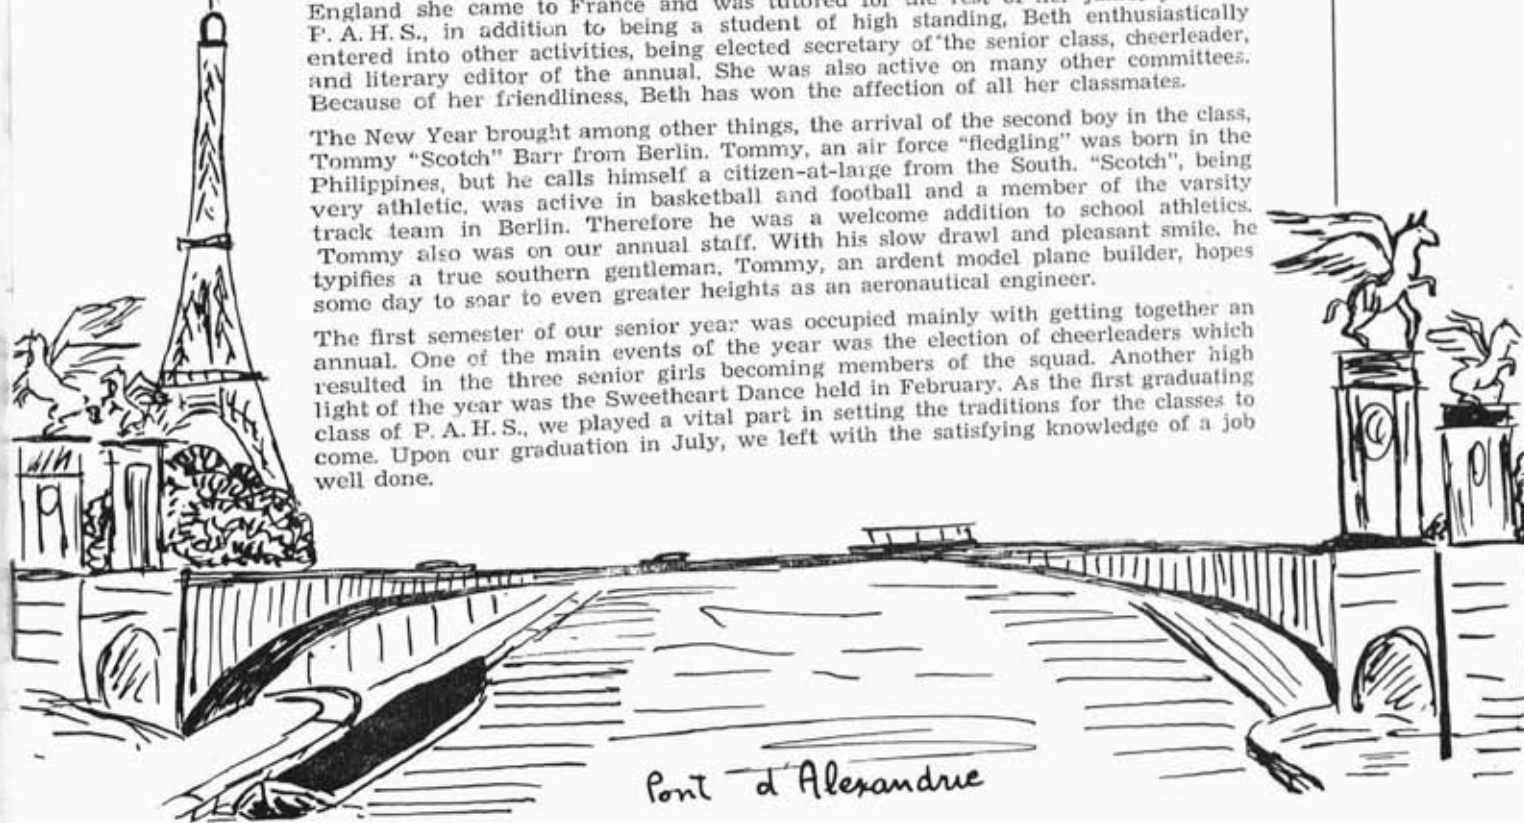

Texas's rival state, California, also gave us a senior in the person of Carole Lamoreaux. This pert, brown-eyed blonde attended Oxnard High School in her freshman, sophomore, and junior years. Her winning personality enlivened the many school activities in which she participated. She was a member of the Oxnard Pep Club and an active member of the Student Council. Oxnard's loss was our gain, for Carole, adjusting herself to our small school, plunged whole-heartedly into school life. Besides having been elected vice-president of the senior class, she was also elected president of the student council and was a valuable member of our annual staff.

Carole's best friend, Alice Mott, affectionately known as "Al" to her friends is a native of Washington D.C. In keeping with the life of an "army brat", she had attended four high schools before entering P. A. H. S. During her sophomore year at Bremerhaven she served as cheerleader for the Bremerhaven Blackhawks. She came to us from A. C. S. where she spent her junior year. Her sweet smile and lively personality endeared her to all. Sensing her business capabilities, we elected her class treasurer, and secretary-treasurer of the senior-junior home room. Having had previous experience in annual work, she proved a valuable member on our staff.

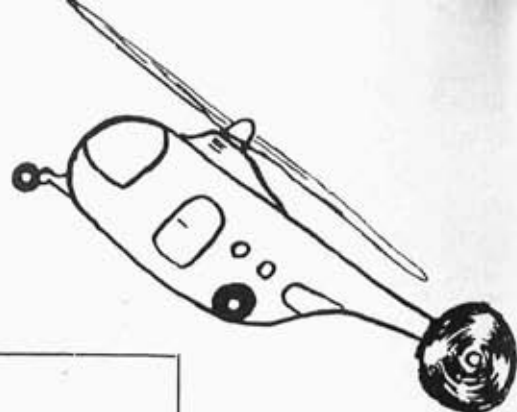

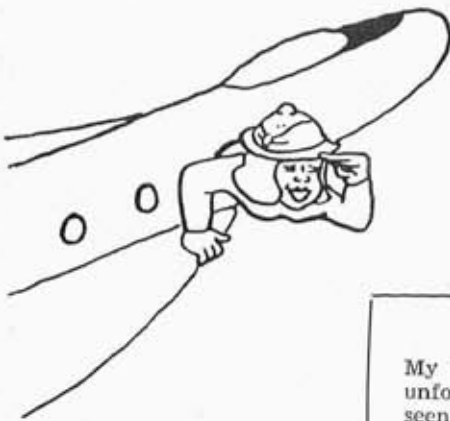

Beth Lewis, a tall, curly-haired blonde, hails from New Orleans. Her freshman and sophomore years were spent at St. Catherine's Academy in Newport, R. I. There she took part in various club activities, being an officer of both the Science and the Latin Club. The junior year saw her in an English girls' school near London. From England she came to France and was tutored for the rest of her junior year. At P. A. H. S., in addition to being a student of high standing, Beth enthusiastically entered into other activities, being elected secretary of the senior class, cheerleader, and literary editor of the annual. She was also active on many other committees. Because of her friendliness, Beth has won the affection of all her classmates.

The New Year brought among other things, the arrival of the second boy in the class, Tommy "Scotch" Barr from Berlin. Tommy, an air force "fledgling" was born in the Philippines, but he calls himself a citizen-at-large from the South. "Scotch", being very athletic, was active in basketball and football and a member of the varsity track team in Berlin. Therefore he was a welcome addition to school athletics. Tommy also was on our annual staff. With his slow drawl and pleasant smile, he typifies a true southern gentleman. Tommy, an ardent model plane builder, hopes some day to soar to even greater heights as an aeronautical engineer.

The first semester of our senior year was occupied mainly with getting together an annual. One of the main events of the year was the election of cheerleaders which resulted in the three senior girls becoming members of the squad. Another high light of the year was the Sweetheart Dance held in February. As the first graduating class of P. A. H. S., we played a vital part in setting the traditions for the classes to come. Upon our graduation in July, we left with the satisfying knowledge of a job well done.

### SENIOR PROPHECY

My plane came out of a fog bank and the panorama of Paris unfolded before me. It had been fifteen long years since I'd last seen the city, and fond memories of my senior year in P.A.S. came flooding back as I strained my eyes to pick out familiar landmarks. Sitting back, I dozed until the plane landed.

As I was entering the airport restaurant, I spied a familiar blonde head. "Alice," I cried, hurrying across the room to greet her. Her cool blue eyes lighted with recognition and she ran to meet me. After we had exchanged greetings she asked me what I had been doing lately. "Digging," I said.

"Are you kidding?" she questioned. Laughing at her puzzled expression, I explained that two years ago I had received my doctorate in archaeology from Stanford and that at present I was on my way to Mongolia to look for the legendary period which follows a geometric statement. "I hear you've done quite well, Alice," I said.

"Oh, yes," she answered. "I'm the president of the Mott's Motto Company. No doubt you've heard our advertising jingle:

If it's sales you are wanting,  
Or sales you ain't got,  
Get a modified motto,  
From Alice M. Mott."

A commotion outside interrupted us. Through the window we saw a helicopter come to a landing. A tall, gangling man alighted. He was wearing a tan Stetson, a handpainted tie, and cowboy boots. Blazoned across his suitcase was a travel sticker which informed us of the wonders of Texas, "The Nation within a Nation". Alice and I exclaimed at once, "The Nesbitt!" He saw us and came over to greet us with a hearty handshake (old French custom).

"Alice and Beth, how've ya'll been?" he drawled, dazzling us with a fourteen-carat smile.

We went into the lounge for an hour and talked over old times. Tex explained that he was here on a senatorial committee to investigate the damage done to Paris by the P.A.S. Class of 1953. Since we were all staying at the George V, Tex took us over in the helicopter. Before we separated he asked us to dinner and a show. I met him and Alice in the lobby about eight. Because Tex had only a million francs in change we were forced to have only a cup of tea at Maxim's. After that sumptuous repast we hurried over to the Lido to catch the ten-thirty show. The main attraction was Fifi Lamour who, much to our surprise, turned out to be Carole Lamoreaux. She was wearing a flaming red dress, and singing the hit of 1952, "Me and My Imagination", revived by the popular band leader, Tommy Barr.

After the show we met Carole and went to Les Halles for onion soup. In the wee hours of the morning we parted company, happy in the knowledge that we, the Class of 1952 had achieved such a high measure of success.

## SENIOR WILL

We, the Senior Class of 1952, being of sane mind, sound judgment and excellent understanding, (facts vigorously denied by the faculty), do hereby make and publish this our last will and testament, thereby cancelling and rendering void any previous wills published:

### SECTION I

To the faculty, who have so courageously and patiently endured the trials of the past year, we bequeath all our report cards, that they may be exhibited to future seniors as a proof of our genius.

### SECTION II

To Mrs. Polack, our home room teacher, we bequeath our gratitude and best wishes for her future.

### SECTION III

To the Class of 1953, we bequeath the other half of the home room, our Friday bull sessions in civics, our privileges, aristocratic manners and excellent taste, and also our superior knowledge (of French).

### SECTION IV

We will to the sophomores a book entitled "Baby's First Steps" and the distinction of at last becoming "upper classmen".

### SECTION V

We bequeath shiny new rattles to the freshmen and our sincere hopes that they will enter their sophomore year with a brighter outlook.

### SECTION VI

To the school, we bequeath the memories of our senior year, its successes and failures, gaiety and gloom.

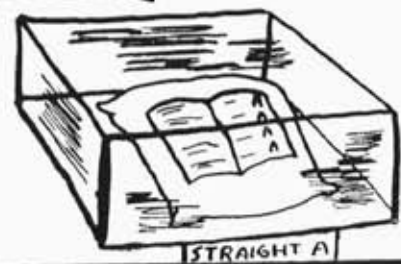

### SECTION VII

To the classes of the future, we bequeath our field trips, which ranged from mushrooms to Malik.

### SECTION VIII

It is our desire that the following personal bequests be added:

1. I, Earl Nesbitt, will my boots and Stetson to Brad Hosmer, and my trig book to Dick Chapman.
2. I, Carole Lamoreaux, will my bottle of  $H_2O_2$  to Pogie Hampton, and my position on the Student Council to any junior who craves excitement.
3. I, Beth Lewis, will my good luck to Ace Evans, and my worries and absolute confusion to Kay Zitzman.
4. I, Alice Mott, will my ability to cover three flights of stairs in 3.5 seconds flat to Sally Petty, and my place on Bus No. 7 to a lonesome sophomore.
5. I, Tommy Barr, will to my brother John my English grades and to Sally Petty my track medal.

# JUNIORS

NELSON M. HEAD, JR.  
President

KAY ZITZMAN  
Vice-President

SALLY PETTY  
Secretary-Treasurer

The first day of school found a junior class of only two members, Kay Zitzman and Sally Petty. Three days later Nelson Head joined the group and in November Craig Stubblebine and Tony Smith arrived. December brought us Jeannette May and Tony Knox, "swelling" our enrollment to the grand total of seven. We elected the following officers in our first class meeting: Nelson Head, president; Kay Zitzman, vice-president; and Sally Petty, secretary-treasurer. Kay doubled as vice-president in our home room and Sally was our Student Council representative.

The class activities included a senior prom and a basketball party. After the Thanksgiving holidays our home room operated a sweet shop or dessert bar during the lunch period. We sold cookies and candy to all the students. The funds earned by these sales were divided between the junior and senior classes because we combined to make one home room. We were well represented on the school teams with one cheerleader and four basketball players.

We came from high schools as far away as San Francisco and as close as Frankfurt. Kay Zitzman came from Bethesda-Chevy Chase High School in Maryland; Sally Petty from Thomas A. Roberts High School in Berlin; Craig Stubblebine from Lowell High School in San Francisco, California; Tony Smith from Washington-Lee High School in Arlington, Virginia; Jeannette May from Saint Marys Academy in Alexandria, Virginia; and Tony Knox from Frankfurt.

The sophomore class, sponsored by Miss Kathryn Waring, was made up of a group of very active students. Although the class of 1954 was small in number, it was strong in spirit. On October 8th we began our first year at Paris American High School with the issuing of the inevitable books. We then settled down to make this year one we would long remember. The following class officers were elected: president, Nancy Brown; vice-president, Arthur Evans; secretary, Emily Kabrich; and treasurer, Brad Hosmer.

We were unique in the fact that we were the only class in the school that started each day with music, furnished by Brad Hosmer and his ukulele.

Since our school was so small we did not engage in sports this past year, but instead had a great number of field trips to many places of interest, including the United Nations General Assembly, the Louvre, and the Museum of Natural History.

Virginia was well represented by the group with four of our eleven members coming from the Old Dominion State.

The sophomore class provided the library with four efficient librarians — Dick Chapman, Nancy Brown, Sally Gearhart, and Josette Richardson. These students worked during their study periods, alternating every few days.

Although all of us have attended many different schools during our career as "Army Brats", we feel that our Student Council representative, Mary Ann Ward, holds the record; Paris American School was the nineteenth school in which she had enrolled. On the other hand, Josette Richardson has been a veritable stay-at-home, having spent thirteen of her fifteen years in France.

We are all proud to have been the first members of Paris American High School and we are grateful to the members of the faculty who helped make this year one which will always bring back fond memories.

**CARL STEVENS**  
Treasurer

Our history really began in 1951 with the entrance of Carol Worden into the eighth grade at Paris American Elementary School. For a time she was the entire eighth grade. Then more boats began to cross the Atlantic and with them came more students. By the end of the year there were six—two girls and four boys. This year's long-delayed opening of school was awaited eagerly by almost everyone. We found the new routine of schedules, periods, and different classes very interesting. We also learned to take broken-down buses, unruly furnaces, and other minor mishaps in our stride.

During the year we have taken a number of field trips which have been interesting as well as educational. The highlight of the year was our visit to the United Nations. It was a wonderful opportunity for us to see how this great organization functions.

Initiation was the subject of much speculation. Nobody could agree on what the upper classmen would or would not do. When the blow finally came, it was almost as bad as expected, but not unbearable. In spite of window washing, book-carrying, and other hazing, we came through with only minor injuries, most of these being to our pride.

Class officers were: Robert Schow, president; David Routh, vice-president; Carol Worden, secretary; and Carl Stevens, treasurer. We have been guided through the perils of our freshman year by our good friend and home room teacher, Mr. Hagler.

The satisfaction of working together has formed a solid foundation for a successful future as sophomores. This first year of high school has been a memorable one, and we look forward with great expectations to those which will follow.

## HISTORY

The first Student Council of Paris American School was organized in November, under the capable guidance of Mrs. Polack, the junior-senior home room teacher.

Membership consisted of one representative from each home room. From this group the following officers were elected: Carole Lamoreaux, president; Sally Petty, vice-president; and Mary Ann Ward, secretary-treasurer.

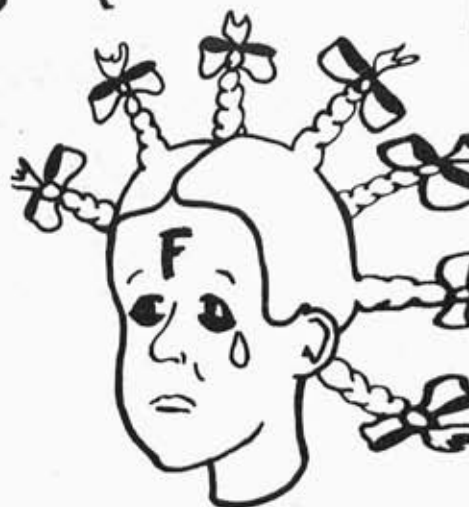

Through its various committees the council fostered a lively school spirit which has carried us through the difficulties of pioneering in a new school. Their efforts were responsible for the launching of a clean-up campaign, a photography contest, and for sponsoring assemblies, parties and a Frontier Day.

Everyone is indeed indebted to this enthusiastic organization for its worthwhile contributions to the school.

# *Farewell*

As we, the graduating classes of today and the citizens of tomorrow, reach a new phase of life, we realize that many of our experiences in witnessing the rebirth of a democratic Germany are ones which will never be repeated.

It is with sincere appreciation that we say farewell to all who have assisted us along the early paths of learning. Now let us assume some of the responsibility of showing the way of democracy and freedom to others who follow.

which are made available to children of school age living in isolated areas not served by established schools. For convenience of administration, France and the American Zone of Germany are divided geographically into five regions. The schools of each region are under the general supervision of a regional superintendent. The duties of regional superintendents include frequent visits to the schools in their regions for the purpose of assisting in the needs of local school officers and installation commanders, school boards, principals and teachers.

### THE EDUCATIONAL PROGRAM

Standard curricula and sound American educational philosophy according to practices of the best American public schools, have been accepted as patterns for the education of children in the American schools in Europe.

Each school is supplied with basic textbooks along with an abundance of well chosen supplementary texts, library books, workbooks, and audio-visual aids. A head quarters staff librarian works in close cooperation with all schools assisting personnel in the efficient operation of a school library. Many of the smaller elementary schools have access to traveling library book kits, each made up of about one hundred selected titles for children of all ages.

Students' activities are enriched by opportunities found for travel and study of varied German and other European environment. Pupils completing the work of a grade in the American schools in Germany or France are prepared to enter the next advanced grade in any elementary or high school in the States.

German language instruction is part of every school program. In the high schools German and French are offered as a regular elective subject. All foreign language instruction is given by qualified native personnel.

### HIGH SCHOOL PROGRAM OF INSTRUCTION AND GUIDANCE

American high schools in Europe are accredited by the North Central Association of Colleges and Secondary Schools. A basic curriculum is offered which allows each student to acquire those techniques and bodies of knowledge essential for personal and social adjustment and development in our modern society.

In addition to this basic curricular offering, a program of pupil activities, including music, art, athletics, homemaking, business subjects, shop, journalism, and dramatics, is offered to the extent which physical, personnel, and financial considerations in the various schools allow. Throughout the high school program an attempt is made to use to best possible advantage the cultural-geographical location of the school to enrich the program of studies and to ensure the utmost profit from the unique opportunity of living in a foreign country.

The student personnel program places great emphasis upon evaluation of individual student needs, interests, and aptitudes. To this end, approved standardized instruments of evaluation are used to supplement personal counseling interviews, written records, and teacher and parent evaluations. With this body of information at hand, an attempt is made to guide each student in that direction where success and happiness are indicated.

Follow-up studies indicate that over 60 % of the students who have graduated from American high schools in Europe entered an institution of higher learning. The curriculum allows a student to prepare himself for admission to any college or university in the United States.

Tests of the College Entrance Examination Board are administered upon request and students, recommended by their principals for college entrance, have repeatedly scored high in these examinations.

Some graduates of American high schools in Europe have entered United States military and naval academies and others have been awarded scholarships for study in well-known colleges and universities in the United States.

### **HEALTH AND SAFETY EDUCATION**

Health and safety activities are operative in all schools. School nurses are assigned to some of the larger schools. In the smaller schools a local nurse is on call at all times. Medical officers of local installations assist in the administration of physical examinations and health care. In many local installations pupils are provided with a hot noon lunch at a minimum cost. The noon lunch is prepared and served by German personnel under the direction of a local installation officer.

### **MODERN SCHOOL FACILITIES**

The passing school year has shown outstanding progress in the construction of modern school plants in Germany. Many local communities, through their American engineers and in cooperation with Dependent School headquarters staff, have succeeded in erecting school buildings comparable with some of the best in the States. The safety and health of school children has been taken into account in both the selection of the location and construction of new buildings.

### **PARENT-TEACHER ASSOCIATIONS**

Parent-Teacher Associations have become an important factor in the operation of a successful school in most school communities. Forty-two PTA's are now in operation in Germany and France. Several have become members of the National Congress of Parents and Teachers. A European Command Parent-Teacher Council was organized in October at a meeting in Garmisch by delegates from nearly all PTA's in Germany. Most PTA's in Germany have become members of the Council. The principal objectives are to exchange experiences on successful PTA activities and practices, to unite in common projects, and to cooperate in definite lines of work for the improvement of conditions affecting the welfare of children and youth in American communities.

### **ATHLETICS AND PLAYGROUND ACTIVITIES**

School playgrounds are equipped with playground apparatus including swings, slides, high bars and teeter-totters. Most playgrounds are also equipped with basketball and volleyball courts. In many schools playrooms and gymnasiums are made available to both elementary and high school pupils. Playground and playroom supervision is regarded as a regular duty of the teaching staff. In many schools regularly established physical education classes are conducted for both boys and girls on all grade levels. Athletic sports, particularly football, basketball, and baseball, are carried on in high schools and in the larger elementary schools.
