# In Loving Memory Of

# Mr. Clark Johns, Jr.

The 1993-94 yearbook is dedicated to the memory of Mr. Clark Johns, Jr. Mr. Johns passed away on February 20, 1994, after a hard-fought battle with pancreatic cancer.

Mr. Johns served in the Vietnam War before attending Austin Peay State University. After attaining his teaching degree, Mr. Johns became a substitute teacher at Northwest for about four months. Soon after this Mr. Johns began to work in the Fort Campbell School System, where he was a dedicated teacher for twenty-three years. "It was important to him that he was helping kids make futures for themselves," said teacher Greg Gillis. Mr. Johns believed it was important to keep "exercising the mind."

Mr. Johns has said that he wanted to grow up to be just like his dad. He was an advocate for the family. His wife, Judy, and their four children (April, Janna, CJ, and Sarah) were his pride and joy and always came first. He was an avid supporter of the church and referred to the people of his church as family.

In the words of those who knew Mr. Johns best . . . "He was very genuine, there was nothing phony about him," said teacher Lee Lange. Teacher Pam Briggs said, "He was very quick-witted, humorous, humble, vivacious, and always a gentleman." "He knew the ways of the world and the ways of the heart. He understood the value of laughter and the power of faith. He cherished his God, his family, his home, his country, his jokes (good and bad), his students (good and bad), and his friends," said teacher Rose Garrett.

Mr. Johns was an excellent teacher, a good friend, and a loving father and husband. Those who knew him will always remember that, "It's a fine day to be in the Army, don't you know."

# Through It All 1993-1994

The 1991-1994 school-year had many ups and downs. From our disappointing football season to our first whole week off of school for snow, we survived through it all.

In our area we witnessed the first massive slaying of innocent people, in the "Taco Bell Massacre," a rape epidemic, and the unfortunate loss of Quanah Harris.

Nationally, we saw the acquittal of Lorena Bobbit for the removal of her husband's "member," and the Mendez Brothers for the murder of their parents. We suffered with Los Angeles through the television coverage of the devastating earthquake. We shared Michael Jordan's shock about his father's death and were even more stunned by his subsequent retirement from professional basketball. The Dallas Cowboys beat the Buffalo Bills out of one more Super Bowl. We were dismayed at the lack of Olympic spirit shown by Tonya Harding and her staff towards Nancy Kerrigan. We were excited by the fact that the World Cup would be held for the first time in the United States. And, of course, we were excited at the possibilities for the United States at the Olympics.

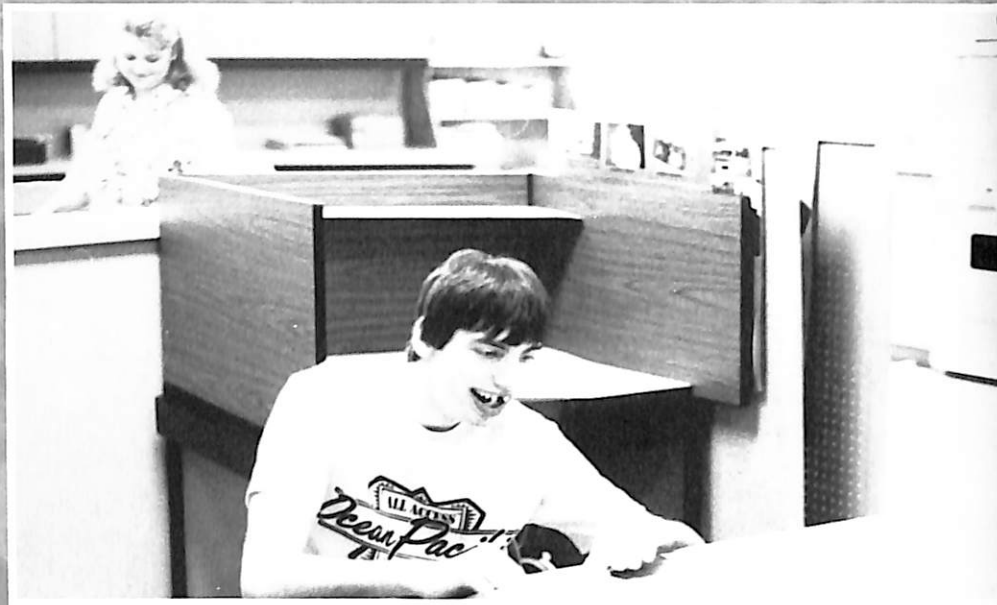

In the world of entertainment we were shocked at the allegations of sexual misconduct against Michael Jackson. The romances and marriages of: Kim Basinger and Alec Baldwin, Julia Roberts and Lyle Lovett, The Donald and Marla Maples and Michelle Pfeifer to a mystery man, had us all excited for them. We saw wonderful movies involving the human spirit this year including SCHINDLER'S LIST, AGE OF INNOCENCE, PHILADELPHIA, THE PIANO, and IN THE NAME OF THE FATHER. On the music side of things: New Kids on the Block are back, Snoop Doggy Dog had a little run in with the police, 2-Pac Shakur was charged with rape, Mariah Carey wed manager Tommy Molota, and we lost music legend Frank Zappa to prostate cancer. Three of our favorite musicians: Rod Stewart, Bryan Adams, and Sting, got together and came up with a hit song for the not-so-hit movie THREE MUSKETEERS. And our favorite Disney movie, ALADDIN, came out on home video.

And of course, we made it THROUGH IT ALL!

# TMH

This year's special feature is TMH. Ms. Izzo, the instructor of this class, has been here at Fort Campbell for five years. This is her smallest class since she has been teaching. Her students are very active throughout the school day. They have jobs in the community during school and have gym classes. Frankie Bates is graduating this year and is very happy about it. There are only three other students in this class and they are Michael Marrietta, Dolly Kinch, and Billy Collins.

The Homework Machine, oh the Homework Machine,  
Most perfect contraption that's ever been seen.  
Just put in your homework, then drop in a dime,  
Snap on the switch, and in ten seconds' time.  
Your homework comes out, quick and clean as can be.  
Here it is — "nine plus four?" and the answer is "three."  
Three?  
Oh me . . .  
I guess it's not as perfect  
As I thought it would be.

## The Lockless Door

It went many years,  
But at last came a knock,  
And I thought of the door  
With no lock to lock.

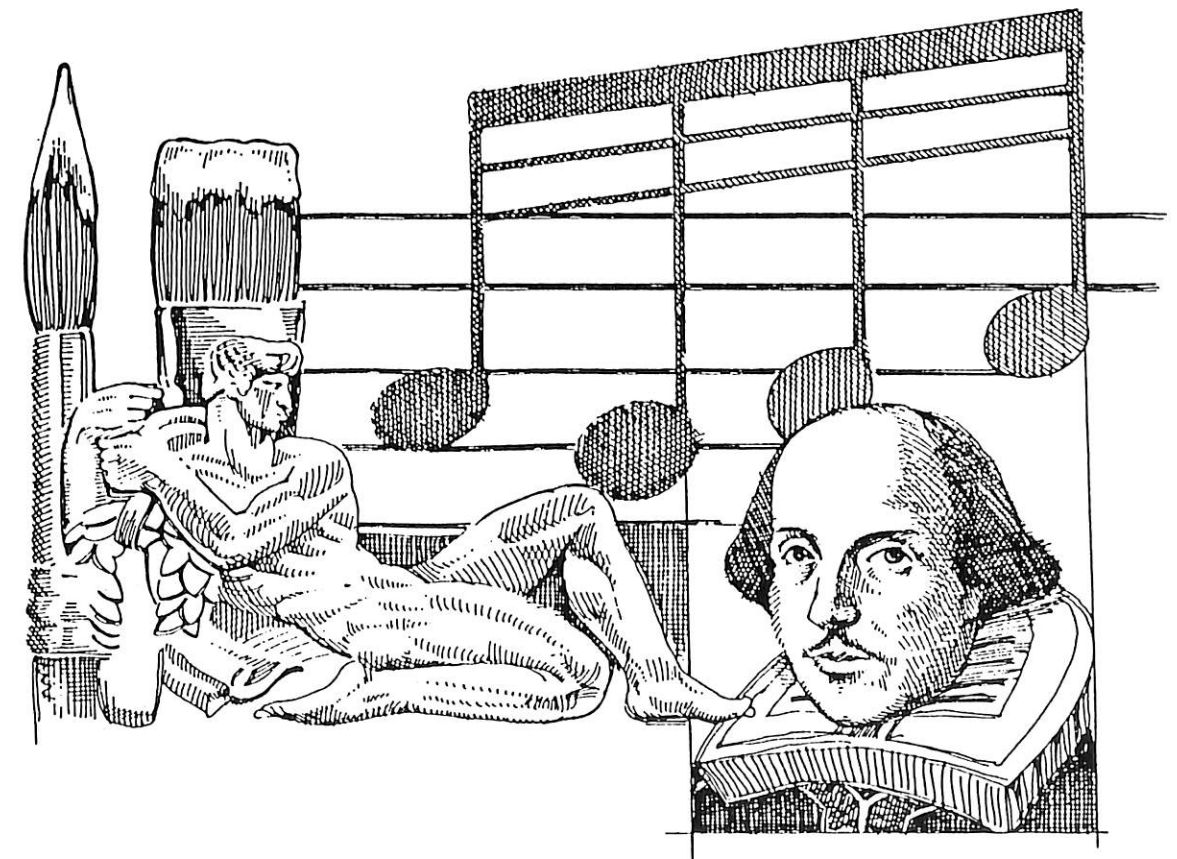

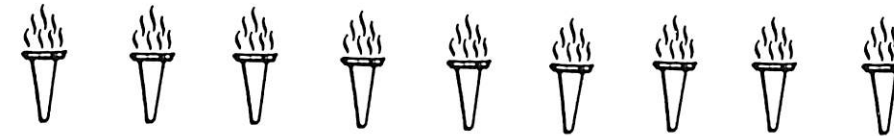

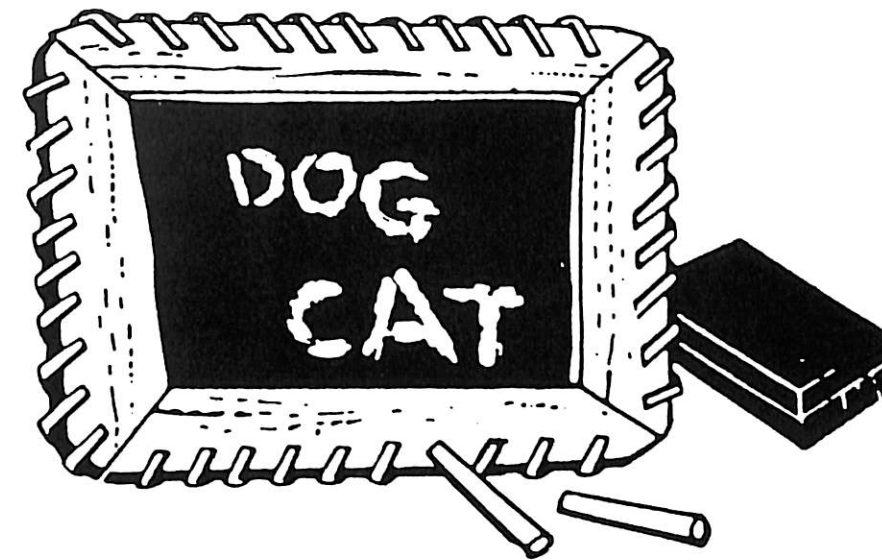

I blew out the light,  
I tip-toed the floor,  
And raised both hands  
In prayer to the door.

But the knock came again  
My window was wide;  
I climbed on the sill  
And descended outside.

Back over the sill  
I bade a 'Come in'  
To whatever the knock  
At the door may have been.

So at a knock  
I emptied my cage  
To hide in the world  
And alter with age.

## Top 10

I would like to thank my parents for their continuing love and support. Mom and Dad, I love you. Without them I would have been lost. I also would like to thank my teachers for putting up with me. Thanks to my buds for teaching me great study habits! I plan to attend the University of Tennessee at Knoxville. I want to major in Mechanical Engineering or Physics Engineering.

PAUL GASS

JENNIFER CUGNO

After I graduate from high school I am going to the University of Kentucky. I plan on majoring in occupational therapy. I have laughed and cried my way through high school. I want to thank everyone who has rejoiced with me and comforted me, especially my family. I love them with all my heart, even though I do not show it too often. I know in a few years I will look back at my high school years, and say that they were the most wonderful and terrible years of my life.

## Seniors

First and foremost, I would like to thank my parents and family for their love and support. I would also like to thank my friends and teachers for giving me confidence and encouragement. After graduation, I plan on attending either the University of Virginia or James Madison University.

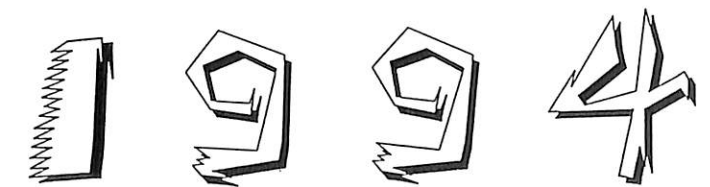

CLAUDIA MENJIVAR

KELLEE JAMES

There are so many people who have helped me through my high school years, and made the last four years some of the most memorable. To my parents, who supported me in all my pursuits, academic and otherwise, goes my deepest thanks. Thank you also to my sister, who had been my constant, close friend. I plan to attend Vanderbilt University and major in biology, then go onto a career in training and competing horses.

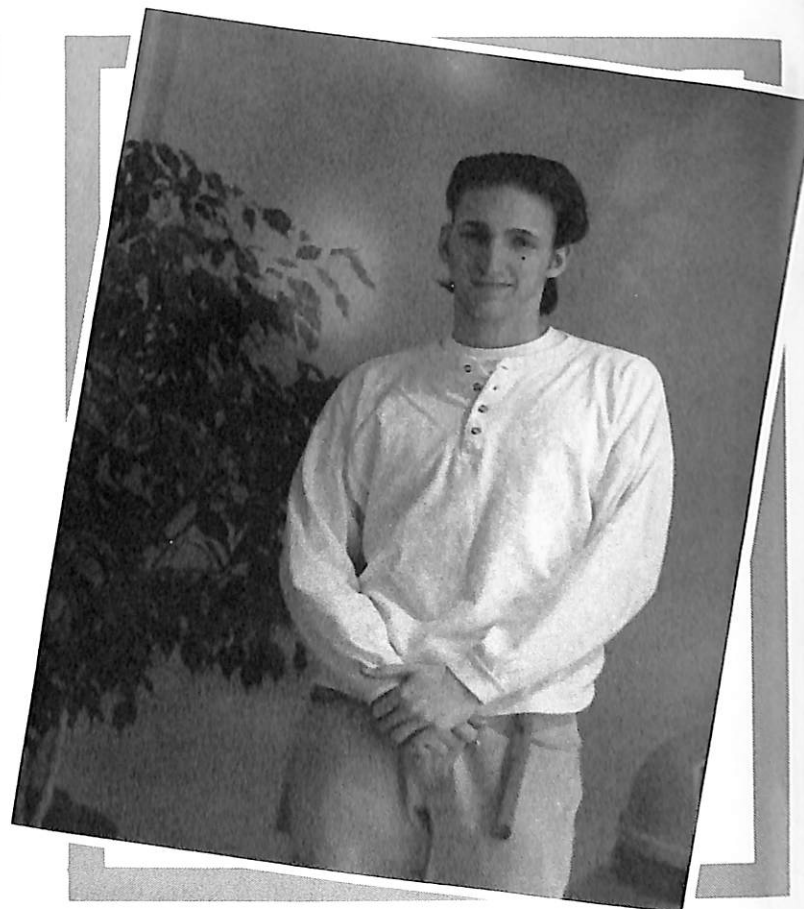

BILLY ALLEN

## Top 10

I feel that my parents have influenced me throughout high school. I would like to thank them for all of their support and guidance. Without their encouragement and inspiration, I would not be the person I am today. I would like to thank my teachers for the knowledge, my friends for the laughter, and most importantly God for the strength.

I plan to attend Spelman College in Atlanta or Hampton University in Virginia after graduation. My goal is to earn a degree in law.

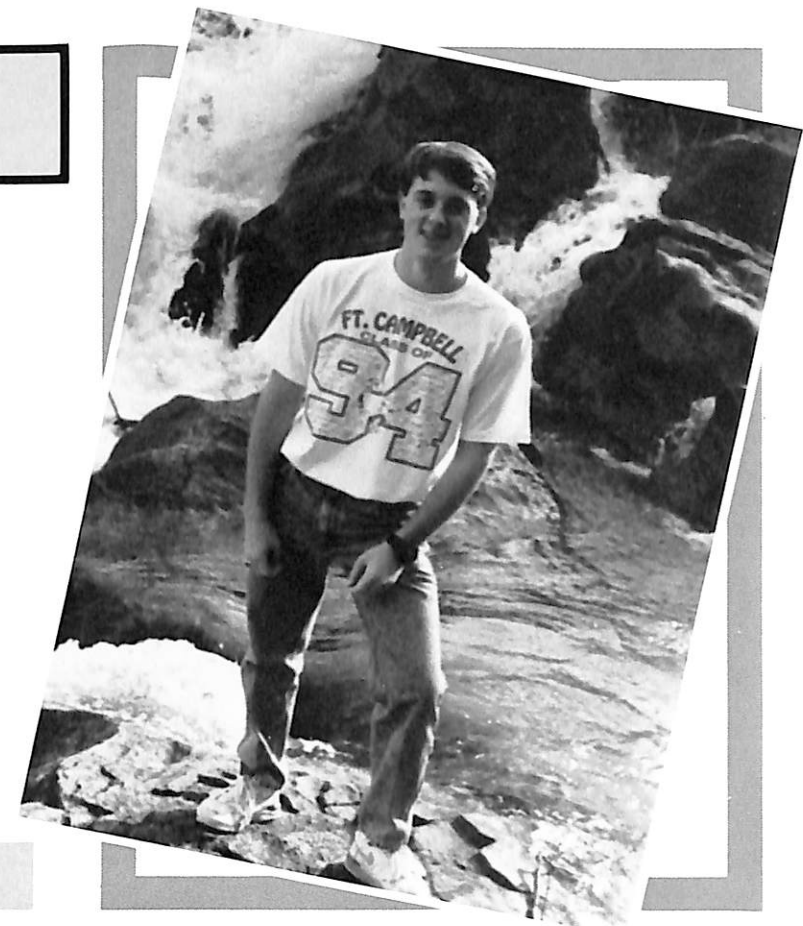

KRISTEN MCDUFFIE

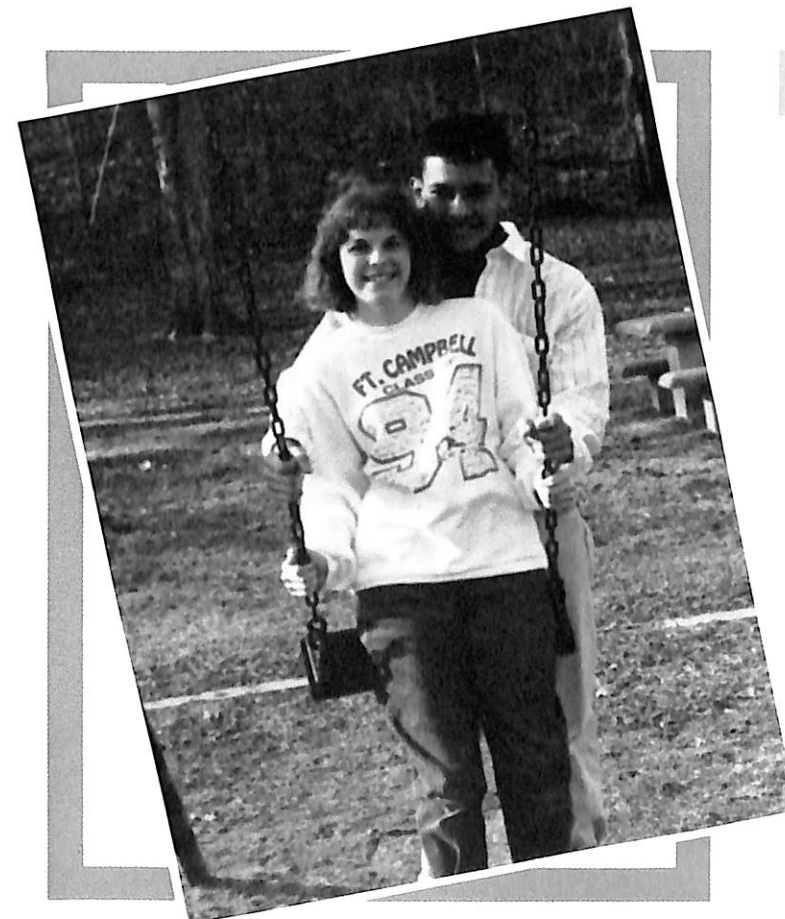

## Seniors

Throughout my life I have always been influenced by my parents. Their constant support and advice has made a huge contribution to my life. After high school, I plan to attend college (hopefully on a ROTC scholarship) but I'm not real sure where. I'd like to thank my parents, of course, and all of the teachers I've had that have pushed me to do my best. I'd also like to thank Ms. Allensworth for her constant help and recommendations during my senior year.

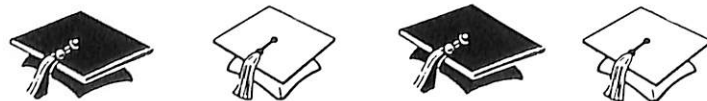

CHRIS LEE

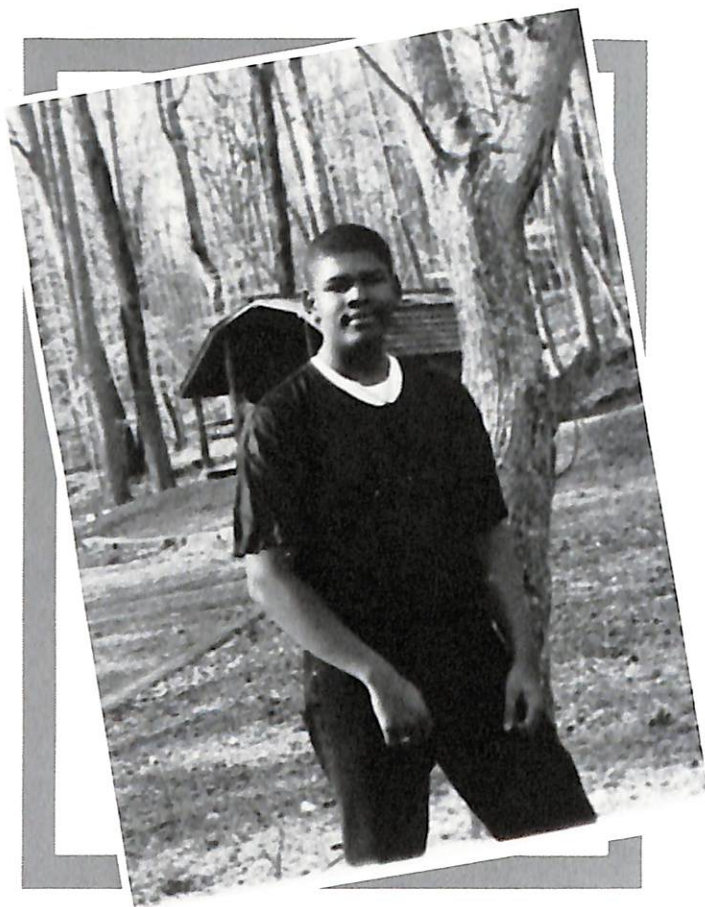

ANGELA HUNT

I would not have been able to do anything in my life if my parents weren't together. They've made me as close to perfection as I can be. They've instilled the thirst for knowledge and never dampened my accomplishments. I would like to thank all my teachers for giving me a lot of credit and faith. I plan on getting married; and yes, I hope it's to you-know-who. But, first I have to go to college, spending six to eight years at Oklahoma State U. majoring in veterinary medicine, which I hope to use to get a job at the San Diego Zoo. My undying gratitude to: my parents — God love ya; Paul — eat my dinner next year; my cousins — love y'all, especially Jase; Sarah; the Andersons — Te quiero siempre; and Sweetheart — thanks for pushing me to be my best. Forget me not.

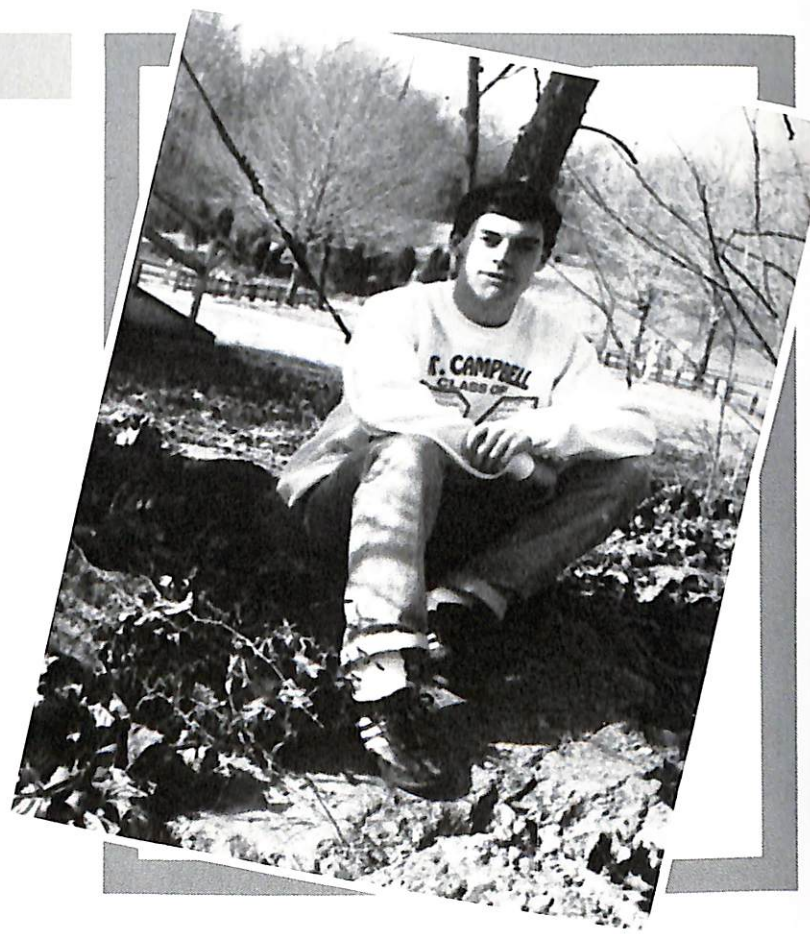

I plan on attending Northwestern University to major in computer engineering. After college, I hope to find work designing entertainment software. I will probably live near Chicago, if I am lucky enough to land a job there. Other than that, I have no future plans. I am not entirely sure what my life will be like, but as long as I have money and a place to crash I'm satisfied.

BINX NEWTON

My Parents have had the biggest influence on me in my educational years. They have always encouraged me to give it my best effort and surpass normal expectations. Each and every one of my teachers has had a special effect on my educational development, some significantly more than others. Coach Lange, a teacher and a friend, has taught me more than just two levels of biology, he has taught me how to learn and how to utilize what I have learned to achieve my goals. Thanks to Mrs. DePriest for letting me be myself. Next school year I will attend Auburn University in Alabama to pursue an education and career in architecture.

We've spent our lives trying to fit in. Be in the  
"in crowd," popularity contests. Now that we're  
at the top and ready to graduate we look back  
and realize we'll miss everything we've been  
through. All the good times we've shared with  
our friends. All the pain. The places we've been  
and the places we'll be. It's going to be hard say-

From childhood's hour I have not been

As others were — I have not seen

As others saw — I could not bring

My passions from a common spring —

From the same source I have not taken

My sorrow — I could not have awaken

My heart to joy at the same tone —

And all I lov'd — I lov'd alone.

Then, in my childhood — in the dawn

Of most my stormy life — was the drawn

From ev'ry depth of good and ill

The mystery which binds me still —

From the torrent, or the fountain —

From the red cliff of the mountain —

From the sun that round me roll'd

In its autumn tint of gold —

From the lightning in the sky

As it passed me flying by —

From the thunder, and the storm —

And the cloud that took the form

(When the rest of heaven was blue)

Of a demon in my view.

### A Teenager's Creed

It's not enough to have a dream,  
Unless I'm willing to pursue it.

It's not enough to know what's right,  
Unless I'm strong enough to do it.

It's not enough to join the crowd,  
To be acknowledged and accepted.

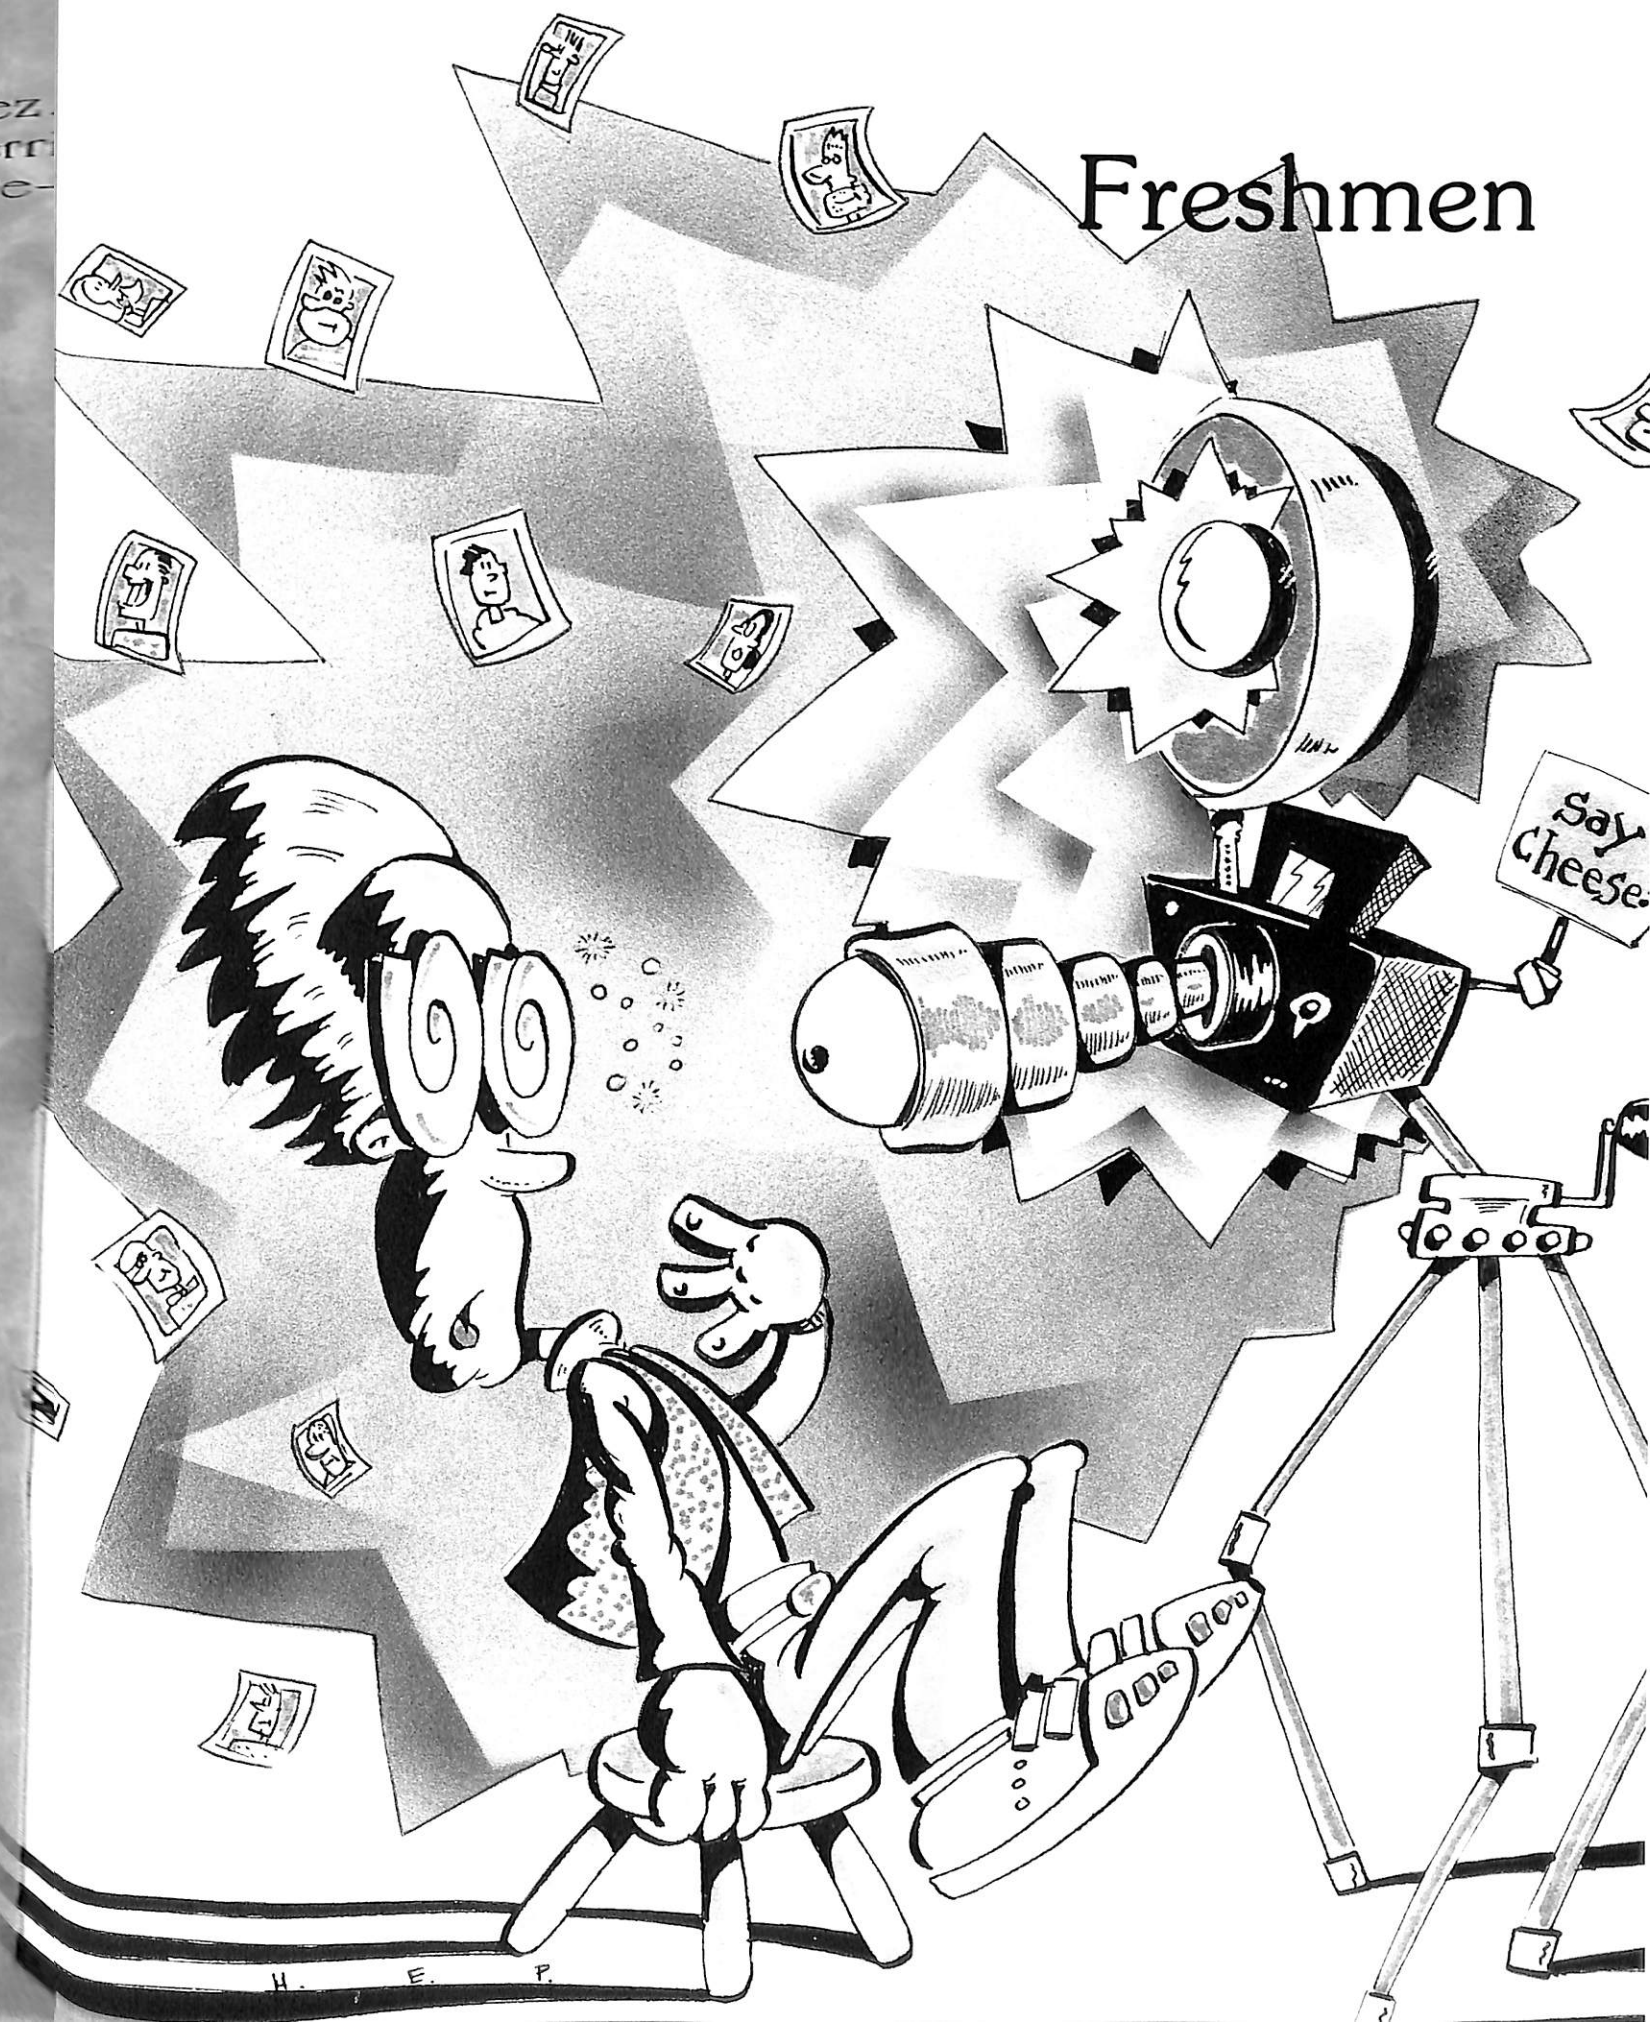

I must be true to my ideals,  
Even if I am excluded and rejected.

It's not enough to learn the truth,  
Unless I also learn to live it.

It's not enough to reach for love,  
Unless I care enough to give it.

## Pre-Game

FCHS marching band began their practice season during the summer with day camp. When school started in the fall, so did the practice. After school twice a week band practiced their marching and their halftime show. Marching band went to every football game to lend a hand in supporting the team and to play at half-time. Besides playing at the games band marches in parades and performs concerts. Through it all the FCHS Marching Falcons kept playing their best.

JROTC has accomplished many things this year, more than people think. This group of students did a parade in Clarksville, went to competitions for drill team and color guard, and presented the colors at home football games.

In JROTC class, students learn about survival skills, map reading, military history, and government history. A career in the military is not necessary but is definitely a possibility. If students wish to go into the military they know they have a big advantage on their side, JROTC. Through it all, JROTC lives up to all their goals and expectations.

*This year's staff consisted of eight hard working individuals. With only two of last year's staff returning; they knew that the road ahead was time consuming and long. It takes a hard working individual to be a staff member. With Mr. Nolte and Mr. Gilbert pushing us to meet our deadlines, we made most of them, but we still missed a few. It is surely an experience we will never forget. We feel through all the ups and downs, we have produced a publication filled with memories and experiences. And we hope in ten years, when you look back upon this book, you will remember it like it was yesterday.*

The Falcons struggled through a disappointing season this year. For graduating seniors, who have been here for four years, this was their first losing season. Most of the wounds were healed with a 10-6 win over the #3 team in the state. The biggest shock of the year was not the poor record but the retirement of Coach Patterson. It's hard to find a man who cares so much about his players, and every play past and present will tell you that he cared! F.C.H.S. has been his life for 30+ years, and he has been the only Head Coach the school has ever had. He's one of the all time great Kentucky coaches, at the hardest place to coach in the country. Every one loves him and will miss him on the sidelines.

Fort Campbell's football team runs an offense called the wishbone. This is a ball control offense, which grinds out yardage by running the ball. They then use play action pass to surprise the defense with big plays.

## The Battle of Life

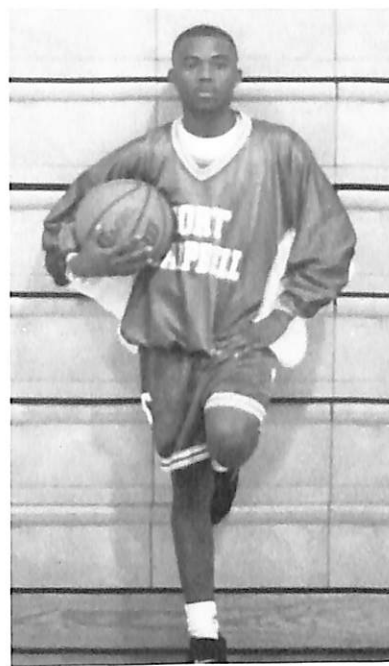

*In the battle of life, it is not the critic who counts, not the man who points out how the strong man stumbled, or where the doer of a deed could have done better. The credit belongs to the man who is actually in the arena; whose face is marred by dust and sweat and blood; who errs and comes short again and again because there is no effort without error and shortcoming; who does actually strive to do the deeds; who knows the great enthusiasms, the great devotion, spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement; and who at worst if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who have tasted neither victory nor defeat.*

# The Wings Of The Falcons

What is Cross-Country? Some would say it is a bunch of people following arrows during a race. The people who run cross-country can tell you it has nothing to do with arrows and all to do with passion, action, and commitment. This year's team knows all about the things that make up cross-country. They realized it was hard practicing in the early summer's heat. Day camp taught them that friends in cross-country become you family. This cross-country family was always there to help the members get through the tough season. The races showed them if you strive for your best you will achieve your best. The struggle to win was there every weekend of the season, which taught them to not give up, make it happen, and to take control of the race. These are all the things that make up cross country.

Coach Lange started out as a fear in the "newbies" eyes and turned out to be a friend, confident, and father figure. He taught "the wings" to believe in themselves, hang on to their dreams and to visualize success.

Although this year's team didn't bring home the state trophy, the team knows what's important. That through it all they did their personal best and gained experience from the hardest sport at FCHS.

The 1993 Spring Softball season started in early spring with conditioning and practice. The varsity players were Cheryl Gutierrez and Roxann Reyes at the positions of pitcher and second base. Natisha Moore played outfield and Michelle Leidy was catcher. Freshman Amanda Weaver was shortstop with Luwanda Wash at 3rd base and Camile Romera at 1st. Shannon Flakes and Heather Caldwell took on Right Center and Right Field. Left field and Center were handled by Nancy Glenn and Tiffany Webb. Eighth grader Cheryl Hoffman helped out in Outfield.

R to L: top row: Keith Hastey, Willie Weaver, Donny Childress, Jim Stewart, Rob Dees, Paul Gass, Nate Moore, Josh McKillip, Ryan McKillip, row two: Trey Tindoll, Sparky Vonplinsky, Chuck Johns, Eric Crisp, Joe Marshall, Eric VanHeusen, Steve O'Bryant, Dave Albritton, Joe Hall, bottom row: Meghan Wasiak, Andy Ricky, Chris Holcomb, Steve Meinke, Seth Fitcher, Darrin Key, Emily Paxton

The 1993 baseball team struggled through the season, but they always kept their spirits high. Seniors Nate Moore, Willie Weaver, Joe Hall and Josh McKillip led the team with their senior leadership. Dave Albritton, Paul Gass, Eric VanHeusen and Steve Meinke played a lot and will be the core of the team next year.

Perhaps the biggest loss of the season did not involve a game, but the lost of Coach Morgan to retirement. He was definitely one of the nicest coaches at F.C.H.S. It was evident that he cared about his players. He will be greatly missed on the field by all the players, past and present, that played under him.

Coach Morgan in his final year at F.C.H.S.

A hug  
A kiss  
A tear  
All symbols for what is over, or what has just passed .  
It is necessary for  
My mind  
My being  
My spirit  
To say goodbye.  
The pain of parting is tremendous but with  
That pain  
That parting  
Comes the possibility that I may never see you again.  
That hurts.  
But one thing I know you have  
Enlightened me  
Enriched me  
You have given me something I would not have had, If it were not for you.  
For that I thank you, for that I thank my God.  
A hug  
A kiss  
A tear  
May hope be yours, may peace be yours, may love visit you and linger on.
