Fort Campbell High School is not like the average high school many people may think about. FCHS is ultimately one of a kind. I think it's incredible that so many different kinds of people can come together and depend so much on one another.

As a military school, we have been able to adapt to changes very quickly. However, it becomes second nature to us. We begin to experience the virtue of life early on. We learn that it's hard to plan for the future. We have to be able to jump up and do something new, and it might put us out of our comfort zone.

As we grow older, we become more aware of what happens in life. We believe in ourselves. We start to define ourselves with dignity. We look for those character traits that we all want in the perfect friend, girlfriend, or boyfriend. We soon learn that in life nothing is perfect. We just have to let go of things that happened in the past and move on. We learn that it is hard to leave behind those we have grown to love. We learn to tell the truth even though it may kill us inside.

Experiencing different settings, people, conflicts, and situations only

help build our personalities and character. Our gift of life belongs to us. As young adults, we quickly learn who our true friends are. We try to distinguish between right and wrong. We may not always make the right decision, but we are just learning. It's often hard to say we regret something because we're not sure where we would be in life if that certain situation hadn't happened.

The yearbook staff has decided that this year's theme is Begin, Believe, Belong. Let your experience at FCHS become what you want it to be. This yearbook tells the story of the past year. FCHS has undergone many changes. For example, we had a record number attendance, and we operated on a different schedule. Overall, we have had a wonderful year. These were the best days of our life. I want to thank the yearbook staff for all the dedication they put into making this book just for you. Most importantly, I would like to thank you for making this an unforgettable year.

James Embry Major [R]

Webster's dictionary defines "veteran" as a person who has served in a military force, especially one who has fought in a war. They define "teacher" as a person who teaches or instructs, especially as a profession. "Husband" is defined as a man joined to a woman in marriage. "Father" is defined as a man who raises a child. "Leader" is defined as one that leads and guides, and one who is in charge or in command of others. When you consider all of these nouns, it should lead you to the extraordinary James Embry.

The 2007-2008 yearbook is proudly dedicated to James Embry, James Embry is well deserving of this honor. He is a great man of amazing talents, service, and heroism. When his daughter, Leigh Embry, who also works at FCHS was asked how she would define her father, she simply stated, "He wants everyone to think he is mean, but he is the biggest teddy bear."

James Embry was born on October 5, 1944 in Owensboro, Kentucky. Over the course of his childhood, his father had a welding job that caused the family to continually move around the southern United States. Besides living in Kentucky, the always changing yet fun journey took James Embry to Tennessee, Georgia, Alabama, and North Carolina.

James Embry graduated high school in 1962. He enrolled in college at Western Kentucky University in Bowling Green. He majored in military history and science. After two years in college, Embry decided to join the United States Army in 1964. While in the Army, he flew helicopters as a Warrant Officer and as an Armor Branch Commissioned Officer. Major Embry was in the Army for twenty years and he served in Vietnam, Germany, Fort Knox, Fort Riley, and Japan.

During his last two assignments, Major Embry was stationed at Fort Knox. He discovered he was destined to be a teacher while he taught Armor school at Fort Knox. He began his teaching career in Hazzard, Kentucky in 1985.

James Embry got married to LaDonna Darnell on November 3, 1965 in Madisonville, Kentucky. Soon after their marriage, he and his wife welcomed children Leigh Ann Embry, Leslie Darnell Embry (deceased), and James Rvan Embry. Major Embry is the proud grandparent of Nathanial, Ashleigh, Samuel. Jackson, and McKennah. He is also proud of his achievements of being a team leader, section leader, platoon leader, Commandant Commander, Staff Officer. Headquarters Commandant, Core Commandant, and G3 plans.

James Embry has lived in Tennessee and taught at FCHS for the past twenty-three years. He plans on retiring after this school year. Embry is currently undecided on what he will be up to after retirement, but he will enjoy doing what he likes to do in his spare time. He likes to read historical and biblical books; his favorite author is Mark Twain. His favorite movie is "Patton," while his favorite song is "In the Arms of an Angel" by Sarah McLachlan. He also enjoys watching TV shows on the History Channel. Embry loves watching basketball; he cheers for the Louisville and the University of Kentucky teams. Did you know that one of his favorite routines at home is to run the vacuum?

Thank you, Major James Embry, for your time, loyalty, and leadership.

Begin

The day we were brought into this world is a day our parents will never forget. Ever since we were those little babies, we have been building our personalities and setting goals for ourselves.

Our life at this crucial time is hectic. We have to balance so many things, while also trying to figure out who we want to be perceived as. We have to find those friends that we can rely on. We often find ourselves falling in love. We start to take on responsibility by finding a job. We begin to take that driving test to earn our license. It's all about personal decisions.

This is the best time of our lives. We need to not care so much about what other people think, and just do what we want. We need to be who we want to be. It's time for us to begin to be ourselves. It's time to live our life.

HAPPY HOUR 5 TO 10

LIVIN'LIFE LATE and livin on the edge

The most common question on Friday nights is "What am I going to do tonight?" You easily try to solve the predicament by getting a bunch of your friends together to hang out at your house. If that doesn't pan out, you try to get everyone to go to the movies, but sometimes not everybody wants to see the same movie.

You're stuck with the new and hopeless question of "Now what?" Well, here are some great solutions to help with your problem! Here at Fort Campbell High School, we have asked some of your peers about what they like to do on their weekends. With the help of some free-lance photographers and your yearbook staff members, we have been able to get pictures of students in their activities just so you could see it for yourself.

Now, for those of you with parents you claim are "too strict," we got some quotes from kids just like you! You're not the only one with a curfew and since you're not, we came up with a great idea. Going out to dinner is a way to socialize, fill your tummy, and not keep you out after curfew. So to help you out, we asked your peers what they think the most enjoyable local restaurants are.

We hope you have nights that are fun and that never hold a dull moment. We want you to experience the best of high school even when hanging out with your friends at a football game. So be safe, think wise, and have the best times you can while livin' life late.

4:00 A.M Pep Rally!

Cool School of the Week November 9, 2007

This was a very special week at FCHS. WSMV came to the school to film all the cool stuff we have. They captured moments in Robotics class, Mrs. Briggs' orange classroom, to events during Red Ribbon Week. Then there was that pep rally, which 85% of the school attended.

Tons of activities and fun!

Mrs. Lunsford, a science teacher, was one of the teachers that participated in the teacher against teacher "Sumo Wrestling Match."

Senior Brooklyn Matthews points to the crowd after performing a hard routine with the dance team.

Surprised to still be awake, Kristabell Cacabelos throws up the peace sign and cracks a smile after the pep rally.

Stefan McCarver was one of the student performers that played with his band for the school.

Brenton Green and Sara Ziegler chow down during the "Pie Eating Contest" against other classes.

Believe

We don't always like change. We fear it most of the time, but we can't stop it from coming. We either have to adapt to change or we get left behind.

As we go through life, we get taller and we get older, but do we ever really grow up? Life presents us with so many challenging problems. We must learn to use those experiences to grow and adapt to change. When the day comes to an end, all we really have in our life is ourselves. We don't have that boyfriend or girlfriend or those "friends" we thought were our friends. It's just us, nobody else.

The toughest part of our lives is when we have to experience both the high and low points. We have to use those situations, good and bad, to grow as individuals. We may get married. We may have a family. We may get divorced. We may be rich. We may be in debt. Whatever the case, we will continually tumble throughout our lives, but if we believe in ourselves, we can make the best of it. Believe Trent Brock

Class of 2008

Fort Campbell High School's Top Ten Seniors

Charles Bradley, Valedictorian

"I have worked hard to achieve academic excellence. I am honored to have been chosen a "Top Ten" student. However, I do like to have some fun. After school, life is eat, sleep, and HOCKEY!"

Megan Reilly, Salutatorian

"'For I know the plans I have for you,' declares the Lord, 'plans to prosper you and not to harm you, plans to give you hope and a future.' -Jer 29:11. Never once did my parents ask me to achieve in school; they just simply asked me to do my best at what I could. I think that was my greatest driving factor through it all. I will admit there were times that I wanted to throw everything out the window and never look back, but it was my parents' proud faces in the back of my mind that encouraged me to continue to do my best and for that I'm very thankful. Thank you Frau and Coach Lange, you not only provided me with an incredible educational experience, but showed me the value of student teacher friendships. I'm not going to lie, I will miss this school (except the bathroom stalls with no locks), but it's time for me to go out into the "real" world. I will always remember you, FCHS. Thanks for the memories and congratulations Class of 2008!"

"My three years here at Fort Campbell have come and gone. It seems like just yesterday when I came to visit Fort Campbell and then started school. Playing football has been the highlight of my high school career. Guys, we won state! It doesn't get any better than that. 'For the Ring!' That says it all. Now we get to wear our ring with pride as one of four state championship football teams here at Fort Campbell. To my teachers, friends, coaches, and teammates: thank you for always being there. Together we made it happen. I also want to thank my parents, who have supported me throughout. Always set your goals high and strive to reach them. Remember to beware of the chicken nugget tacos!"

"Jelisa has proven herself to be a renaissance woman. An honors

student taking numerous AP and honors courses she is also the soccer co-captain and the track co-captain with varsity letters in both sports. She has accomplished these goals while completing over 900 hours of community service and being an active participant in Student Council, TCC, and National Honor Society. However, Jelisa is more than these facts; she is a faithful friend, a smile in the hall, and a

Christian role model." -Misti Stevens, mother

"As quickly as my high school years started, they have come to an end. I can barely even remember my first day as a freshman at FCHS. These past four amazing years have truly flown by fast and have shaped me into the individual I am today. I appreciate all the opportunities I have been given in this chapter of my life. First and foremost, I would like to thank my family: mom, dad, and Tatiana, for all the love, support, and encouragement they have given me over these past years. I love you guys so much. A special thanks to my spectacular boyfriend, Rafael; even though you aren't here with me every day, you have helped me with more things than you know. I am grateful for all the love you have given me. I also want to thank all my teachers and friends for all the wisdom and great memories, which I will cherish for an eternity. Lastly, I want to thank God for blessing me and making everything possible. It has been an enjoyable journey inside the white walls of FCHS and I will truly miss everyone next year. Congratulations to the Class of 2008 and I hope you succeed in all your endeavors. As Henry David Thoreau said, 'This world is but a canvas to our imagination.' I guess it's time for me to put a new set of colors on my canvas and start a new page of my life."

Rachel Boroweic

"Being in the "Top Ten" really wasn't one of my goals, but I am excited that I have been selected. This is my first year at Fort Campbell. I worked hard the first three years of high school. When I moved to Kentucky I realized that I had to take classes that I did not need, so I slacked off. That is very normal for an average high school student. I am just thankful that my high school years have been pretty simple and easy. I want to thank all my friends and family for helping me with my homework. Without you guys, I wouldn't be where I am now."

Adam Hall

"I knew one day that I would grow up and be mature. Well, today wasn't that day, or any of the days of my senior year for that matter. The good thing is that I somehow made it into the "Top Ten" with my sense of humor and little smarts. I'm looking forward to next fall and the demands of a rough curriculum at the University of Kentucky. Thanks mom, dad, and God."

A.J. Cacabelos

"First and foremost, I'd like to thank our savior, Jesus Christ, for giving me strength through all these years. Second, I'd like to recognize my parents for their support and love. Third, I'd like to thank each and everyone that made my high school years very memorable. Words really can't express how much I appreciate all of the positive input from everyone who has influenced my life. I must say I didn't have it as easy as other students because I've been to four different high schools. Although I didn't spend my entire senior year at Fort Campbell, I'm glad to say that this is where I graduated from. Lauren Marie, we've been through so much and I have to say that I'm lucky to have you in my life. I'm always here for you no matter what. Kristabell, I know we may have many disagreements, but you're my little sis and you know I love you. Zo, we've only known each other for a year but we grew real close and created a great friendship. You're my brother for life. Jesse, you were one of the first people I met when I moved to Fort Campbell and you're still one of my best friends to this day. I'd also like to give a shoutout to Mrs. Speake and Mr. Witte for allowing me to graduate here. It couldn't have been done without you two. Last but not least, I'd like to thank my family in New Jersey. I miss all of ya'll.

Congratulations Class of 2008!

Emily Weber

"This year was my first experience with the military and with that came moving to another school. I was terrified and sure that I would be miserable. However, I was amazed to find that meeting new people could actually be fun. While I was certain I would never be able to make new friends, something I'd never done before, I finally did. I'm proud to have made the "Top Ten" and glad I got the opportunity to come to Fort Campbell."

Vincent Porreca

"First off, I would like to thank my parents and my sister for helping me get through high school and pushing me toward success. I would also like to thank my friends. They have helped me and let me use their computers in my time of need. Being in the "Top Ten" lets me know that I have gotten better grades than everyone else, except for the ones in front of me. My study habits are usually different from the average high school students'. It only seems like yesterday when I first entered here as a freshman. High school holds many memories, but now it is time to move on to college. Peace."

"I moved to Fort Campbell in the middle of my senior year. To tell you the truth, it was hard because I didn't know anyone. After I got to know people, it was fun and I finally wasn't called the "new kid" anymore. One of the main things that I am glad about was Coach Berner allowing me to play football. I've been here now for four months and I have a ton of friends. Don't get me wrong, I miss all of my friends in Germany a lot, and I can't wait until May when I can go back and see them all."

THE BEST PART ABOUT BEING A SENIOR:

"Wow! The best thing about being a senior is the recognition! We're no longer considered losers. Yippee! Freshman year was awful. After overcoming those horrifying three years of being an underclassman it sure has made us survivors. "During Hurricane Katrina, I had been living in New Orleans for three years with my mom. My mom and I were visiting my grandma in Alabama when Hurricane Katrina struck. Everything we had was lost - my PlayStation, X-Box, games, computer, clothes. I was devastated. All I had was the weeks worth of clothes I took to my grandma's. My uncle was stationed here at Fort Campbell, so my mom and I moved up here to stay with him. Now we are here for good. I miss a lot of things about N.O., but I don't miss the Catholic school uniform I wore to school everyday.

HIS LIFE CHANGING STORY:

"When I started high school in California I was distracted, wild, and mixed up in a lot. It wasn't that I wasn't smart, but I didn't apply myself because I honestly didn't care. Throughout my school years, I got into a lot of trouble. I was given the opportunity to come out to Fort Campbell. Life here was slow. At first, I didn't want to be here, but after awhile, I got used to it. I joined the football team, spent the summer in school catching up, and I realize now that I am going to make it in life."

Have you met this student?

Justin Tomaszewski started to feel unusual in early 2007. He was experiencing dehydration, exhaustion, inactivity, irritability, loss of appetite, and rapid weight loss. Justin went to his doctor, and they drew a large tube of blood, which Justin remembers as a very painful process. In February 2007, Justin was diagnosed with "Juvenile Diabetes." Also known as Type 1 Diabetes, this disease affects more than 13,000 children a year. This illness has made a significant impact on Justin's life. He now has to carry insulin and glucose with him at all times. In addition to daily medication, Justin has to make sure that he eats regularly so that his blood sugar level stays at a constant rate. He has to prick himself with a needle that is three hairs thick to check his blood sugar four or more times a day. Even though diabetes has changed many aspects of Justin's life, and to date there is no cure, he still goes on with his day to day activities just by being aware of his condition. He monitors his activities and his medicine can be adjusted for increased activities. It is therefore a good thing that his favorite things to do, drawing and playing on the computer, keep him grounded throughout the day. For more information on this disease check out the Juvenile Diabetes Foundation at www.jdrf.org.

Meet Victor Martinez

Out of all the sophomores that attend Fort Campbell, the most memorable one would have to be Victor Martinez. He always seems to have a smile on his face, no matter what mood he is in. Victor has cerebral palsy. In his words, it means that part of his body doesn't function as well as the rest. He can't walk and his left hand is not as strong as his right. Regardless of Victor's disability, he still says that his biggest struggle is math, just like many other high school students.

Victor was very sure of his answer when asked, "If you could be anything, what would you be?" He immediately responded with, "a spokesman for disabilities." Victor enjoys teaching people about his disability. He thinks that most disabled people don't get the services they deserve. It costs more for their needs and they don't get a lot of help from others. Victor wants people to know that if you see him around, don't be sensitive or sympathetic towards him just because he's in a wheelchair. He lives life like every other person; he is happy and strives to have a normal life. Victor lives with his challenges and makes them work for him.

Belong

As we mature throughout our life, we begin to find that we have molded ourselves from the experiences we had while belonging as a member of a club or playing a sport with a team. By being proactive we have become more in-touch with ourselves. We learn dedication, drive, determination, respect, morals, hard-work, leadership, and so many other valuable characteristics and behaviors.

We learn in life that we all want that certain "something." We must stick to our goals, but we must allow for the occasional modifications that come along. If we prove that we want something badly enough, if we're determined enough and patient enough, eventually it will happen. It will eventually. We must have faith in ourselves. Whoever said getting what you want is easy?

Belong Clubs

"The definition of a club is a group of people organized for a common purpose. With that in mind, we not only come together for the reason of the club, but we come together to socialize, have fun, and help us learn about our strengths and weaknesses. Being involved in clubs has helped students like me to become a better leader and to help build character. Through clubs we meet new people who also share the same motives. We also get to learn about the problems that our community, our nation, and the world face. The best part is that FCHS has a club for almost every interest. We really need to take a stand and accomplish our goals. In this group environment, we share not only a common purpose, but a will to learn."

For the Ring!

"This has been one of the greatest experiences for me as a coach. From the beginning, the team knew it was special. Everybody got along so well, and everybody worked so hard for each other. I wouldn't have won with another group of guys. I think this was not only a great experience for our team, but also for our school and community. There are many challenges you have to face as a team to win a championship, and that makes the championship more meaningful. It is very gratifying as a coach to see a great senior class go out on top as winners. We had a great senior class that has won forty-three games in four years and now a state championship! This is something the players and the school will never forget."

-Coach Shawn Berner

"I was elated and exuberant about my situation at Papa John's Stadium. I am a state champion." -Josh McWherter

Cheerleading

"Cheerleaders Stay Together!"

"Cheerleading is really fun. We had a good time this year starting off with mini cheer camp over the summer all the way up to competitions and beyond. Our team became a family this year. We definitely learned the importance of individual roles. We were all there for each other no matter what. The best part of being a cheerleader is learning responsibility and leadership. To all of our seniors, we love you and good luck. Come back and visit. Sisters until the end."

-Cami McFarland

What's it like to cheer?

"There is a lot to say about cheering. It's a lot of hard work, sweat, and sometimes tears, but to get out on the floor and perform and show off what we can do makes it all worthwhile!"

-Daisha Braswell

"Being a cheerleader is a lot of fun. We've just started competitions and so far, those are the best part, aside from the games. Cheering is just fun all by itself."

-Kassidy Barrera

"It's fun. We bond more than anything else. Getting ready for the games and face painting, it's all part of the job."

-Andree Largent

We may have lost a lot of games, but ask anyone who's seen us play, the Lady Falcons didn't go down without a fight." -Kirsten Amorine

"This year has been one of the highlights of my wrestling career. There have been the ups and downs, and I don't think we could have worked any harder. You guys are almost over the hump, just keep working hard and it will pay off in the end. I laughed with, cried with, sweat with, and bled with you. "I was always interested in wrestling. and when I first joined, I couldn't take it. My second year I quit again. I told myself this year I wasn't going to quit I wanted to prove everybody wrong. Besides, Coach Lowe is one of my favorite coaches!"

"My favorite part of wrestling is probably the individual aspect of the sport and how you have to rely on yourself. There is no one to pass the ball to or someone else to tackle the guy for you. It's just the work you put into it and how bad you want to win!"

"Swing, Batter Batter, Swing!"

"We've both been playing on the FCHS baseball team for four years and under four different coaches. We hope that this year we are able to make it to districts and come together as a brotherhood of baseball players. As long as we all play to our full potential, this is going to be our year with Coach Caver and Coach Dusty leading the way. We have a great team this year because most of us have been playing together for a while and unlike last year's powerful individuals, this year we have a powerful team."

Making Memories

It's really hard to believe that this year is coming to a close already. It really has been a fantastic year that will never be forgotten. I cannot even begin to list all the exciting events that have occurred over the course of this school year; some of the key events that may stick out in our minds may be the Cool School pep rally and the football team winning the state championship. We made a strong statement about Fort Campbell High School, and we put faith and determination back into this wonderful place we call our school.

As we begin to wrap up this year, we need to keep in mind that spring cleaning isn't just about sorting through things and getting rid of clutter, it's about taking stock of

who we are and how others see us. It's a chance to redefine ourselves and to change our expectations. It lets us remember that it's never too late to capture who we are or to aim for who we want to be. Marilyn Monroe once said, "I believe everything happens for a reason. People change so that you learn to let go, things go wrong so that you appreciate them when they're right, you believe lies so you eventually learn to trust no one but yourself, and sometimes good things fall apart so better things can fall together."

Just remember to take the time and re-examine yourself and be who you want to be. Also remember that our future depends on what we do in the present.

WORLD FAMOUS ASKA HIGHWAY

Dear Aaron,

When we first held you in our arms, we wanted so much to be the "perfect parents." In the years since then, we've learned that no one has to be perfect as long as there is plenty of love and we have that.

We've found out that our dreams for you aren't always the same as your own, but we have found trust in each other. We've discovered that even though we're different, nothing can come in between us.

We've watched you grow and become far more than we could've imagined when we were holding you in our arms and our pride in you keeps growing with each passing day. We are grateful that God found us worthy enough to allow us to be your Mom & Dad. We will always be here for you no matter what. You have so much to look foward to in the future. Hold onto your dreams and reach for the stars. You can be EXACTLY what you want to be in this

Mary Ashlie,
It just seems like yesterday you were a
little girl. We have watched you turn into a
beautiful young lady. You have accomplished
so much already and yet you have so much
more to look forward to.

y. You have accomplished and yet you have so much more to look forward to. As you leave home and begin your Navy career, don't forget who you are! We are so proud of you! Congratulations Graduate! Love, Mom and Dad

Congratulations, most importantly I love you! You are strong, intelligent, and capable of handling all of lifes challenges. You have overcome many difficulties and will overcome many more to come. I hope your first steps into life on your own are everything you dreamed and hoped for. You are the most important person in my life. You gave meaning to my life and brought a smile to every one of my days. I look forward to being apart of your life and wish the best for you. I will always be there for you. I am proud of you! Love, Rick

Megan Reilly

On the day you were born we thought you were just an ordinary baby. But now we're not so sure. You were cute and squeaky and made loud noises. But there is something unique about our baby. You see, you never ever give up, let others down, do less than your best, care for or love insincerely, or waiver in your faith or morals, even when life has attacked you. We know our baby has a beautiful Spirit within. So, as you soar ahead, know that you can always come home...in time for supper. And when you encounter uniqueness, don't throw it away. You never know what will happen next. We love you for...e...ver...,

First of all, congratulations. I look over the last 18 years and cannot believe how fast it has gone. We have done and seen so many things. I have always tried to give you "the world." You have been my strength, my right arm. You and I have grown up together. You are my best friend. You have grown to become a wonderful person and I couldn't have asked for a better son. There is no doubt in my mind that you will accomplish all you put your mind to. However, being a mom, I have more words of advice before you go and before life's trials and tribulations begin. I ask you to remember two things. First, remember God for without him nothing will ever mean anything. Second, remember where you came

from because your family

will always be there for you.

Good luck with all of your

decisions, dreams, and

goals. With all my love,

Dr. Carroccia can fix your teeth, restore sore gums, and brighten your smile without discomfort. With sedation dentistry, you'll feel like you've relaxed through your appointments. You can have years of dental treatment done in just a few appointments. No more hiding your smile behind your hand or putting up with pain.

How would you feel if your smile was a bit brighter than it is right now? Whiter teeth not only look sensational, but they build the kind of inner confidence that really gives a smile its electricity. You might be surprised that simple, affordable cosmetic treatments can offer to do just that.

You may have seen TV advertising for toothpastes that whiten your teeth. The results can't match what we can do for you. Professional tooth whitening in my Clarksville office effectively lightens brown and yellow enamel discoloration. We use a special gel inside a custom-made tray that covers your teeth. Comfortable, yet affordable.

Dexter Jr., I will never forget when you were conceived, this moment changed my whole world dramatically. I will never forget when I found out that you were a boy. You made me realize that I had a future; I finally had something to live for. We decided to name you Dexter Jr. so our namesake would live on. I watched you wobble around the house as a baby; you were so fat and cute. You are now growing into a strong, young man. During the final football game I realized that you were coming into your own and you made me so proud to be your father. Now you are about to enter a new exciting phase in your life: college. As you set out on this journey I want you to be aware because the world can be a cruel place. I trust in the young man you have become so when obstacles come your way, alter your path and keep driving on. Congratulations son!

Grandson, I am so proud of you. Congratulations!

Seeing this book in it's final stages was nothing but relief. I think Frau and I had a very interesting year. We both learned a lot. We hired a brand new staff; we combined eleven very unique individuals, and then there was me - the only returning staff member. There were definitely those times when we all got on each other's last nerve, however, we had a lot of fun creating this book. Honestly, I wouldn't trade it for anything. It was an unforgettable piece of our lives. Again, I want to thank the staff for their blood, sweat, and tears that they put into this book. Thank you. I can only wonder what next year will bring...
