Two hundred fifty nine thousand two hundred minutes...How do you measure a year in your life? In laughter, in sadness, in dress code, in friendships, in sporting events, in dances, in good grades, in truths, in tears, in snow days, in jeans days, in chicken nugget Tuesdays, in bus rides, detentions, in seminars, in writing prompts, in exam cram sessions, in pizza Wednesdays, in early release Tuesdays, in Club nights, in Mr. Vaswani's speeches, in fire drills, in taco Fridays, in wins, in losses, in failures, in heartbreak, in rooms too hot or too cold, in AP parties, in computer labs, in pledges, in pushups, in uniform, in new bleachers, in pictures...

It's time now to remember this year in your life! Remember the year, remember your friends, remember the days at FCHS. 259,200 Minutes...

A Memorable Year

The 2010-2011 school year at Fort Campbell High School was filled with changes: the concept of SOAR (Success Optimism Ambition Respect), a new principal, a non-academic first day of school and a yearbook organized by seasons. Despite the changes, in many ways Fort Campbell High School has stayed the same. We still have late night cram sessions before tests, pep rallies, sports games, and club meetings. We still aim for what we want out of high school, whether that is reaching the top of the class, making varsity, or being the president of a club. We have made some friendships that can last a lifetime.

Over the summer, the heat was intense, and broke records. We sat back and relaxed, and even though it was just for a few months, it helped us rest in preparation for the year. We attended summer camps for sports, clubs, or academics. Then school started in what seemed like the middle of summer. As we began the year, we saw friends from the year before and eventually made new ones.

In the fall, after class elections, we enjoyed Spirit Week, Homecoming, and long weekends. The weather seemed to jump from hot to cold in a single weekend. The freshmen started to get a feel of what high school was like, while the seniors got antsy in anticipation of graduation. We all showed our school spirit while cheering at the bonfire and the powder puff game.

Winter brought snow, finals, and cold weather activities. Winter sports officially started up. Several clubs had Christmas parties shortly before winter break. We looked forward to the vacation while we reluctantly took the midterms that came first. We came back from the holidays refreshed and ready to start second semester. We stocked up on sweaters to keep us warm in the cold classrooms.

When spring fever hit, we had a well deserved break to get us ready for the last quarter of the year. We got excited about the approaching summer. Spring sports began as the weather started getting warmer. Clubs and classes that have an application process began looking for students. We prepared to take our finals and leave the school, whether just for a summer or to move on to the next chapter of our lives.

Whether we started the year as a new student or have lived at Fort Campbell nearly our whole life, whether we were a freshman or a senior, the past year at FCHS has taught us lessons in life, as well as in academics. We have met different people. We have tried new things and learned from them. What we get out of high school is what we put into it, and regardless of what we put into this past year at FCHS, we will always be a Falcon.

The yearbook staff chronicled this memorable year and reminds us all that no matter where we go, we will SOAR like a Falcon!

The 2010-2011 yearbook is dedicated to...

Greg Gillis

The 2010-2011 Yearbook Staff proudly dedicates this year's publication to Mr. Gregory Ray Gillis.

Mr. Gillis can often be heard spreading his historical wisdom through his famous lectures as one passes by in the halls or sits in any classroom near to his own. Many times his students have heard his well-known jokes designed to make us laugh and learn. After all who can forget the year of the Great Charter when it was "right after lunch" 1215? Why else does the year 500 come to mind when we hear "Rall of Fome"? And how are we ever to forget our rivers again as long as we motion elbow, armpit, eye for "Elbe, Oder, Vistula"!

Mr. Gillis was born to Glenn and Mary Gillis on April 26, 1951, in Poplar Bluff, Missouri. His sister, Gail Lea, recalls many fond memories from their childhood. "He was a prototype for Bob-the-Builder. He built everything: Lincoln log cabins, tinker toy, erector sets, and man did he love putting models together, especially cars. His two favorite sports were always baseball (2nd base) and football (quarterback). He spent hours in our backyard throwing a football through a suspended tire. He also worked for years on rebuilding an old Studebaker pickup truck. Greg was pretty doggoned good at just about everything."

Mr. Gillis began his career in a rural Missouri high school, then spent a year teaching in a Catholic high school before taking a teaching job at FC Jr. High School. After a few years, he transferred to the high school. In his early years at FCHS, he coached football and wrestling. He's also taught as an adjunct professor of American history for the Austin Peay Center at Fort Campbell for almost twenty years.

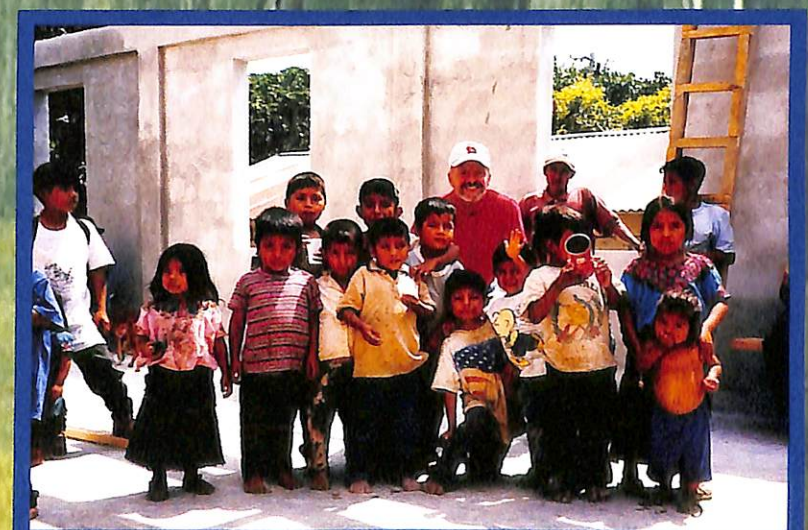

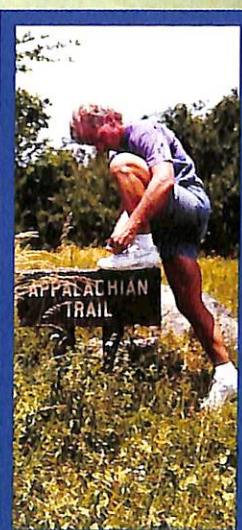

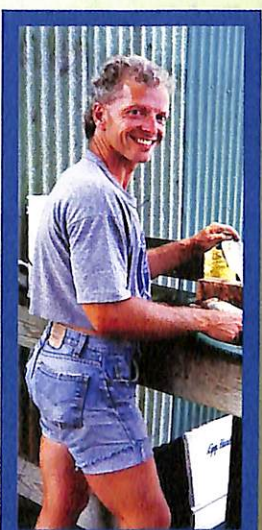

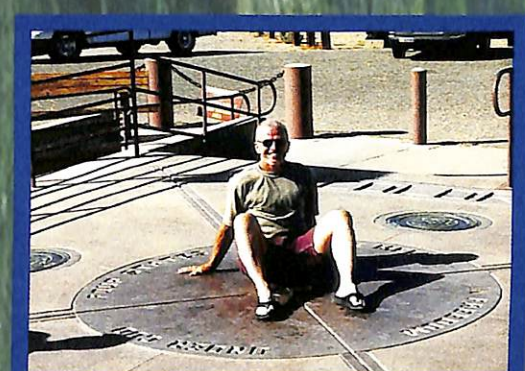

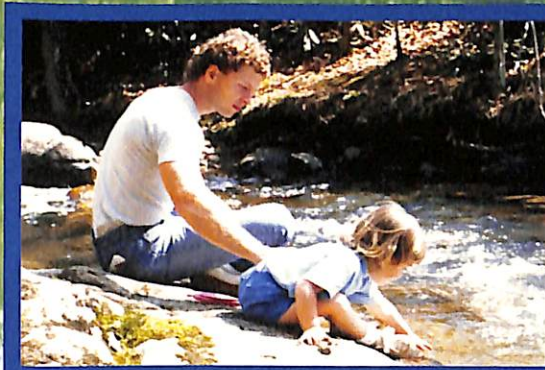

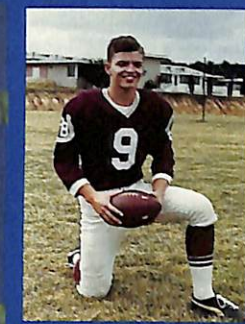

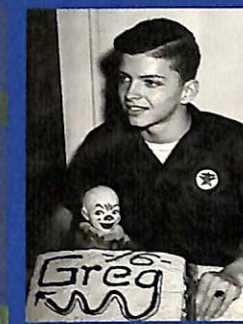

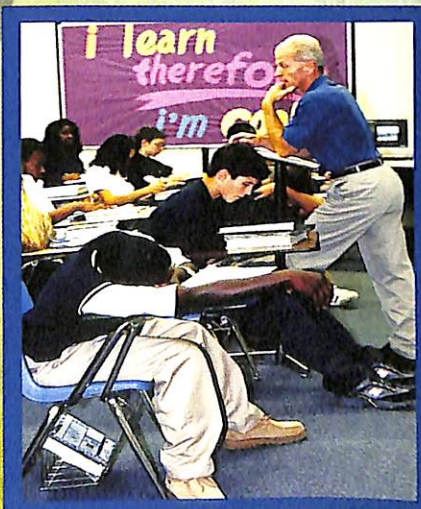

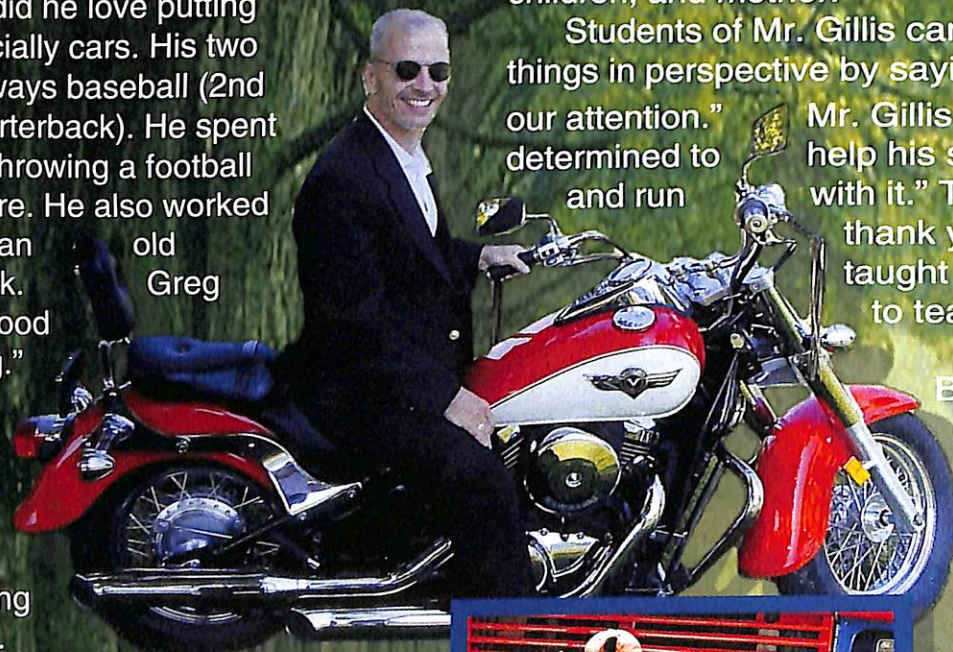

He recently went back to school and received his certification as a nursing assistant (CNA). He hopes to use this training to help care for aging family members and as an option for work during retirement.

Mr. Gillis is married to Gail Gillis. He has one daughter, Hannah, and two step-children, Eric and Jennifer. In addition to his family, his faith is very important to him. He has been known to reach out and help others through Volunteers in Mission where he has participated in several trips to Guatemala to build a parsonage and a school as well as to the Gulf Coast to rebuild homes after Katrina. Mr. Gillis also traveled to China a few years ago and spent a month teaching conversational English to a group of children. His latest trip was to Boston, MA and Washington D.C. where he and his wife, Gail, toured the White House.

Mr. Gillis not only enjoys traveling but camping, hiking, politics, building things, visiting art museums, and cycling. He follows the Fort Campbell Falcons and St. Louis Cardinals. Gail Gillis described the fact, "he has never purchased a greeting card, he is very artistic and makes his own cards, much to the delight of his wife, children, and mother."

Students of Mr. Gillis can all agree "he talks and puts things in perspective by saying things that really grab our attention." Mr. Gillis is a natural teacher who is determined to help his students "take their ticket with it." Therefore, we would like to thank you Mr. Gillis for all you have taught us and all you will continue to teach us.

Summertime

by Daniel Spenard

After working hard all year, we need a break from school. So when that final day of school ends and that last bell rings, we get so excited to leave for the summer time! Just hanging out with friends, going on vacation with the family, traveling to different places, enjoying water parks, working a job, or practicing for next years football team, it's downtime. We get the time to sit back and get away from all the stress and work of high school. Here is a look at how some Falcons spent their summertime!

An all girls day out on a picnic!

Many young adolescents feel that they are "independent." Unless we are talking about Webbie's song *INDEPENDENT*, clearly no one is self-reliant unless they are making dough for themselves. In other words - having a job! Getting a job is one of many steps on the road to independence and adulthood.

Being employed might sound intimidating at times, but somewhere down the road it will happen. So why not begin early and get a head start on life and gain experience like an adult? Many of us work for this exact reason. Some of us just want to be doing something for ourselves, and of course to earn that extra cash. No matter where it is you are employed, it requires plenty hard work and dedication. Whether you're scrubbing toilets at McDonald's or bagging groceries at the commissary that paycheck will bring us one step closer to actually becoming independent. Just like Donna Summer sang, "WE work hard for our money!"

(FASHION & TRENDS)

Even with a dress code being required, students still manage to make a bold statement as they walk the halls of FCHS. For some students, their fashion style involves waking up in the morning, throwing something on, and leaving out the door, but for others they see the hallways of FCHS as their own personal catwalk. Fashion is one way, in which students can express their individuality by adding additional items to the plain dress code such as, scarves, jewelry, boots, jackets, vests, belts etc. Students here do not let dress code be a barrier to their sense of fashion. Instead they use their creativity to create a more fashionable yet dress code approved outfit.

What is Your Favorite Trend?

I love cardigans! I own many of them with different colors and designs. I wear them to school all the time.

- Kiarra Thompson, 10th

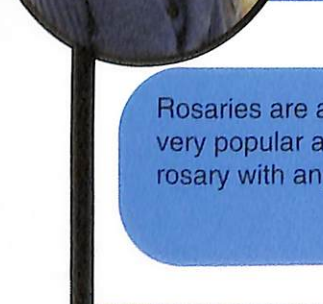

I enjoy wearing sweaters to school and my Nike shoes with double layered socks.

- Mitchell Shannon, 10th

Turtlenecks are a very fashionable trend especially during winter time. I love wearing them with boots.

- Giavonni Blackshear, 10th

Rosaries are a cool trend this year. They are very popular among the students. I wear my rosary with any of my outfits.

- Lamarr Taylor, 9th

"I have my own unique style and I really don't look up to anyone in particular. In my spare time I love shopping especially for shoes and accessories."

- Brandy Ward, 11th

Damontee Royster

Mariah Piyamanothamkul

Emily Hinz

Fashion No No!

"I think fashion means having your own style. I steal all of my clothes from a dead hippie! Just kidding! I get my clothes from my job at the skate shop in the PX."

- Dillion Schroeder, 11th

What Does Fashion Mean to You

"I think fashion means trying to make a statement with what I wear and looking nice. I never leave my house wearing sweats; I hate wearing sweats."

- Katie Keenan, 12th

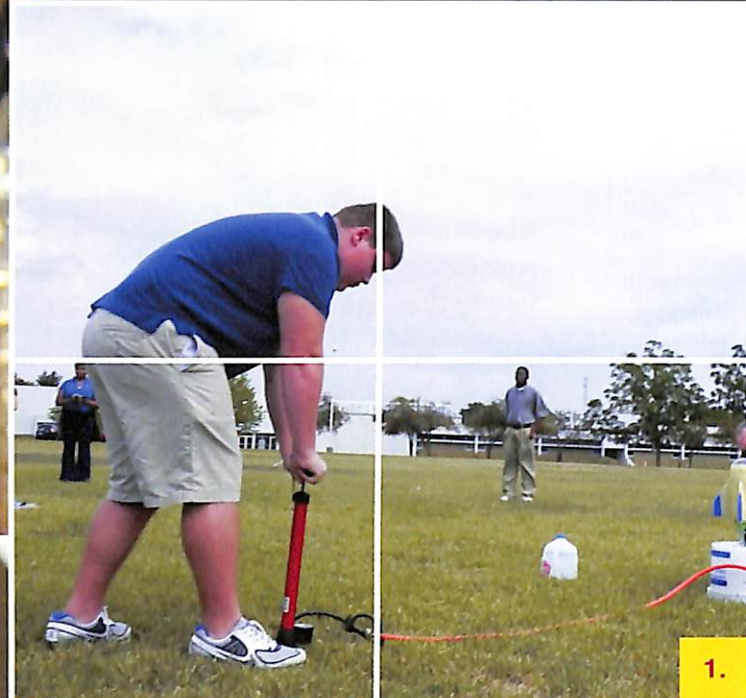

Coty Chaney diligently takes notes in Earth and Space Science.

Science class is far from dull. Many of our students look forward to going to their science class every other day. We don't have to worry about staying awake, because we're not always just doing worksheets. We often put on gloves and safety goggles and go to work. Science classes here at FCHS include Earth & Space Science, Physics, Environmental Science, Biology, AP Biology, Chemistry and AP Chemistry. We also have AP Physics available online. The science teachers make it interesting and motivating to do any assignment. Whether we're shooting off rockets, dissecting frogs, blowing bubbles, or smashing eggs, we are always learning something fun here at FCHS.

For those who are fascinated with digits and love logic, Fort Campbell math classes are the place to be. Many students take a range of math classes starting with Algebra I and Geometry then moving onto Algebra II and Math Analysis, and the very advanced take classes such as AP Calculus or AP Statistics. No matter the class, math is taught not only by diligently working problems out of the books but having hands on knowledge of how to work the "school bus" graphing calculators. Teachers are determined to teach their students mathematical know-how for future careers or simply just day-to-day problem solving. Starting with the first concepts of algebra and moving all the way up to taking derivatives, FCHS students get a handle on math.

From Romeo and Juliet to Crime and Punishment, English classes here at Fort Campbell take you to different places while never leaving the classroom. From literature of the Middle Ages to present day novels, Edgar Allen Poe to Francis Scott Key Fitzgerald, there is so much to learn about English. The English teachers passionately try to get us to become better readers and even make grammar lessons a little less dull. English classes enhance our skills for jobs and help us prepare for our future.

SET & spike

We can't deny that the 2010-2011 Volleyball Team has been on a roll since it started. With 17 victories this year, the volleyball team made sure their hard work paid off. Coach Kendra Chappell was very proud of all the girls and their efforts. This year, the team was very focused and determined on one thing: winning the district game. The girls were able to work together not only as a team, but as a family.

The girls played one of their most nail-biting games - the district championship against Christian County. The team tried their best not to give up but unfortunately Christian County took the win, leaving the Fort Campbell Volleyball team in 2nd place.

However, with their heads held high, the Lady Falcons volleyball team is an example determination and perseverance.

"I appreciated the opportunity to have worked with an extraordinary group of young men, who represented themselves, our school and our community with good character," said Coach Cunningham. The loss of so many players last year made this year a rebuilding year for the Falcon soccer program. However, the team still strived for great things. Coach Cunningham said, "The boys always demonstrated a great willingness to work." They got what they were looking for at the end of their season, a 8-7-2 record. This led the team to ending on a good note, with a winning season and lots of good memories.

PASS & score

"Proud is the word that comes to mind when thinking of the 2010 Lady Falcon Soccer season. The girls have proven that hard work and dedication will lead you to success." This is what head coach of the girls soccer team, Alysia Durham, said about the season. The Lady Falcons proudly achieved something which had not been thought of in the past few years, a winning season. They worked hard to put themselves over the edge with a record of 10-9-2. This winning record included a hard fought tie with rival UHA which the girls couldn't be more proud of. All those practices of running, ball skills, and plenty of laughs finally paid off. Coach Durham ended by saying, "Thank you, ladies, for making my first year a memorable one."

■ GETTING PUMPED: The Varsity Lady Falcons throw in their hands to do their traditional "1, 2, 3, Lady Falcons!" chant before starting the game.

“

The team is what really made the season great and to be captains with friends I've know since day one. The season's been everything a senior could ask for.

■ Katie Keenan 12

It was a bitter sweet ending. I will never forget my last game or this amazing team.

This year the cross country team was the only fall sport to advance to state. This sport like others uses techniques, endurance, and speed. "This season was fun, enjoyable, but also hard," Pedro Hernandez stated. "Coach Vicky is caring and a positive person about her runners. Her reputation will be remembered by all of those on the team for years to come."

Cross country runners and their teams compete to gain first place on a course over open or rough terrain. It's not an easy sport and you have to have a love for running. This years team proved that. Congratulations to the boys and girls who ran in state!

This year by far was my favorite. I was proud of the team as we went from the bottom up to making it to state. "Talk smash get whacked." I was honored to be a captain. Listen to Coach, she knows what she's doing. NEVER STOP RUNNING!

Student Council (STUCO)

Leadership within Ourselves

Student Council, also known as STUCO, is an organization open to any eligible students in grades 9-12. It is an extracurricular activity for students to share ideas, interests, and concerns within the school. STUCO participates in several fund-raisers, including social events, community projects, and school reform. Here at FCHS, we have very dedicated students who are a part of STUCO who work hard so students have a voice!

POWDERPUFF & BONFIRE

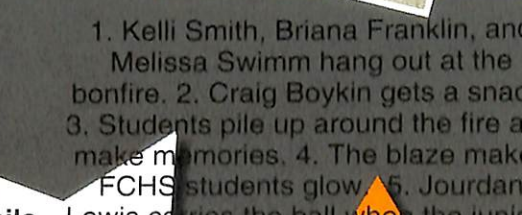

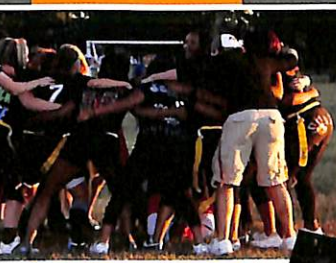

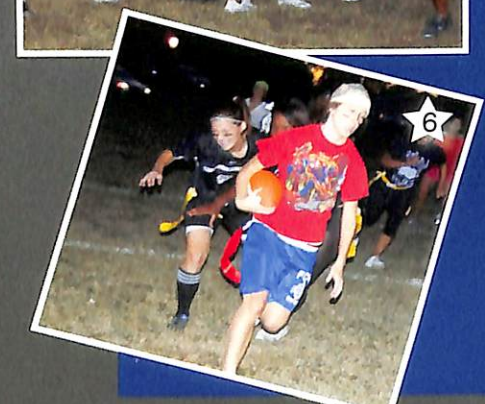

by: Jenna Ammerman

Bonfires and powderpuff football games have always been a tradition during homecoming week. Fort Campbell's girl football players had one thing on their mind; WIN! Each grade hoped for a victory in spirit week's powderpuff game. It would show who dominated the school, and, of course, the seniors won! The juniors, sophomores, and freshmen just couldn't take the heat! Speaking of heat, after the game, FCHS students piled up around the huge bonfire. The bonfire was put together with the help of the Fort Campbell fire department. The game and the bonfire were amazing and helped rally our school and football players before Friday night's game against Todd County. This traditional night left many with good memories of high school.

Homecoming is known as an annual celebration reunion for alumni; the act of coming home. Fort Campbell's homecoming had experiences that some student's will remember as some of the most memorable moments of high school; with showing school spirit, being loud at the pep rally, feeling the heat of the bonfire, getting rough playing powderpuff, going to the big game, and of course dancing the night away! This year our football team played Todd County, and as every homecoming game should be, it was a win, a complete shut-out, making the game much more exciting and motivating our player's for the rest of the season. We roughed up those Rebels 61-0! Good job boys!

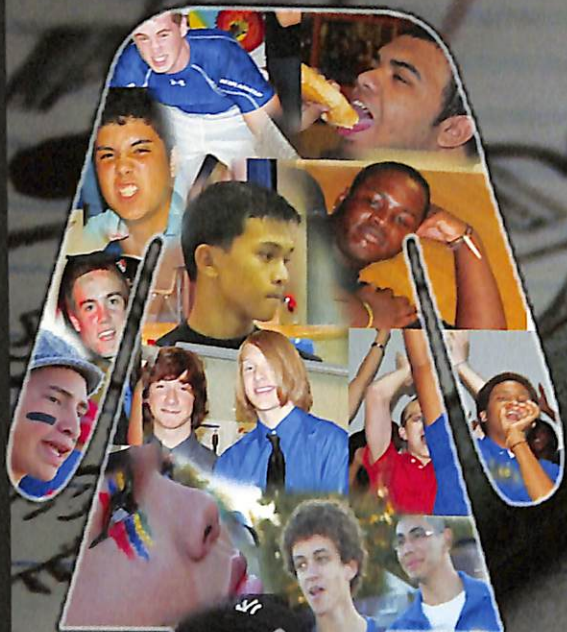

Evolution is how we change and that's what FCHS has experienced ever since it's been up and educating. This years theme, Falcon Evolution, took blasts back to the past from 1960 to today repping our school colors blue and grey. The dance was loud and sweaty, but filled with liveliness and fun. This was our homecoming FCHS. You, the students, are what made this week and our school year so memorable!

AVID, which stands for Advancement Via Individual Determination, is a school program designed to help prepare students for a four-year college eligibility. From taking cornell notes to visiting colleges, students receive a better understanding about college life that will help them be more successful in the future.

ESL, which stands for English as a Second Language, is an academic program designed to help students master the English language. With the help of their teacher, students learn how to improve their pronunciation and grammar while also learning differences in culture.

After winning three state titles in a row, the Falcons knew exactly what it would take to win a fourth: lots of heart and dedication, especially after losing 18 seniors and two coaches. From strength and conditioning in January to Camp at WKU in July, the Fort Campbell Falcons gave it their all every chance they got. The Falcons practiced hard each and every day to prepare for their next opponents on and off the field. After each game, the Falcons are right back at school to watch film of the game and correct any mistakes. The Falcons kept their Army Bowl streak alive, making it seven in a row and being district runner-ups. The team put every ounce of effort they had to give, but fell short of their goal of winning four in a row.

■ HALF-TIME SHOW: Corey England and EJ Hinson wait for the cue to begin.

"I absolutely love my cheer team. These girls aren't just my teammates or friends, they are my family."

■ Cami McFarland

"My 2010 football cheer team was the best girls I've cheered in in all my years here at FC. We had that family feeling, and I wouldn't have it any other way, with any other team."

■ Teneha Trammell

"The cheer team this year was absolutely amazing and I'm going to miss cheering with everyone when I graduate."

■ Brittany Henricksen

■ **FOR THE BOYS:** The cheer team prayed before every game.

Cheer & Leaders

Cheer & Leaders breaks it down. They are loud and proud and they lead their team and crowd to the end. The cheerleading team this year has experienced it all, including: mini camp, getting a cheerleader the first day of camp, the crazy times at camp, the unforgettable pregame meals and bus rides, and senior night. The cheer team this year really learned the meaning of family, as they became one. The cheer team, cheered their hearts out and supported their football boys all the way to the end.

Varsity Team

"I am going to miss you all so much. Have fun and don't be stupid. Hefer please."

■ Jennifer Riley

"I love this cheer team. We had an amazing season that I wouldn't trade for anything. I am going to miss cheering with everyone. To my fellow senior girls, good luck in life and to the rest of the girls enjoy your high school years."

<3 Always

■ Sarah Franklin

"This years cheerleading squad is like a big family and I'm going to miss everyone. You do you."

A collage featuring a winter landscape with a sunset over a frozen body of water, surrounded by abstract splatters and the word 'January'. The central image shows a bright sun setting behind bare trees, with its reflection on a partially frozen pond. The scene is framed by a large, dark, irregular shape. The background is white, decorated with numerous blue and purple ink splatters of various sizes. The word 'January' is written in a stylized, cursive font in the upper right corner. On the left side, there are some faint, partially visible letters: 'nt', 'CA', and '95'.

Musicians

By J Wirkkala & Connor Arnold

There is a saying that goes, "Music is what feelings sound like." It may be somewhat cheesy, but if music is what feelings *sound* like, then art is what feelings *look* like. Art is unlimited, and is interpreted differently by each person who looks at it. Our hallways are filled with the creative personalities of sculptors, painters, sketch artists, photographers, poets, writers, and an array of other artists. Art is the ultimate form of expression, encompassing almost every creative outlet possible. These artists could not express their views without art. Artists look at life differently, and our lives would be monotonous without them.

Artists

Music is not only an art, it is an expression. Fort Campbell High School is filled with all kinds of musicians: singers, guitarists, bassists, pianists, percussionists, clarinetists, tubists, flautists and various other musicians. All of these people take music and change it from a class to a lifestyle. Being teenagers, we practically live and breathe music. The music we listen to now becomes a major part of our lives. Music plays a huge role at Fort Campbell High School, with all forms of genre and expression ranging from the school jazz band to local screamo-metal to acoustic pop. Musicians serve as our voice.

PAPARAZZI! That's us, the 2010-2011 yearbook staff. We're a crazy group of seniors with a couple juniors to round out the bunch. After hours of work, tons of food and many laughs, we've put together the masterpiece we call the yearbook. All this while maintaining our mission to picture everyone three times (even you kids who run away), giving equal coverage to activities, and keeping the cost of the book low! Our yearbook staff will walk away with memories and some life skills, while we hope you walk away with a book you will treasure forever.

A wise person once said that if we forget the past, we are doomed to repeat it. The Social Studies Department at FCHS tries to prevent that from happening. Students make presentations, write papers, research and take notes on the events that have occurred in the world. From World History to Anthropology, and US History to US Government, FCHS social studies teachers try to get students interested in past and present events happening in our country and in the world.

When asked, many students at FCHS won't be able to explain what CTE classes are. CTE (formerly known as PTS) stands for Career and Technical Education. Image manipulation classes, word processing Microsoft classes, engineering classes, video production classes, and business classes are all included under the CTE umbrella. CTE classes prepare students for the technical aspects of life after high school. Teachers focus on teaching students about technology in the most creative way possible. Carderal Brown's favorite part of his Engineering and Design class is the wooden car races. He explained, "We take blocks of wood, cut them out to make cars, and race them down the hallways."

Future Educators of America

Future Educators of America is a club for students who think they might want to become teachers after attending college. FEA is one of the most popular clubs at FCHS. Members participate in such activities as Teacher Shadow Day, the yearly FEA social, and monthly meetings. Students in FEA are presented with educational information during the year which could help them make up their minds for a future career in teaching.

Studying the Culture Spanish Club

By: Thays Flores

Spanish Club allows you to have fun with your peers while learning about the Spanish culture. Despite what people may say, students do not have to be in a Spanish class to be a member of the club. Mrs. Pagan, the club's sponsor, likes to do a community service project with the members. The Spanish Club had a gathering for Christmas where they danced, ate, and had a good time. The few members of the Spanish Club members treat each other like family.

■ Bryce Faulkner, 12

Junior Varsity Team

Slam & Dunk

The boys basketball team had an average season although they were faced with adversity. The boys started the season with a new leader, Coach Cunningham, who also coaches soccer in the fall. Like most years, the team rebuilt itself after losses and gains of players from the previous season. There were very few returning players from last year. Even after a rough year, the Falcons pulled through and by the end of the season they were a better team.

■ FREE THROW: Tim Schulte attempts to shoot a free throw to complete a three-point play.

“It's amazing to have been a part of the team since day one, two years ago. This season was awesome. I will truly miss the game and the long fun bus rides!”

■ Shakiera Taylor, 12

“I am glad that we ended the season with a bang. I'll truly miss the team.”

■ Kendall Ladrillono, 12

The Lady Falcons after their first win of the season defeating Dawson Springs 51-48.

Shoot & score

This season the Lady Falcons did the unthinkable and won their first game since 2007. Going 0-21 last season, the Lady Falcons drastically improved for a 6-13. Although the Lady Falcons fell short to Hopkinsville High School in the first round of the district tournament, they have proven that hardwork does indeed pay off. Senior Cori Hatley thought this season was amazing and she wishes the Lady Falcons success next season.

■ **LAY UP:** Shakiera Taylor goes for a lay up the night of the first win of the season against Dawson Springs.

“We had a great season with all the new wrestlers this year.”

■ Sydney Martinez, 12

The team after a meet at Murray State.

SET & Pin

The wrestling team came off another great season coming in fourth at Regionals as a team. "Great season, the guys worked hard and we had more people qualify for State this year than ever. I'm very proud of the hard work that they put in," said Coach Gusse. The team had seven wrestlers to qualify for State. There were many injuries this year, but some wrestlers were able to step up and fill in the varsity spots. Regardless of the adversity they had to overcome this year, they still managed to have a fantastic season.

Students at FCHS release their creativity with the selection of fine arts classes. Many students enjoy the opportunity to get graded on something they like to do. Fort Campbell boasts a wide selection of painters, sculptors, pianists, guitarists, vocalists, photographers, and various other artists and musicians. They brighten the school hallways with colorful pictures, carefully crafted sculptures, photographs, and the sounds of instrumentalists, singers, and band members. Fine arts classes give Fort Campbell students artistic diversity.

Foreign Language isn't just a requirement at our school; for many it's something more. Many students at Fort Campbell want to take the skills they learned and apply them to their future job. Whether it's French, German, or Spanish, learning another language teaches you tolerance and also helps your knowledge of English grammar. This year we've had the opportunity to offer AP Spanish, which Mrs. Pagan is teaching for the first time. When asked why she is taking AP Spanish, Janise Soto-Gonzalez replied: "I am taking AP Spanish to better my Spanish and so that I won't forget my Spanish in the future." In the long run, taking a foreign language not only allows you to graduate, but it will help you in the future.

JROTC is popular for students at FCHS. The class isn't just about the Army; students learn citizenship skills that can be used throughout their lifetime. The instructors teach leadership techniques and allow students to lead others to practice for potential work in the future. Students really get the most out of the program when they join the after school teams. Raider, Drill, and Rifle teams meet after school for practice to attend competitions, where they have always been very successful.

Prom Fashion show

By: J Wirkkala

This year the seniors' saying was "rock out till we walk out," and the fashion show was a part of that. The class of 2011 put on a fashion show in order to raise money for graduation and other important ceremonies for seniors. If you were looking for a dress or tuxedo to go to prom in the fashion show had a huge style spread. The seniors rocked the cat walk and raised tons of money for their class. The fashion show was a success. Seniors, you can now take your bow for a job well done.

TALENT SHOW

1) Emilee Morse plays as Jackie Espinoza sings "Hallelujah." 2) Corey England plays a guitar to "Freewill." 3) Renee Anderson sings her heart out to "30 Seconds to Mars." 4) Bria Holmes sings "I Believe I Can Fly." 5) Evan Dadswell plays the guitar parts to "Sweet Child Of Mine." 6) Chachi Borja & Jenna Caraccillo laughs and sings to "Breaking Free." 7) Connor Arnold, Reggie Fleming, Jamell Turner, and Kenneth McNeil play "November." 8) D'Araann Aguon accepts her trophy for hula dancing. 9) Andriisa Aponte Anderson passionately plays "Learn to be Lonely" on the piano. 10) Emilee Morse and her band performs "21 Guns." 11) Tano Duenas, Alex Tan and Dominique Lopez celebrate their win.

JV & Varsity Baseball Team

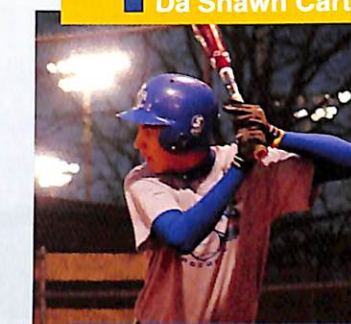

Hit & Run

Baseball here at FCHS is a sport that demands many different kinds of skills, such as hand eye coordination, precision, accuracy, and most of all teamwork. The Falcons start their off-season conditioning in early January. Their love for this sport helps them to endure getting lots of bruises, throwing a bad ball, or running laps around the field for having too much fun. However, once the boys step on the field, they're strictly business. Through all their wins and losses, the Falcons made some unforgettable memories.

■ LINE DRIVE: Jorge Vera hits a line drive.

■ CURVE BALL: JD Swails throws a strike.

■ YOU'RE OUT: Jared Franklin touches third base to get his opponent out.

■ PITCH AND CATCH: Lucas Lock throws a strike right down home plate.

■ BATTER UP: Harley Davis slams the ball.

■ FLY BALL: Nick Merrell stretches for a fly ball.

■ DIVING CATCH: Kelso Blair makes a diving catch.

“ Softball has been my favorite sport since I was nine. Too bad that my time has ended so quickly. I've been with the best, I definitely have been with the worst. But without any of it, I would not be the player I am today. ”

■ Malyssa Piyamanothamkul, 12

“ Go me! Wait... don't hit me, I love my life <3 ”

■ Quiera Devose, 12

“ The end of softball has been a long time coming! I'll definitely miss the smell of new softballs, practicing for house in warm weather, and playing with the team. But I won't miss the bruised knees and raspberries. ”

■ Kendall Ladrillono, 12

2011 SENIORS

3 UP & 3 down

Two outs, bases loaded, tie game, bottom of the seventh, the girls got to bring it, and this year they did. The softball season started out late this year, but the team really had initiative and wanted to play with all their heart. Softball is a game that endures blood, sweat, and sometimes tears and the girls always came back for more with desire to play. This year brought a lot of changes with new coaches and new intent and heart on the field. Softball is known as a "girls" sport, but after playing and seeing what the game is truly about, you might want to think twice about the girls; they might be girly but they all posses a tough side. The connection between each Lady Falcon with her glove and bat brought out the best in each player during games. The point of the game is not individual best but teamwork, which is a beautiful process of blending personalities and mutual sacrifices for group success. Even though you might of played the best game of your life, the feeling of teamwork is what you remember. You'll forget the hits, the scores, and the plays but you'll never forget your teammates. So good job Lady Falcons and keep playing!

Varsity Softball Team

“ Ugh! Just play... and go HOME! =D ”

■ Jenniffer Riley, 12

“ Softball has been my life throughout the years. I have played on many teams with different strengths, I am a far better player because of that. It's sad that these days are ending so soon. However, these days on the field are some of my best memories, that will never be forgotten. ”

■ Sarah Franklin, 12

“ Get that butt! ”

■ **SMACKIN IT:** Left- Jenna Ammerman improves her swing during batting practice by improving her form and stance. This results in amazing hits for Jenna in the future. Right- Rookie Taylor Oxlford gets ready to catch a pop fly in the outfield. After making this catch, Taylor throws that ball into her cut-off and back into the infield.

■ **DIGGING IT:** Jenniffer Riley keeps her eyes on the ball and her legs bent as she fields a ground ball.

■ **THROWING IT:** Left- Jessica Flynn sets herself up to make the out at 1st base during warmups. She focuses on her form to make her throws perfect for the 1st baseman. Right- Alii Tellez pops the ball right into the outfield during batting practice.

■ **TOSSING IT:** Janise Soto-Gonzalez plays smart in this situation and decides to toss the ball rather than throw, because she knows how close she is to her teammate.

■ **COACHING IT:** First time coach for the Lady Falcons this year was Coach K. Coming into the program so late in the year was stressful but she was determined about having her girls succeed.

■ **PITCH CATCH:** Top- Mariah Piyamanothamkul works on her pitches during practice, hoping to get better and succeed in future games. Bottom- Brittany Gomez and Kendall Ladrillono gear up and prepare to catch some pitches during practice.

■ **POWER AGILITY:** Top- Brittany Gossett concentrates on fielding her grounder in the outfield. She keeps her hand and eye on the ball at all times. Bottom- Quiera DeVose points at her target before throwing the ball to the pitcher.

■ **ALL THE WAY:** Jessica Struck launches the ball into home after receiving her pop fly in the outfield. The Lady Falcons really did benefit from an arm like hers in right field.

Serve & Ace

This year the tennis teams' hearts and minds were set with determination and ambition for the upcoming season. Although this season has brought many challenges, with the guidance of Coach Keenan, each player was able to reach their personal goals and improve their technique. They saw their progression as they continued practicing and eventually their hardwork paid off. Overall the tennis team this year gave it their all and really enjoyed the season. As always, they are anxious to see what the next tennis season has to offer and to continue to better the team.

READY, SET & GO

“I am so excited for this track season. Both the boys and girls are working very hard. I can't predict the outcome of the season, but both of them have a good chance of winning state. It's time we hang up a girls team state banner.”

■ Cami McFarland, 12

Members of the girls team

Some people, when they hear about track & field, believe it's all about running, but there's much more to it than just that. Track & Field includes an assortment of events including pole vault, shotput, and hurdles. The boys and girls track team are both trained by Coach McKillip. They work hard conditioning during the beginning of the year. The team has had a lot of success in past years, and continues to improve with each season.

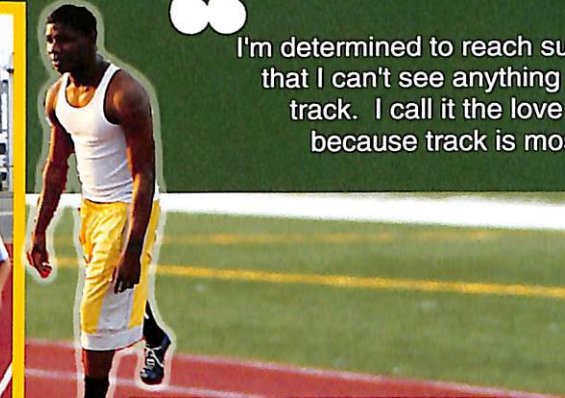

“I am looking forward to this track season. I hope the girls win state this year.”

Varsity Cheerleading

JV Cheerleaders

TRACK Stomp & Shake

The FCHS Basketball Cheer Team for the 2011 season is like no other team before. This year is the first year ever that twenty-five girls made the Varsity team and fifteen girls made JV. With the outstanding amount of girls on the team for the season, the girls knew they had a lot of work ahead of them. The girls had to learn how to adjust to the new line formation, dance lines, and to the variety of stunt groups. The girls worked hard and all the cheering paid off when both the girls and boys basketball teams won games.

Model United Nations

M.U.N.

The United Nations is an organization encouraging peace and communication between countries. Unfortunately, many students do not know what the United Nations actually is, how it works, and who is involved. This is where MUN, or Model United Nations, comes in. MUN allows students to discover how the UN truly works by taking part in an accurate replication. Students come out of it more aware of the countries and the world around them. Students are actually given actual issues to work through; they work with real countries and real crisis. You could definitely say that it's a learning experience.

"I always tell my students to have a backup plan when selecting their career pathway. My dad made me select one when I started college and I thank him everyday! My career pathway in college was to pursue a business degree. Since my mom was a teacher, my dad suggested I get my teaching and business degree. After I graduated, I went straight to the work field of accounting. Ten years later I decided I would like to teach. I started teaching accounting part time. I realized how fun it was, so I applied for a full time teaching job. I've been teaching ever since. I love it and wouldn't trade my "backup" plan for any other job.

I guess the saying is true...

choose a job you love and you will never have to work a day in your life!"

Good Bye.

Brianna Franklin

I would like to thank my family for guiding me throughout my 4 years at FCHS. Thanks to the teachers who taught me more than just how to pass tests & quizzes, 1/2 of the knowledge I will carry with me to college, I gained on the volleyball court. Without great coaches like Michelle Levin, Gena Elliot, Kendra Chappell, Michelle Weal, & Scott Cassidy, I would not be who I am today. Finally, a shout out to my best friend, Kristabell Cacabelos. Thanks everyone!

Jerath Cherry

Being in the top 10 of the senior class feels rewarding. It feels as though all the hard work from the beginning to now has finally paid off. With thanks to the careful guidance of a few teachers, the support and strength of my family and help from God, I feel that I have succeeded in high school. I will take what I have learned in my high school career and take it with me to college. I plan to attend Austin Peay State University.

Betsy Grammel

Throughout high school, I have aimed to be the best person that I can be. While I am proud that this has gotten me to the top ten, the real benefits were the knowledge that I have gained and the experiences that I have had. I could never have made it to where I am today without the loving support of my family, the wisdom and guidance of my teachers, and the loyalty of my friends. "As we let our own light shine, we unconsciously give other people permission to do the same." -Marianne Williamson

Cori Hatley

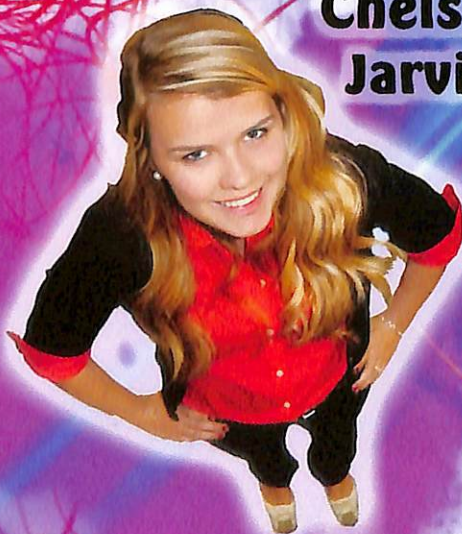

Even though we've impatiently waited for our senior year, it's still shocking how high school is almost done. I am so thankful and happy to have ended my journey to the Top Ten here, but I could have never accomplished it alone. I have to thank my family for supporting me in whatever I do, my teachers for educating me not only in class but in life (especially IL & AG), my coaches for pushing me to my physical limits, my friends for the crazy memories, and God for always being there. While it's bittersweet to move on, I am truly excited to confront life's next challenge and go on to Missouri University of Science and Technology! "Weakness of attitude becomes weakness of character." - Albert Einstein

Dakota Januchowski

My entire high school career, I've strived to be a part of the elite seniors. The hard work, the dedication, and the hours that I poured into my academics has finally paid off. It is a great feeling to be among the top ranks; take it from me, don't ever give up on anything. Don't wait until your last years to start working hard. Start from the beginning. Thank you!

Chelsea Jarvis

How do I thank someone who has taken me from crayons to perfume? It isn't easy, but I'll try. Without my parents and faith, I would have never been the person I am today. I would like to thank them for dealing with me, through all the stress and meltdowns. I would also like to thank everyone who said I couldn't make it and who said I should aim my sights lower. Those people have been the source of my determination and I thank them for their lack of faith. Don't tell me not to fly-- I've simply got to. If someone takes a spill, it's me and not you. It's been ten long years here and I am ready for a new beginning. As I leave Fort Campbell, I have no regrets; all I can say is at least I didn't fake it.

Kendall Ladrillono

My four years of high school are just about to come to an end. I am glad that all my hard work has finally paid off allowing me to rank in the top ten of my senior class. I want to thank God for blessing me with people who have helped me come this far including my encouraging teachers and coaches. I especially want to thank my parents who have been there, loving and supporting me every step of the way. I know that as long as I continue to work hard along with the support of my family, I will be successful in life. "Act boldly, as if it's impossible to fail. If you keep adding fuel to your desire, you will reach the point of knowing that you'll never quit, and ultimate success will be nothing more than a matter of time." -Steve Pavlina

Naylil Soto-Gonzalez

I am so happy to be a part of the top ten. I have always worked hard since the beginning to make it to where I am today. Being in the top ten of my class has always been one of my goals in high school, and I thank God that I am able to be where I have always planned on getting to. This was my way of proving myself that if I put my mind to something I could achieve it. This fall I plan to attend Austin Peay State University.

Keishla Valle

After four long years of hard work, stress, and determination, I am very grateful to God that I have accomplished my high school goals and that he has brought me safely to where I am today. I would like to thank my family for their unconditional love and their continuous motivation throughout my high school journey. I would also like to thank those teachers who have helped me along the way. As I close this chapter of my life, I am very anxious to see where the next chapter takes me. I know that my future holds many bright opportunities for me and I'm ready to grab them and start my new voyage.

Mariah Vorhees

Getting into the top ten is simply another accomplishment in my life. It is something that I am proud of but all I ever hoped to do was try my best in everything that is placed in front of me. I have tried my best and that is good enough for me. "Time has been transformed, and we have changed, it has advanced and set us in motion; it has unveiled its face, inspiring us with bewilderment and exhilaration." - Khalil Gibran

FOREIGN LANGUAGE COMPETITION

The competition is an academic tradition at FCHS and our students have always been successful on the regional and state level. In February, twenty German students and six Spanish students competed at WKU in Bowling Green. Being on a college campus was a new experience for some and although this year there is no state competition, our Falcons went in prepared for regionals. The DREAM TEAM prevailed! Academic categories were target language proficiencies in writing, reading, speaking (individually or as part of a dialogue), listening, and poem recitation. Categories which show off students creative styles included art, construction models, video and game creation.

Don't be just another fish in the sea—learn another language at WKU!

Competitors from left to right: Amanda Ellis, Raleigh Jorstad, Claudia Lee, Nicole Stipkovich, Shayne Meyers, Larissa Massie, Emily Horkey, Zabreena Saucedo, Ashley Luong, Alex Goodman, J Wirkkala, Jae Min Ko, Lindsey Burgess, Alex McDonald, Tyler Fox, Leigha Mullins, Joseph Krebs, Carly Kozal, Jameil Turner, Haley Bolduc, Emilie Morse, Andrew Grammel, Christian Cevallos, Jackie Espinoza, Connor Arnold, and Mickol Rathbun.

Celebrity Spotlight: *Vice President Joe Biden*

Take a closer look

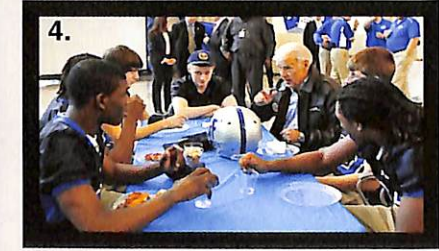

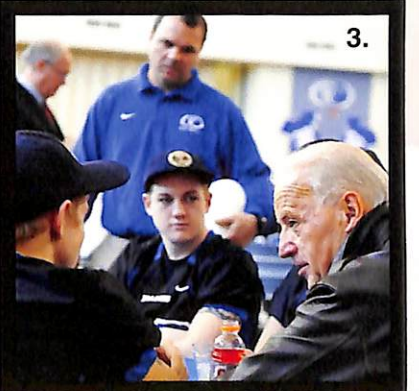

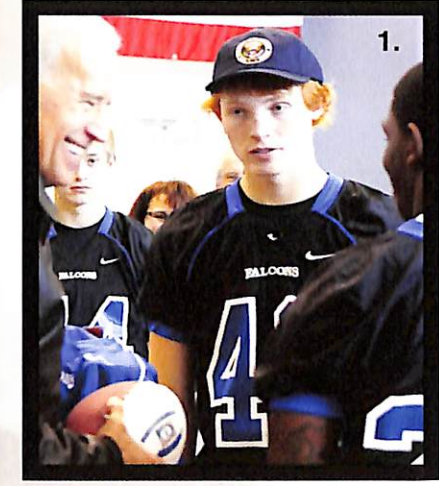

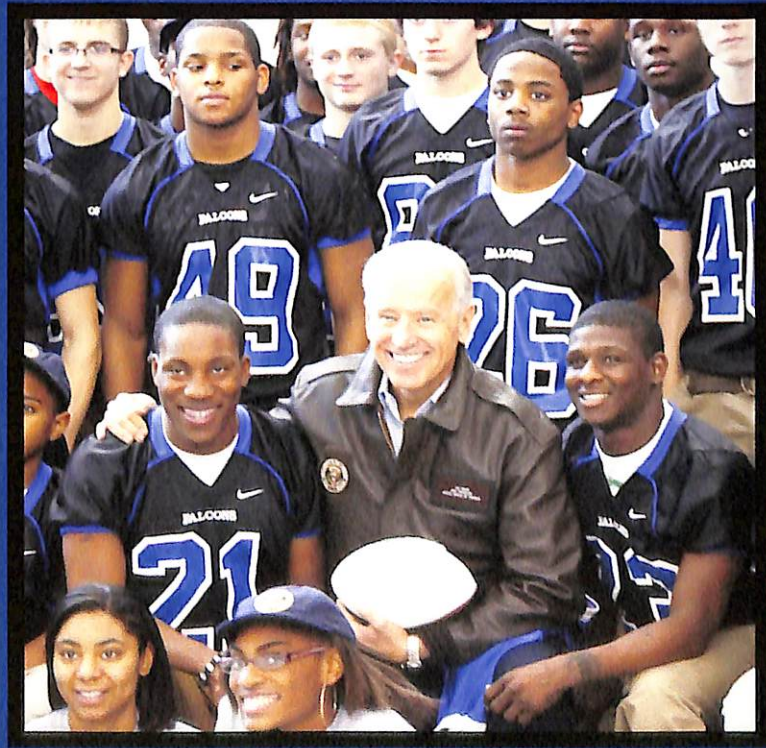

Vice President Joe Biden visits 3-peat Football State Champs

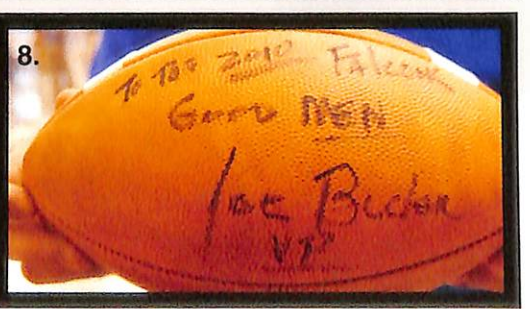

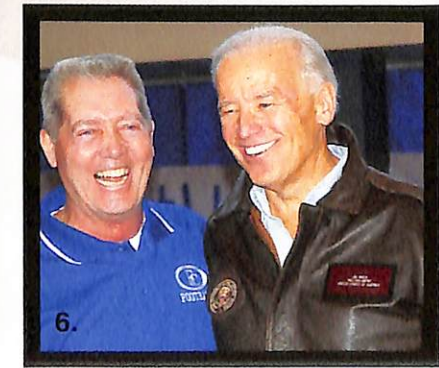

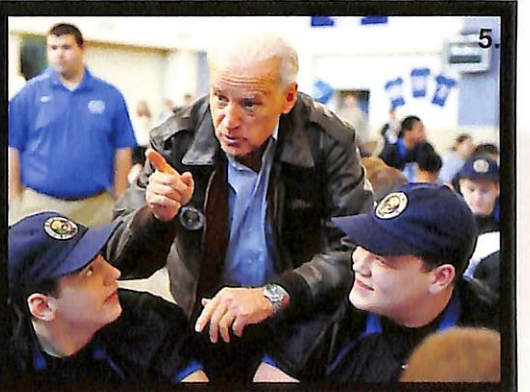

On February 11, 2011, Vice President Joe Biden visited the Fort Campbell High School Football team. The football team, dressed in their black jerseys, left from school shortly after lunch. Upon arrival at the PPC, the team, coaches, managers, and the lone yearbook staff member proceeded through tight security and began to wait. Vice President Biden's plane was slightly delayed, so a football was tossed around and a few games were played during the wait. When Vice President Biden finally arrived, he was greeted with applause as he strode in with a very easy-going demeanor and a huge grin. After a short introduction, the senior captains presented him with a jersey. This was followed by a photo session for individuals and group shots. Once everybody sat down to eat pizza and cake, the Vice President began to move about the tables. He took the time to sit at each table and managed to talk to everyone individually. Most of the conversation was about football and memories, but the Vice President was also happy to give his thanks to military families for everything they do. Members of his staff, including Secret Service agents, also sat down answering any questions we wished to ask. Before leaving, Vice President Biden signed a football as a keepsake, gave the coaches coins, and waved his final goodbye.

The prestigious visit was a welcome surprise as was meeting VP Joe Biden, who displayed such a down to earth manner. The experience was unforgettable. Meeting the country's second in command is so rare that most citizens never even come close to this opportunity, however after hard work and three state championships, the football team was granted with this high honor.

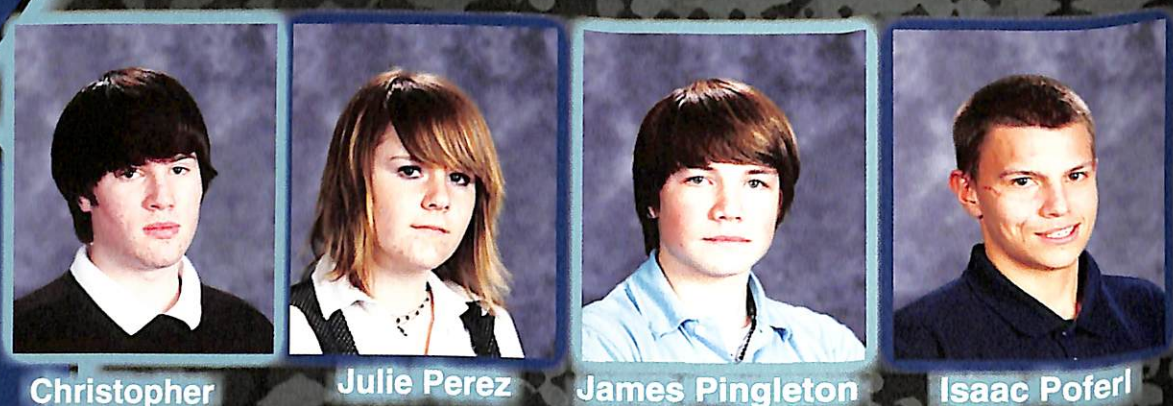

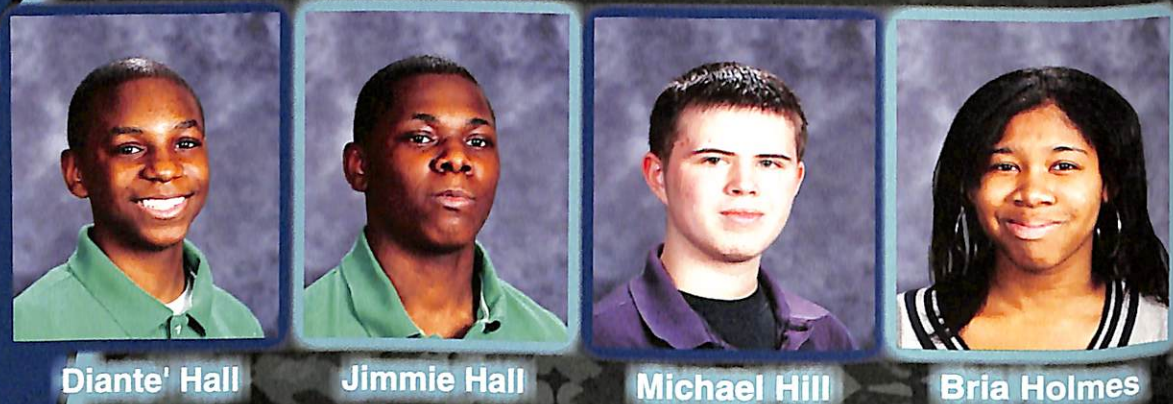

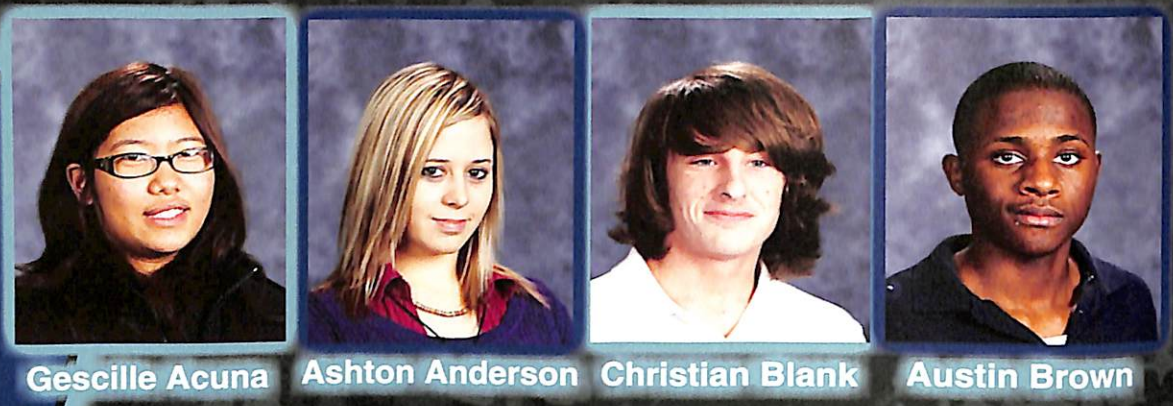

1. Captains Dakota Januchowski and TJ Tucker present a jersey. 2. Group photo with Vice President Biden. 3. JD Swails and Chance Von Dette have discussions at the table with the VP. 4. Players listen attentively as Mr. Biden reminisces. 5. "You're going to have a lot of great memories." 6. SRO Mr. Counts and VP Biden enjoyed a one-on-one conversation about the difference in spiked and combed hair. 7. Vice President Biden signs a football for the Falcons as Coach Berner looks on. 8. "To the 2010 Falcons. Good Men." Joe Biden VP

Things to Look Back on

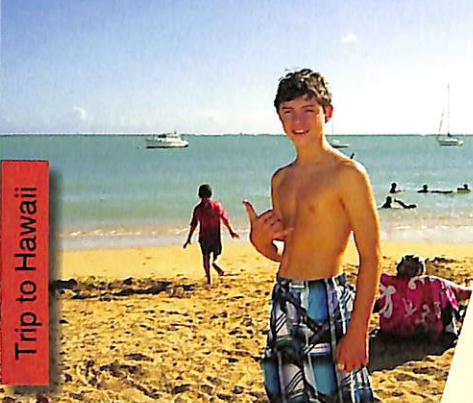

By: Betsy Grammel

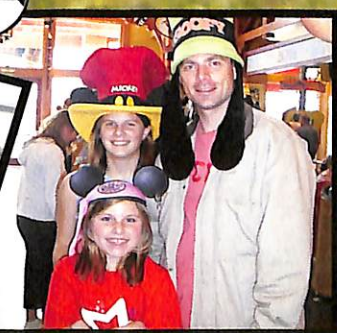

After spending a year juggling academics and after school activities, we made it through a year of high school. Whether a senior, a junior, a sophomore, or a freshman, we have all been through multiple random dress code checks and the dreaded reading and writing prompts. The seniors have prepared for life after high school and the underclassmen have gotten one step closer to graduation. We've all cheered at pep rallies, ran from one class to the next (five minutes isn't very long), and counted the days until summer. Some of us worked hard on projects we will remember, while others made each day memorable by just hanging out with friends. We all had to deal with days of being too hot or too cold, but we enjoyed our snow days. So while the year has come and gone, and our memories may fade, we will always have this yearbook to look back on.

Cori,

The time has gone by faster than we imagined. One day you're a precious little baby and the next day you are an accomplished young lady. Cori, we couldn't be more proud of the person you have become. You are so beautiful, smart, and all around wonderful. Congratulations for all that you have achieved! Our wish for you is that all your dreams come true. We just can't wait for the next chapter....

Love Always,
Dad, Mom, Mackenzie, Sasha, Max and Abby

C O R I H A T L E Y

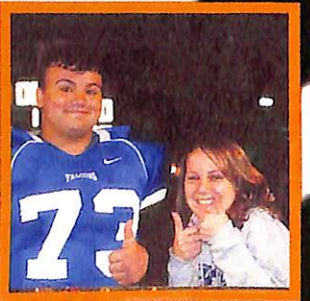

Alexandria Kay Englen

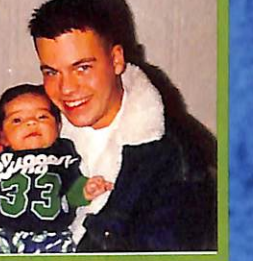

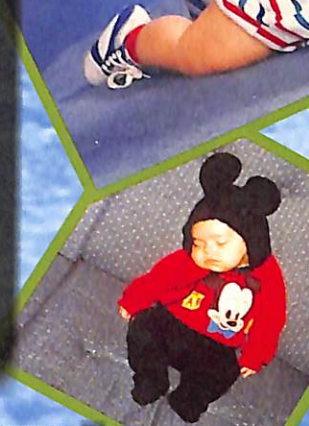

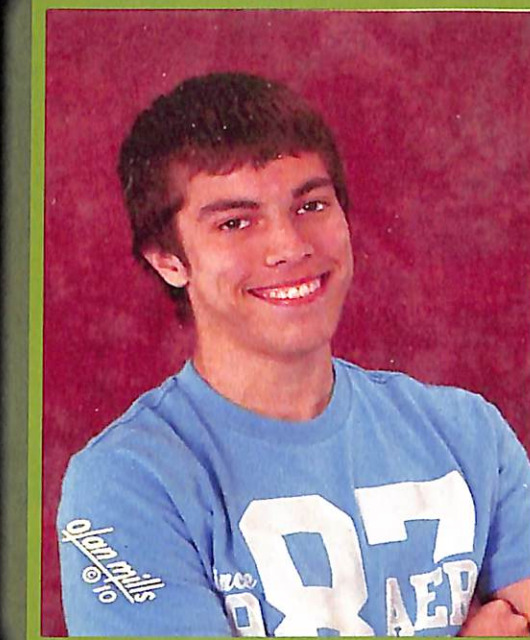

You are the light in my world. You have given me more joy and happiness than I ever knew I could feel. Thank you for being you. You are everything a mom could ask for in a daughter and more. Good luck in all you do and remember that family and God are the roots to success. Love You, Mom

Alex, you are the best sister in the world. Thank you for each of the memories and secrets we have shared. We love you sis! Chris, Catie, and Liz

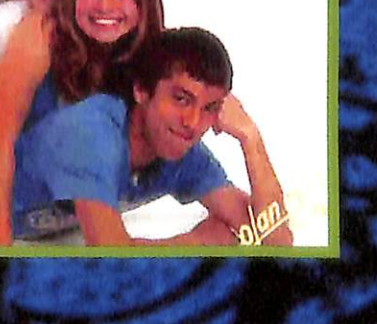

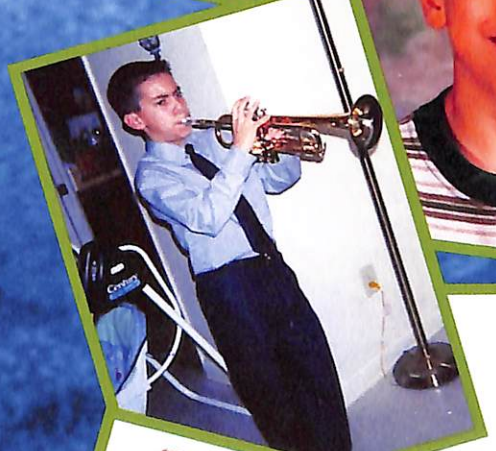

Scott Hill

A son is special for many reasons; he is the product of lots of love, attention, and devotion; he is the direct reflection of all that a mother and a father represent; he is truly a gift from God... Scotty, you are our first-born son and your mother and I are VERY pleased with all of your accomplishments. As you close one chapter on high school, you will begin a new chapter that will unfold as you embark on your future endeavors. The book you write will be your own unique story. No one can foresee what lies ahead in your journey, so we close with this: your mother and I will always be here for you; we will ALWAYS love you...always please God first, set your goals high, and NEVER quit... We love you Scotty!

Love, Mom and Dad

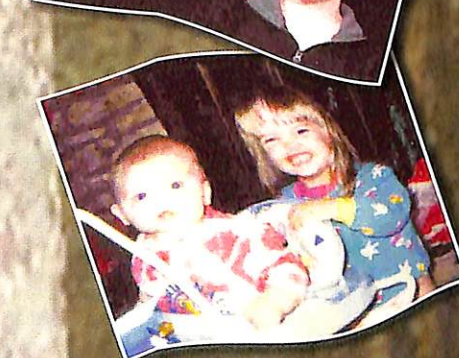

Patrick Miner

Dear Patrick,

I cannot believe this day has finally come. I am truly so proud of you. I have watched you grow from an adorable little boy to a strong, athletic, and outgoing young man. You've been a friend to your sister and an example to your younger brothers. I'm so proud to see you constantly challenging yourself so you can be a better person. You have overcome obstacles and turned them to your advantage. You have always been the champion of the underdog and been a friend to anyone who needed one, but I pity the ones who crossed you. You get that from me, but those are both traits that make us unique. Mike and I are amazed at how far you have come and know you will continue to do great things. Patrick, remember to keep your good friends close and continue to fight for what you believe in. You will always have the love and support of your family. Lastly, you said it best when you stated you're crazy, but all the greatest people are. We love you Patrick!

Love,
Mom and Mike

THANKS FOR A GREAT SEASON!
COACH BERNER

Chris Holder

Christopher,

From your family we want to wish you all the best in your endeavors. There will be many changes throughout your lifetime. There will be good times and there will be bad times, but it doesn't matter as long as you back up and stick with your dreams.

I hope that you choose your destinations well as you journey throughout life, and that your confidence will be the bridge that carries you over doubts.

Congratulations - this is your life, live it abundantly rich with the integrity to always do the right thing! Love always,
Mom

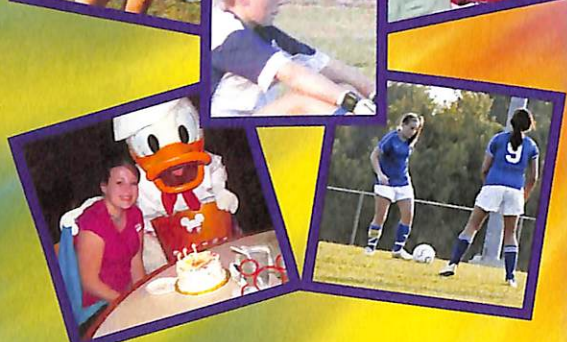

Chris, I am very proud of you. You have a vision, and focus to be important to the leadership role you aspire to have in the future.

Love always,
Grandma

Kaitlyn Keenan

Chapter 1: had you come into our lives making us smile and laugh and get to watch you discover all of your "firsts" and the world around you.

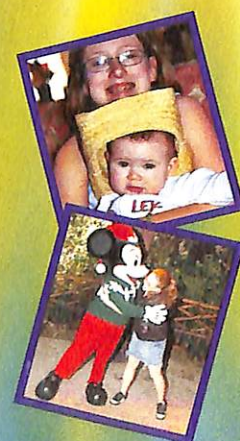

Chapter 2: told of your early ability to "roll with the punches"- moving overseas, learning at your Asilo, yelling at the doctor in Italian that he was mean, all while still loving life.

Chapter 3: told of your loyalty to friends and being there for others, even if it wasn't always returned.

Chapter 4: told of the beautiful girl you have become, both inside and out. It also told of your determination that pushed you to continue giving 100% and rewarded you in the end.

Chapter 5: is a work in progress, watching you decide what you want to do with your life and talents and where you want to go with them.

Katie, this has been the best book ever written and Daddy and I can't wait to see what chapters come next. We love you so much and continue to be proud of the person you are growing into.

Cami McFarland

Cami,
God has blessed us
with such an amazing
young lady.

We are so proud of you. Always make the best of where you are and live life to the fullest. You will always be our Tiger Lilly!!!

Love ya,
Dad, Mom, Andy, and Alex

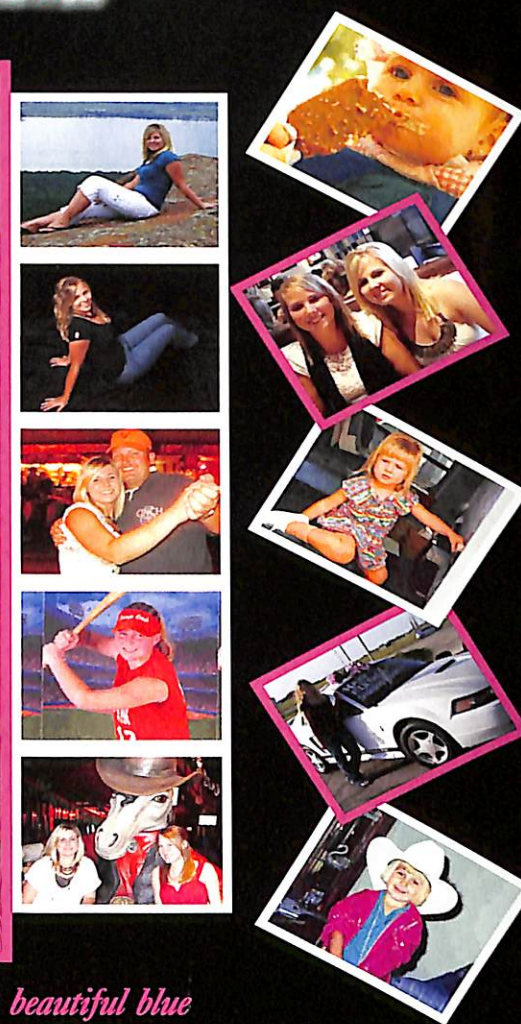

Sarah Franklin

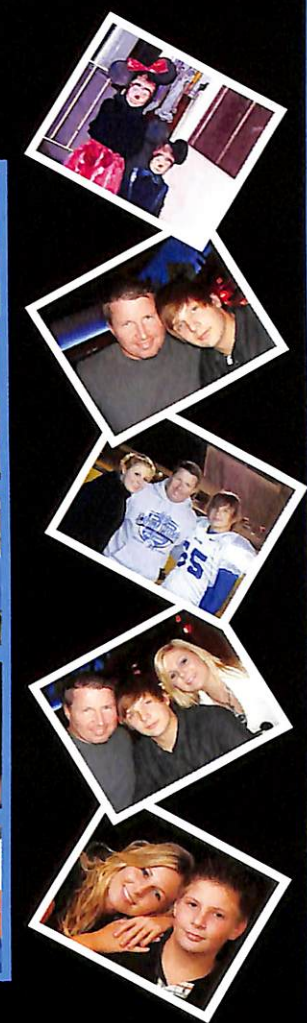

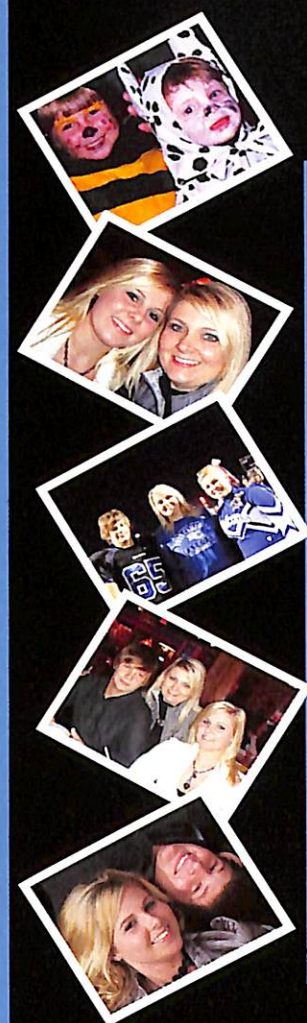

Sarah,
We knew from the first moment we held you and looked into your big, beautiful blue eyes that we had been blessed with an amazing daughter. You were born with such a loving, caring spirit that easily captivates the hearts of those fortunate enough to be blessed by your presence. Over the years, you have lived a life full of challenges and faced each one with strength and courage. You continuously strive to find the positive in everyone and every situation. You are beautiful inside and out and we are so honored to be your parents. We know you will continue to be successful in life because you have proven to be a resilient, young lady. You always choose the path less traveled and end up leaving a trail for others to follow. Remember what we always tell you...only you can make the changes you want to see in yourself, in your life, and in the world. Live your life for you, do in life what makes you happy!

Love,
Mom & Dad

Sarah & Jared

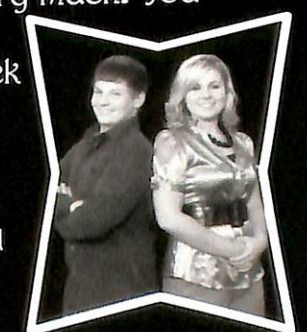

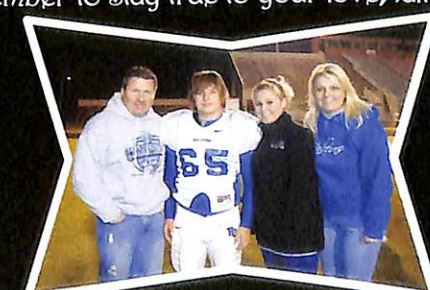

Jared,
Where do I even begin? We have been through so much and have made so many memories. Like every brother & sister we have had our ups and downs, but I would not trade a one of them as they have made us who we are. That is, the best brother and sister ever. I love you little brother and will always be here for you!

Sarah

Franklin Sarah,
You mean a lot to me. Sometimes we get mad and it seems we hate each other, sometimes we are happy and it seems we love each other...just kidding, deep down I love you very much. You always do everything for me and I will never forget it. Good luck to you. I love you sis!

Jared

Sarah & Jared,
We are so blessed to have the two of you as our children. Each and every day you find a way to fill our hearts with even more love and pride. May you be blessed on your journeys in life and remember to stay true to your love, faith, and values. We love you!

Shakeria Monea' Taylor

Shakeria,
Where do I began? It seems like yesterday you were running around with two huge afro puff ponytails and some extremely chubby fingers. Amazingly it is 18 years later and you are now about to graduate high school, and enter the REAL world. I am pleased with the young lady you have become and feel confident that you will do great. Remember everything you were taught. Have high expectations and big goals. Never let anyone or anything compromise who you are. You are as great as you think you are. Lastly, and most importantly...Put God first! Trust and believe in Him, and remember there is NO FRIEND like the lonely Jesus. If you will abide by this Kiera, nothing can stop you. Grandma always said you were a special little girl, and today I can attest that Grandma was right. Be Blessed and Go Far. We Love you, and there's absolutely nothing you can do about it!

Mommy and Eric

Shakeria Monea',
Girl where do I start and how can I end? You are the best sister ever! No one can ever be as great as you boo! I remember it like it was yesterday, us sharing a room, having twin beds...GOOD TIMES! It's so shocking that you're going away to college soon. You've never been away from me, so this is going to be something I'll have to take time to get use to. I'll cry and I'll miss you, but it's what's best for you. Always be yourself and don't let people encourage you to do things that I wouldn't approve of. Keep a close relationship with God and have a positive attitude about everything, and trust you'll go far.

I love you!

You are a wonderful daughter and sister - a joy to be
with. We are very proud of you and all you have
accomplished at Heidelberg High School in Germany

DAKOTA

Dakota,
We are so very proud of you and the young man you have become. Your future is limitless and we support your decisions as you begin the next phase of your life. When you were younger, we often played the "World's Greatest Leader" game as we passed the time away on long road trips. Those attributes you chose in leaders then are evident in your life now. (You even somehow managed to bring in some mythological traits too!)

So, as you begin your own historical leadership, remember to...
Embrace the challenge and quest like Alexander.
Unite and embrace those you love and lead like Attila.
Take heed to the sufferings of others like Siddhartha.
Cherish peace and love all mankind like Jesus.
Right the wrongs like Lincoln.
Communicate and tear down walls like Reagan.

Love,
Mom, Dad, Austin, and Tucker

Sydney Martinez

Sydney,
We look back on these 18 years and have seen how much you've grown. In every step you've taken, it has been a pleasure to be by your side, from your beautiful birth to being on the threshold of adulthood. You have warmed our hearts and filled us with joy. At first we cradled you and nurtured you, not wanting to let you far from our side. As the years passed by all we could do was pick you up, dust you off and encourage you to get back on that bike and try again. Your strong desire to help others and your warm inviting heart have always been your signature character. To see your face light up when you talk about helping with the assisted reading programs, student council groups, or watching you blossom in JROTC no matter the situation you have always made us proud. You are a wonderful daughter, sister, student and a great contributor to your school and community. We hope your dreams take you to the corners of your smiles, to the highest of your hopes, to the windows of your opportunities, and to the most special places your heart has ever known.

From Mom and Dad

My beautiful daughter,
It seems like just yesterday when I first held your
tiny little hand in amazement. I left the hospital
the proudest mommy ever, and that feeling never
went away. I couldn't have asked for a more
caring, brilliant, beautiful or talented daughter.
Through the years you just never stopped
amazing us. Though they tell you it will go by fast,
what no one could have told me in words was
what a beautiful experience watching you grow
into a young lady would be. They've truly been
the best years of my life.

Love, Madre

Jessica,
It seems like just yesterday I was
teaching you how to ride a bike. Now today
you are ready to graduate from high school.
Everything in between seems to be a blur.
I watched you grow up from that little girl on
that bike to the beautiful young lady that
you have become. If someone would have
told me all those years ago that time would
go by so fast I would have laughed, but it is
true - time goes fast. I only hope the best for
you in the future and always know that I
have always been there for you and you will
always be my little princess.

To our Beautiful Daughter,
 You are our treasure, one of our greatest accomplishments. You're our pride & joy. The day you were born was one of the best days of our lives. Congratulations on graduating from High School! We are very proud of the woman you are becoming. Sorry for making you move three times during your high school years, It has made you a better person. Watching you play sports was something that we will cherish forever. Strive to do your best. Remember 110% always.
 You are now faced with an infinite number of choices, as you look forward to going to college. The path will be very difficult as you move on with the next stage of your life. All journeys can be great ones. It is you who'll ultimately determine how interesting, fulfilling and rewarding the journey is.
 We encourage you to make good choices, seek GOD, and keep him in your life. He will always be there for you. He knows your future. We'll be praying for you always. Don't ever forget wherever we live you will always have a place to come home too. We love you very much!

Toree' Unique King

Dear Toree,
It has been 14 years since I met the love of my life and her little angel. We have had a long journey since way back then. We have been to Fort Hood, Fort Rucker, and Fort Campbell, not to mention my visits to Korea, Iraq, and Afghanistan. I have watched you grow into a beautiful young lady. It is hard for me to put into words how I feel about you and your next journey. This journey will be yours. Over the years I have talked to you about life. Each time it was from the bottom of my heart! All of these times and all of the experiences we have had together as an Army family are more than special to me. Because of this I know you are ready to start your own journey. I just want you to know that I will always be here for you. When your new journey becomes difficult or when you just want to hear a familiar voice. I will be busy guiding my other two angels in the same direction as you are headed, but I want you never to forget you were the first! I have been honored to be a part of your life, Toree. I am proud of you, and I pray every day for your success in all you set out to accomplish. Parents want their children to do the things they didn't or couldn't. Of course I feel that way, but more importantly, I want you to fulfill your goals and dreams. To say I have been a part of your success would be the ultimate joy for me! I love you Toree. You are a beautiful young lady with a bright future. I am excited for and so proud of you. You have always loved and respected me as you would your father. Know that I love and care for you as my daughter..... LOVE, Taracus A. Jones

Alexandrea,
We can not believe how fast time flies!!! You have grown up to be the most beautiful lady! We know you will go far and can do anything you set your mind to! We are happy to call you our daughter. We have taught you everything we know and what we have learned from our parents. We also added a few extra things we thought you needed, that our parents didn't tell us! Ralph and I also thank you for teaching us how to be parents because we sure have learned a lot from you! We are so excited that you will be starting a new journey in your life!
Amber is excited to get your room!! LOL

Britny Rhodes

Britny, from the beginning of your life things most people consider everyday tasks have been more difficult for you. But you have always overcome whatever challenges were put in front of you with the most determination. Someone would say you couldn't, and you showed them that you could and do it with a smile on your face. When the doctors told us you would never walk we told them you are a fighter, but even we didn't know how strong you were. But now, as we prepare to watch you WALK across the stage to receive your high school diploma, please never forget how strong you are and the great things you are capable of accomplishing. Life is not easy and you will have more obstacles to overcome but we know you will succeed in what you set your mind to. You have accomplished a great task that no one in our family has accomplished in a long time. You have single handedly set a high standard for your little sister and future generations. You're going on to do great things with your life and your choosing a job to help people came to no surprise to us because you have such a giving heart. Your Dad and I look forward to witnessing a new chapter opening in your life and are very excited as to where your new journeys may take you. Most of all we would like to THANK YOU for all your hard work and dedication. WE LOVE you and are very PROUD of you!

Love, Mom and Dad

You were special on the day you were born and every day since then you have proven that no matter what comes your way you are able to take it on and that makes you even more special. I am very proud of you and hope that you continue to do your best at whatever you do. Remember you are beautiful inside and outside and we are lucky that God chose this family to bless with such a great gift as you. Love you always, Mema

Dear Britny:
 Congratulations! My thoughts of you as you step out on a new phase of life. You have been a Ray of Sunshine and Love to Others. As I try to look inside your mind I see: "They might not see me; but they might. I'll let my head be just insight; a smile as small as mine might be, precisely their necessity." When your own burden is heaviest, you always lighten a little, some others' burden. At the times when you cannot see God, there is still open to you this possibility, sacredly, to show God; for it is the love and kindness of human hearts through which the divine reality comes home to people, whether they name it or not. Let this thought, then, stay with you: There may be times when you cannot find help, but there is not time when you cannot give help. Brit, I know this is you; I will love you always.

To my first born child, Rheann Guiting Lumbang
 Writing this letter to you is one of my hardest projects of all, because you and your sisters already know how I feel and what I expect of you girls. Every day of our lives is about what I say and how I feel for you girls. This time it's about you alone. Rheann my love, the first time I held you in my arms I knew then that you would be a loud child and that would keep me busy every second of the day but has kept me warm and happy.

Now that you're all grown up, you still keep me up on my toes. LOL..You're bossy, stubborn, always nagging, very loud, silly, and a spoiled brat, but all that makes you my perfect daughter and underneath all that you also have much more in you and I know I'm not the only one who sees it. You have that smile that makes you melt, charming personality, give or take the beauty? LOL...and last but not the least, you have what not most of everyone have, is the respect, support, and unconditional, immeasurable love from your family and friends.

With lots of love, Papa and Mama

Dear Kuya,

2011 is here and I still can't convince myself that you are going to college. It's so hard for me to think that my first born will be leaving us and starting his college life without us around. I have so many WHAT IF's in my mind BUT I have faith in you. Your can-do attitude, the dedication to those you care about and your motivation will always be there in you through future hardships and successes. We are so blessed to have you as our first born child and it's hard for me to let go. You've been such a good son and a good role model to your siblings and friends. You strive to make us proud every time. You have brightened and enriched our lives in so many ways; You brought us endless joy and pride in your accomplishments which will be the start of your future opportunities. The trials, mistakes, and choices you've been through made you of what you are now. We learned from our mistakes and those mistakes will lead us to be a better and stronger people with good choices. As you begin your journey, continue to focus and strive for great things. Regardless of the path you choose, we will always be here to support you. Whenever you feel unsure of what you will do, ask God's guidance. Remember: the will of God will never take you to where the grace of God will not protect you. You will always be our first born baby. Continue to make us proud! We love you very much. Daddy and Mommy

Kuya John,

There were times where we have had our ups and downs but I knew we would always get through it. We are siblings and are always going to fight but every time we do, it makes our bond stronger. Be careful in college and don't get yourself in trouble. This is the end of us taking care of you, but this is going to be the beginning of a whole new responsibility. Take care of yourself, I love you! We always have good times together. What else to say... I LOVE YOU SO MUCH AND WE WILL ALWAYS MISS YOU!

Command and teach these things. Don't let anyone look down on you because
you are young, but set an example for the believers in speech, in conduct, in
love, in faith and in purity. Until I come, devote yourself to the public reading
of Scripture, to preaching and to teaching. Do not neglect your gift, which was
given you through prophecy when the body of elders laid their hands on you.
1 Timothy 4

But you, man of God, flee from all this, and pursue
righteousness, godliness, faith, love, endurance and
gentleness. Fight the good fight of the faith. Take hold of
the eternal life to which you were called when you made
your good confession in the presence of many
witnesses. In the sight of God, who gives life to
everything, and of Christ Jesus, who while testifying
before Pontius Pilate made the good confession, I
charge you to keep this command without spot or blame
until the appearing of our Lord Jesus Christ, which God
will bring about in his own time God, the blessed and
only Ruler, the King of kings and Lord of lords, who
alone is immortal and who lives in unapproachable light,
whom no one has seen or can see. To him be honor and
might forever. Amen. 1 Timothy 6

Kathryn (Our Baby Girl)

We are so proud of you now and always will be! From the time you were little and wouldn't let anyone do anything for you, we knew you were going to be an independent and strong woman one day... and now you are! Even through all of life's challenges, you've overcome every obstacle as easily as you used to clear a hurdle! You are a great student, leader, worker, friend, athlete, sister and most of all... daughter. Congratulations on your graduation and much success in your future!

All our love,

Dad, Mom, Sara, Jackson, Connor, David, Troy & Dixie

Kelli,
The years have gone by so quickly. We watched you grow from a precious little girl into a wonderful young lady. You have been a great sister to Christopher, always being supportive, and a wonderful daughter to us. We were truly blessed when God brought you into our lives. You have made us so proud in everything you have achieved. With your determination you can be successful on any path you choose.

We Love You!
Mom, Dad, and Christopher

It is amazing how quickly the years have flown by. For your first nine years, you were the baby girl, looking up to big brothers and hanging on Mom's "skirt tails." Then, when your little sister was born, you became the one to be looked up to. The example you are to those around you and the kindness you have shown to friends in need of support are the characteristics in you that are the most impressive. Congratulations B.G., we love you and are very proud of you.

What an absolute joy you are! We are fortunate to have you as a daughter and have enjoyed seeing you grow into the beautiful, intelligent, strong woman you are today. As we moved across the country, from one army assignment to another, you have seen three high schools in four years...and we know it has not been easy. Yet you not only embraced the challenge, you excelled, no matter what was thrown in your way. Words cannot express how proud we are of you and how much we love you. Always follow your dreams; give respect to others and demand it in return; always believe in yourself; and don't be afraid to take a chance. There is no limit to what you can achieve!

We will always be with you!
We love you,

We both have artistic & very opinionated personalities. We tend to argue daily, but the thing is, that's what makes us stronger. Instead of our personalities clashing and breaking our friendship, as it may to others, it has only brought us closer. You'll always be my favorite person to argue with.

I love you & will miss you.

Dylan,

As you get ready to start the next stage in your life, Dad and I wish you nothing but the best. We hope that you will take the knowledge of how many wonderful memories we have had watching you grow up and turn into such a wonderful young man. In the past 18 years we have had our good times and bad, the good far outweigh the bad. I know to you we didn't always make sense in our choices for you and the way we wanted things done. I hope once you are finished with your secondary education you will come to see that we did it all with love and for good reasons. Dylan, you have been a joy to watch progress through your youth and we're looking forward to creating new memories throughout your adult life. You are an awesome son and we couldn't be more proud of you. Best wishes!

We love you!
Mom and Dad

I just want to say good luck and miss you lots. Have a good time. I love you. You are the best big brother.
