

His is the dedication that gives selflessly

. . . His is the quick smile and "gruff" sense
of humor . . . His is the firm voice of authority, the sympathetic voice of understanding

. . . His is a special interest taken in each of
his students . . . His is work unnoticed which
merits special recognition and praise . . . His
are the many after school hours spent in the
laboratory . . . His is the will, the wisdom of
a truly dedicated teacher who quickly gets to
the heart of the matter, who realizes the value
of intellectual training both for himself (to become a better teacher) and for his students.

These are some of the reasons why we, the Annual Staff, with grateful appreciation, dedicate the FLIGHT '65 to LaVerne R. Guenther.

Mr. Guenther was born in the county of Buffalo, Wisconsin. He attended grammar and high school in Arcadia, Wisconsin. During his pre-college years, he played ball, fished and hunted--and developed a life-long interest in agriculture.

In 1940, Mr. Guenther began a career in higher education which has continued to 1965. From 1940-1941 he attended Luther College, Iowa. During the years 1942-1945 Mr. Guenther worked on his family farm. Though he wanted to join the service, his county quota was filled until 1945 when he was drafted. While in the U.S. Army he served as a pastry cook and administrative NCO. Back from the Army, Mr. Guenther attended River Falls State College, Wisconsin from 1947-1949 and the summers of 1959-1962. In 1954, 1956, and 1958 he completed extension courses from the University of Wisconsin and in 1952 he participated in a Workshop in Forestry. While at Goose Bay, Mr. Guenther has taken German and accounting from the University of Maryland--making the Dean's list with an "A" average.

Mr. Guenther's teaching career began at Melrose Area School, Melrose, Wisconsin (1949-1950) where he taught science, mathematics, FFA and found time to instruct adults in the evening. From 1950-1955 he taught vocational agriculture, shop, and science at Cadott High School, Wisconsin. From 1955-1962, besides being a licensed bus driver and basketball coach, Mr. Guenther taught at Baldwin-Woodville High School, Wisconsin. His subjects were agriculture and chemistry. Other duties included FFA Advisor, and Photo Club. Again Mr. Guenther found time to teach in the Adult Education Program.

From 1962-1965 Mr. "G." has taught physics, biology, general science, and chemistry at Goose Bay High School where he has won the respect and friendship of both students and colleagues.

Thus we see a sketch of fifteen years of dedication to education.

Congratulations to the class of '65. You have reached a memorable plateau in your educational program in this complex and rapidly changing world where unlimited opportunity awaits you. However, you must face and overcome personal, scientific, and political problems new to mankind. I have complete confidence in your capabilities to progress to higher educational fields gaining personal satisfaction, and preparing yourselves to properly handle our nation's problems.

Walter Y. Lucas
Colonel, USAF
Commander
Hq 4082d Strategic Wing

Congratulations to the Class of '65. I commend you for your efforts of the past year and I wish you the greatest success in your every future endeavor.

We are all justly proud of you. We believe you are the shining product of years of dedicated training by your parents and teachers. We also believe that you have thus far been well equipped with spiritual and mental standards which will serve you well in the challenges f the future. It is your responsibility to continue to strengthen these standards so that you can ultimately assume your proper place in society and be a credit to yourself, your family, your church, and your country.

We have the greatest faith in you and your future and wish you the Best of Luck.

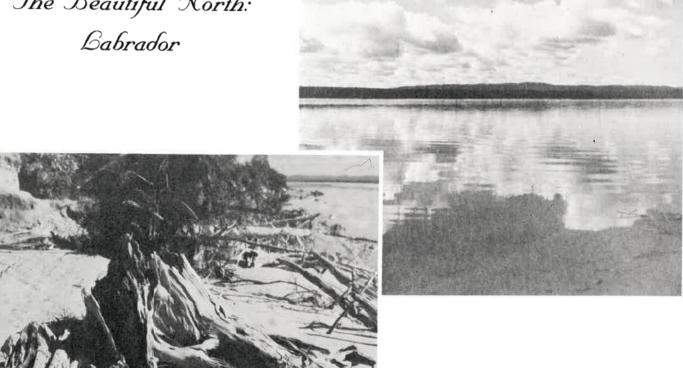

Edward A. Crouchley Colonel, USAF Commander 4082 Cmbt Spt Gp

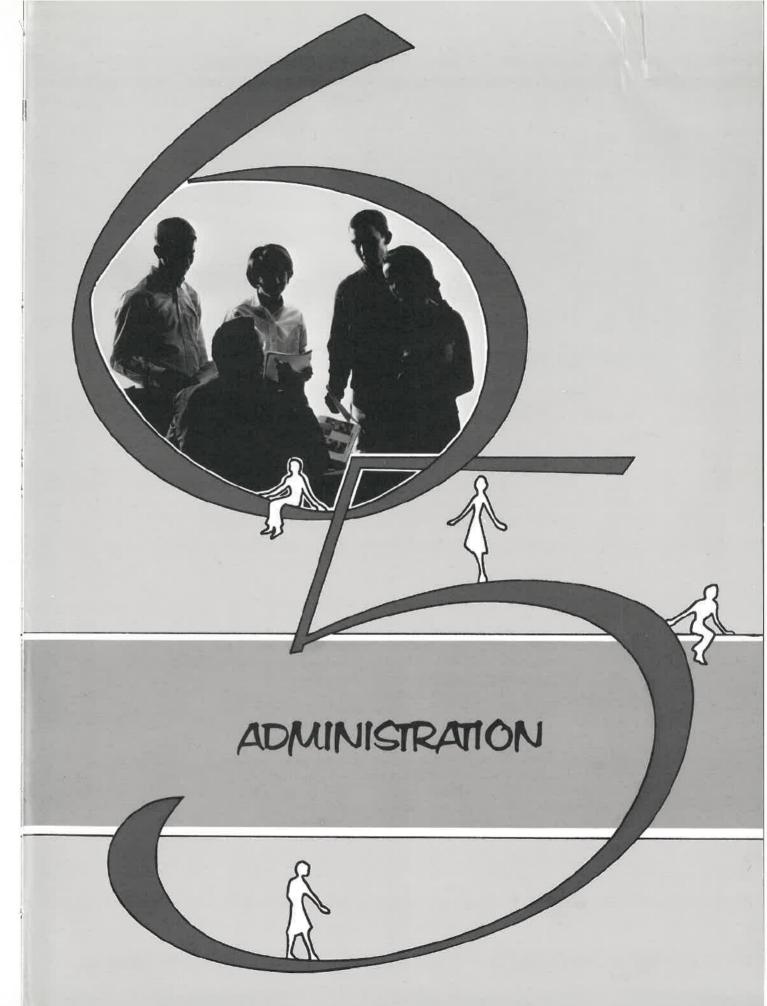

The Beautiful North:

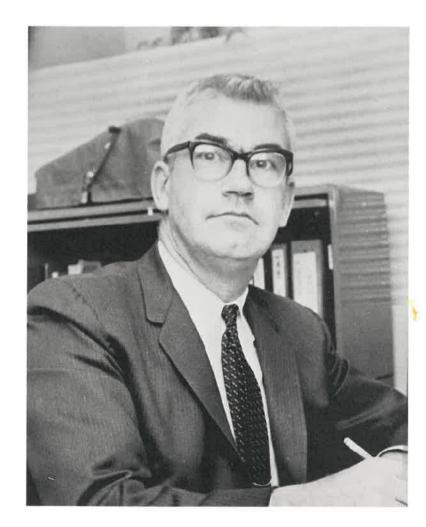

Students:

One more year has been added to the formal stage of what should be a never-ending process - your education. It is one more link in the chain of experiences that make you the boy or girl you are, and the man or woman you will be.

It is our hope that this link is steel, that you have not only made new friends, read more books, discovered "modern" mathematics and explored space; but that you have also learned to desire more knowledge, to recognize dignity in labor, and to understand that such things as character, honor, humility and truth are, as they have always been, the ultimate goal.

Duane Walker Superintendent

To the Class of 1965:

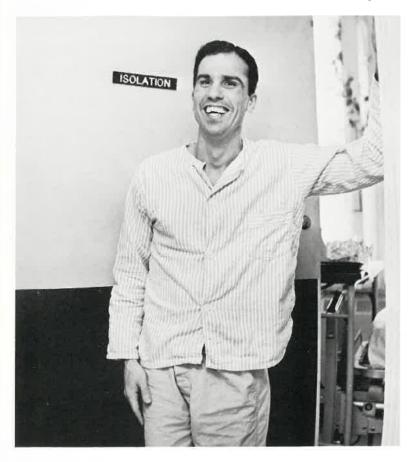

Congratulations upon your graduation! Your future is now more in your own hands than ever before. You will soon come to complete independence and whether or not you succeed in your endeavors will depend almost entirely upon your own actions and efforts.

I have enjoyed working with you and if I can be of further assistance to you in the future I will be happy to do whatever I can. May success and prosperity be yours in the years to come.

Charles B. Johnson Principal

Principal's Message

To Elementary School Students:

It is my sincere hope that this past school year at the Goose has been the most beneficial of your life.

We are all concerned with the facts you have learned in various subjects. As important, however, are the attitudes, appreciations, and friendships you have continued to develop. All these will mold you into the happiest and most useful citizen possible. This is the most worthwhile goal any person can attain.

May you find the 1964-65 yearbook a summary of noteworthy and pleasant experiences, fondly recalled for many years.

My best wishes are extended for continuing success in whatever you do.
