In 1951 Argonner School opened its doors for the first time. It welcomed students from Kindergarten through eighth grade. Although outside its looks have changed over the last 40 years, inside students still create memories. Happy anniversary, Argonner School!

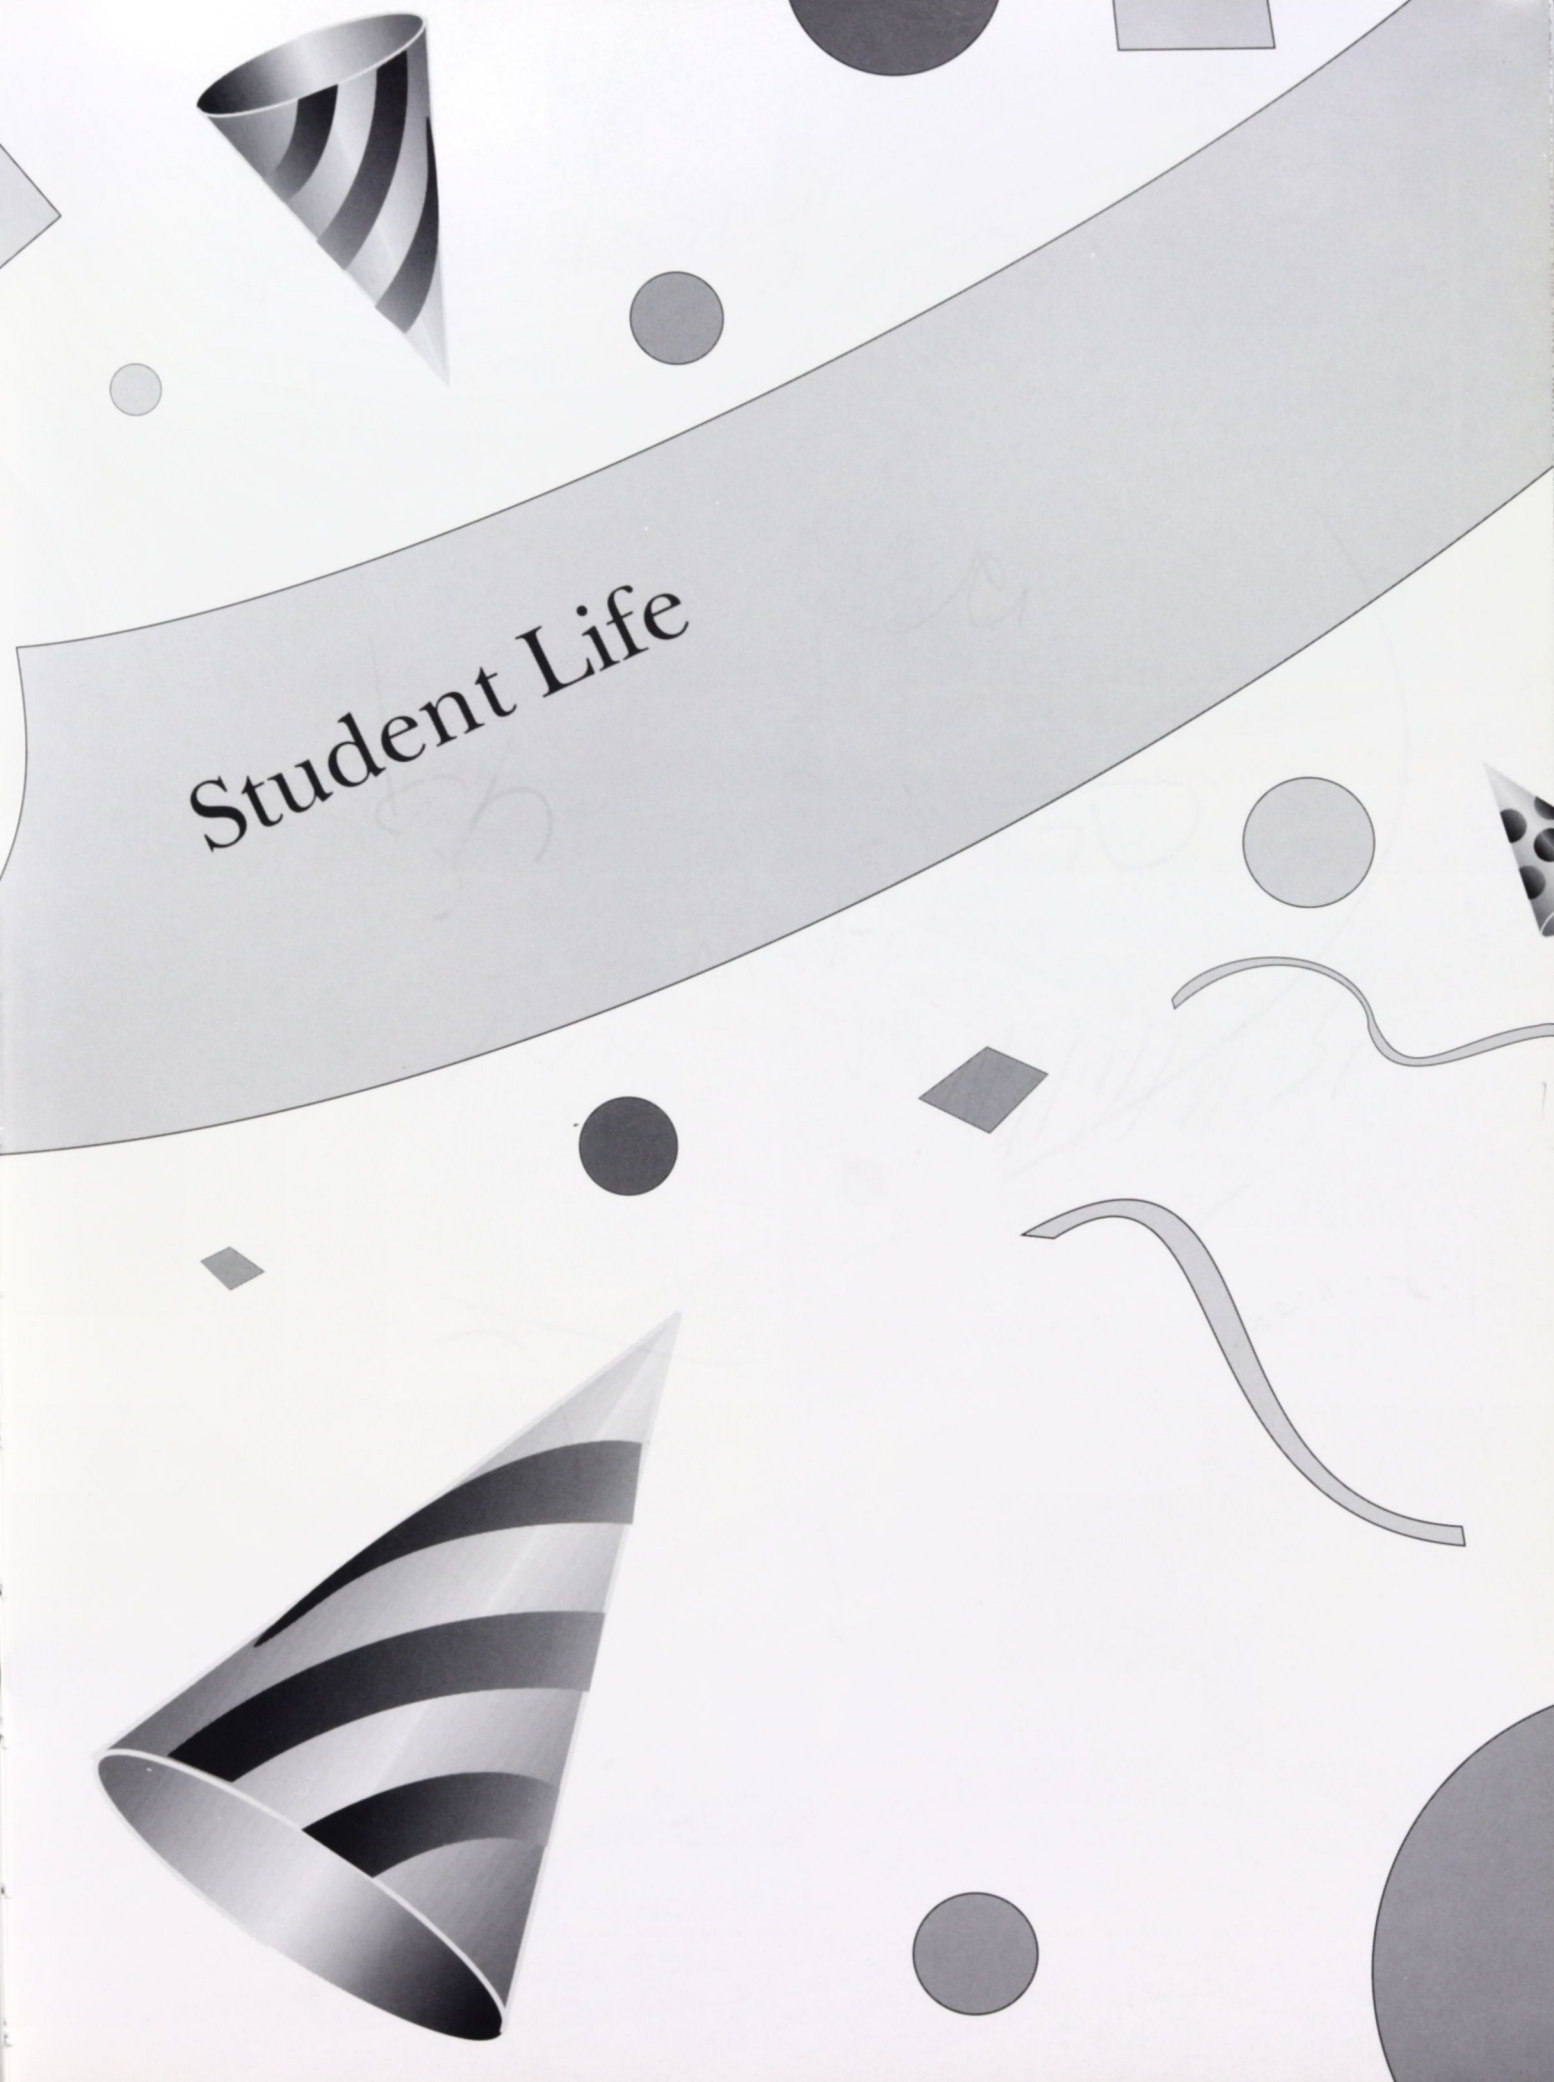

Argonner Elementary School

Hanau, Germany

1991 - 1992

Student Life

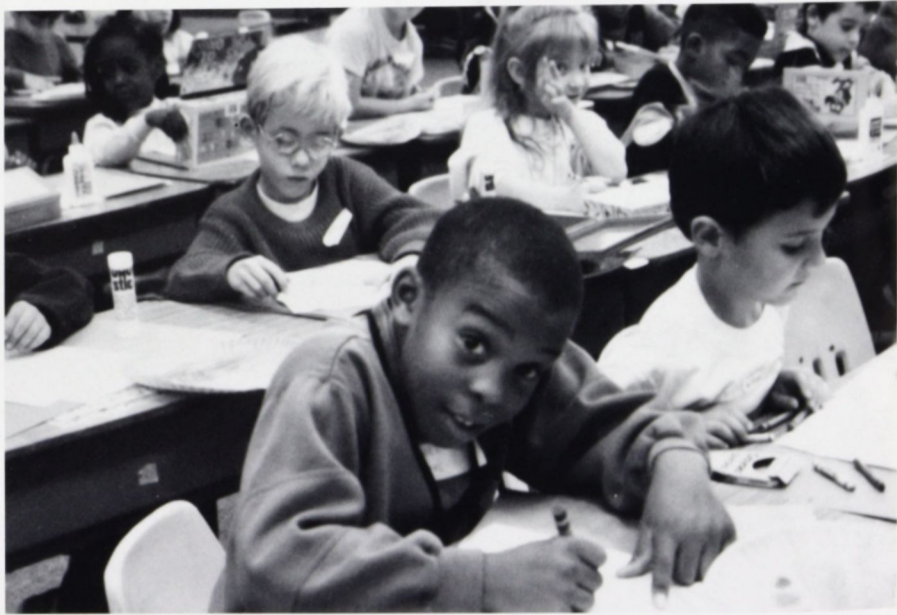

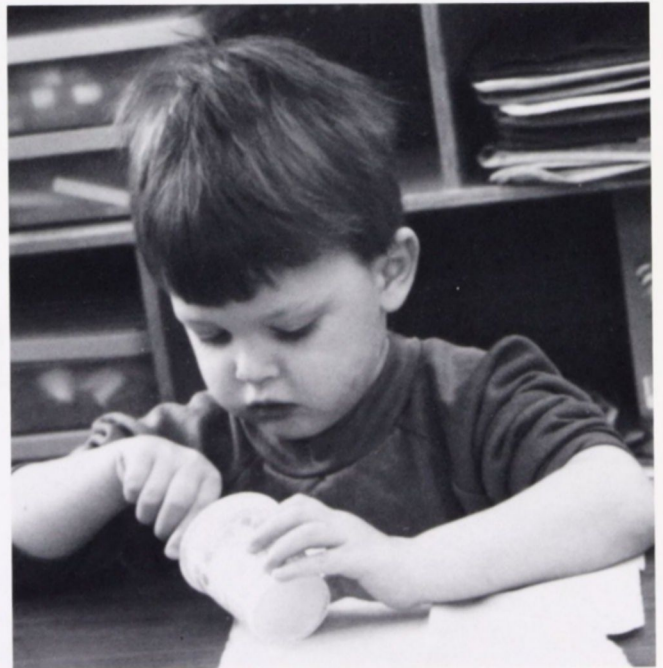

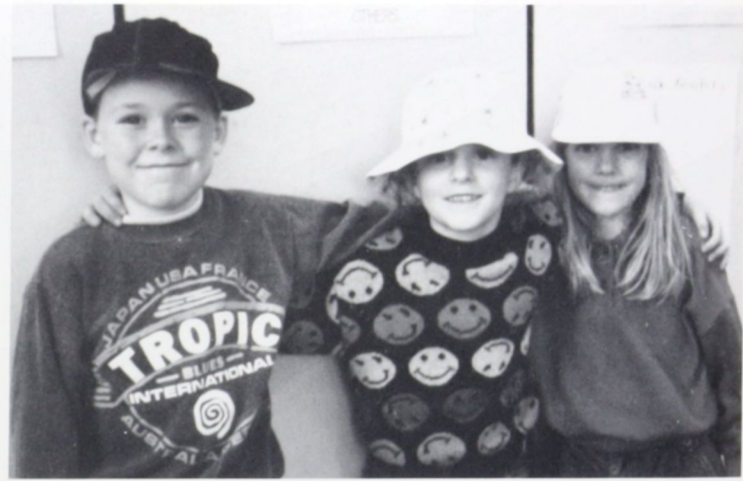

After the Bell

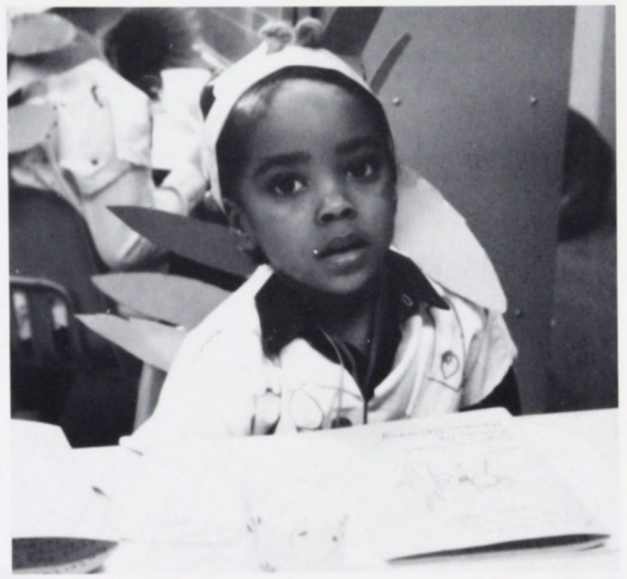

Although the first day of school was somewhat confusing, students quickly settled into their classes and got down to the business of learning. Many fun times took place in the classroom as well as on field trips around Germany. Students participated in many different activities during and after school. The variety of opportunities helped to make Argonner's fortieth year one of the best.

Dedication

Our yearbook is dedicated to Hilde Koerner who has devoted 38 years to help make Argonner School what it is today. She began her career at Argonner back in January 1954, and presently serves as Secretary of our school. Faculty members depend on her wealth of knowledge to answer many professional questions. We greatly appreciate her devotion, wisdom, and sense of humor.
