Education is important because it prepares boys and girls to become men and women. Today's children will fill all types of jobs and so must study and develop a variety of skills. Education provides chances to get involved in learning so that children will be ready for the jobs waiting for them.

COMPUTER CLUB

"Did you put that on the screen or did I?"

Working in partners is not so bad.

Getting it right the first time means working hard.

Ms. George prepares the printer for another job.

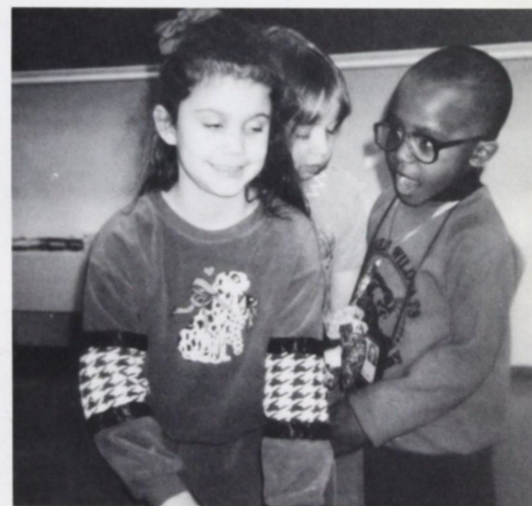

ARGONNER'S NEWSPAPER CLUB

It takes a lot of work to get paper to press.

Which page goes next?

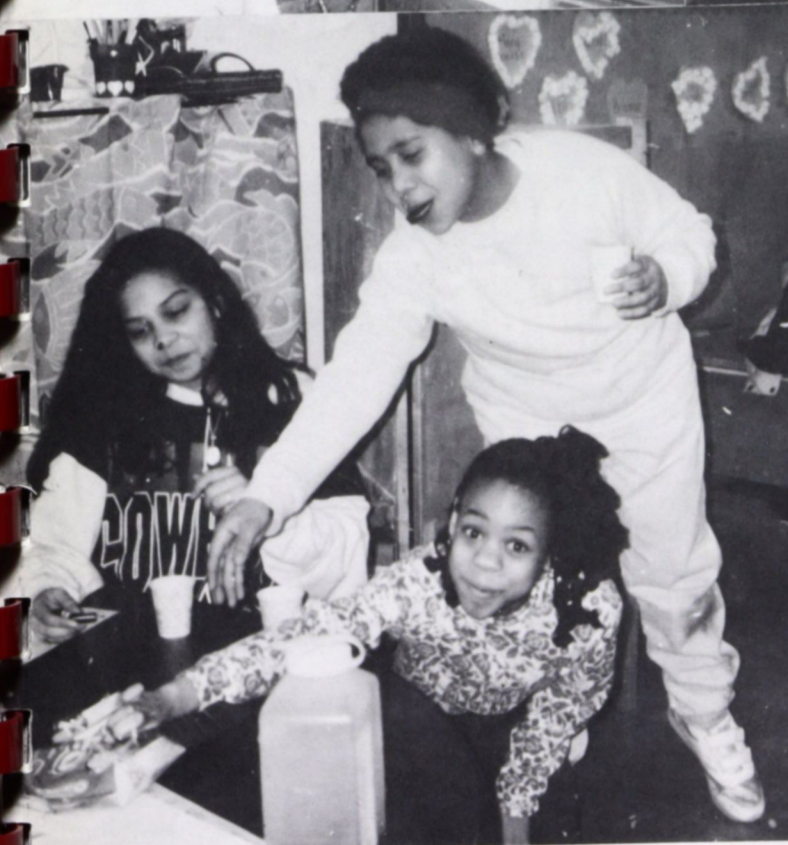

Is that how it works?

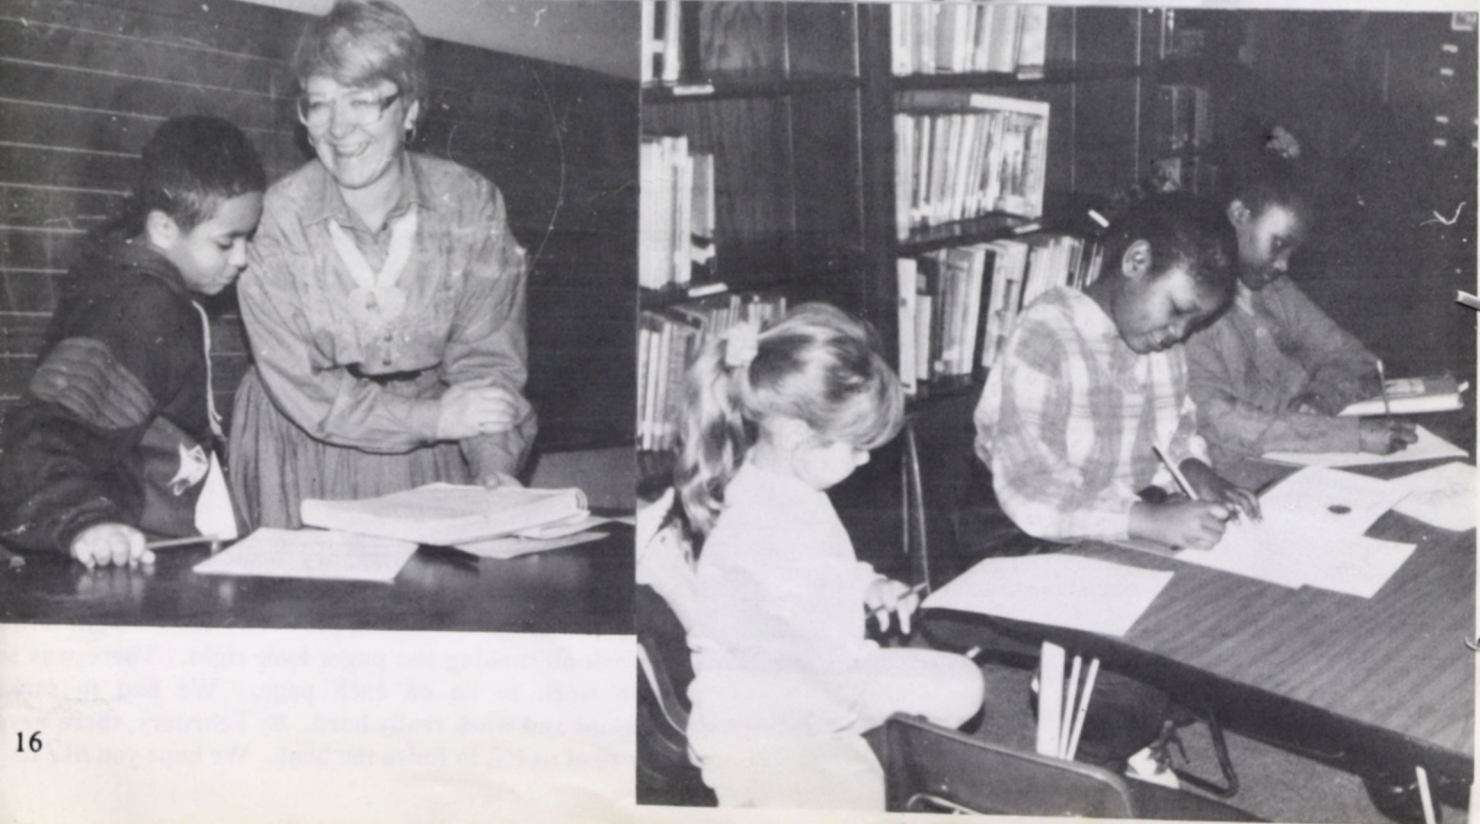

Ms. Sermon's parent volunteers help keep the kids working.

MEMORY BOOK PRODUCTION STAFF

When we started the memory book in September, 34 students wanted to help. Everybody was excited about going to classes and taking pictures. Then we got down to work on making the pages look right. There was so much work to do on each page. We had to make decisions and work really hard. By February, there were only 10 of us left to finish the book. We hope you like it!

Ms. McClelland's Mighty Learners

The class uses cooperative learning groups for improving math skills, reading skills and language skills. In their groups they work on the mission statement and persuasive writing. They write letters to their parents and school leaders. Through their writing, they try to change people's way of thinking. Most kids really like working with Ms. McClelland and each other.

WILDCATS' HALLOWEEN FUN

What does Halloween mean to you? To the kids of Argonner it means: cookies, jack-o'-lanterns, candy, costumes, parties, blowing kisses, parading through the halls, games, and eating sweets. This is how the Wildcats celebrated 31 October 1994!
