2000 YEARS! HAPPY MILLENNIUM!?

The Earth?
Put forth?
Into the millennium.

What will happen
with the year 2,000 tappin'
just around the corner?

Will life cease?
Or will it increase
to more than one trillion?

Will we be a source
of life appearing
somewhere else?
Think it through
yourself?

For me I have already.
I hope you will be ready
For what will come
On January One.

- Brian Mueller-

WHAT WILL THE NEXT 1000 YEARS BRING?

What will we see?
To be or not to be...?
Shakespeare did not live to see....
Will we all stay free?
...live among each other peacefully?
Will lifestyles change drastically?
Or could it be
...we won't be here to see

Will we have beautiful seasons, like this year?

Will everyone dress the same?

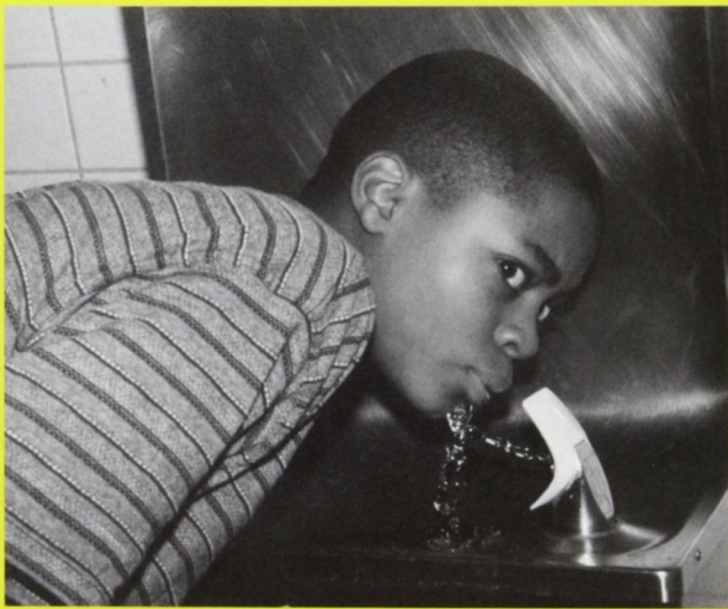

All life in the next 1,000 years will be boring because everything will be run by computers. We'll be surrounded by a master computer.

Corwin Gaines

We will lie back on the sofa, and robots and machines will do everything for us.

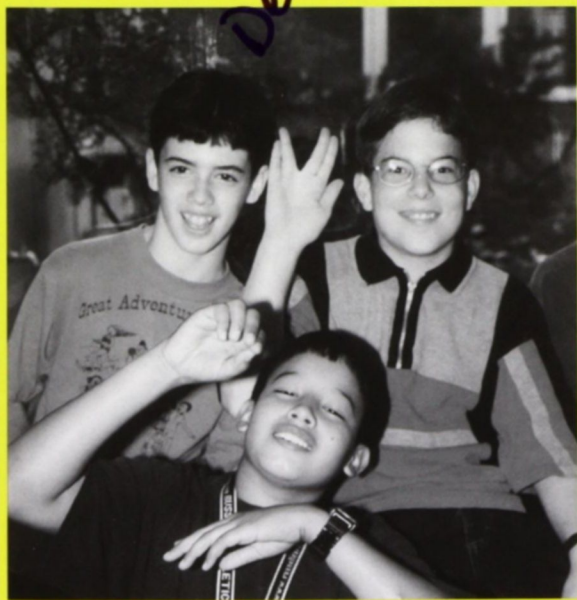

Adam Druce

The Future is Change

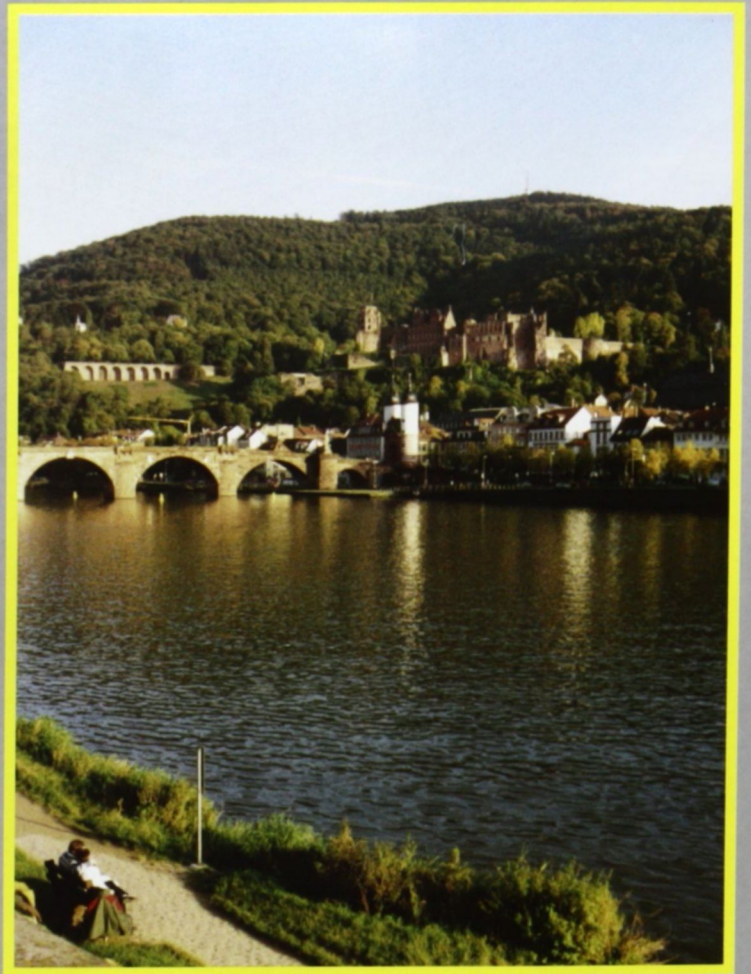

Things will change over the next 1,000 years. I expect to see amusing things, like living in space, flying cars, and happiness in a world no one has even dreamt of before. I see peace, no violence, no pain, just a terrific, awesome planet filled with great imagination and creativity. I see great futures, great life, and everything the best it could ever be.

Sarah Scott

Devon

Will our
castle still
be stand-
ing 1000
years from
now?

Will the
tower of
Pisa still
be leaning
1000 years
from now?

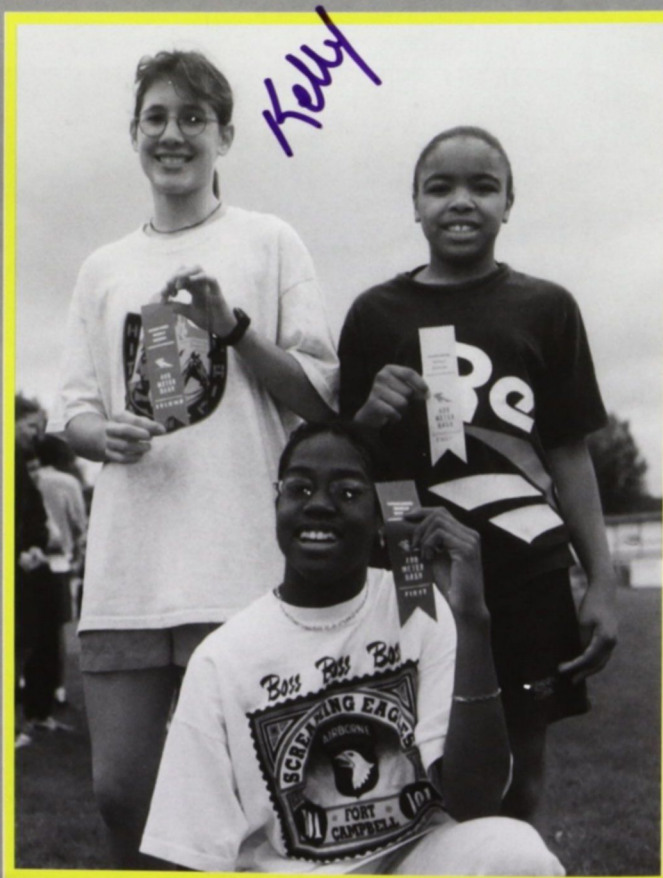

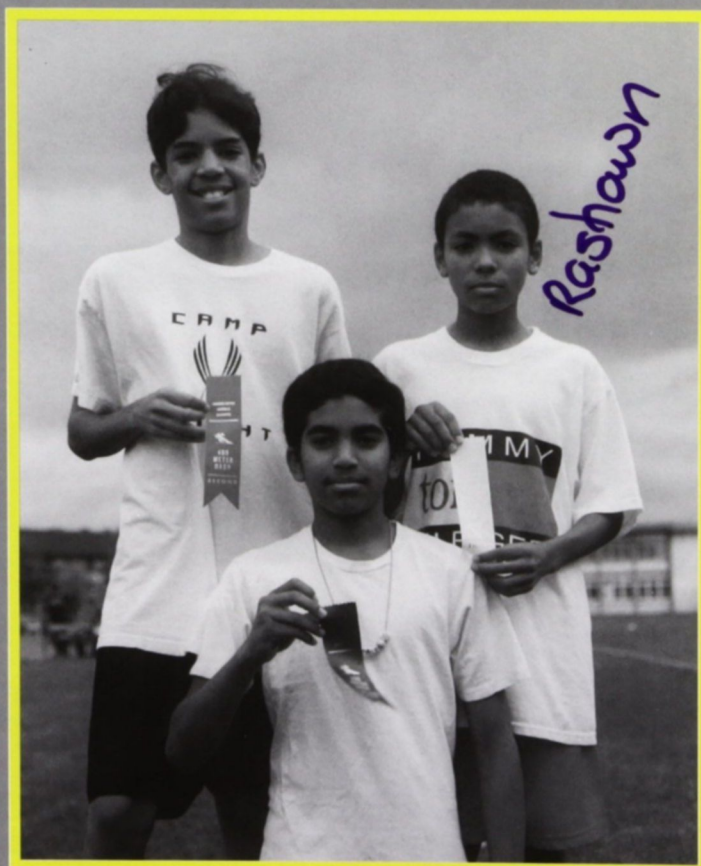

Will the “new” commissary
still be here?
(Will it ever open?)

What will we be driving
in the next century?

To me, the next 1,000 years means uncertainty. Will our economy collapse like the Romans', or will it go on forever? Will we travel to Pluto and beyond, or will space exploration end with a terrible tragedy? Questions, questions, will there ever be answers? Maybe in the next millennium.

Quantarius

Criminals will be forced to watch all the worst shows, such as Barney and Teletubbies, over and over.

Normal TV networks will show only all new episodes of Poke'Mon!

Matt Quinn

Sports will
probably
change
too.

How big will this tree be, 100 years from now?

Will these rocketeers be piloting the real thing, to the stars?

How will our schools change?

There will be teleporters, so that you can get in one, put where you want to go, and it will take you there. If you were in Oklahoma and you picked Europe, then you would go there and be there in 30 minutes!

Kandi Lutts

More pollution
Ice caps melting
Lights by solar power
Life will be high-tech.
Earth will be over-populated.
Neptune will support life.
New species will be found.
Insects will get bigger.
Underwater cities will be built.
Many changes.

As you can see,
to me,
the millennium is not all it's
cracked up to be.

ADVISORIES AND STAFF

Advisory was our chance to get to know our students better and to help them grow into the next generation of "next-door neighbors."

Combined with the new seminar period, advisory offered opportunities limited only by our imagination. Helping students to grow physically and emotionally was our goal. Mostly, we want "happy and healthy kids" to join us on our journey into the next millennium.

Thanks-Danke-Gracias-Merci

Thanks to all of the many unnamed individuals who have contributed directly or indirectly to the production of this yearbook. We especially thank the HMS PTSA and the Heidelberg Officers and Civilians Spouses Club, our most generous supporters.

Specifically, we thank PTSA Board members Nancy Stevenson, President; Dianna Jameson, 1st Vice-President; Joan Grey, 2nd Vice-President; Vickie Bartholf, 3rd Vice-President; Maggie Behrens and Cathy Jorgensen, Secretary; Janice Haase, Treasurer; Ann Allen, Welfare Chairperson; and Michelle Mulcahey, Parent Liaison.

We, the sponsors of the Panther Yearbook, would like to thank each and every individual and group who contributed to this book. Unfortunately, we do not have space to recognize everyone, and after all, it is our "kids'" book. We would also like to apologize in advance for omitting some people. Our final deadline is in February which means we miss a lot of newcomers. Space and time also limit the recognition we can give to various groups.

We give special thanks to our clients, all those kids who have made working at HMS a pleasure and a challenge over the years and into the new millennium.

Auf Wiedersehen,
Mari Anna Welch and Dave Disharoon, Sponsors
