Foreword

A year at Izmir High is a truly memorable experience, one that each of us will treasure. To attend school and finally to graduate is a large part of everyone's life. We who are here in Turkey have had a special and interesting opportunity.

The Sultana staff this year has coped with the dual challenge of recounting the events of the school year while giving adequate attention to the local scenes which surround us.

Representing our school on paper has been quite a task but we on the Sultana staff feel that the effort has been well spent.

Karen Van Vleet, Editor

Dedication

As each new student becomes familiar with the sights and sounds of Izmir High School, he inevitably notices a person dear and unforgettable in the hearts and minds of all who have been associated with her. Our first publication of the SULTANA has been dedicated to Miss Belle Gough, our devoted senior sponsor and teacher.

Principal's Message

FROM THE PRINCIPAL'S DESK:

1962-63 has seen many historical developments. Not least among these was the Kennedy-Khrushchev dispute over Cuba.

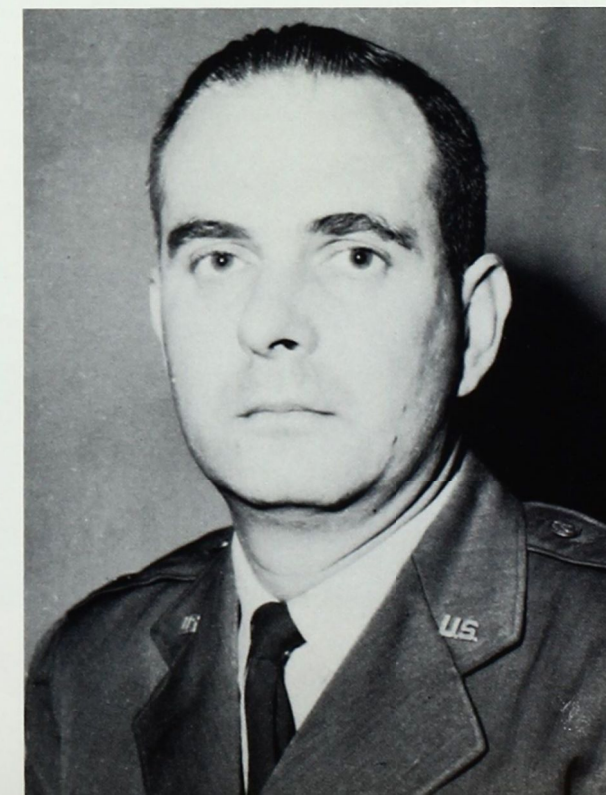

The world lost such great figures as Mrs. Eleanor Roosevelt and Robert Frost. In our school, developments were less momentous. To us, however, they were just as important. We have had the largest enrollment in the history of the Izmir complex of schools; soccer was offered to our boys--while they lost most of their games to the Turkish players--the good will that was developed will live after the defeats on the field. The Governor of Izmir and the Minister of Education paid us a visit, the first such visit by leading Turkish officials to the American school. Turkish was offered as a third language to many of our students. The Twist seemed to be still the most popular dance. Dramatics, the Junior Classical League, athletics, journalism, and Junior Red Cross were a few of the extra-curricular activities that complemented our academic work.

But most of all, we have had a good faculty and a good student body who will go into a world that needs new leaders. In this world each one will play an important part.

It is good that we have been in Turkey together.

I will add only one small bit of advice--live humbly with God while walking among human giants.

You say he's six feet four?!

Gee, I guess I forgot something or other.

Neat guys

Mustafa Kemal Atatürk was a "Prophet of Turkey." Born in 1881, he was named Mustafa-as common a name in the Near East as John is in the West. At the Military School of Salonika, his teacher of mathematics, a Captain Mustafa, dubbed him "Kemal," the Arabic word meaning "Perfection." When he ordered all Turks to adopt family names, the Grand National Assembly requested him to assume the name of "Ataturk" - first and foremost of his country.

This prophet created modern Turkey. He envisioned a Turkey, strong and proud, no longer the "sick man" of Europe. To him truths were revealed. They were truths learned in revolt against Allah. They came from the genius of his nation, which he saw humbled, and now wanted to raise from the ashes. He did not found a world-wide religion, as Mohammed did, but he introduced the creed of the West into Turkey. It was the creed of progress, the creed of future. He did not erect shrines in honor of the invisible ruler of the universe. His god was the Nation. He gave the life an entirely new set of values, new objects of adoration. He turned former sins into virtues and former virtues into sins. He is the New Turkey, and also the New East. His own country can never be the same because of him.

New Turkey did not collapse when he died on November 10, 1938; that is the greatest compliment that can be paid him. No country has changed more often, and no country has remained more the same. Kemal merely drew upon its potentialities.

While In Turkey Don't Miss These Ancient Sights! Hadrian's Arch

The ruins of Ephesus are located about two miles past Seljuk, a small town fifty miles south of Izmir. Founded on the banks of the river Kaystros, Ephesus was one of the most famous cities of Western Anatolia, a great trading center.

Pergamon: The Theatre of the Aesculapium

This theatre was attached to one of the six hospitals in the Old World. It is the only one on the Asiatic side of the Aegean. The others were located in Greece Proper.

Treatments given here, surprisingly resemble modern methods used by psychiatrists of today. St. Luke was one of the doctors who practiced here.

Pamukkale:

The Chalky Cascades of Hieropolis

Pamukkale, near Denizli is the famous historical sight of Hieropolis. Pictured are the breathtakingly beautiful deposits of the calcareous waters.
