# Administration

Dear KMS Students,

The end of another school year...and what a successful year it has been for everyone! Your hard work and desire to learn has taken you one giant step closer to high school, college, work, and life.

Everyone is different, but we all

share common experiences that lead to universal goals. Key among these is to do our best regardless of the circumstances and to make a difference in other's lives while trying to better our own.

I have watched you all closely and have shared with you happiness and sadness, sickness and health and have witnessed in you a willingness to keep going regardless of what is in front of you or behind. I have noticed a special talent unique to each of you and have tried to focus on that talent so you can understand that although you are a part of a group, a class, a school, your unique talent is what will guide your unique future.

The biggest observation I've made this year is your willingness to look beyond your personal needs to try and make a difference in the lives of others. This is the most important lesson you could have learned this year and will be the key to happiness for many years to come.

I am so proud of you all and can't wait until next year so we can learn new things together and apply them to the success of our lives.

The collage features numerous photographs of students in various roles and settings. At the top, a large group of students poses for a group photo. Below this, there are several smaller photos showing students in costumes, including Santa Claus, Mrs. Claus, and a woman in a white dress. Other photos show students performing on stage, with some holding signs, and others in a classroom setting. The background of the collage is a yellow and black pattern of theater tickets, with the words 'DRAMA CLUB' prominently displayed at the top in a large, stylized font.

# GIRLS CLUB

This collage features 25 photographs of the Girls Club members and their activities. The photos are arranged in a grid-like fashion, with some larger images and others smaller. The background is decorated with colorful balloons and streamers. The photos show the girls in various settings: posing for group photos, participating in social events, and engaged in individual or small group activities. The overall theme is a celebration of the club's members and their experiences.
