NTHS was introduced to KHS in the 2016-2017 school year. The goal is to create projects (currently Project Horizon) that would benefit the KMC. These projects have been changed from the original concept of many projects to focusing all efforts on one project.

Tech Club

Tech club does a variety of different projects to better K-Town. Tech Club worked on developing an app recently that would give you notifications for everything, much like Schoology. However, this project was sadly discontinued.

Project Horizon

Project Horizon is based on a satellite model called CubeSats, which are very small satellites, exactly one unit in size and are sent 30 km into the troposphere. At this altitude, the pressure is 1%kpa. This mimics the pressure of the surface of Mars. They can even use this to test the ozone layer and capture images or videos.

The Crêpes Story

The KHS French Club is famous for its iconic crepes, which they sell on Fridays during lunch, and during basketball games. Above (left to right) Kiera Kelly, Camden Silver, and Meghan

Sexson prepare the crepe batter during a lunch meeting. According to Meghan, "We try to put smiles on people's faces with these fun french treats".

The club's sponsor, Mr. Kyle, also teaches the French language classes at KHS. He is pictured to the left, helping with the crepe stand.

Because the club has made crepes since the start of the year, they are experienced at it and can whip up perfect crepes in seconds. However, according to Peyton Silver, "They're better undercooked."

French Club

Every Thursday in A2, the KHS French Club can be found discussing future events and learning more about French culture. They speak in French during these meetings and practice different French customs. The Fish and Snail logos are iconic symbols of the French Club. To the right, the fish logo represents how the French Club is working to *integrate* elements of French culture into the Kaiserslautern community. Mr. Kyle's beloved snail has a K in the middle, standing for Kaiserslautern. This year, French Club members Alicia Mackson, Alexander Brunk, and Meghan Sexson designed brand-new sweatshirts for the club.

Thespian membership is granted for meritorious work in theater arts which meets the society's guidelines. Students become members by earning points for their work. To be inducted into the society, students must participate in at least two school productions and in other theater arts activities for a total of 100 hours of work.

STELLAR EXPLORERS

What is it?

Stellar Explorers is a national high school challenge that focuses on developing a unique space system design including a space craft, its operating system, and payload cost.

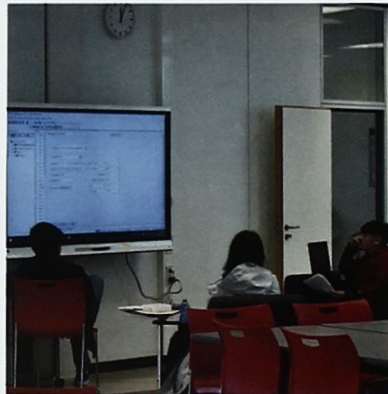

Jermaine Maisonet, 12

"Stellar Explorers is a great way to learn about space with hands on experiences"

Derek Dubon, 12

"I've been in Stellar Explorers for the past 4 years and I love the team competition"

How does a competition work?

The competition takes place at the team's home location. Online "team" quizzes are given during the competition. Teams are given a scenario describing the system and its constraints and they must provide a solution to a typical space design problem.

According to Ms. Wynn, the team did well this year. Outgoing seniors, Derek Dubon and Juan Toledo, led the team while training new recruits how to solve real-world scenarios using the STK software.

Ms. Wynn takes a fun selfie including a few participants: Jermaine Maisonet, 12, Juan Toledo, 12, Chance Minor, 10 and Derek Dubon, 12.

Creative Connections

Created by: Karen A.

Creative Connections is a visual and performing arts symposium event held yearly. Advanced artists from many DODEA schools, such as Bahrain, Rota, SHAPE, come together in Oberwesel, Germany to appear on behalf of their school. It is indeed challenging, but that doesn't stop Kaiserslautern High School from being well represented with a total of 15 artists.

Within one week, chosen artists have to learn advanced work and create a performance or a visual creation to display at the Art Exhibition and Stage Show. Creative Connections Visual and Performing Arts Symposium 2019 theme was Avant Garde. KHS marked a great show this year!

The intermediate band put on an intriguing performance in which, rather than playing with their music in from of them, they placed it far from their vision. In the act of doing so, they were able to showcase that their skills have vastly improved and that they are able to play without assistance.

From the band director

"We just had our concert. It was just fun, the students were just amazing. I'm so proud to be here and working with our students. I hope that you, the people that attended the concert enjoyed something, and it was just a lot of fun. So thank you for your support."

The band played an amazing concert Thursday November 14, stunning a full crowd filled to the brim with parents and students alike. The students played with great skill and, through their hard work, were able to entertain their audience and teach them the true meaning of music.

Only four years ago, the KHS orchestra consisted of four friends in a seminar group. Today, it has expanded to almost 30 students, including a beginning and advanced class. Through the program, the students have been able to share their passion for music and develop their skills as musicians. Mr. Helston agrees, "I'm so proud of these awesome kids, they are a joy to work with." The fall concert included a musical selection by the *Take Note Quintet*, a student-created and student-led group of musicians who share a love of music and a desire to share it with the community.

"I love this program and what we've been able to accomplish in such a short amount of time. I'm so glad I could be a part of it"

"Basketball turned out to be fun and amazing, I enjoyed doing a team sport. I also look forward to playing next year. Although, the chemistry on the team was a little rough, the team ended up getting closer and now we're all good friends. Basketball was a little difficult to relearn since I haven't played in five years but my parents and PE coach encouraged me to play basketball and it made me miss doing a team sport."

Eve Njenga, 11

"My first experience was tough at first, but I soon began to really love the team and wanted to give all my effort to make the team better. I'm looking forward to playing in the next year. The chemistry on the team was rough but we learned to get along and it showed well on the court. I was determined and excited to learn the basics of basketball so it wasn't difficult. My mother and my best friend, Azora, convinced me to do it to keep in shape and improve."

How COVID-19 changed our lives

Nov. 2019

A novel coronavirus was first identified in China's Hubei province. The disease it causes attacks the lungs and causes rapid onset of pneumonia in already immunocompromised patients.

The first American case was diagnosed in Washington state. The illness rapidly spread across the globe, endangering mostly older adults and those with underlying and chronic health conditions, including lung disease, heart disease and diabetes.

The World Health Organization (WHO) names the virus SARS-CoV-2 (Severe Acute Respiratory Syndrome Coronavirus 2) and the disease it causes COVID-19 (Coronavirus Disease 2019). Worldwide death toll is 1,107.

"The WHO is wrong. COVID-19 is not a pandemic. I know because I took one history class in college so therefore I'm educated" -Mrs. Standiford

First US COVID-19 death

1 new case in Mexico

3 new cases in United States

5 new cases in Canada

February

March

Canada had 118 cases. United States had 1,267 cases. Italy had more than 12,000 cases.

The WHO declared SARS-CoV-2 a pandemic, which meant the 118,000 cases and more than 4,000 deaths worldwide required more specific and targeted attention and resources.

To slow the virus's spread, the US suspended European travel for 30 days.

12 Canadian Prime Minister Justin Trudeau and wife Sophie Grégoire Trudeau self-isolated after she experienced symptoms. He was cleared, but she had the virus.

fourteen

- The US reported 2,816 confirmed cases and 58 deaths.
- Fifteen states activated National Guard troops to assist with virus-related concerns, including regulating the flow of medical supplies, food and shelter.
- Canadian provinces canceled schools as the numbers of infected rose.

Friday

16 US states closed schools to reduce spread of the virus:

Alabama	West Virginia	New Mexico
Wisconsin	Illinois	Oregon
Maryland	Pennsylvania	Virginia
Ohio	Louisiana	Utah
Kentucky	Rhode Island	
Washington	Michigan	

the 10th

US declared a national state of emergency.

- Canada reported 341 cases.
- More cases were reported outside mainland China than inside it for the first time in the history of the disease.
- The largest school district in the US, NYC Public Schools, closed.
- The CDC suggested a community ban on all gatherings of more than 50 people for at least eight weeks.

the ides (15)

Provinces, states and cities continued to implement strict measures to slow the spread of the virus. The movement, called "flatten the curve" prompted entertainment, bar and restaurant closures across the US and Canada. By Monday, all NBA, PGA, MLB, MLS, NASCAR, NHL, and NCAA sporting events were either canceled or put on hold for two or more weeks. Some especially hard hit areas, including seven counties in California, put a three-week-long "Shelter in Place" home restriction on citizens, requiring they leave their homes only for essential needs. Workers in essential services (emergency and medical, banks, grocery, pharmacy and food service) were exempted from the restriction, so they could work.

sixteen

17 St. Patrick's Day Celebrations were canceled (even in Ireland). Nonessential services (salons, movie theaters, shopping malls, etc.) were closed for 30+ days in many states. The Canadian-US border was closed to travel (but not trade) in a mutual agreement.

All information gathered Mar. 13-17 from CDC.gov, WHO.int, APnews.org, CNN.org, LATimes.com, CBC.ca

In the midst of a pandemic, the Centers for Disease Control sends a strong message:

**WASH
YOUR
HANDS**

and DISTANCE yourself.

KNOW HOW IT SPREADS

- There is currently no vaccine to prevent Coronavirus Disease 2019 (COVID-19).
- The best way to prevent illness is to avoid being exposed to this virus.
- The virus is thought to spread mainly from person-to-person.
 - Between people who are in close contact with one another (within about 6 feet).
 - Through respiratory droplets produced when an infected person coughs or sneezes. These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.

TAKE STEPS TO PROTECT YOURSELF

- Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.
- If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Put distance between yourself and other people if COVID-19 is spreading in your community. This is especially important for people who are at higher risk of getting very sick.

TAKE STEPS TO PROTECT OTHERS

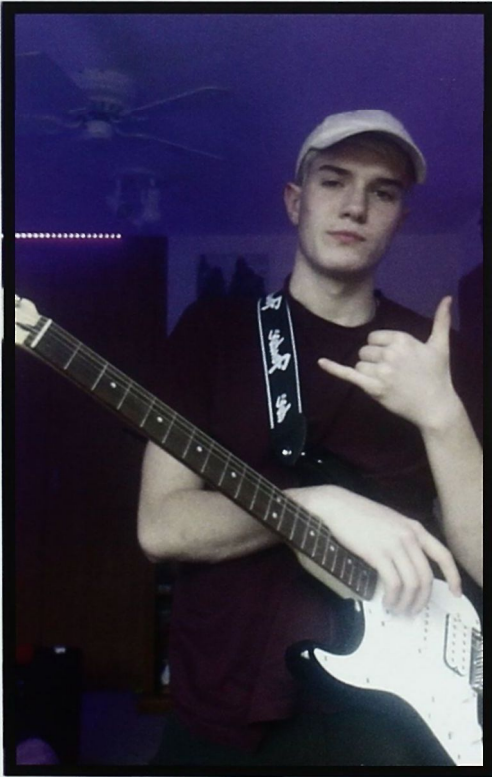

- Stay home if you are sick, except to get medical care. Learn what to do if you are sick.
- Cover coughs and sneezes.
- Cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow.
- Throw used tissues in the trash.
- Immediately wash your hands with soap and water for at least 20 seconds. If soap and water are not readily available, clean your hands with a hand sanitizer that contains at least 60% alcohol.
- If you are sick: You should wear a facemask when you are around other people (e.g., sharing a room or vehicle) and before you enter a healthcare provider's office. If you are not able to wear a facemask (for example, because it causes trouble breathing), then you should do your best to cover your coughs and sneezes, and people who are caring for you should wear a facemask if they enter your room. Learn what to do if you are sick.
- If you are NOT sick: You do not need to wear a facemask unless you are caring for someone who is sick (and they are not able to wear a facemask). Facemasks may be in short supply and they should be saved for caregivers.
- Clean AND disinfect frequently touched surfaces daily. This includes tables, doorknobs, light switches, countertops, handles, desks, phones, keyboards, toilets, faucets, and sinks.
- If surfaces are dirty, clean them: Use detergent or soap and water prior to disinfection.

*Because of the nature of a pandemic, the information is constantly changing, but as of our deadline on March 16, 2020, this was the most up to date information from the Center for Disease Control and Prevention via their website CDC.gov.

Quarantine Pastime

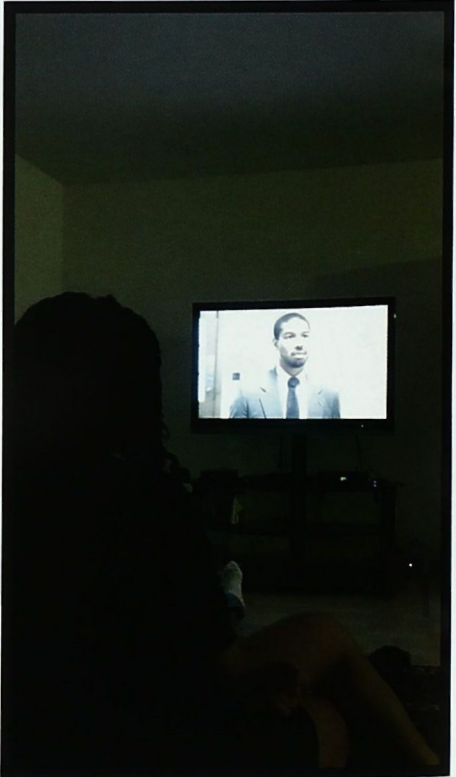

Surviving House Arrest

Due to COVID 19, teenage life has been brought to a halt. In order to keep ourselves and our loved ones safe, we have been put under house arrest. Being stuck home all day, every day can be excruciatingly boring, but we have found ways to pass the time in order to keep sane and entertained until we are able to see our friends again. Here are some ways we have been spending our time.

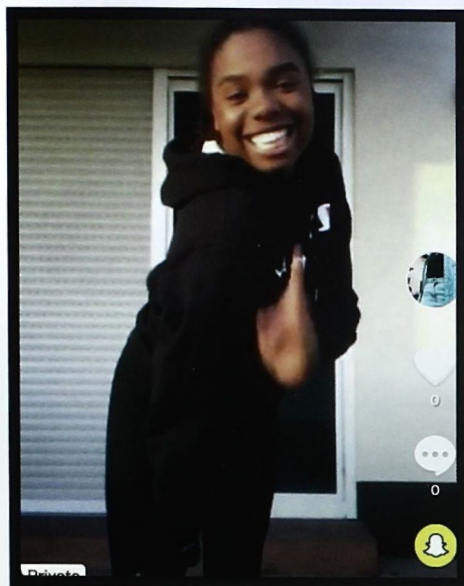

Ethan Williams, 12, is spending his time practicing his guitar skills with his bass guitar. He decided not to sit around and mope about the situation but to do something he loves and that is fun.

Teens have found ways to keep themselves entertained by playing games , binge watching movies or tv shows, making tik toks, and even learning new talents like playing an instrument.

Eve Njemga, 11, is spending her time watching movies. The movie she is currently watching is Just Mercy starring Michael B. Jordan as a lawyer defending an innocent man.

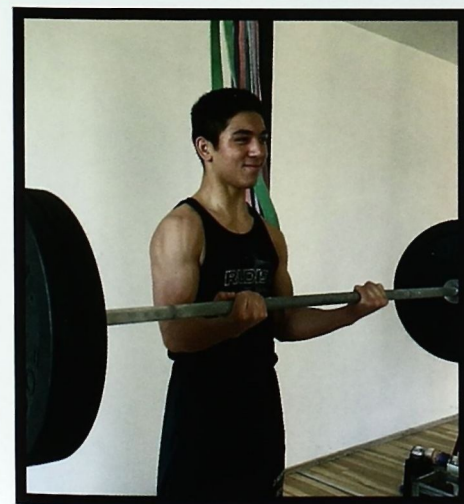

Sierra Goode, 12, along with many other students have been spending their time making relatable tik toks for other students to see. While doing tik toks they are also learning new dance moves to impress their friends with their rhythm and groove.

Xavien Folkes, 12, just like other students, he still has to go to work during these times. Xavien is considered an essential worker since he helps to feed single soldiers so they don't eat microwaved food everyday.

This is a beautiful art piece by **Ainsley Gibson, 12.** Ainsley Gibson has been painting and taking her inspiration from Bob Ross and Pinterest to work on her art skills. She is making the most of her time by working on her art to make even more wonderful pieces. Ainsley has also become an ordained minister.

Claire Cash, 11, is struggling with this crisis but she is making the most of her situation by reading, thinking about life, and going outside for long walks.

Daniel Aldana, 11, is spending his time working out during house arrest. He may not be able to do spring sports but he can still keep his athletic figure by staying home, lifting weights, and maintaining a healthy diet.

Elijah Siren, 9, and many other students struggle with the house arrest. He has siblings just like other students and they do their best to keep up with class. He is still looking on the bright side of things and is doing his best to work from home.

"HAND SANITIZER 24/7!"
-Karen Acosta, 12

"What's getting me through this quarantine is music, family, and food!!! Haha"

-Giannis Dones, 12

"A quarantine essential would have to be WiFi."
-Ezekiel Aruwah, 12

"Disney+ is definitely an essential."
-Mina Willingham, 11

"My pillow, blanket, and Netflix."
-Dior Tran, 10

Quarantine Essentials

A look at the must-haves while being on house arrest during the COVID-19 pandemic.

1. "My essentials: a bag of chips, water bottle, gum, my cell phone, charger, my dog, and a great playlist." -Jolie Pierre-Louis, 10

2. "A quarantine essential for me is probably social media so I don't go totally insane from lack of social contact." -Isabella Ross, 10

3. Some essentials of mine are my charger and my hydro flask."
-Angelina Popovic, 12

4. "My Xbox is my quarantine essential." -Mathias Perrin, 12

5. "Painting has been a great time killer and stress reliever for me. Following Bob Ross episodes is so much fun and getting to recreate his works is really cool." -Ainsley Gibson, 12

Changing Up the Daily Routine

Since starting virtual school, many aspects of the student's lives have been altered. Here's how some daily routines have been changed by the quarantine.

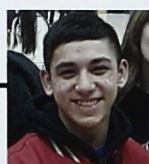

"I get the opportunity to shower during school."

-Jalen Tate, 12

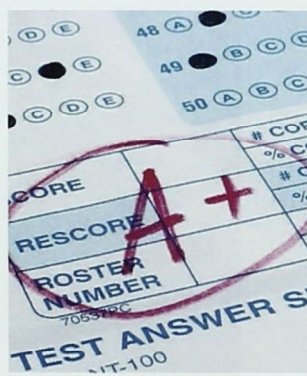

"I get to eat a better breakfast now because I have more time to cook."

-Daniel Aldana, 11

"Girl I go to sleep at 3PM and wake up at 2AM."

-Bryan Jones, 11

The biggest things that have changed for students at KTown seem to be that they get to sleep in, eat when they want, and are actually getting more work done! Most students responded saying they'll even login to Schoology early just to get their work done so that they can spend more time with family or go work out now that they have the chance to. Overall, the students at KHS have shown, once again, that they are adaptable and resilient even in the face of a pandemic. It's a year we'll never forget!

"Since we've started virtual school, I have been able to sleep in and catch up on a lot of work."

-Ainsley Gibson, 12

"My routine has changed a lot mainly because I wake up and I do school and then I hang out. I used to have soccer everyday, that was one of the biggest parts of my life but COVID put that on pause."

-Baylee Buys, 11

Sleeping in Class

Caught Red-Handed

Mathias Perrin, 12

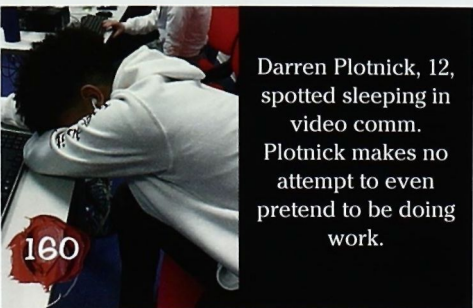

Mackenzie Stone, 12

Between attending 4 classes a day, having hours of homework, doing extracurricular activities, and finding time to have a social life, it can be quite difficult for a high school student to find the time to get an adequate amount of sleep. Whether it's in class, during lunch, or on the bus, students always find a way to sneak in a quick nap or two.

Left to Right: Zoe Shivers, 10 and Baylee Buys, 11,; Christopher Gray, 12, Kendall Bailey, 9.

Darren Plotnick, 12, spotted sleeping in video comm. Plotnick makes no attempt to even pretend to be doing work.

Ayanna Davison, 11, caught sleeping in video comm, not even trying to hide the fact that she is asleep.

Christopher Christensen, 12, was seen sleeping in a computer class. He takes a slightly less obvious approach, but was still easily spotted, as he wasn't even at a computer.

Pedro Ochoa, 9 brings his grey school bag filled with class textbooks.

Marianna Sanchez, 10 and Nono Moss, 11 not only have the essentials for a school day, they also have airpods to keep themselves entertained.

Must-Haves

Genorace Armstrong, 12, and Madison Baller, 12, came fully loaded with snacks for the day.

Lyric Brown, 12, brings her favorite pens for highlighting in class.

Jolie Pierre-Louis, 10, comes prepared to stay charged during the day by bringing her iPhone charger.

Snacks

Even though snacking has developed a "bad image", snacks can be an important part of your diet. They can provide energy in the middle of the day or when you exercise. A healthy snack between meals can also decrease your hunger for lunch or after school.

Pens

The number one reason to always carry a pen is to be able to take note of anything at a moment's notice.

Charger

A dead cellphone battery can ruin your day. But a battery that's fully charged will let you make calls, check emails, listen to music and watch Instagram videos to your heart's content. Grab a charger, and stay connected all day long.

Your time has come to walk across the stage. Although you like to think you're older than me, in my eyes (and in reality) you'll always be my little sister. And I know sometimes we don't get along much-well most of the time-but, I can say honestly from my heart that I can't wait to see you walk across the stage. I'm so proud to say that you're my sister! With Love, William

Gianna as the baby you have always gotten away with murder, but with graduation comes a whole new page and a whole world of hurt for you. Welcome to this new chapter of hell...it's a highway we can drive along together! Haha Love Ya Mike Congratulations Gigi! I am so ridiculously proud of you! You're smart, talented, and such a fun person. This is just the first of so many successes! Love, Ant
Congratulations on finally making it through the crazy four years of high school. I am beyond proud of who you've become and all the things you have accomplished throughout these last few years. Keep up the good work. I love you Amanda

G, When I think about the fact that your are graduating, it is a true wake up call for how much time has past. I don't think any of us will be able to see you as something other than the baby of the family. However, that simply isn't the case. It was always hard to tell because you have always acted so much older than your age. Graduating is going to be a life changing experience for you, but I can't imagine anyone more prepared to take on that challenge. Even if that path is not clear, I know that you will make the right decisions. Love Nick

Gianna - I thought long and hard about what words I wanted to write to you. We joked for so many years how our baby girl wasn't going to be 18 until the year 2020. It seems like it wasn't so long ago that you came into our lives and now here you are getting ready to graduate High School. It's funny because I actually found a message that I wrote when you graduated 8th grade. The feelings that I had on that day are the same feelings I have now, probably even stronger. Over the last several years we have watched your brothers and sister as they graduated from Ktown. And even though with each of their graduations I was emotional, I always knew I still had you in school. Our baby girl! It was going to be a long time before you were going to walk that stage. The time is here and I'm not sure that your Dad and I are ready, but I know you are! Daddy threw a huge curveball this summer, with his job offer to Georgia. You said if you had to go to high school in the states than that's what you would do. That's your personality- you would do anything for anyone. I knew in my heart of hearts that I could not let you leave your school, your friends and the memories that you made the last three years. We made a sacrifice together to stay in Germany so that you could finish your senior year-where you belong.

Gianna - you are powerful, strong, and capable of achieving so many amazing things. We want you to find happiness, purpose, adventure, and meaning. More importantly, have fun and laughter. Be fearless, be adventurous, and take risks. DO NOT be afraid to fail because time flies by so fast. Years from now you will be more disappointed in the things you didn't do than by the things you did. Continue to enjoy your youth. Recognize that you have your whole life ahead of you. Seriously, think about this moment. It won't last as long as you think.

You will have an incredible life to look back on one day with content, satisfaction, and most importantly, no regrets. Live a full life Gigi. Or as you would say "I'm just living my life." Today your identity as a high school kid is over. It marks the end of one chapter, but also the start of a new one. That next chapter is up to you. The pages are blank, the plot is yours to create. Dad and I are very excited to watch our beautiful, smart, sassy, stubborn and funny daughter blaze her own path. Know that your safety net remains strong, ready and ever-present if ever you need it. The future is yours Baby Girl! Enjoy it. Love Mom and Dad

Lyric Brown

Lyric,

Our unexpected gift from God and one that we are so grateful for. Even though you are the baby of the family, you have shown us that you are ready to take on the world. We have watched you grow and become a leader who knows how and when to make the right choice in difficult times. Now it is time for you to create your own foot prints as you embark upon your new journey. We pray that all of the life lessons you have been taught has prepared for you what may come your way. Always keep God first in all that you do.

Jeremiah 29:11 For I know the plans I have for you, "declares the Lord", plans to prosper you and not to harm you, plans to give you hope and a future.

Remember, keep Dancing like no one is watching, Loving like you've never been hurt. Singing like no one is listening, and Live like Heaven is here on Earth.

Kayla Dyer

Class of  2020

Kayla,

From the day you were born you were that stubborn little girl who did not take "no" for an answer. That girl who always wanted to do things on her own...from pushing my hand away when trying to teach you how to ride a bike, to wanting to pack your own suitcase at a young age. We soon realized that this was not you being stubborn, this was you being determined. Determined to learn things on your own, and not depend on us to show you. Determined to prove that you could do anything you set your mind to...Determined to be independent. Over the years we have seen this determination push you in ways that we thought would be too much for you. From keeping a 4.0 GPA while doing sports, volunteering and learning how to drive...to making sure your homework and chores were done. We truly put everything into raising you to be an independent, strong, ambitious little girl, and you have surpassed our expectations at every turn. Mommy and Daddy are so proud of you and all of your accomplishments. You were born into the military life and you have lived in many areas of the world, but never forget that your home is with us. No matter what struggles the future presents to you, we know that you will overcome them with that determined spirit and surpass all the dreams that we had for you. Reach for the stars baby girl...we love you more than you will ever know. Congratulations!!

Love you,

First, Thanks to God. It's a pleasure to see our princess daughter completing her graduation! A bright future is waiting ahead for you. Wishing you a very successful journey in life. Right from when you were a little kid and till today, you have only given us reasons to hold our heads up in pride. We are so lucky to have you in our life. Remember to go after what you want and to stay humble along the way. At times we wish you wouldn't have grown up so fast, but then we figured that would keep us from seeing you turn into the beautiful young lady that you are today. To the best daughter a mom could hope for! I still can't believe you're graduating. I guess that makes me pretty darn old! I love you so much and want only the best for you. Hugs and kisses! To my daughter, who is my pride and joy! I'm so proud to be your Dad. You've matured so much and it's been amazing to watch. Sweet girl, you are capable of greatness! For our Son,

The celebration of your graduation marks the successful culmination of a long series of efforts, ups and downs, failures and victories that brought you to this moment. As your parents, we've witnessed a little boy grow into the wonderful, talented, smart and gracious young man that you are today. We've provided guidance and unconditional love to steer you in the right direction, but it has been your attitude and efforts that has gotten you here. As we celebrate the end of one phase of your life, we are excited to see the many other things you will accomplish in the years to come, know that we are very proud of you and will continue to support you. Always remain focused, humble and grateful for what you've had and for what you want, and always, always, always do your best!!

Seems like yesterday that many of you were sitting in my 8th grade class. Look at you now....graduating seniors! I am so proud of you all! I wish you the best of luck in your future endeavors. Love, Ms. Allen
