

# Lajes Elementary School Yearbook

2009-2010

Brigitte Kasten

# Principal's Message

Being a part of the Lajes Elementary/High School family has been a truly enriching experience. Everyday, I come to school and see students and teachers who are happy to be here and who are proud to be members of such an excellent school family.

As an administrator, I have been blessed with a good working environment, good parent and community support, and good staff who are concerned about the job they do. Being a teacher is a different kind of life. Bankers and industrialists may face a financial crisis or the failure of a business deal. Teachers though, face a far more important challenge. Their job is to influence a person's whole future. We try to give the students here opportunities to learn and to excel in every part of their lives. It is an awesome task and in partnership with our parents and base, we hope to leave a rich legacy to the pupils we see pass through the doors, of the Lajes Elementary/High School.

I cannot imagine where else I would have chosen to be these past years. The goals of the school are well executed and the results are obvious as we see how much the students enjoy coming to school and how much they accomplish when they get here.

It has been my pleasure to serve you and to serve with each of you. I leave with you my best wishes for lives of success and happiness.

Ms. Waller
