To the Class of 2000

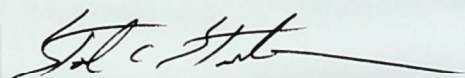

Congratulations to the Livorno High School Class of 2000, the first graduating class of this new millennium. I cannot think of a better way to start a new century than graduating from High School and preparing oneself for bigger and better opportunities.

The 21st Century will offer you many challenges. Technology, the economy, and the information highway all bring about challenges that will be yours to solve. I am confident that your education and your parents have fully prepared you to meet any and all challenges that come your way.

I envy each and every one of you. Over the next 10 years, we will witness the largest leap in technology since the industrial revolution. We will go to bed at night, and wakeup to a different and more exciting day. You students will be on the cutting edge; you will be in positions to make major and ever lasting changes to our world. Your challenges will be many, and they will be significant.

As you face these challenges of the future, I ask that you face them head-on. Challenges build character, and character is what provides you with self-worth. Never be afraid to try something new, never be afraid of stepping up to the plate and volunteering to take on new and exciting responsibilities. You will feel better about yourself, your confidence will grow, and your life will continue to flourish each and every day.

Again, congratulations to each and everyone of you. I hope that in the future you look back on Camp Darby and the Livorno High School with the fondest of memories. Best wishes in the future and, as always, stay in touch with your families and your friends.
