LUDWIGSBURG MIDDLE SCHOOL
STUTTART, GERMANY

1983- 1984

A MESSAGE FROM THE PRINCIPAL

I would like to take this opportunity to congratulate all concerned with making this-our initial yearbook-a reality. I extend a special thanks to the sponsor and yearbook staff for the many hours of hard work that they have put into making this yearbook a product of which we can be proud.

We at the Ludwigsburg Middle School are constantly looking anew at our curriculum to see if it is adequately preparing our children for the future. We thank parents for their cooperation and input as we continue to examine and concentrate on such areas as computer education, host nation activities, global studies, language arts, math, science and the exploratory courses. It is a well known fact that one of the best ways to improve education and the achievement of children and youth is for parents to become involved with their local school.

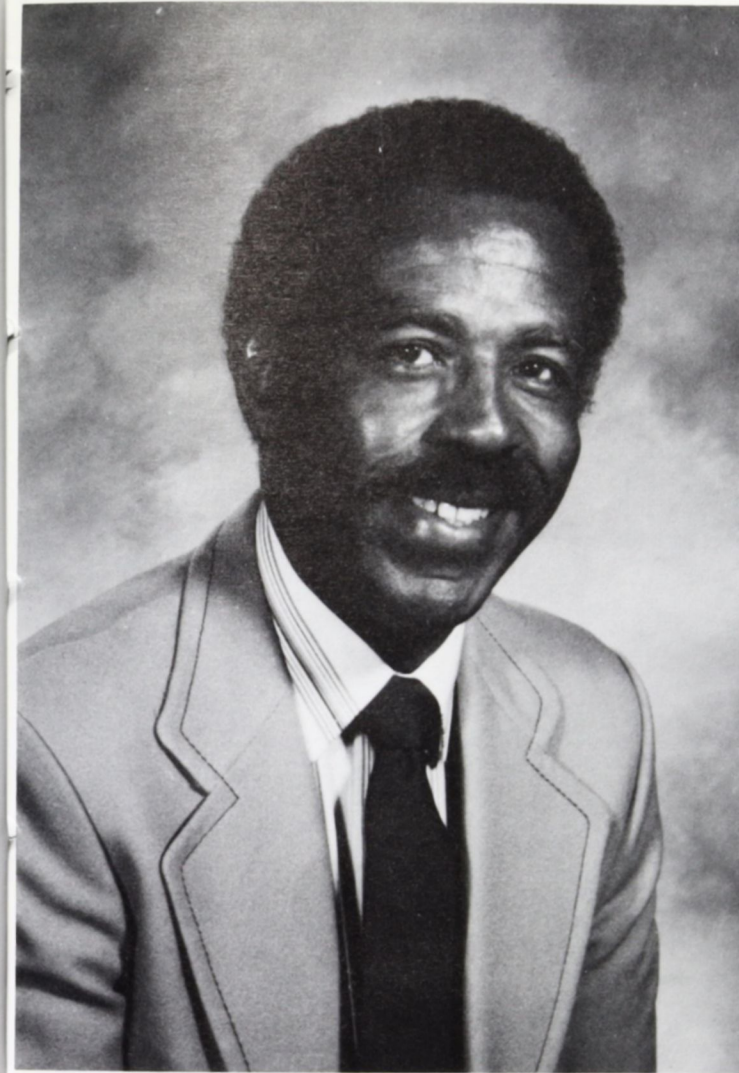

Here at the Ludwigsburg Middle School we have a beautiful physical facility and a staff which is dedicated to providing a quality education for students that includes both core academic subjects and arts and life skill classes.

We all realize that the computer is in all our futures and we want our children to be prepared to live in the computerized future. We also realize that computers cannot replace teachers in the educational system which today includes not only reading, writing, and arithmetic but also scientific and technological literacy.

My role in this educational system is to work with staff, parents and students in demonstrating that in this school, education is important and valued.

Louis Hughes

Mr. Louis Hughes came to our community when the middle school concept was new to most of us. He has worked to establish a school which provides an education of quality that meets the needs of all our middle school students and insures them successful educational experiences. He also fosters a positive attitude of togetherness for the school and community, the staff and students, and the students with one another.

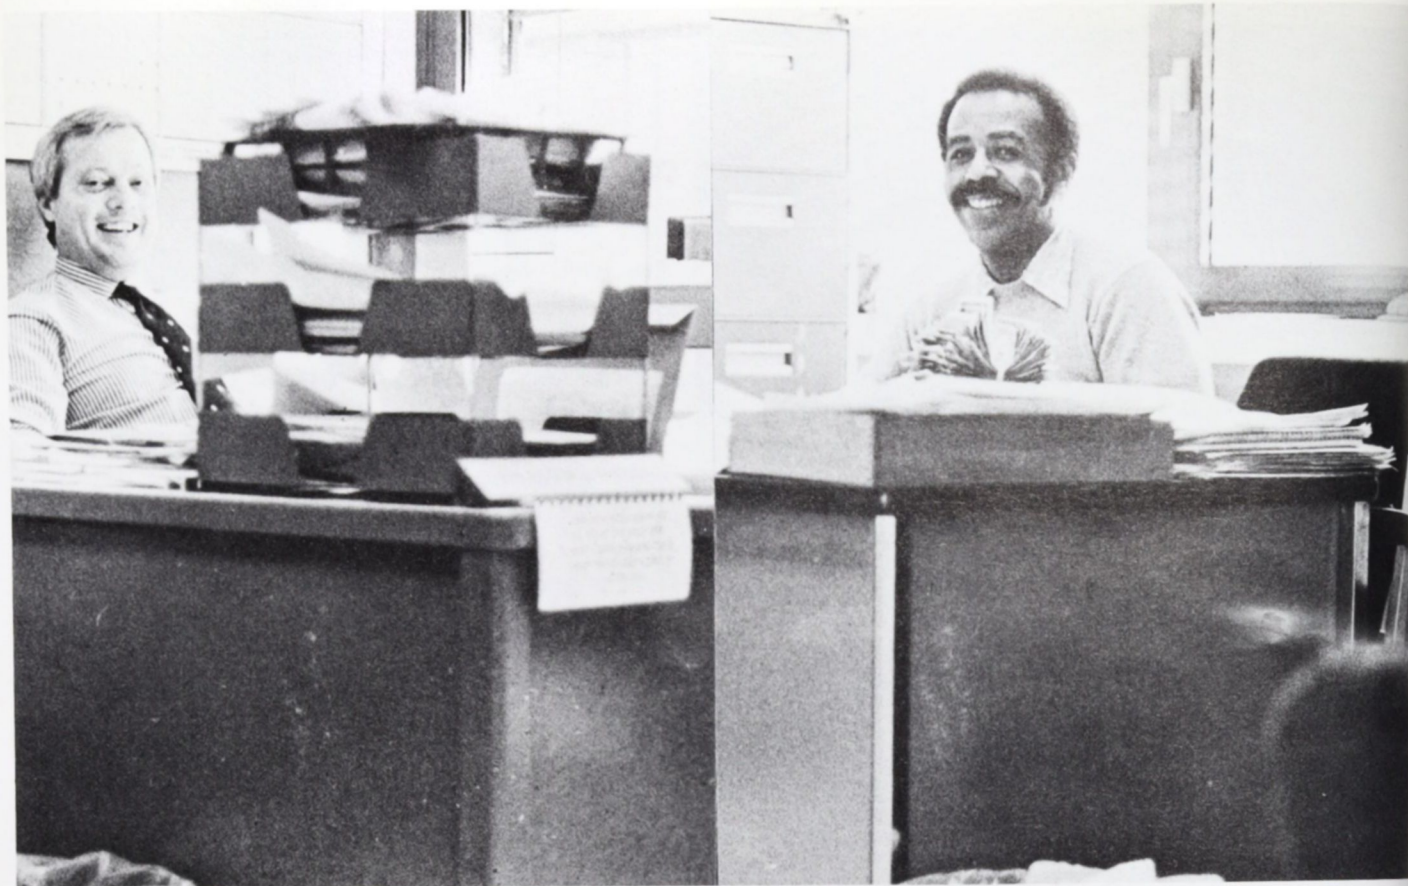

Mr. Hughes has lived in England and West Germany. During his years with DoDDS his positions have been counselor in a junior high school, assistant principal in an elementary school and principal in an elementary school and a K-8 school.

As most principals are first teachers, so was Mr. Hughes. His teaching experiences range from teaching all subjects in grades four and five to specializing in English and social studies on the junior high level and English on the high school level.

Exemplifying an earnest concern and dedication to the education of our students our principal is a member of the National Advisory Council on Dependents Education. He also serves on the executive board of the European PTSA and is the editor of the organization's newsletter.

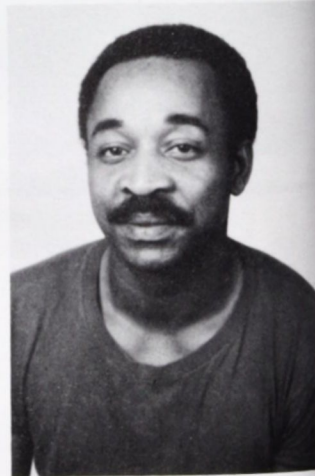

To express our appreciation to Mr. Louis Hughes as our first Ludwigsburg Middle School principal we dedicate our first yearbook to him.

Sincerely,
The Ludwigsburg Middle School
Yearbook Staff and Students
