## Teacher Survey

- 1) You've been here a long time . . . what are some of the changes that have taken place in your opinion. Can you comment on how it was before and now?
- 2) What have been some of your best experiences since you've been here at LMS?
- 3) What advice would you give to the students of today?
- 4) Any other comments on anything you wish to add.

Asmir—1) To me it's been better scheduling and a continuous string of good professional teachers year after year.

2) Coaching tennis, the yearbook, outings with students, drawing portraits.

3) Learn, study, experience Germany, and in the time of your life, LIVE!

4) Being this yearbook's sponsor has been an eye opener as to how many really sharp students we have!

Alhberg—1) The landscaping, furniture and playing fields have arrived since I've been here. It was a flat looking space inside and out.

2) Working with junior high students who are still excited about learning.

3) Decide to do the best you can and you will be able to.

Semashko—1) This school is constantly getting better. I remember the time back in 1981 when we didn't have a cafeteria, or a stage, or tennis courts, or athletic fields. We have them now, and there'll be more good improvements in the future.

2) I think, in addition to working with the students in the regular classes, I've had some great times with them in the talent shows, the school plays, and the chess club.

3) Learn your skills now; it will make it easier for you in high school, and hopefully—in college.

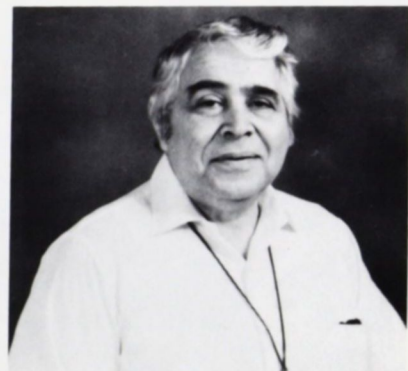

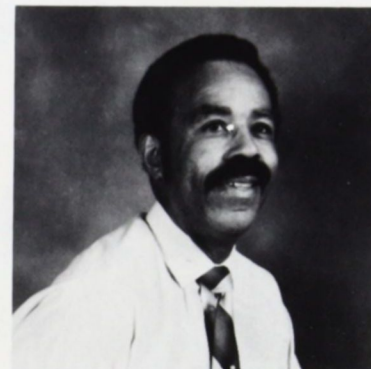

Wagner—1) When we first opened this school, we had no library—Now we have a fully functioning one full of really good books and filmstrips.

3) Decide your own destiny—Do not let someone else make all your decisions for you—Be responsible for yourself—If you goof up take the consequences and determine to do better next time.

Ireland—1) Before we had no lunchroom. Now we have a cafeteria with good tasting nutritious meals.

2) Working with the sixth graders of the school year 83-84. That was YOU EIGHTH GRADERS! ARE YOU STILL A SELF-MONITORING GROUP THAT IS KIND AND CONSIDERATE OF OTHERS THAT HAS A POSITIVE ATTITUDE ABOUT SCHOOL AND YOUR EDUCATION?

3) Students, believe in yourself and others will have confidence in you too.

To all students of LMS. We would like to express our thanks to everyone who made this yearbook the best yearbook of our school. This year we sold 300 yearbooks, and if it wasn't for our dedicated staff it wouldn't have been possible.

Thanks a lot,
