School Year 2010-2011

Dear Students, Parents and Staff Members,

Congratulations on another wonderful school year! Sollars ES continues to be a great place for children to grow! Our students have had many challenges this year, but our challenges have also created marvelous learning opportunities for us from academics to conservation. I appreciate the time and resources our teachers, students and community members have graciously given to help all of our students succeed!

As our school year winds down I'd like to highlight just a fraction of the activities and events that happened. Sollars students participated in the Guinness world record for Speed Stacking, first grade parents hosted an amazing Thanksgiving dinner, the PTO provided quality activities for our families at family nights, 15 Squadrons from the 35th Fighter Wing held Math and Science Day to help our students understand how to use math and science in the workforce and Sollars students participated in the community friendship exchange with the Shichinohe Bikoh-en Orphanage providing a Valentine's Day party which included the giving of cards made by the Sollars students, games and goodies.

As I reflect on our school year, however, one event interrupted and overshadowed it all. The 9.0 earthquake and tsunami off the coast of northeast Japan created havoc in our lives and changed our world view forever. Compared to our neighbors to the south we were hit with only minor inconveniences; a loss of power for a short time and the rationing of resources.

The Sollars community could be seen in every facet of the recovery and relief effort. From comforting parents during the voluntary evacuation process, collecting food and clothing items for the orphanage or to send south and cleaning up our Misawa Harbor to conserving food, energy and fuel, community members stood out to help.

This experience has made me proud to be a part of this community, as I know it has made all of you. What CNN and FOX News saw as bravery on the part of Misawa Joint Forces Military Base, I have the privilege to live with everyday – people who know the value of life and are willing to give a part of themselves to better their world regardless of the circumstances.

It has been an honor to serve as your principal this school year.

March 11th, 2011 an earthquake off the coast of Japan. At 9.0 it was one of the five most powerful earthquakes since 1990. The resulting tsunami caused hardship across 18 prefectures to include 13,000 deaths, 5,000 injuries, 15,000 missing, a dam collapse, fires, rail and road destruction. Most memorable was the nuclear power plant crisis. Three nuclear power plants were crippled leaving 4.4 million homes without electricity and 1.5 million without water. With our neighbor Sendai hardest hit the question on everyone's lips were "What can I do?"

During the week of April 4th, 2011 Susan Blake spearheaded Operation Crane. For each oragami crane our students folded Students Rebuild donated \$2.00 to rebuild schools in Sendai. Together with our community, the students folded 20,000 cranes, astounding the staff at Students Rebuild. The week was a time of rebuilding and healing for our students, as many of the volunteer opportunities were too dangerous for them to participate in. The crane project was shortlived within the school, but will have lasting effects for both the students who participated and the students who will enter the new schools in Sendai.
