As the weeks of steady rainstorms turned into months, farmland, cities and towns in the Midwest suffered flooding of historic proportions. The Great Flood of '93 is the second-costliest natural disaster on record in the U.S., causing more than \$12 billion in damage.

It was a difficult year for Southern California residents. In the fall, brush fires swept over 200,000 acres, causing about \$1 billion damage. In January, an earthquake shook Los Angeles, destroying thousands of homes, closing freeways, and shutting down many schools. The quake, measuring 6.6, caused 57 deaths and an estimated \$30 billion damage.

## Senior Feature: TEEN PREGNANCY

Teen pregnancy is a problem quite great. We kids nowadays just can't posepone or wait.

When young girls get pregnant they don't finish school. Even the young fathers don't graduate as a rule.

Young teens that marry because of pregnancy usually end in divorce. The young parents will never even take a college course.

Babies of your teens have more serious health problems, it's true.

Sexually active girls are more likely to have health problems as adults, too.

To be active sexually nowadays means the risk of getting diseases quite bad.

Unwanted pregnancies and AIDS are enough to make you sad.

Nuernberg High has some pregnancies, all accidents too, If you're having sex girls, the next could be

you.

Oh you want to go to college you say?

# Today I found out I'm not pregnant

Sorry, you've got too many diapers and bills to pay.

Don't be like me knowing all this still, making a mistake,

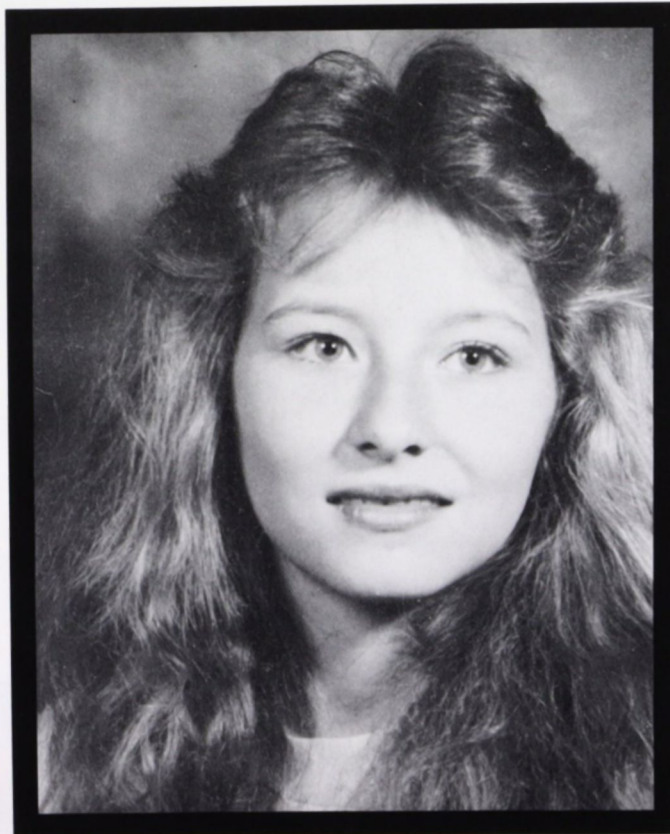

Today I found out I'm not pregnant but boy did my knees quake!

Making responsible choices about sex is a part of life,

If you resist the pressure to have sex, you've won the strife.

There's lots of ways to be close to someone without having sex, I know now!!

Lucky for me it's not too late, so take my word

## Arnold Delacruz A.K.A. Tiny Chin

School Activities: Football

My favorite teacher is Mr. Mulder because of his sense of humor. My parents have been a big influence on my life because they have taught me to always try hard and not give up. An incident that has significantly influenced my life is when I was discovered as being funny by other students in second grade. After this I had many friends. I like to kick it at, "Mike's Rib and Eat." The food is super. I also enjoy listening to music and visiting Enrique who makes me laugh when he dresses up in his father's bell bottom pants. For the next five years, I hope to play football at a small junior college. Later I intend to become a sports broadcaster or a football coach and marry a woman with lots of money. To positively influence the world I want people to listen to my jokes instead of being involved in wars and violence. Finally, I want to shout out to my boys, HIDDEN SECRETS OF THE HASSMAN. Do the right thing. Stay away from pork and girls that are too young for you. One more thing, a sweet shout out to all those Nuernberg girls, y'all know who y'all are.

## Carmen Watson

School Activities: Student Council, V-Ball, Track, JROTC

My favorite teacher is Mr. Gwyn. My mother has influenced my life the most because she has shown me hard work will help you achieve any goal. The second influence on my life is my mother "marrying" the two of us into the army. Although, I have hated moving around, living in so many different places has taught me patience, flexibility and it has helped me to develop tolerance and an open-mindedness for others and their lifestyles. In my spare time I enjoy reading, listening to music, playing sports and being with my friends. In five years I hope to have graduated from college with intentions of helping communities that might need my help. Finally, if I can have a positive influence on a handful of people, I will consider that as an admirable achievement.

## Sarah Banagis

School Activity-Thespian Troope.

My favorite teacher is Joyce Jones. In my spare time, I act and talk on the phone. I plan to go to college within the next five years. I would like to influence the world positively by becoming a teacher for the deaf in the areas of English and drama.

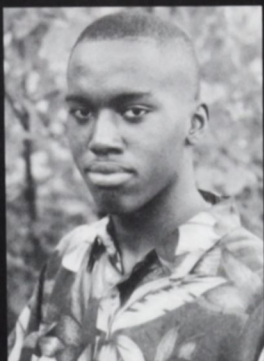

## Vanessa Hassell

School Activities: Soccer, Drill Team, Tennis

My favorite teacher is Mr. Mulder. Working as a counselor made a tremendous impression on me. When I worked as a counselor at a summer camp for troubled kids, I decided that I wanted to be a psychologist or criminal lawyer. In my spare time I enjoy writing, dancing, playing soccer and shopping. After graduating, I'll be in law school for approximately five years. Afterwards, I'll join the air force.

**Manuel Banks, III**

School Activities: Football, Basketball

My parents have influenced my life the most because they have always pushed me to strive for excellence. The girls of Nuernberg influence my mind because they are so find, especially one of them. Being on the varsity football team has been a positive experience for me. I learned through football how to win or lose with respect. In my spare time, I enjoy being with my girlfriend, that is unless we have broken up by the time this is published. Five years from now, I intend to have gotten my college degree and be married to a tall, intellectual woman who likes sports.

**Bill Fisher**

School Activities-Football and Wrestling.

My favorite teacher is Mr. Mulder. I influence myself because I don't like to depend on other people. Being in a military family has positively influenced my life because you have to move frequently which allowed me to learn about new cultures. In my spare time, I like spending other people's money-making money and sleeping. I'll be out of college anywhere from 3-7 years from now and making approximately \$500,000.

**Jennifer C. Gortney:**

School Activities-Volleyball and soccer.

I love all of my teachers. My family and best friend, Waly, have been inspiration to me. Belonging to a military family has given me the opportunity to meet wonderful people and experience many new things. It has been great! In my spare time, I do things with my friends. I'll be in school for another 3-7 years working on a degree in science. I'll contribute to the world community by helping people to have positive attitudes toward one another.

**Daniel Taylor**

School Activities: Baseball, Basketball, Track, Cross Country

My favorite teachers are Mrs. Mathern, Mr. Fontaine and Ms. Nestaval. My friends have influenced me the most in life because they encourage me to work harder when I'm not doing my best. Also, I would say that coming to Nuernberg has been a positive experience as it has changed my attitude towards school. Playing sports, watching movies, listening to music and hanging with my friend fill my spare time hours. I plan to go to college somewhere in California. I will soon get a degree in literature and write some stories. I want to eventually become a movie director. More movies need to be made that will make people think so that society can learn the true meaning of life.

### Tabatha Hite

My favorite teacher is Mr. Mulder. My parents have influenced my life the most by providing positive role models for me which helped me become the person I am today. Another influence is my father being in the military, moving to different locations which has given me a chance to meet new friends and become more culturally aware. In five years, I hope to have finished all of my schooling and be starting a career. I want to somehow help others in the world because it gives me a sense of pride to help others.

### Brandon Loveridge

School Activities: Sports, NHS Band

Mrs. Allen is my favorite teacher because she helped me to learn how to read. I have been influenced the most in my life by my dog, Buster, taught me that when the going gets tough to go to sleep. I play sports and walk my dog when I have spare time.

### Brooke Branstetter

School Activities: Soccer, student council, mascot

My favorite teacher is Mr. Mulder. My parents have influenced my life the most. They've taught me right from wrong. They've been there for me through some bad times. But most of all, they have loved me for who I am. I love you! Being an army child has further influenced my life because we have moved around and have to know how to make new friends. In my spare time I enjoy hanging out with my friends Alicia, Jamie, Shannon, Becka, Kari, Bill, Amanda. I love ya'll. I also enjoy being with my wonderful boyfriend, Kevin. I love you Brandon H. I intend to go to college one year after I graduate and major in Early Childhood Education.

### Kari Archer

School Activities: FBLA, Football Manager-10th, JV Volleyball Manager-11th

My favorite teacher is Mr. Mulder. My mom has influenced my life the most. She has been my best friend for the last few years. She helps me through tough times and she is very open-minded. I love you, Mom! My spare time is spent dancing and listening to country C.D.'s and talking to and thinking about Dana. Finally my pet peeve is stereotyping.

**Susan Y. Mitchell**

School Activities: Playing Sports-Basketball

My Favorite teachers are Ms. Nestoval and Ms. East. My life has been influenced the most by my parents because they have helped me to get through a lot of tough things. But, additional influences have been my best friend, Melinda Davis and my sister Sherry Farmer. During my spare time, I hang-out with my closest buddies, Mindi, Jill, Janet and Sherry. Five years from now I plan to have graduated from college and work with handicapped students. I want to leave an impression on the world because it has left one with me-it (world) gave me a great life.

**Sharie Michelle Latham**

School Activities: Dance Drill Team, Student council and Speechfest

My favorite teacher is Mr. Mulder. My mom (Alice Pratt) has had a positive influence on my life because she has always told me that there are no limits as to what I can do. In my spare time I like to read and chill with my friends. Eventually, I will work for the FBI or the Secret Service as a criminal lawyer. I hope that the love that I have for all people, especially children will make a difference for the betterment of the world. Message: I'd like to say thank you to all of my friends-Vanessa Hassel, Sheena Perry, Demetri George, David Lemons, Donald Banks and everybody else. I love you all.

**Sarah Kingston**

Mr. Mulder is my favorite teacher. My parents have influenced my life the most. They pushed me to make good grades. Also, moving to Germany has had an influence on my life. Before moving here I hadn't seen much of the world. Meeting people of different nationalities has helped me to better understand the world. I work at Popeye's in Hohenfels. So much of my spare time is spent there. Hopefully, in five years I will have chosen a career. Right now I am undecided. Whatever career I choose will involve helping people.

**Mike Edwards a.k.a. Mr. Muhammed**

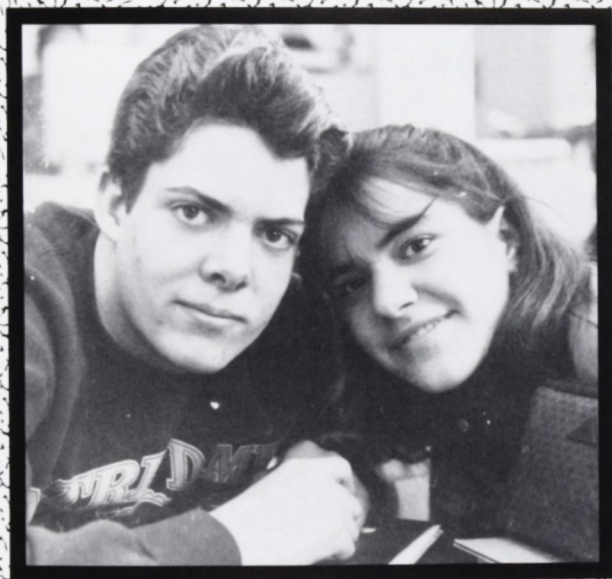

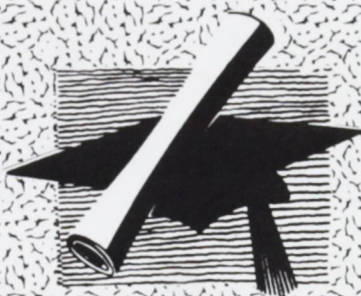

School Activities: Football 9-12

Mr. Mulder is my favorite teacher. My mother and father have influenced my life the most because they showed me the right path and helped me grow into the young man I am today. Entering high school and meeting my friends, Arnold, Jeff, Enrique, Dave, J.P., Steve, and anyone I've missed have also had significant influences on my life. Making people laugh, lifting weight and eating at Arnold's house fill my spare time hours. In the future, I intend to go to college, find a job and have twenty children. I intend to influence the world by keeping a smile on everyone's face and passing the world of the Almighty Allah.

## Denise Santiago on Art

There are different forms of art but it all comes around to it being an expression of your feelings and thoughts. What I say might not be true statements for everyone, but for me this is how it is. Usually artists are considered weird, but all of them are not. I am one of those, "weird" ones. Anyone can be an artist, if they are dedicated, work at it, and most of all, like it. Art is music, dance, poetry, etc., all being creative and full of imagination.

The more you practice certain skills, like drawing things or painting, the more your eyes open to the world of creativity and your mind loses its boundaries. You begin to see things that other eyes see differently or do not see. As a scientist speaks scientific language, artists speak a language of colors, pictures and our creations. I drew more than I talked when I was little. I have come far since I have come here, and I do not know if I will ever consider myself as "good". I can be satisfied with my drawings or anything else but what really counts for me are compliments for my work, they (compliments) though do not put me in any way on a pedestal. Acknowledgement boosts my confidence and is a motivator to keep me going. Everyone is not going to like my art, just as everyone does not like everyone that they meet. I am still learning and I have got a long way to go. You can achieve anything that you want to in life if you really work at it.

## Robert Lerma

School Activities: Wrestling, Soccer, Football, Student Council

My favorite teacher is Ms. East. Terra has influenced my life the most by just being there when I needed someone to care, helping me with the bad things in my life. In my spare time, I enjoy wrestling, playing soccer and just hanging out with friends. In the next 3 to 7 years, I hope to have graduated from college and wrestle in the 1996 Olympics and maybe get married.

## Shannon Jenkins

Activities: Cheerleading, Gymnastics

My favorite teachers are Mr. Mulder, Mr. Berndt, Mr. Jones. Jesus Christ has influenced me the most because he loves me more than I know and he forgives me and is always there for me. Also, moving to Germany has influenced me. I enjoy laughing, sleeping, jumping and being with Brooke, Alicia, Becka, Claudia and Brad. I intend to go to college, get married in the next five years.

## Matthew Soderquist

School Activities: Tennis JV, Tennis Manager, Brain Bowl, MUN, Barenstein Exchange, Freshman Class Treasurer, Treasurer 11th, Asst. Vice President 12th

My favorite teacher is Mr. Gwyn. In my spare time, I enjoy lounging around and listening to music. Five to seven years from now I plan on having a good college education. I plan to influence the world by significantly aiding in the preservation of the pine forests in Oregon.

## Horacio Sasha Renier Hart

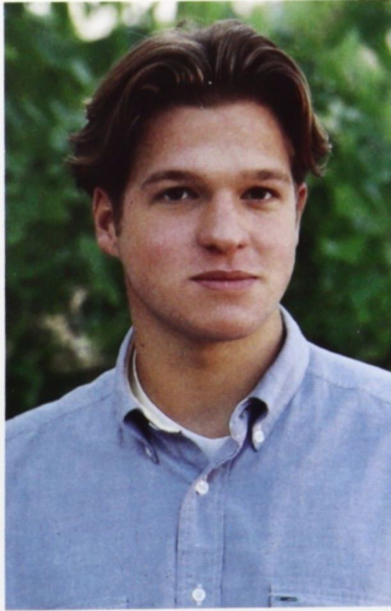

School Activities: Football, Soccer

I would say that Tito and Mary have influenced my life the most. They are like brother and sister to me. They brought me into the Christian life. My hair style has had an indirect influence on my life. The only person who likes it is my girlfriend. Nobody wants to understand how hype it looks. I like to chill with my friends in my spare time. They make me laugh. I intend to go to college, get married to a wonderful woman, and live a peaceful and exciting life. I hope in the world we can just all get along.

department that is affordable. I'll do this during the night which will enable me to get a job at an autoshop during the day so that I can earn money. I hope to earn between \$25.00 and \$35.00 an hour.

The advice that I can give others is not to worry about what others say. I'm for example a non-conformist. I go my own way and don't follow other people. In fact I don't even have a starter jacket.

I have it all planned. I can definitely give a summary of my future. Well, we're going to Oklahoma. There's a trade school there with an auto body repair and painting

Melgean Pequet

School Activities: Drama, Auto Service Center, National Junior Honor Society

My favorite teachers are John Rattigan, Molly O'Donnell, and Mr. Jones. All of these teachers have influenced me because each of them taught me that I should do what I think is best for me. They have encouraged me to be myself and appreciate everything I do. Thanks a lot. Creative connections 1993 has influenced my life the most because it was a real workshop and the students never criticized you. There was no hate, dislikes and nothing could be wrong. It made me look at the real person and not some stereotype of what a particular person was supposed to be. In my spare time I enjoy learning about Native Americans, beading, painting, reading and drawing. In the next 3-7 years I plan to major in physical therapy. When I've completed this task, I hope to practice my skill on a reservation. I plan to positively influence the world by dedicating my life to working on a reservation and helping people to become more aware of Native Americans and their concerns about how American culture impacts on their culture. Eventually I plan to temporarily leave the reservation to return after studying medicine, specializing in becoming a general practitioner.

Alicia Evans

School Activities: Cheerleader, soccer and volleyball

My favorite teacher is Mr. Mulder. My life has been influenced the most by my parents and brother because they tried to keep me in line, guided and supported me in everything that I've done. Moving to Germany has influenced my life the most because it has broaden my view on life. Also, meeting new people has made me more outgoing. In my spare time, I enjoy dancing at the country clubs, writing my best friends Cherlyn, goofing off with my great friends Brooke, Shannon, Jamie, Bill and my brother Brad and spending time with Lee. (I love all you guys)

Jamie Van Hook

School Activities: National Junior Honor Society, Band, Cheerleading

My favorite teacher is, "most of them." My family and God have influenced my life the most because through these influences I have been taught good moral values. Both God and my family have always been there to guide and support me. I think that being an army brat has influenced my life as it has been possible for me to travel and see the world, to mature a lot, and kept me out of a lot of the trouble that is going on in the world today. My spare time is spent sleeping, eating, going out with my good friends (Alicia, Brad, Brooke, Deanna, Shannon, Jennifer and Bill) and spending time with my boyfriend. In the next 3-7 years, I hope to have graduated from college, start a career, and make lots of money. I intend to positively influence the world by having some kind of positive affect on people.

# VOICE OF DEMOCRACY

## A NATIONAL AUDIO ESSAY SCHOLARSHIP COMPETITION 2nd

Donald Banks

In the words of John F. Kennedy ask not what your country can do for you, but what you can do for your country. In our system of government

supreme power rests within us. This power delegated by the framers of our constitution makes sure our ideas or commitments to America can be voiced. My commitment to America is to use the education that I have and will receive to help the country solve its problems such as the homeless, neglected, discriminated, and the most tragic the aids victim.

If I can use the power of my mind instead of the use of a closed fist then there is no telling where my accomplishments will end. The higher I achieve in learning will make me able to help more people later in my life. Then my life will really count for something. If I were to end my education at the high school level chances are that I will be one of the many Americans who are homeless and jobless. These people are not the bottom of our society. They are Americans in need of a helping hand. If I can help

them by volunteering, satisfaction should be my only reward, satisfaction in knowing I have helped a fellow American who is less fortunate than me find a warm place to sleep, or a job, and especially a friend.

Who knows I can be the next president, but without the education it will never happen. I could be the next Einstein, but in order to achieve that level of thinking I must go to a higher level of learning.

This level of learning may hold the answer to many of America's most complicated problems. Such as the aids virus. The cure will not be found by a person who gives up on the commitment to education, but one who sees it as a challenge that must be overcome to help America.

Teachers, doctors, lawyers, and many others in professional jobs have made commitments to America. If they could do this then my commitment should be no less than theirs. All of the jobs began with the spark of wanting to learn something new. Once the spark is lit it will become a fire that will ignite the engine of America towards a fair and nondiscriminatory society. If the spark is never ignited then Americans will go through life saying the problems of America are not theirs. But that of the government. If I go as high as I can in my commitment to America I will be able to educate others who will be able to solve many of our problems in the U.S. Thereby, I can call myself a true patriot whose commitment to America counts.

Another fulfillment to the commitment to education is the fact that I will be able to secure a future for myself. By doing this I will automatically touch others. Through education I will get a higher paying job. Thereby being able to give donations to organization or charities who help fellow Americans across the country. Education is the key to unlocking many doors that will help America.

# "EAGLE CAR CARE CENTER"

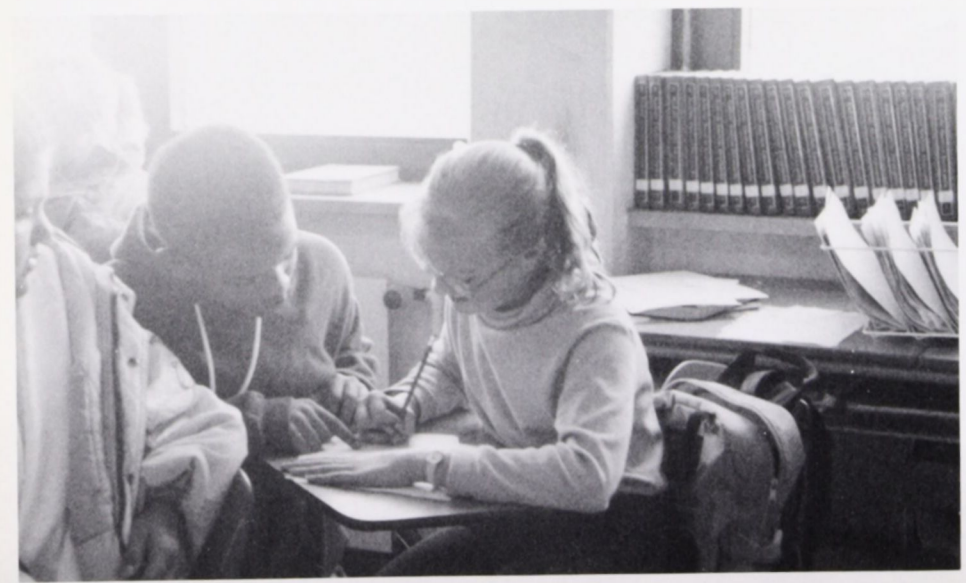

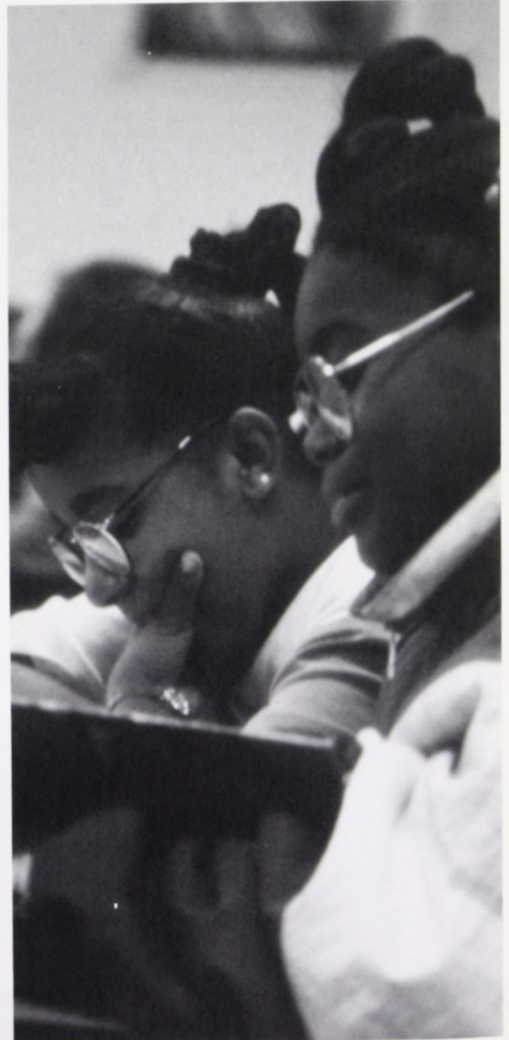

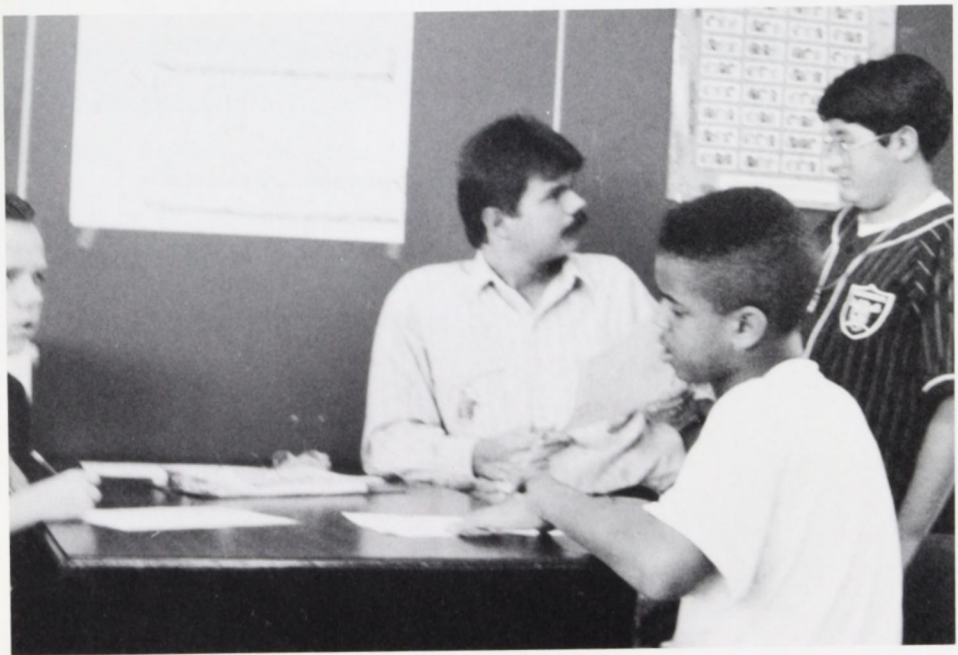

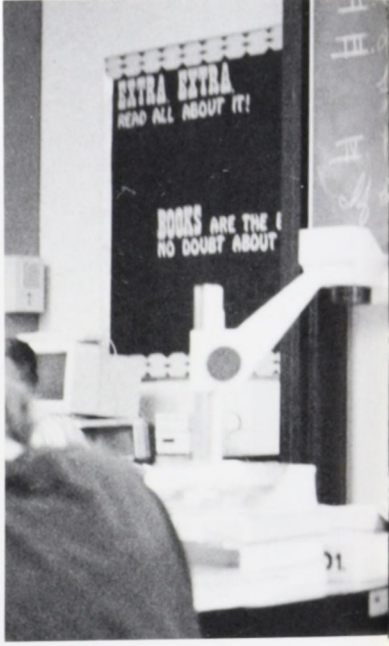

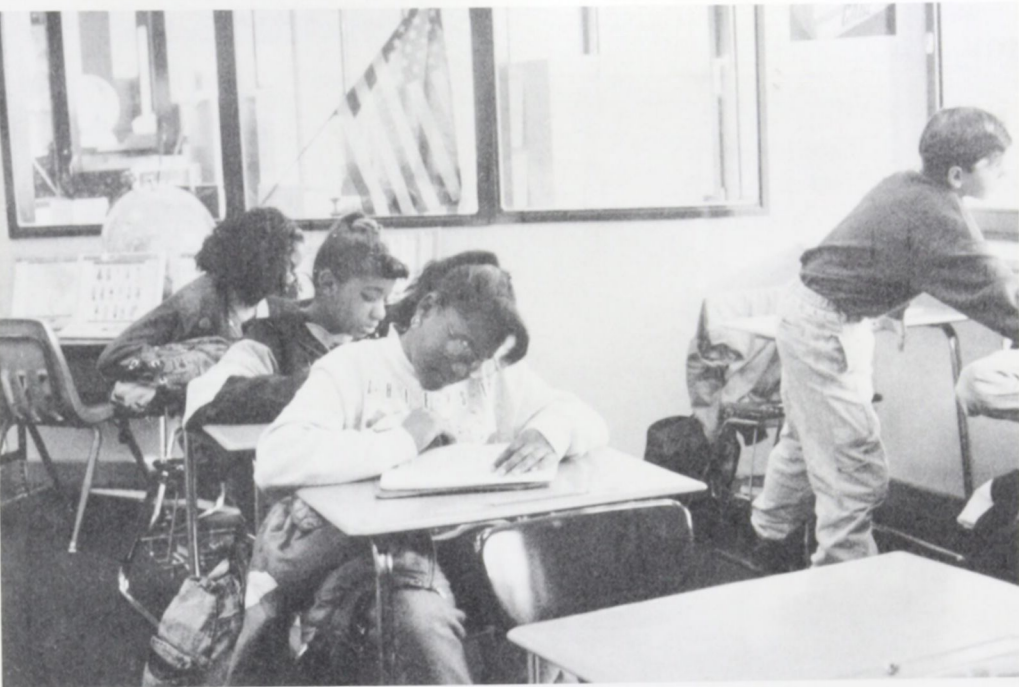

## It's Challenging & Fun

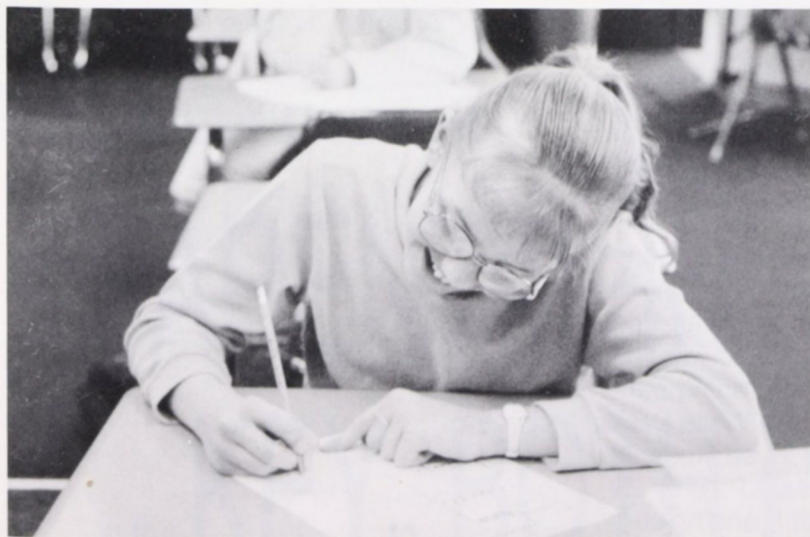

The Eagle Car Care Center is going on its second year of operation at NHS. The Auto Shops are run as real businesses sixth and seventh hours. Mechanics, welders and painters all participate. New kids are trained and the experienced ones learn more and get a small taste of what it's like out in the real world. Customers do have to pay, and the work is of quality. It is challenging and fun. Someone has to repair all those cars that people keep wrecking.

Renaissance is a program of recognition and reward for academic performance. It is based on the management principle that "What gets rewarded and recognized, gets accomplished."

# Renaissance

The Renaissance program is a system in which a student can earn one of four cards. Gold Cards are awarded students who earn a 4.0 G.P.A. and have no suspensions. Silver Cards are earned by those students who earn a G.P.A. of 3.5, have no grades of D or F and have no

suspensions. Green Cards go to students who earn a G.P.A. of 3.0, have no D's or F's and no suspensions. Beginning with the end of the second grading period, a fourth card, the White Card will be earned by those students who improve their G.P.A. by .5, have no grades of F and no sus-

pensions for the quarter.

Cards can be used for various privileges in the school. These include time in the media center for study; ZAP (Zeros are not Permitted) cards for one or two homework assignments during the quarter; AAFES coupons; lunch line privileges on Friday; drawings for prizes and academic award letters and pins for repeated awards. The Renaissance program at Nürnberg Middle/High School is managed by Ms. Elaine Hermann.

# AVID

**Major Concepts/ Content:**  
 AVID is a language arts based curriculum with emphasis on the writing process and writing as a tool of learning. In addition to inquiry and collaboration, AVID also provides students with academic survival skills i.e. time management, note taking, textbook reading, library research, and study skills workshops. The Cornell note-taking system is taught and students are expected to use this system in all classes.

**Essential Objectives:**  
 The goal of the AVID program is to prepare underrepresented students to enter and be successful in four-year colleges and universities.  
 The AVID class takes the place of one elective. Pupils meet daily with the AVID teacher Elaine Hermann

## ACADEMIC TEAM

Our Academic Team worked for three grueling months to get ready for this assault of difficult questions and challenging answers. Team captain Matthew Soderquist did his best to prepare us for it. The rest of the team were rookies following Ms. Frank into battle. Our other starters Nate Watson and Melissa Smith went up in the first match while the alternates Vanessa Rosenburger and Jim Stroud entered in subsequent matches. We participated in three matches and were eventually defeated, but we were proud to represent Nuernberg at this demanding contest.

# Take A Close Look At What Enrique Hernandez is Really Saying.

## ENRIQUE HERNANDEZ on Graduation

Interviewer: So, you want to talk about graduation.

Interviewee: Yes.

Interviewer: Is Cooperative Work Experience (CWE) preparing you for your future-after graduation?

Interviewee: No, I don't know if I have a future. I mean a future after graduation.

Interviewer: What do you mean?

Interviewee: I just

want to live my life day by day and not think about the future.

Interviewer: Um-mmm.

Interviewee: Just want to go day by day. If you think about the future, sometimes it does work out and sometimes it does not work out.

Interviewer: Are you saying that you don't want to think about the future because you don't want to be disappointed?

Interviewee: Yes.

Interviewer: Have you talked to anyone about how you are feeling about your future?

Interviewee: My friends and my parents.

Interviewer: Have you gone for career counseling?

Interviewee: Yes, I want to be a radio broadcaster or recording engineer.

Interviewer: It sounds like you are saying that you have thought about the future and have started to make long term plans.

Interviewee: Well, yes.

Interviewer: Help me. I've heard you say two different things. You have a future and you don't have a future.

Interviewee: It's like knowing what you want, but not knowing how to achieve what you are seeking. This is setting me back.

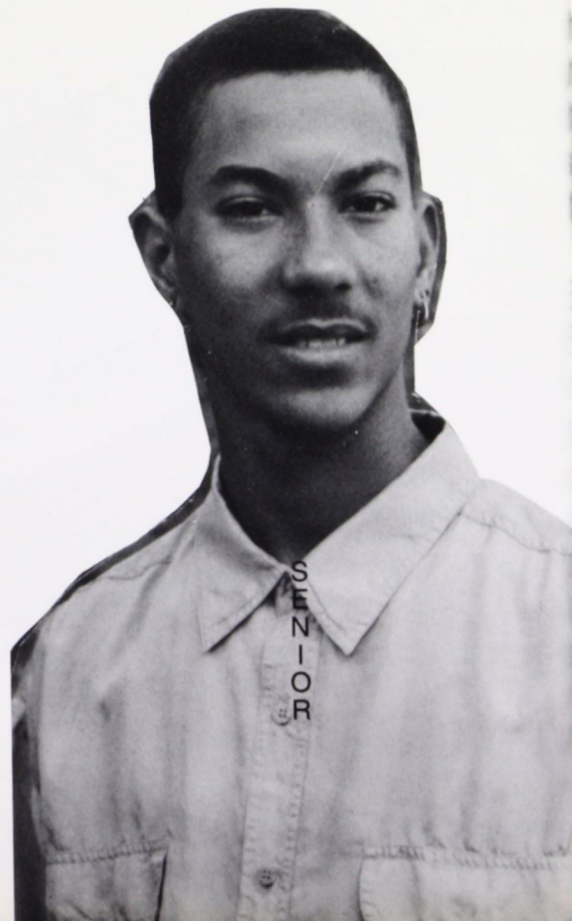

Interviewer: Have you chosen a broadcasting school?

Interviewee: Yes, I have. I'm going to the Rochester Institute of Technology in New York. I already have experience that I can use in school because I used to work at a radio station and now I work at Armed Forces Network (AFN TV).

Interviewer: How can we summarize everything that you have said.

Interviewee: If it's for you, you'll get it. No, I didn't mean that. I know that I'll have what I want from life because I'm going to work for it, step-by-step. I know I'll need a lot of time.

Interviewer: Sounds to me, Enrique, like you do have a future.

# SENIOR BIOGRAPHIES

Donald W. Banks, Jr.

School Activities: Varsity football, Student council

Mr. Mulder is my favorite teacher. Play football has been a positive influence on my life because it is the place that I learned how to lose in order to win. My leisure hours are filled with weight lifting and reading. After high school, I will attend a college with a major in computer science and a minor in marketing. Following my completion of college, I intend to get a job in one of the top black marketing firms. I hope to positively influence the world by finding a way to get big businesses to think of keeping the beauty of our world instead of dollars.

Waleska Agosto: School Activity-Soccer. My favorite teacher is Ms. East. My mom has influenced me positively because she taught me to respect myself and others. I was also taught how to balance success in school with having fun. Everything that happens to me influences my life. In my spare time, I like to go shopping. I plan to have graduated from college within the next five years with a BA in Fashion Merchandising. Finally, I want to somehow stop the destruction of our planet.

Travis Stephensen

School Activities: Drama, CC, Wrestling, Soccer, FBCA

My favorite teacher is Mr. Jones. The person who influenced my life the most is my friend Jarvis. The incident that has influenced my life the most was "Project Bold." It taught me to get along even when the pressure is as bad as the weather. In my spare time I enjoy reading, eating, talking and sleeping. In the next 5-7 years, I plan to be accepted at a college and study medicine. I want to influence the world by serving in the, "Peace Corps."

Steve Hass

School Activities: Football

My favorite teacher is Mr. Mulder. My mother has influenced my life the most because she makes me study. The incident that has influenced me is coming to Germany at the beginning of my freshman year and meeting some funny people. In my spare time I enjoy playing football, working and sleeping. In the next 3-7 years, I plan to go to college and maybe play football. I hope to influence the world by giving donations to the poor and hungry. I'm going to miss the, "Hit Squad." It's been fun and there have been many sticks to remember. To the old B.K. workers, Dimitri, J.P., Enrique, "You all made work hype and it should always be that way." To Jeff, Andre, Natalie and Jamie, "It was always, fun." Peace.

I want to be Arnold's best man when he gets married to Chuckles.

To: The Student Body

School year 1993/94 was one of great change:

The drawdown continued and with it the movement of friends and classmates without the usual replacements we so relied upon.

The middle school and high school combined to a single school with shared facilities, teacher and experiences.

New programs in mathematics and science.

New coaches, teachers and sponsors for many activities.

A new feeling of being part of a grade six through twelve school where education and recognition of the individual nature of each student prevailed.

The success of any such change is the result of the efforts of all of those who are involved. Your efforts were commendable. You make Nürnberg Middle/High School a great place to be.

## SENIOR FEATURE

Theater and Speech have greatly influenced my life. I feel that these activities have given me confidence in dealing with everyday life, after all "the world is a stage." I take great pride in my art and the fact that my performances are always polished. My director, Molly O'Donnell, set these high standards for me when I began Nurnberg Drama in the tenth grade. There is a bond that theater people have that I have not found anywhere else. Most of my closest and dearest friends are of the theater. I really care about drama and I hope that it will continue to be apart of my life.

## SPEECHFEST RESULTS

Students from Nürnberg Middle/High School participated in the DoDDS Speechfest at Bad Kreuznach on November 22-24, 1993. Shannon Jenkins, Jarrod Fitch and Erin Fitzhugh earned Outstanding ratings in Reader's Theater. Shannon also received an Outstanding in Informative Speech. Jarrod was judged Outstanding in Persuasion and Prose Interpretation. Erin earned an Outstanding rating in Prose Interpretation. Travis Stephensen earned Outstanding recognition in Prose Interpretation and Story Telling and Donald Banks earned Outstanding ratings in Informative Speech and Persuasion. Congratulations to these students and Ms. O'Donnell along with her student teacher, Ms. Kelli Green.

What do you do when your hypertensive father fires you from the family business, your wax fruit business, your girlfriend has marriage on her mind, your younger brother moves in with you, the girl upstairs thinks you can get her a part in a movie, and your hypochondriac mother screws up the rest of your life?

## "The Cheerleaders"

We'd like to congratulate the basketball teams, you guys are just so hot.  
We'll never forget that wonderful day when you made your very first shot.

But us cheerleaders are number one, we should get four stars.  
We tried and tried and tried and tried ... sheesh did we work hard.

Practice, practice five days a week.  
By the time we got home we were all so beat.  
Our parents liked it though, you know they did, we went home, ate, and then went to bed.

And what about those little bitty uniforms that we had to wear.  
It was snowy and cold outside, but I don't think none of us cared.

"No kissing boys in uniform," that's what our coach said.  
When we heard that we almost freaked, we were gonna be dead.

Miniskirts and candy, that's not what we're about.  
We're here to cheer you up. And scream and cheer and shout.

Our squad is oh so excellent, I'd like to introduce each one,  
and tell you what it was about them that made our squad real fun.

I'll never forget Laura's I wanna try.  
And of course Tara Langley's, "Throw me real high!"

And Terra Derrico, she's all-around best.  
Not one game or practice did she ever rest.

Chanel was very quiet, she didn't say much.  
But I have to admit, she does a great toe-touch.

Janet and Jenny were always on top. That's not Kara LaFleur always caught.

Tara Whistler taught us some cheers that she had learned throughout the years.

Denise Santiago, the mascot of course, made us laugh so hard, we almost went hoarse.

Jill Davis was there to tell us which one.  
Defense or Offense, we were just having fun.

## TEAM SPIRIT

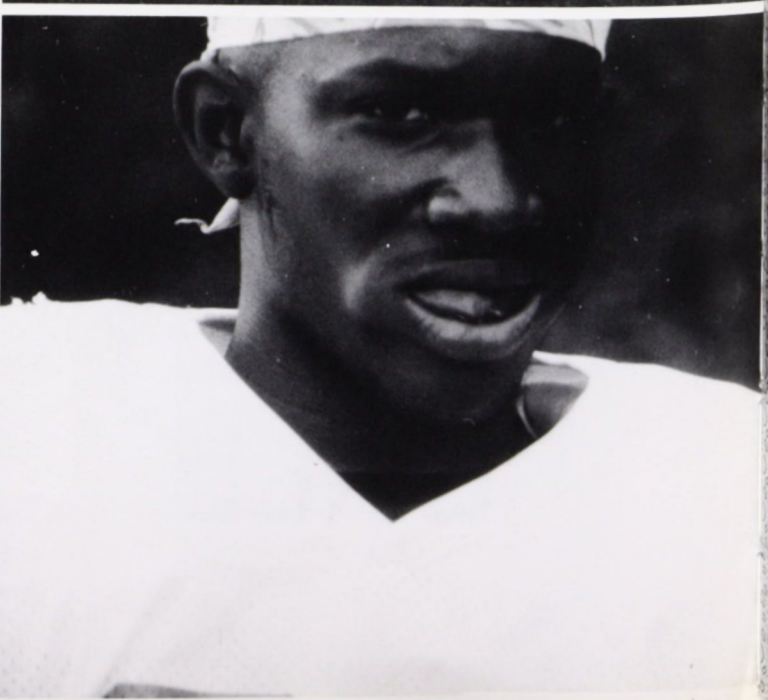

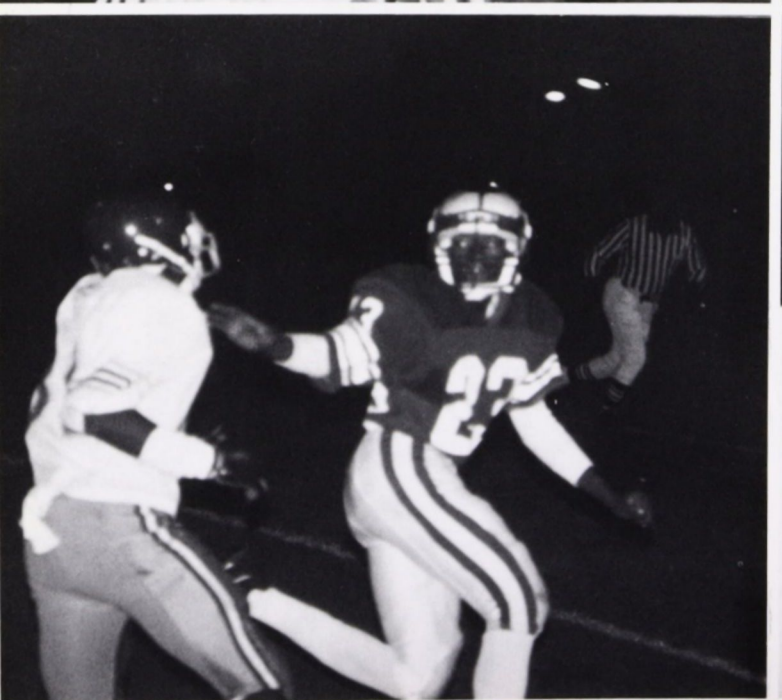

# TENNIS CROSS COUNTRY VOLLEY BALL

# HORATIO HART ON SPORTS AND GOOD GRADES.

Reporter: How did you become interested in football?

Horatio: I went to the States in 1988 and my uncle was coaching for a football team. He asked if I wanted to throw the ball. I threw the ball a few times and became interested in football. I played YS football for one year before enrolling in American school. I was at the time a freshman in German school. For first and second grades I went to American school but from third grades through my freshman year I was in German school. I started my sophomore year at Nuernberg American High School. I tried out for football as soon as I enrolled in American school and was accepted on the team.

Reporter: Which school system do the like the best?

Horatio: The advantage of German school is that the school day is shorter. You get out at 1:00 and have time to do other things. In German school you are not graded on your homework and only have six tests per year which means if you do poorly on one test you have a more difficult time bringing up your grade. The advantage of American school is that your homework is used as part of your grade and you have more than 6 tests per year. In other words in American school you can do more things (homework and more than 6 tests) to get a good grade.

Reporter: Are you involved in other sports besides football?

Horatio: After football season I don't practice but during season I try to bring my weight up and stay in condition. I also play soccer and this keeps me in good condition before soccer season and ready for the upcoming soccer season.

Reporter: Do you have a favorite soccer team?

Horatio: InterMailan, a professional Italian team.

Reporter: Any hobbies?

Horatio: Really sports-all sports, any kind of sports.

Reporter: Waht football team do you enjoy the most?

Horatio: I'd have to say Notre Dame University. I don't keep up with NFL.

Reporter: How do you manage to keep your grades up and be involved in so many activities?

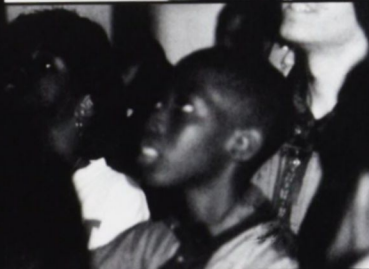

Horatio: I don't know how I do it. I just do my homework and homework helps me to prepare for the tests. I read a lot on my own just for fun.

Reporter: Horatio, do you have any advice for underclassmen?

Horatio: Yes, one should find time to play and time to study.

## Student Views on Combining the Schools

by Danielle Isidore

Students were asked how they felt about the combining of the middle and high school to make the new Nuernberg Middle/High School.

Some people think that the combining of the schools is a bad idea. Some middle school kids say they don't like having older kids in the school because they tease them and push them in the halls.

One student is quoted as saying, "It feels like I'm in first grade. At first it was scary but now its better. I still don't like it though."

Mr. Provinsal thinks it'll work if we give it a chance.

There are some people who like the combining of the schools. There are some advantages. For one, middle schoolers get a better gym, we get a better lunch room, and if you have an older friend you can see them.

High school students don't seem to care one way or the other. The general consensus was that it's okay.

One high school student stated, "I don't really mind it just as long as they don't interfere with us."

Another student said, "I think it is horrible because there are all these little kids running around."

## **An Interview With Arnold** *on being a senior*

by Tenisha Sanderson

So what's it like being in the 12th grade?

"Being in the 12th grade is something you always wanted when you were in the 9th grade but once you're finally a senior you realize that you're going to miss school. To me I won't miss the school work, but I'll miss being with my friends and just chillin' and telling jokes."

Does being a senior make you better than anyone else?

"Being in a higher grade doesn't make me better than everyone else."

What does being a senior mean to you?

"Being a Senior means to me that this is the last year of High School and that I have worked hard to be where I'm at now and that now I have to prepare to go out into the real world."

What are your plans after high school?

"After High School hopefully I plan to go to college."

What do you like about being a senior?

"I like being a Senior because we have a senior skip day and a Senior trip. I like being a Senior most because I get to be with my senior friends, telling senior jokes, and talking like senior citizens."

## **DRAWDOWN HITS NUERNBERG SCHOOLS**

by Danielle Isidore and Heidi Rota

Three years ago the Nuernberg military community was a bustling metropolis of a sort. School enrollment was at its peak. The new, long awaited elementary school at Montieth Barracks opened its doors in August 1990. Nuernberg Middle School was a welcome addition to the school complex. Kalb elementary, Erlangen elementary, and Nuernberg High Schools continued to thrive.

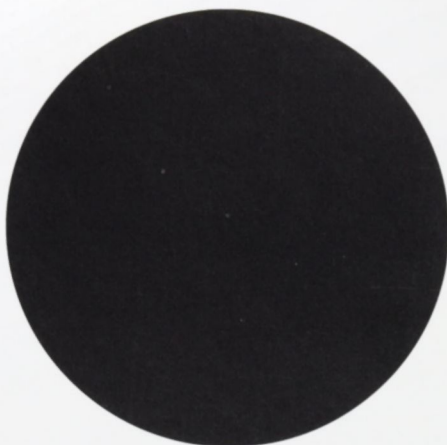

Then came the fall of the wall and the opening of the borders between the east and the west. With this new found freedom came the end of the "Cold War" and "DRAWDOWN". The U.S. started to pull troops out of Europe. Germany was hit hard and Nuernberg in particular.

In June 1993 Nuernberg ES at Montieth closed its doors and Nuernberg Middle School became a part of the high school. Erlangen ES is slated to close at end of SY 93-94 and Kalb ES shortly thereafter.

## "JOSEPH MICUCCI ON VIOLENCE IN AMERICA"

### DO THE RIGHT THING

Reporter: Joseph what is your opinion on violence in America?

Joseph: I'm the wrong person to ask.

Reporter: Why?

Joseph: Seriously, in Erlangen we've had problems.

Reporter: How have you solved the problems?

Joseph: I learned from my mistakes. Also, I've had support from my parents.

Reporter: Are you going back to the United States?

Joseph: No

Reporter: So, you're going to stay in Germany.

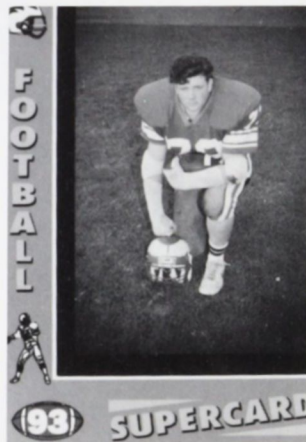

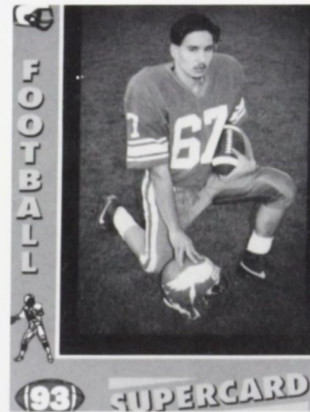

Joseph: Yes. I'll finish high school, get a job and take college courses. My whole family will stay in Germany for the next few years.

Reporter: Joseph, how can we solve the problem of guns in the hands of America's youth?

Joseph: Make guns harder to get. They're too easy to get now. Stricter laws on people purchasing guns would probably work. Plus, there should be stiffer penalties for people who get caught with guns.

Reporter: Do you think that people will begin to solve problems in other ways if there are stiffer gun control laws.

Joseph: if they have no guns and they can't get them, other ways will be used to settle arguments. We have to begin to teach young people conflict resolution.

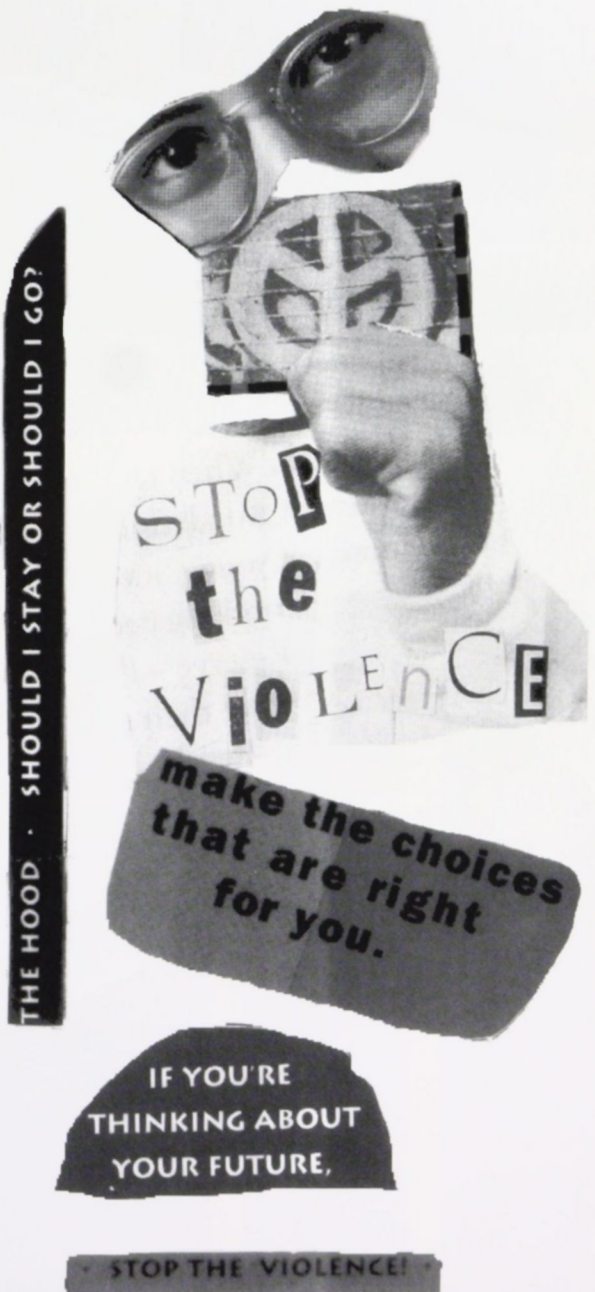

Reporter: What age should parents begin to teach children about guns and solving problems?

Joseph: As soon as they begin to pick things up, like their toys. Strong family values are also important to keep young people on the right track.

Reporter: Do you have any advice for underclassmen in Nuernberg?

Joseph: Stay in school. Without school you aren't going anywhere. Say, "no," to peer pressure. I've learned to

not always do the things that my friends are doing.

There have been a lot of people that have influenced and touched my life. My mother is one of them. She is a person who has instilled a lot of values in me and has tried her best to raise me to be a good person. Also, my father has had a tremendous influence on my life. As well as being a father figure he has been one of my good friends. Through the years, I have met other great people and developed friendships that will and still do touch my life. I will forever keep close to my heart, Horacio Hart, Enrique Hernandez, Vanessa Hassell, Mike Edwards, Arnold Delacruz and Jebarco Hairston. They helped make my senior year something that I will always treasure and

# “From the Heart” by Marissa Pichardo

remember. My advice to my classmates is to treasure the time spent with your friends because before you know it they might be gone from your life forever.

Love,  
Mom and Dad

If you  
THINK  
you can  
OR  
THINK  
you can't  
you're  
RIGHT.

BRANDON

You've come a LONG way, Bland!  
We love you,  
Mom, Dad

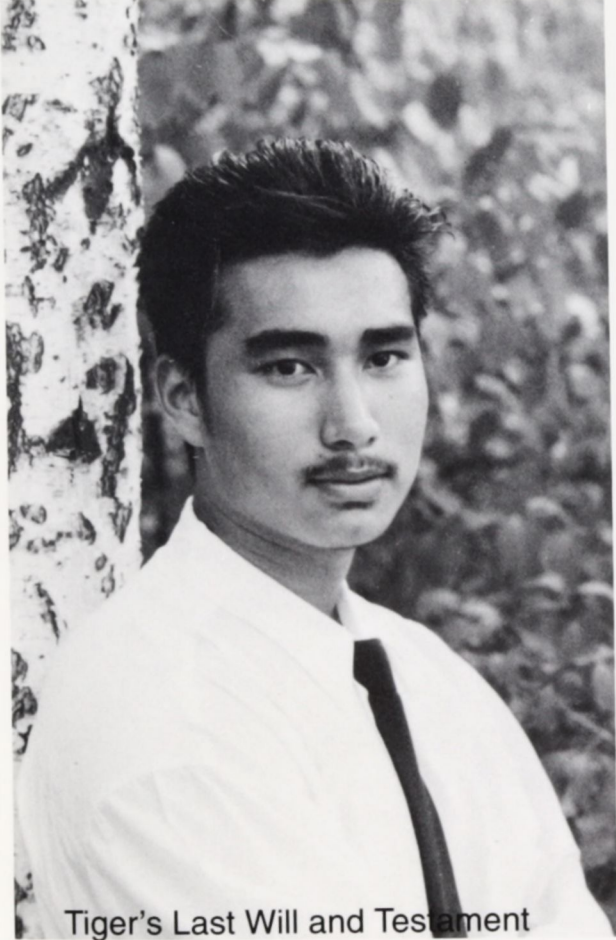

Vanessa,  
We are so proud of you and love you  
very much.

Mom & Dad

I, Demian Marmion, do hereby bequeath the following to the following. To Mike Edwards a pair of scissors and some gas money. To Arnold Delacruz a new knee, and a life supply of Mulder jokes. To Enrique Hernandez a case of Weight Gainer. To Steve Hass a new car and a Dolphins Superbowl ticket (if they ever make it.) To Zack assurance. To Jocelyn Perkins the right boyfriend and a song that will one day make her famous. To Haracio Hart my strength in exchange for his speed. To David Huan my CD collection. To Jamie VanHook my warm thanks and love for that chance she's given me to realize I can do better for my self, some fingernails, and to make it through college with success.

Tiger's Last Will and Testament

Good luck and joyfulness for Chico (Jorge) and Deanna. To Alicia a new job. To Brook Bransteter a big hug and kiss on the cheek for being a great friend and some new jokes. To Waleska Agosto a boyfriend, and my height in exchange for her GPA. To the underclassmen patience to deal with the attitudes of the upperclassmen. To Miss Lafleur a vacation away from the Attendance Office and her daughters. To Ms. East warm thanks for making the Senior English class fun. To my brother Aaron, my love and my clothes that he will one day be able to grow into. To my parents finally peace and happiness when I leave ... And to the Senior Class of 1994 good luck and great successfulness in life.

TO MS. EAST, warm  
thanks for making the  
Senior English class fun!

"Tido and Mary have become part of my life and have helped me straighten things out, but the most important thing they have done is shown me who Jesus Christ is and how he fits in my life"

FUN, FRIENDS, WILD, GAMES, TRUTH, HONESTY, CARING, SHARING. These are some words that describe Club Beyond. Club Beyond meets weekly for both Middle and High School students. Club is a place where issues that affect teenagers, on a daily basis, are openly discussed. Club Beyond offers various retreats and camps throughout the year that challenge the students in moral and spiritual issues in a fun, relaxing atmosphere.

"Helped me trust other people, learned more about God and it's fun." Sabrina Edwards

"Hey, Skii, no matter what happens in our lives even though you'll be in New York and I'll be in Italy, you and your family will always have a special place in my heart.

**Chris**, I always tried my best to make you smile or to be happy so maybe you would be, but of course there's too many things that "\_\_\_\_\_". There's a lot of interesting stuff out there or that "one thing" that'll light up your life. I miss you a whole lot and I hope to see you again some day.

Out of everyone to hang with you chose me, Jess. Thank-you for being there for me every time I needed you. Thank-you for the "metriyat frekedel." I LUV ya and I'm really gonna miss ya. "Rocky-Roooad, Uh, huh."

**Yasmin**, be careful over the summer you might start to see some blonde streaks in your hair over there in Oklahomie. I wish you were still here. I miss your friendship, majorly. Cuedate. Yovoy a tratar a escriber mas.

**Deanna**, Hey you, you really listened to all my boring stuff and understood me in a way no one else would bother. Acuerdate de este ano y la clase de Espanol.

**Shawn**, You're such a sweet person with a beautiful smile, thank you for laughing at my stupidity.

**Dave**, I'm always so dead around you but you still pay attention to me, you're a great friend.

I don't have much room to say how much I appreciate everyone who's been nice to me and accepted me. Donna, Ginger, Kari A., Kari S., Jen Gentsch, Jen Gortney, Sarah K., Tabatha, Philip B., Jen Pickett, Brooke, Susan, Becka, Tara L., Kara, and anyone else I forgot, I love you all in my own way.

To friends in the future and in the past, I hope that forever the friendships will last.
