Ms. Lemon's Third Grade Class

The Fantastic Fifteen

By Ms. Lemons' Class

Language Arts is something Crystal does well. You should hear the great stories she can tell

Alina always gets her math problems right; she can answer them in the speed of light.

We can always count on Steord to raise his hand and share lots of information whenever he can.

Christie jumps rope better than her whole block. She's so good, she can jump in her socks.

When Greg's on the computer in simulated flight, he twirls and twirls and blasts the enemy out of sight.

Rynel knows how to draw a lot of cool stuff; but when it comes to girlie things HE'S HAD ENOUGH!

Alex runs at the speed of light. He can run all day. He can run all night.

Hank is a really popular guy. He is the one who likes to fly.

When Brenna is modeling and striking a pose, she looks really cool in all of those clothes.

Tyler is a master at building with Legoes. He can make things and put them into shows.

Basketball, rugby, and baseball; T.J. knows how to play it all.

Keeping the peace and stopping our fights, is just two things that Holly does right.

Alyssa does good. Alyssa is great. She's awesome in school, lots of CDs she makes.

Brittany does well on every math test and with her cheerleader she's the best.

Chris can run swiftly, like a cheetah cat. He answers all the questions, count on that.
