BOOKS

Closets, blackboards,
Guinea pigs, too.
Little goldfish,
A hole in your shoe.

That's what you find
In records and books,
In the shelves,
And hanging on hooks.
by Anita Bright

Red is...

Red is a tomato, red is a heart,
Red is your arm when hit with a dart.
Red is the color of a British guard,
Red is your rear when home comes your
report card.
Red is the color I like best,
Red is the F on your history test.
Red is your sheet bundled up in your
bed,
Red is the cut in the middle of your
head.
Red is the color of Superman's boots,

Red is the color of Spiderman suits.
Red is the color of frozen toes,
Red is the color of Rudolf's nose.
Red is sometimes the color of war.
But sometimes red is a bore!

CHRISTMAS

Christmas is the time of joy.
Trains and dolls and games
Oh Boy!

There is gifts under the tree
And children shouting happily
And on Christmas Day,
The children love to play
And as you can see that Christmas
Day

Is a very merry day to play!
Bells are ringing.
People Singing,
And that is Christmas Day

Gesturben
(Mountain in Aberstdorf Germany)
-that we climbed

On top of Gestruben
We sat down to eat.
Our bodies were tired
Especially our feet.
We climbed for three hours
With backpack and map,
Made sketches of flowers
Took notes of tree sap.
The mosses and lichens
Observed on the trail,
Became part of our lessons
Like daily detail.
The flowers were many
we dared not to collect,
Signs stated vorboden
That meant to protect
On up to the gorge
To see nature's work,
Of gushing great waters
That cut through the earth.
A slice of a mountain
Where rock cliffs stood bold,

Made one continuous fountain
A sight to be hold.
At the end came the calm
Chasm walls were to cease,
God's work had been done
Quiet waters were at peace.

"KING TUT"

King Tut was nine years old
when he became King Tut and
he died at the age of nine-
teen. The man that discov-
ered King Tut's grave was
Mr. Carter. Carter found a
tablet with a warning to
stay away. Carter destroyed
the tablet so the workers
would work and not run
away.

Falling Snow

See the graceful snowflakes
Falling from the sky;
Soft and thick they lie,
On the window-ledges,
On the branches bare;
Now how fast they gather,
Filling in the air.

Look into the garden,
Where the grass was green;
Covered by the snowflakes
Not a blade is seen.

Now the bare black bushes
All look soft and white
Every twig is laden.....
What a pretty sight!

School! School! I like school!
It's fun. It's perfect. I like
It
it. We can walk to school,
we can talk about the rule.
That's school! We play, we can
say, tell a tale. That's what
school's about. How about you?

What Christmas means to Me

Christmas is fun. You hang up
 Advent calenders and see what you
 get each day. One Christmas Eve
 I put up my stocking. The next
 day the stocking had candy and toys
 in it. Every Christmas Eve in
 Germany we always go to my Grand-
 parents for dinner. And every
 Christmas day my Grandparents come
 over to our house. One Christmas
 Eve it was snowing hard and we went
 on our sleds. Christmas is fun.
 One Christmas we were on the top
 floor balcony yelling and singing
 carols. We get lots of toys on
 Christmas day. And that is what is
 what I like about Christmas.

When I'm grown and gone to other places
And when they'll ask me what was fun
and what was memorable,
I'll tell them with a smile:

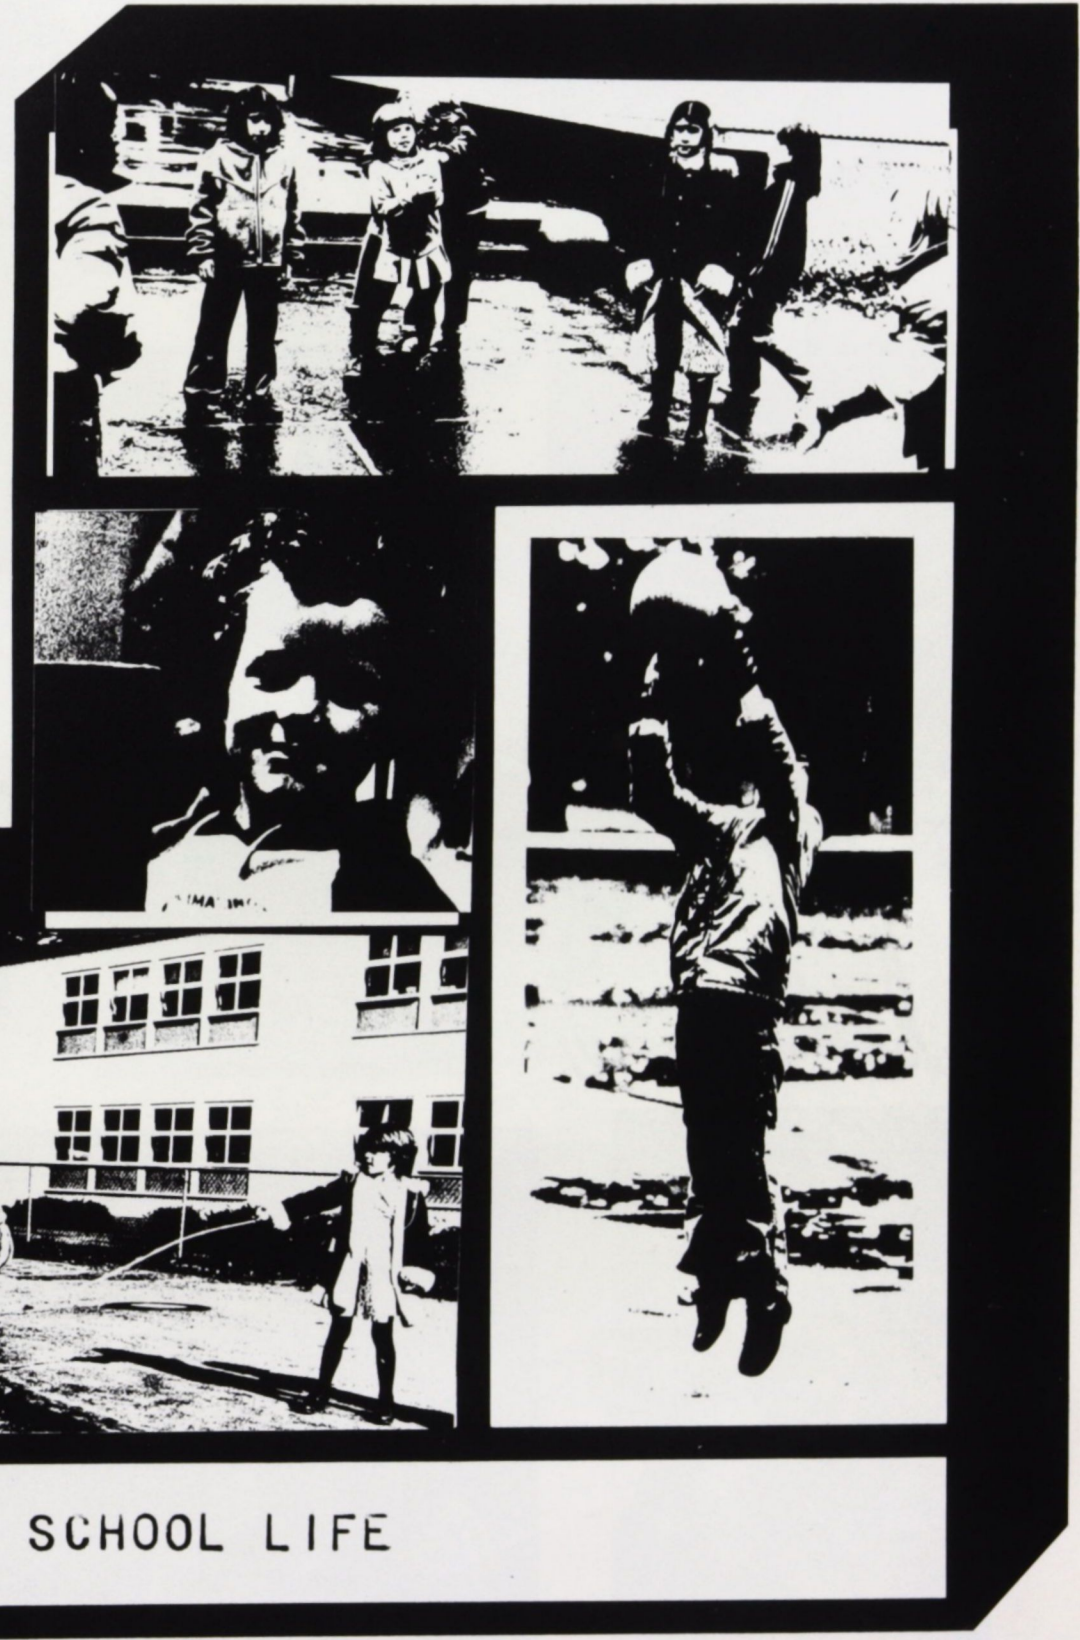

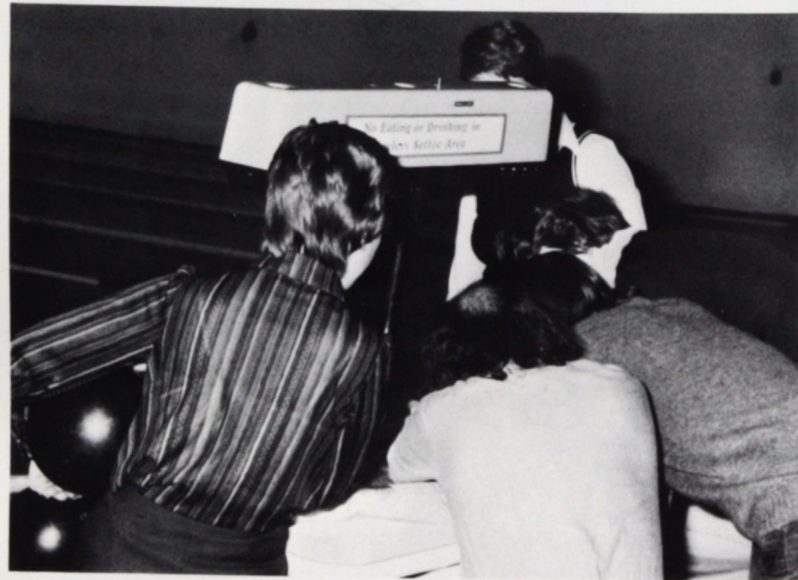

I remember the teachers and principal,
The trees around the school in the fall...
The playground, the fort, the swings and bars
Blisters on my hands and tons of sand in my socks
And when we pretended we were birds,
Looking for scanty toothpicks - foods.
The fun runs (I'm a two-miler!)
The elegant palace in Homberg
And rainsoaked, sad Saalburg.
...and what did you say? I couldn't hear you
because of that plane!
The lunch lines are long
The busride is crazy:
Noise everywhere and the Germans are racey.
But I loved music, art, Rome, Greece
and the tomb of Tut -
Rhein Main is the best school we've got!

This is a Christmas Around the world party. We are sampling foods from other countries that we have learned about. by Jay Perry

Christmas Around the World
Christmas around the world is a fourth grade project. It's about Christmas in different parts of the world like Mexico, England, and other countries. Every day a class would go to a different country everyday until the class would get to their homeroom.

And then every fourth grade class would have a big dinner. There would be food from every country like Swedish meatballs, cookies from Holland and other food from France, Italy, England, Mexico and other countries.

And that's what Christmas around the World is about.

My Space Trip
If I had a rocket I would go
to Jupiter. If I went to space
I will have a spacesuit helmet.
The air is in a big jug on my
back. You go to space you will
see stars and planets and the
sun and moon.

Space Creatures
They may look ugly.
They may look gross.
Sometimes funny,
With the things they do.
They live in space
And one is Yoda.
And much, much more
What are they you might guess
Space Creatures of course.

Help I'm Drowning
 What do you mean a shoe can't
 drown? Well I can. I am a fishing
 boot. With me on you can walk out
 in the water without getting your
 feet wet.
 My owner Tom loves to fish. He
 mostly likes the deep water fishing.
 He never thinks of me trying to hold
 my breath, while he's catching his
 supper. Anotherthing is his dog
 Master who chews on me when Tom
 isn't looking. I've been sewed
 up so many times it's pitiful.
 I wonder why he couldn't have a
 man's pet like a hamaster or a
 bird. Someday I'll be so chewed up
 water will leak in my shoe and
 his feet will get wet. When my
 boot starts sagging down his leg
 he should know I've been trying to
 say "Help I'm drowning."

Daddy Fixes Breakfast and
 Mummy Slept Late

Daddy fixed us breakfast.
 He made us each a waffle.
 It looked like gravel pudding
 It tasted something awful.
 "Oh, I'll try again. This time
 I'll get it right."
 But what I got
 Was in between
 Bitiminous and anthricite.
 "Ha, Ha." he said, "I'll have
 to start all over."
 But this time what
 landed on my plate
 Looked like a manhole cover.
 I tried to cut it with a fork.
 The fork gave off a spark.
 I tried a knife and twisted it
 Into a question mark.

I tried it with a hack-saw.
 I tried it with a torch.
 It didn't even make a dent.
 It didn't even scorch.

Next time Daddy fixes breakfast
 When Mummy's sleeping late,
 Then I'd skip the waffles.
 I'd sooner eat the plate!
 by John Urriquia

One day I was going to school.
 I tripped over a rock and fell
 in a pool.
 The water in the pool was very
 cool.
 I felt like a fool when I was
 late for school.

Hostages
Iran is a country on the Persian Gulf. Iran use to be ruled by a man called the Shah. The Shah was America's friend. There was a revolution in Iran. Everyone in the Embassy was taken hostage. Later 13 of the hostages were freed. Some were women and some were Blacks. The hostages have spent more than 400 days there. My it will be good for them to get home and see their family!

by Alissa Sytsma

Thursday, January 22, 1981 was a great day for us because we shared over an hour hugging, singing to and talking with our dear former hostages - now "returnees."
