King high

No one knew what it had in store. But all could look around and see, things wouldn't be as easy as one, two, three.

Ask anyone and they'll tell you; this school year was different. Dozens of students have come and gone, replacing and refilling the E.J. King population. In a school filled with Filipino-Americans, it was both a surprise and a relief to see the King population diversify, but they nevertheless maintain a majority. Another change this year came with the split of the Elementary and Middle/High School. Some say they don't feel a difference, but that is a good thing; changing without knowing it is the best kind of change to be had. This change will bring in more teachers for the coming years and will thus increase class options. That's good, but in all fairness, the school year wasn't easy. The ever-changing student population brought in so many new ideas and that it was hard to find what made King High kids kick.

it was time
for school to start once
again

1 E.J. King Students crowded around making their way towards the park during a bomb threat drill. **2** Some got so bored that they braided their hair as Nicholas Devine does here. **3** After school, you could see the streets around campus fill up with skaters practicing tricks. Nathan Lords is among those students landing after doing one. **4** Gieselle Sarmiento check the time for Rachele Ruelos, excited to get away from the sun. **5** Students cheering during a soccer game. **6** During lunch, we saw students gather to play with a hackey-sack, as David Years and Lara Degzuman do here.

STUDENT LIFE

1-4. Vicky Macapagal, Christopher Years, Marc Bote, and Unique Hill catch some Z's suffering from the disease of mass boredom at our school.

It's easy to say that this school sucks, but that comes only from the cynical. The key to having fun is getting involved. This year, the Student Council made a real effort to boost school spirit and pride by expanding the number of activities that went on this year. The number of school dances went up by one, adding Sadie Hawkins to the Halloweenish Dance and Snowball. They also fitted in two more pep rallies this year than last year, which helped boost school spirit. School, in general is most definitely still boring, but life does exist.

What? life, where?

6

5. Nick Devine, decided to make the best of his time by braiding his hair. 6. Things aren't as boring as they seem. Vincent Villano comes to support the Softball game during the weekend.

 Fright Night!

8

7. Ron Mojica, Alex Coronel, Peter Keaney, and Nick Devine take a break from the Halloweenish dance to take a picture with the pumpkin. 8. Students supporting the soccer game against our 'rival' Iwakuni. 9. Lara Deguzman and David Years play a game of hackey sack during lunch.

9

PEP RALLY

1. The junior class cheer during the competition to be the loudest and most spirited. 2. The Cheerleaders play the 'Human Chain' game against the wrestling and basketball teams. 3. Some juniors playing the painful 'Human Chairs' game, which they eventually won. 4. The Boys' Basketball trying to turn while playing the 'Human Chain' game.

The year began with an awesome Pep Rally that got everyone hyped up for the upcoming year. The most memorable part of the first Pep Rally was the Seniors running through their poster, tearing it in half. But the fun didn't stop with them. The sports teams enjoyed a new addition to the rally by playing the 'human chain' game against all the other sports teams. The momentum built at that Pep Rally didn't carry over to the second one however. Regardless, Pep Rallies this year were different from last year. There was more student enthusiasm and it helped bring some fun to school.

Are you ready to have fun?

Do YOU have spirit?

This year, the Student Council decided to add games to Spirit Week as a part of the competition. Spirit Week kicked off with twin day, but ended up canceling the game that day because of no participation. However, the next day brought on an amazing difference. Over 40 students came to school clad in pajamas. The game, which was water balloon dodge ball, attracted just as many students and proved to be great fun. Wednesday was similar to Monday; little participation in dressing inside out, and little participation in the game during lunch. Thursday was class colors day as well as Pep Rally. You could see the difference between classes because of the different class colors, which says something about how much spirit our school has: enough.

1. Student Council President, Vincent Villano tries to get the Water Balloon Dodge Ball participants together to play the final round. 2. The Sophomore Class shows off their school spirit by sporting their orange shirts and yelling during the "Y-E-L-L" Cheer. 3. Edward Aquino feels tired in his jammies for Pajama Day. 4. Sayako Iwanaga and Natsumi Grubbs dress up in cow pj's for Pajama Day.

5. Ralph Roe squeezes out water from his socks after playing water balloon dodge ball. 6. Carlos Solorzano and Kimesha McCrae show off their jammies. Nice Sponge Bob! 7. Lara Deguzman takes on the sophomore class in the water balloon fight. 8. Kyle Aquino dresses up as Quayle Man from Doug for inside out day.

SNOW ball

1

1. Everyone came to Snowball in a snazzy suit, except for Nick Danzi who looked like a Harbor View Waiter. 2. The crowd goes crazy trying to get Mr. Mans on the dance floor. 3. It's not Mr. Mans break dancing, but the crowd cheers anyway. (See the feet?) 4. Stephanie Sprague smiles around good company.

For the first time in years, Snowball was scheduled during the winter, but when word got out that Snowball would be cancelled because of snow, "irony" was the only word to describe it. The Student Council rushed to reschedule the event, but found trouble finding a new date. When all looked hopeless, Commander Heitstuman saved Snowball by allowing it to take place on the ROTC Ball date. Thanks to ROTC, Snowball was a success. With a record number of people who came, and the cool columns, people had a great time celebrating one of E.J. King's oldest dances.

5. Before the dance began, people had the chance to take pictures, as Kathleen and Kyle wait to do.
6. After dinner, Sayako Iwanaga and Aiko Church take a break to watch who's dancing on the dance floor. 7. Draonne Johnson tries the electric slide.

KING PEOPLE

gossip, like peanut butter spread quickly

and at times got sticky. Consequently, students fell into the gossip grapple.

Imagine yourself walking through the halls, people behind you are snickering and staring. Then you walk into a classroom and a sudden silence falls upon your entrance. With that, your convictions are confirmed: you are being talked about. This is, unfortunately, a far too common experience among King students. In a school of 300 students, it's hard not to be apart of it; if you're not doing the gossiping, then you're probably being gossiped about. This isn't the first time you've heard about the gossip grapple. However, the question is what you do when you are enticed by intriguing new information. Do you fall for the trap or take the moral high ground? We all agree that tasting the peanut butter is all so satisfying, but what happens when there's nothing left. Your fingers are left sticky and in a mess. If there's anything that you learn this year, let it be the trouble people go through when you fall into another gab session.

1 The AP English class at Hirado Castle. **2** Seniors, Jessie Sanders, Sayako Iwanaga, Natsumi Grubbs and Scotty Reynolds at the park during the bomb threat drill. **3** Erika Ongoco collaborates with other lawyers during a mock trial for the Street Law class. **4** Mari Tumbado, Nick Danzi, Edward Aquino, Cantrell Caraballo, Richard Hernandez, and Mark Lagrisola take a break from running during Cross Country practice. **5** Sophomore, Dianne Villano shows an unusual hand sign for the camera. **6** Gabe Smith, on the other hand, shows a more familiar sign: "Peace!"

Here they are, the graduating class of 2004. They are the best and the brightest of E.J. King. This talented bunch has it all—passion, ambition and creativity to truly make the world a better place. Let's just hope the world is ready for them.

NEN 09.22.1984 GUAM

"THANK YOU'S": I give special thanks to my family especially my parents Eddie and Julie Castro for caring, loving, and guiding me through my life, no matter what. Joey thanks for everything that we've shared together throughout our lives. Elicia no matter what I am your older brother and I'm always here for you. We made our trop here to Sasebo solid. Thank you guys for everything. I would also like to acknowledge my grandmother for always giving me positive advice whether I was good or bad. Grandma, you supported me throughout my whole life even though were away from home you always told me "before I do anything bad think of me." I love you all and could've never come this far without all of you guys.

I also give special thanks to Gliaza-Lynn for your support, your compassion, your guidance, and for your love, which I truly appreciate. Thank you nen for being extremely kind and most of all being very patient, especially when things are rough. Soon we'll be off to College and start our life! I'd also like to add thanks to Mr. And Mrs. Ibarra for accepting me in a lot of different ways thank you very much. You guys make me feel like I am part of your family and I appreciate that a lot. Thank-you.

MOM & DAD: "I can't thank you enough for you unconditional love. I couldn't have gone as far as I did without your unending support and encouragement throughout the years. Now, it's time for me to go as far as I can in life, but don't be sad, for I'll make you proud, I promise. I love you both so much."

RYAN: "You will always be my irritating, sweet, and big brother. You were there for me when mom and dad just didn't seem to understand. You gave me advice when I needed it. Thank you for being my manong. Luv ya."

LUKE: "From laughter to tears and from good times to bad, you stuck by my side. Thank you for always making me laugh and putting a smile on my face. You have made me so happy and I can't thank you enough. Besides that, you have made it this far and still have goals to accomplish. I am so proud of you! You couldn't have don't it better. I love you Nen."

CLASS OF 2004: Thanks for all the great memories. Sasebo wouldn't have been the same without you guys. Good luck in the future and I hope you all go far in life. Take care...keep smiling...and reach for the stars.

MESHA 02.02.1986 BROOKLYN, NY

TO MY PARENTS: "It's been a long hard 12 years but now it finally came to an end. First off I want to give much love and thanks to my mommy and daddy. Thank you so much for supporting and being behind me in everything I did good or bad. I love ya'll so much! Without ya'll I wouldn't have made it this far."

TO MY FRIENDS: "I want to thank my homeboy's that I chilled with in and out of school: my lil' brother Rasshad, Kiki, Cliff, Marcus, Tyrone, and Terrance. I know we had our good and bad times but still till this day we all stayed tight and I got nothing but love for all ya'll. And of course, I can't forget about my homegirl's that been down with me since day one! Y'all shawty's stay acting a fool but I love all ya'll till the end. My cousin Charlotte, Brittny, Michelle, and Yudia. Ya'll are a TRUE definition of real friends. I love ya'll so much. Thanks for the memories. Ya'll be missed!"

IN THE FUTURE: "I'm not really sure what I see myself doing. I might to go college in New York, Florida, or Georgia to become a Social Worker. If not, then maybe I'll go into the Air Force and make a career out of that. And if I change my mind when the time comes about them then maybe I'll just work somewhere till I find out what I wanna do."

IDEAS & FEELINGS ON THE SCHOOL YEAR: "WOW! Made it! Not that I had any real doubts but yeah...it doesn't feel like it though...still seems like I'm a sophomore. I didn't expect this year to be all that great because so many people left, but I guess I was proven wrong. Life is what you make...making lemonade from lemons. This was the first time I wanted the school year to somewhat slow down, just enough to enjoy it...but its been good..."

THANK YOU'S: Although I am sad to leave everything and everyone behind, I know that there is more to come in the future. That there is a reason for why things happen. I'm going to miss all of you, some more than others...hehehe...but still, I'll miss you guys. I've waited so long for this day to come, when I finally get to leave, but now that I look back on it, I can't believe how the years have gone by so fast. There have been so many memories made which assures me that things can only get better. To all the people who have made a difference in my life, whether you know it or not, you have played a part whether it was the leading role or the cue cards dude, you are the ones who have shaped me into the person I am today. THANK YOU.

the class of 2004

FINALLY

There was a theme to sayings heard in the High School this year: "I can't wait to leave" or, "I can't wait to graduate..." And when heard, most people thought the seniors were talking about getting out of high school. What they all meant though was, "I can't wait to get out of Sasebo." But after they leave, the unthinkable becomes the inevitable: the Seniors can't wait to come back and visit. Though it may not be true for all, they will miss Sasebo. This boring base in the middle of nowhere becomes their memory box of good times and friendships. Why? Believe it or not, the answer is for the same reason why they want to leave. The smallest things they did together made their best memories. Talking on the phone, walking around base, chilling at the Teen Center or at Bayside, skating at the park, walking through the Ginza, or taking the train; no matter what it was, they found a way to make the best of what they were doing. When people ask why they would want to come back, the answer is partly because Sasebo is in Japan, and partly because the experiences you shared with friends are remembered in every step you take around this base. For all its truth, none of this would be enough to keep them from leaving. It's the real world out there and they're excited to finally get to live it.

NOW
The c/o 2004
today.

INNOCENT DEVIL 08.19.85 BROOKLET, GA

MOST INFLUENTIAL AFTER SCHOOL ACTIVITY: "Throughout the three years I have been at EJ King I have changed a lot, mostly due to softball, band, and drama. These three activities have been something I was glad to have a change to participate in these activities. It was through these activities that I have gotten to make lots of friends. Many of them I have become really close to."

TO MY FRIENDS: "I would like to thanks Matt, Aileen, Tony, Damien, Nicole, Saya, Natsu, Vicky, and Tine for putting up with me throughout these past few years! You guys are awesome and I'm going to miss you guys! Also Tonya and Sara, you know we miss you guys; we have to get together sometime! Thanks to anyone else I forgot to mention, you know who you are! I will miss you as I know you will miss me."

MOST INSPIRATIONAL TEACHER: "I want to thank Mr. Seitz and Mrs. Webb for teaching me so much, not only the class curriculum but you have taught me so much about life and the world I am about to step into. I will always jeep your words of wisdom in mind. As I keep my opportunities open and my career choices will remain open."

Sayako Iwanaga, 17

SAYA 07.19.1986 SASEBO, JAPAN

IDEAS & FEELINGS ON THE SCHOOL YEAR: "Oh I am graduating! This last year of high school was different. I never believed in 'Senioritis', but once you get it, you can't recover. I didn't have the motivation to do anything, probably because I don't want to graduate, and now, I have to wake up (and smell Starbuck's Coffee)."

IN THE FUTURE: "Ten years from now, I think I'll be back here, working at Huis Ten Bosch (if it stays open that long). Or maybe I'll be in Africa going after tignons and ligers (are they in Africa?). Whatever I do, I'm sure I'll be satisfied with it. I know one thing for sure: I'll have three large breed dogs and someday go dog sledding."

THANK YOU'S: "There's too much to thanks and there's too much I'll miss. I thank all my teachers, both here and those who moved, Mrs. Carmen and Mrs. Maria for all those troubles I caused being a 'space-A' student, and especially Yukari-san (I knew her since she was a librarian) for dealing with me all these years. Thank you class of 2004, and I'll miss you."

Peter Keaney, 18

CRICKET 08.05.1986 VIRGINIA BEACH, VA

IDEAS & FEELINGS ON THE SCHOOL YEAR: "What can I say? High school is finished. It was a good run, and senior year was nothing like I expected it would be. I came here with the expectation of spending a year in purgatory, and for a while I was completely right. But then I decided to stop acting like an idiot and have some fun. To do that: I (among other things) willingly ran up a mountain, wore spandex in public, was hired and then fired as manager of a band, ate curry rice at 3 AM, and I was insulted by a Japanese lady (I am still not sure why). None of those seems particularly interesting or fun. If I had been by myself doing those things, then they probably wouldn't have been fun at all. But everyone here made life a lot more fun than it could have been, and I'm thankful for that. Life here could have been a whole lot more boring and much easier to leave. I'm going off to college, but senior year has become something I'll look back on and smile about.

And I'm still NOT Yen Man!

Stephanie Sprague, 17

STEPH 5.23.1986 SASEBO, JAPAN

MY DREAM CAME TRUE: "I just want to say thank you to EJ King High School and every one at EJ King. My little dream before was to attend EJ King and I was always thinking about it. Of course, I liked Japanese schools also but I still wanted to attend EJ King. It came true and I was excited about it."

INTERESTING EXPERIENCE: "I got to have so many interesting experiences, especially with sports. I can't believe it, but I love sports now. I didn't have any confidence before but since I joined Softball for my first time, my point of view changed. Which allowed me to join sports for every season. I really enjoyed them. It made me more confident and made me try harder in everything I do in my life. At the same time, it has also taught me more English. English is the next thing that made me confident and made me proud of myself. Now I am graduating, and my dream has come true. Now I have new dreams waiting for me to come true."

TO MY FAMILY: "I love you Mom, Dad, and Shannon. Thank you for supporting and cheering me up. Thank you to all the friends that supported me. I love you all...See you in the future!"

Vincent Villano, 17

VINCE 05.19.1986 LAKEWOOD, WA

TO MY FAMILY: "Mom, Dad, Marc, Princess, and Jan... just want to say that I couldn't have made it this far without you guys. For the last 18 years, you guys have all always been there for me even when I was a little punk. You guys loved me even when I was less deserving and you guys showed me what I could become. Now, it's my turn to go out into the world. For the next 18 years, I'm going to spend my time proving to you all what you have proven to me: unconditional love. After the 18 years are over, I don't know. Maybe I'll renew my vow or something. Just kidding. I'll love you guys forever!"

TO MY FRIENDS: "Looking back, I realize how much of a pain I was. To be honest, I don't know how you guys put up with me. It's okay I guess because I put up with Erika right? Kidding! Erika, you are a great friend. I was lucky to have met you, and those who haven't are missing out. To everyone else, thanks for the 'good' times."

TO THE SENIOR CLASS: "Hey guys! It's been four years and finally it's our turn. We have been waiting to finally get out there and show the world who we are, but I can't help but think about the doubt in the back of my mind. On the other hand, our class is full of talented and intelligent people and I know you all can do anything you set your mind to. I mean, we made it through Sasebo right? Anyways, good luck to all of you. I know we'll need it. Congratulations to the Class of 2004!"

Jessie Bantug, 17

JESSIE 03.29.1986 SAN DIEGO, CA

TATAY & NANAY: "Through all these years we have shared very special moments, I thank you for being there... through all the good and the bad times. Thank you for giving me respect, enough to allow me to make decisions on my own and believing that I am making the right ones. And even if sometimes, I make the wrong moves, thank you for believing that I can face the consequences. You have seen me grow up, blossom into a woman and you were there through all the experiences that I have gone through. Thank you for the pat on the back when I do great, for the words of encouragement when I feel down, for the reminders when I am going the wrong way, for bending over backwards to make me happy... thank you for everything. Salamat po sa pagmamahal na ibinuhos niyo sa akin."

TO MYBEST FRIEND: "Thank you for believing in me and in what I can do. You have told me words, which inspired me when I thought no one cared. You have brought out the best in me when I thought I could no longer give more than what I have given. You have always been there to make me smile, to wipe my tears, and to catch me when I fall. Thank you for loving and understanding me. Alam ko that things have not been easy pero ng sasalamat ako na kahit ngayon ay ng mamahalan tayo. 5254

CHRISTOPHER W. YEARS, 18

YEARSKI 02.20.1986 ROCHESTER, NY

MOST INSPIRING TEACHER: "The teacher that inspired me was big M² or Mr. Moore. He always made class fun and educational. What ever we did he always had to make sure we had fun and that we were never hungry. Thanks for all the great times and help Mr. Moore, I'll never forget you."

MOST INFLUENTIAL SPORT: "I'll never forget when E.J. King finally got a baseball team. In just three short years, we went from a struggling wannabe team to becoming the best team in the league. We had so much fun on the trips and during the games. I'll always remember the crazy things we did. Thanks for all the great times and support through the past years. Keep up the good work and always have fun."

MISS YOU'S & THANK YOU'S: "First, to my parents, thanks for all that you have done for me and all your support. I know that I've caused you hell, but I hope I made you proud. David and Dennis, don't give Mom and Dad too much trouble. To my friends; we finally made it and not it's time to show the world what we're made of. Thanks for being there whenever I needed someone to talk to or chill with. We have great memories. To Mike Kling, I love you so much, thanks for all the laughs. You'll be in my heart always. To my Baby, I love you so much. Thanks for always being there. You always keep me happy. ApC 'till the end!!

NICHOLAS DANZI JR., 18

NICK 12.13.1985 VIRGINIA BEACH, VA

SENIOR YEAR: "This year is most definitely memorable. Everyday was interesting. Cross Country is one of the greatest sports that I have ever been a part of. Inter-act Club is inter-esting!! No, really!! It snowed!! I guess I'm excited but not really. Of course, I'll miss everyone and everything here...soccer, the cherry blossoms, the fresh air, the clean streets, the friendly people, yes, and even pizza-Fridays...maybe. Sasebo may be small, but so is the cafeteria—I mean, but so is the senior class—wait...it gets really hot in the summer. So yea, you might end up missing this place like I will."

THANK YOU'S & MISS YOU'S: "I don't think that I could make a list of people to thank and recognize to fit the margins of a page. To prevent the trouble of leaving anyone out: thanks (applying to all amigos, profesores, and family. Gracias, familia, for the support and putting up with me all these years. Merci, to the teachers for all the assistance. Runners, keep running. Soccer players, keep...running...and kicking. Oh, remember that one time—okay. Err, and everyone keep doing well at whatever you do. SO domo again, and may you all enjoy success and happiness. Hai, soo desu-ne...Ganbatte!! (okagesamade).

Richard Hernandez, 17

CHODE 11.27.1986 SAN DIEGO, CA

TO MY FAMILY: "Well Mom and Dad, high school is finally coming to an end, but I couldn't have done it without you. Your great support has helped me to survive all these years and to develop into a successful person. Despite all the hardships we have endured, we have always been able to resolve our problems. I am greatly thankful for all the sacrifices made to help me get to where I am today. As for Monica and Jesse, I may not have always been with you, but we will always watch out for each other, so take care. I wish for the best for all of you and love you with all my heart."

TO MY FRIENDS: "As for my friends, particularly Kyle, Nick, Ralph, Ron, and my "twin," Kate, you have always been there for me and helped me whenever in need. Thanks Kyle for all the stuff we've gone through and all the good times. Finally to all you 2C's out there, never forget me and good luck next year AND have fun in Guam! Take care and good luck to all of you in the future!"

Andrew Stephens, 18

DREW/ DRUSKI 05.21.1986 SAN DIEGO, CA

MOST INFLUENTIAL SPORT: "Before I say anything I would like to thank my parents for supporting me throughout my high school life. Especially when times were hard for me on the court and off the court. Five years ago was the first time I ever put on a E.J. King basketball uniform. Playing with the team changed the way I play basketball today. I probably won't play ball as much but I'll always think about the good times I had with the team and all the tough times we went through. I want to thank all the guys that ever stepped on the court with me. Thanks for the laughs and good times."

MOST INSPIRING TEACHER: "Two years ago, the best teacher in my life was Mr. Rick Moore. This man made the word fun in school fun. There is no teacher that could ever replace that man."

THANK YOU'S & MISS YOU'S: "I'm going to miss this place, especially all the people that supported me throughout the years.. Thanks for all the good times here at E.J. King. Dre and Mark thanks for everything you've done for me I'ma miss yall. Homeboys for life. I'm especially going to miss this one special person, yea you know who you are." are all synonymous with bad luck. Student athletes tried all sorts of crazy things in order to prevent losing streaks and individual struggles.

For good luck, the baseball teams gives a light tap to the top gate bar entering and exiting the field. Apparently, it has helped. This third year baseball team has been getting better and better, but that is not the case for most of the sports teams. Our school, which has usually fared well in games like basketball, volleyball and softball, suffered from the results of a senior team who graduated away athletic talent. These sports teams are now made up of young first years that are just learning the sport, but are looking to be tough competition in the future. The good fortune of baseball has apparently rubbed off onto cross country, soccer, and wrestling. This year, all three sports brought a record number of players and all three have made a turn around in their losing streaks. Of course, those teams wouldn't attribute their recent strides to luck, but historically speaking, these teams have never done well at King. We may be witnessing a change in the winning vs. the losing sports teams at our school. Read on to find out how each sport fared at Far East.

The Cross Country team, a.k.a. 2C's, experienced such great improvement both in their performance and spirit. With a new breed of fast and enthusiastic runners and only six returnees, the King Cross Country team was finally in full swing, bearing both a full male and female division of seventeen runners. The team had meets from Misawa, to Yokota and Yokosuka, to Iwakuni and right at home at Isanura Park. Although they were not able to host the notorious run at Mr. Eboshi, the Cobras still took second place at home, losing only by a point to Edgren HS. To top off the season, they ran the infamous trail at Tama Hills. EJ King placed 7th out of 12 teams, but regardless of where they placed, they all believed that what was most important was the fun times they shared. From a team starting with a group of seventeen separate individuals, running against each other, now developed into a family...running side by side.

another year of SUCCESS

From the first day of practice, the tennis team new very well that this season would be a success. With nine returning players and six new additions, the tennis team was set to dominate over the other DODDS Japan teams. The long practice sessions where Coach Kendall critiqued and improved our every serve, ground stroke, and volley were coupled with the difficulty of holding on to their positions on the team. However, practice paid off in their matched where E.J. King remained undefeated in head-to-head matches against DODDS Japan schools and captured first place in the DODDS Japan tournament. By the end of the year, every single member of the tennis team found their skills highly improved and gained a greater respect for the game.

Starting from **SEPARATE**

As Told by Erica Onyiah

Entering the dark passageway, blinded by the light piercing through that darn window with the broken blinds, "You're a volleyball team?" The average height was 5ft. $\frac{3}{4}$ in., and some could barely touch the 7 $\frac{1}{2}$ ft. net, but when they stepped onto the court, they were all over 6 feet tall and no one told them otherwise. They were quick to fall on the ground and take that volleyball head on living by the volleyball saying, "The Floor is Your Friend". It was a shaky start with only two returnees. Their work was cut out for them, not only in teaching the skills needed to play, but to present a team that has gone out strong in the previous years. Their busy schedule included trips to places like Seoul, Nagoya, Kobe, and Iwakuni. Through all the sweat and tears shed, many friendships and memories were forged: charades, "dates", 2 L's, the glamorous Beetle, and ghost stories. In the end, they not only learned what it is to play and love the sport, but also what it takes to be a team off and on the court. Although they fell short at Far East, the team was recognized with the Sportsmanship Award.

A winning team

This year the Cobra wrestlers grew even bigger (both in weight and team size). The team had new coaches a team consisting of almost all new wrestlers. Despite this fact though, the wrestlers were able to take home many medals, even the first year wrestlers! One of the biggest challenges that the team has overcome though, is assembling a full team. But finally, at the end of the season, the EJ King wrestlers had all 13 weights filled, a very difficult task to achieve. The team has also showed a huge improvement from the beginning of the year to their last matches at the end of the year. The wrestlers worked hard and wrestled even harder. The many new wrestlers hope to come back next year and bring the cobras to victory.

The 2003-2004 Cobras Boys' Basketball team's year was one highlight in success. With four returning starters and three seniors, this team was primed for a shot as winning the Far East tournament. Also on board the team was Mark Rozic, the Cobras fourth coach in four years, with fresh ideas to lead the team to victory. In the regular season, the Cobras matched up well against the larger schools of the Kanto Plains and reached their peak when they were ranked 2nd in the Japan Boys Basketball League. The Cobras went into the Far East Tournament considered underdogs and were predicted to come in third place. However, the Cobras played hard and with much heart though the tournament and went on to beat the defending Far East Champions twice. This put the Cobras in a 2001 Championship rematch with the St. Paul Warriors. The Warriors edged the Cobras by seven points in the championship. Nonetheless, the Cobras Team was presented with Two Far East All Stars: Andrew Stephens and Mark Bote and the Far East co-MVP Draonne Johnson. Even though this season was one to be proud of, the Cobras are ready for the upcoming year to make their run for the Far East title.

1. The team: Jemari Nimedez, (Co-Capt.) Yudia Johnson, Porshia Bryant, (Co-Capt.) With only two returning players, and the rest of the team as beginners, the Lady Cobras knew that their season would be a test from the start. Every practice and every game helped each player improve their skills and build up confidence no matter if the result was a win or loss. Despite injuries and sickness, the Lady Cobras came together as a team. Their most notable victory came against Yokota, a 63-64 win in overtime. Only eight players traveled to Pusan, Korea for the Far East tournament but the Lady Cobras knew what they had to do to win. The result was a 5th place finish. All the time spent in practice and the time it took to realize they were a team was worth it in the end.

behind school spirit

A story by Sarah Watson

10

The group of girls that tried out for this year's cheerleading squad were nervous and afraid of what the outcome would be. The coaches walked into the gym holding what the girls knew were the results. Nervously, they all held onto their friends as if it were the last minutes of their lives. They knew they had worked really hard during the Cheer Clinic, sweating and smelling from being out of shape, but working to get back into shape. Finding out the results some girls left heartbroken, others jumped for joy, and some were still determined to succeed. The girls had trained hard in a short period of time to prepare themselves for Cheer Camp. The competition that was held in Misawa was a nerve wreck for most of the cheerleaders, but somehow they pulled through with smiles and spirits up. When they came back, they showed off what they learned and proved themselves to be the binding team behind school spirit.

a NEW beginning

As told by Erika Ongoco

Starting fresh, with their new uniforms, positions, teammates and coaches, this year's team had a lot of work to do. They had to go back to the fundamentals and show the coaches what they knew. "You guys gotta catch the ball! Use two hands! Glove in the dirt! Softball is all about catching, throwing, and batting," says that they've probably heard at least a thousand times but that's basically all to it. With so many "newbies", it was a tough change for the returnees to undergo with many being their third year together and having grown accustomed to the ways of "long ago". Undeclared by frustration, for the mere fact that they too had once been in those shoes, or cleats, the team came along just fine. Although the season started out slow, with only one team every home game, the glimpse of their potential to become a good team was evident in their wins and close games, as something seemed to finally click.

8

Entering our third baseball season ever, the E.J. King Baseball team was a little nervous, but they knew there was nothing they couldn't handle. They practiced hard for three weeks, and then took down the Canadian Academy's Junior Varsity team three times. The next weekend CA brought down their A-team, which was a slight challenge. They went lost the first battle, but were far from losing the war. They traveled up to Kobe twice to play them on Kobe's home turf. The Cobra's were victorious two out of three games. They went back to Sasebo for a few days rest, and then quickly flew back the next weekend to play in Kobe's invitational tournament. They beat Osaka, CA's Junior Varsity, but lost to CA's Varsity, sadly. They then moved into the championship and beat CA's Varsity down, 13-0! They also set 2 school records. E.J. King's first Triple Play and Josh Roe's no hitter. A great season overall, especially for a beginning team.

training ground
 AS told by Nick Danzi

A 3 to 1 victory against Iwakuni was how King began this year's season. Although the schedule was reduced by 2 weeks, the players still retained the spirit and drive in each game they played. A majority of the team was composed of new members, some of which thought they would've never joined. Only a small handful of people were returning players. After weeks of laps, sprints, and scrimmages, the team showed significant progress. Along with winning, the squad hoped to prove that they weren't just another small school. "They won't know what hit 'em," exclaimed Coach Chief Barr. Even though the group may have lacked the 4-year skill and experience of the larger schools, heart made up for that. No matter how strong your legs are or powerful your kick is, the strongest muscle in the body will always triumph—even in the case of a loss. A defender from Zama once noted, "But you guys *love* soccer." As long as the game was played to the fullest, we were all proud, but still looking for improvement for the next match.

go. But after school, there are clubs galore, so come and see what we have in store.

Whether it's Drama, Model United Nations, NJROTC, or Journalism, you could find the thing for you. Yes, school and Sasebo are boring, but what's the best part of joining a club? Travel! You don't travel as much for clubs as you do for sports, but you get to travel to far off places like Okinawa for ROTC or Tokyo for Journalism, and you get to stay there for a week. But joining a club is not all about fun and games. NJROTC had to go through weeks of intensive drills and practice to prepare for their exhibition. The Drama team had to stay after school to memorize lines and practice blocking. MUN worked endlessly creating resolutions and learning etiquette for their meetings. But all the hours put into their work paid off as each team came home with something to show off. Read on to find out how each team did at their competition.

A stranger sits outside the gym on October 16, 2003 and listens to the clamor within. A brief silence follows, then a faint applause. This pattern repeats until the audience is galvanized by three simple words made famous by Vincent Villano: "Where were you?" The stranger walks into the gym and is immediately engulfed in a sea of tension. He asks a student what is going on. The student replies, "elections." For 2, the nine Student Council candidates went through a harrowing campaign, which in the beginning, seemed like would have a predictable outcome. The 2003 elections ended with Vincent Villano as President, Erika Ongoco as Vice President, Ron Mojica as Treasurer, and Lae-Ann De Leon as Secretary; a result that at first, not many could believe. Despite this rough start, the Student Council went on to establish new traditions like Sadie Hawkins, as well as continuing old ones like Snowball.

First, to Mr. Seitz. You trusted that the book would get done, even when it didn't seem like it. Your never ending support and wisdom, even for things unrelated to yearbook, helped me more than you understand. To Mrs. Brennan who jumped in at the last minute and did whatever I asked of you. You are awesome. To Erika Ongoco, thank you for your hustling. To all the yearbook contributors, thank you for writing your stories so quickly, and in such short notice. And last, but not least, I would like to thank the yearbook staff for your hard work throughout the year. You guys will have an awesome yearbook next year!

too much fun

As told by Peter Keaney

In an attempt to solve the problems facing the modern world the E.J. King MUN team bravely ventured forth to the New Sanno for a week of intense debate. During the conference controversy raged as France claimed to have captured Osama bin Laden, Justin Stepura was charged with bribery, Matt Edwards assumed the undercover identity of Matt Eduardo, and Peter Keaney and Dave Allison trade places and names with Kathleen Sabijon and Jessie Bantug mid-session. Outside the committee there was no less intensity as members of the team used every method to gain sway: Kyle Aquino canvasses for support among female delegates from many committees, Dave Allison produced Pocky for other delegation as 'thanks' for certain votes, and Peter Keaney performed traditional Mexican dances to no real benefit. In General Assembly, Mexico was a dominant power as its opposition doomed resolutions and its favor guaranteed their passage. All resolutions sponsored by Mexico were passed by the Assembly, and 75% of resolutions passed overall bore the mark of E.J. King.

through her eyes

As told by Glaiza Ibarra

As president of National Honor Society, I learned the different aspects of being a leader. In the beginning, I thought it would be challenging to actually lead the scholars of EJ King HS. With a new staff, new members, and a new advisor, being president was not at all easy. As president you could no look up to someone and expect something to happen, it was time to take initiative. National Honor Society helped me to become a better person. It taught me how to be flexible and to take that extra step. Throughout the year, you were able to see NHS grow as a team. Everybody contributed to helping the community by dedicating their time and effort. Every helping hand counts. National Honor Society is not all about contributing forty hours by the end of the year; it is about commitment, initiative, dedication and by being a scholar by showing leadership traits around the school. These members are our future leaders and I was proud to serve them as president.

following the line of **SUCCESS**

As told by David Allison

JSHS was a trip to remember, with experienced presenters like Kyle Aquino and Lara Deguzman, combined with the talent and fervor of novices like Abigail Bayquen, Clara Martin, Edward “the Apprentice” Aquino and Dave Allison. Mrs. Webb took the competition by storm. Awards were given to Clara Martin for her presentation on the effects of color on memory, Lara Deguzman (6th) for her study on the effects of Noni juice on certain bacteria, and Kyle Aquino (3rd) for his study on the effect of bacteria on the corrosion rate of iron. Abigail Bayquen and Edward Aquino did a poster presentation on TV violence, and received accolades from judges on their presentation, and Dave Allison was called in from the reserves to present a project on why adults lie so much, and received rave reviews instead of awards for his presentation. He was said to have the best “stage presence” from the judges. Pound for pound, no one can’t say that the EJ King JSHS team isn’t a force to be reckoned with.

This year in NJROTC was a learning experience for all who participated in it. Four members of the NJROTC staff came back from a leadership camp in Hawaii, and they were happy to lend us a "helping hand". They re-taught us everything we thought we knew. They applied what they learned to training our Far East team. They trained the 13 cadets hard, and they came away from Far East with 3rd place in inspection, 1st place in field events, and they tied for 1st place with 5 other schools in regulation (marching) drill. Shortly after their return, they had to prepare for their Area Managers Inspection (AMI). The Area Manager, Naval Commander Paul Fisher awarded them with the "Bravo Zulu" award for having a superior second year program. This year has been a great year and we can only get better.

SPEECH & drama

1. Sean Alt and Andre Best receive medals for their excellently performed duo. 2. The EJ King Speech and Drama Team poses with all their glory and awards. Notice their obscenely large smiles. 3. At Random Idol and Naha Airport, Peter Keaney, Mr. Brennan and Aileen Seelbach gesture to it's majesty while Sean Alt and Kayla Rhode prefer smiles and giggles. 4. The whole gang poses because we really had nothing better to do. Note the lack of medals? Oh, that'll change REAL soon.

5. Dave Allison receives a gold medal for his oral interpretation "Any Junior's Worst Nightmare." 6. Richard Hernandez laughs watching Andre Best and Peter Keaney wrestle it out in their improv act. 7. Andre Best, Kate Paguio, and Kyle Aquino performing the ensemble "Taking a Bite Outta Crime." 8. Emie Des Marias, Mari Tumbado, Richard Hernandez, Aileen Seelbach and Sean Alt perfect their "ha ha beat you" faces at awards banquet.

9. Peter Keaney and Andre best doing their improv. 10. Hilarity ensues when Kate Paguio forgets her lines at rehearsal day at Kubasaki HS. 11. Dave Allison demonstrates the finer points of the "Turkey Trot" during the Readers Theater "Cinder Elephant"

The EJ King Players gave new meaning to the term "High School Drama". With the help and leadership of Mr. Brennan and Mrs. Laurenzi, the team proved to be, pound for pound, the best school at the competition. Many hours of hard, last minute, work prevailed as the EJ King players pounded the competition with their enormous amount of talent. Taking home two second place team awards for Ensemble Acting and Reader's Theater, two of the most competitive areas, EJ King proved that we'll have the audience rolling, the judges smiling, and the memories of all the fun we had together for many years to come.
