FOREWORD

Certainly this publication has been a great experience in my life, without mentioning the many fine opportunities and enjoyable memories that I have shared with my friends, teachers, and fellow students for the past two years at Kubasaki. I hope you, the reader, will find pleasant memories and enjoyable reading in the captions and, most of all, pictures of yourself, your friends, and teachers — the memory of which will remain with you for the rest of your life.

My sincere appreciation extends to the TORII SUPPLEMENT staff for their devotion and cooperation. Without them the book would not — could not — be the way it is; certainly not to the taste and best interests of you, the reader, for whom it was designed.

A TRILOGY OF DEDICATION

Teacher! You are the forge of humanity. Swing the hammer of your will. Strike hard the white-hot steel of youthful, seeking minds. Against the anvil of man's greatest knowledge beat out your sacred works of art. They are your destiny; they are the finite sands which, in tolling out the seconds of eternity, mark this -- your finest hour.

Student! Mark well these milestones of your passing days; you shall not pass this way again. Hunger for knowledge, thirst for learning; appease these only with the eternal - why? From moonbeams of wisdom and motes of inspiration distill the crystal jewel called reason. But passing, do not slight the alchemist who dared create for you the elixir of hope, the balm of reflection. From an abyss of wonderment, a morrass of doubt, he led you to the flaming portals of discovery and bade you carry high the oriflamme of truth. He is - teacher!

Parents! Your sons and daughters have seen the cold white flame of knowledge and burned to its touch. They taste the heady wine of revelation, thrill to the challenge of unknown tomorrow -- yet dread to part from the warming touch of yesterday. Take joy in their enchantment, sorrow for their disappointments and quiet their dismay. Then, pray God's touch will not waken them from the wonderous spell until they have searched out the key to destiny and turned wide the lock of their own fulfillment. This is - love!

Greetings

*Mr. O'Reilly,
 It's been an extreme pleasure
 knowing you. I hope your life is
 both happy & successful! Being a pessimist,
 I expect everyone to end up in the not-so-
 happy-land of Futility... but maybe that's
 not so. With as full a life as you seem
 to be living you may be able to beat the
 race, avoid the trap,
 all and best wishes
 the best of
 fondly,
 Janie

*P.S. Boy, do I
 ever know a lot about
 English Literature. Maybe
 it just seems like a lot.
 When I've finally completed
 college I'll probably look back
 and say, "I certainly didn't
 know much after high school."
 But really, your course has
 satiated me with a feeling and
 spirit for English Lit. Thanks!*
