Dr. Durham, Principal

Dr. Durham was born in Gastonia, North Carolina. She has worked overseas since 1983. As a child she did not have a TV or Play Station games, but she loved to read. She spent many hours, often when she was supposed to be doing her chores, reading and imagining herself as the characters in the books. Through reading, Dr. Durham learned that you could become anything you wanted if you were serious about your education.

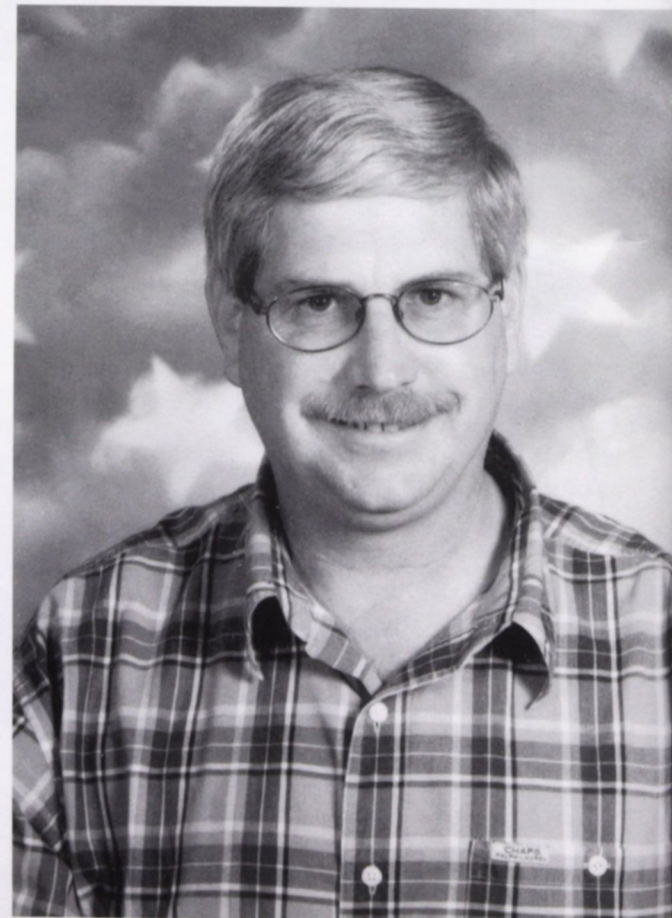

Teachers were always supportive of Dr. Durham and she always wanted to be a teacher. She has been in education for twenty-five years. Now that she is a principal she enjoys the opportunities of helping both students and staff. As a principal she is inspired by her love of education and students.

Dr. Durham encourages students to work hard, treat others nicely and to be thankful for their many blessings.

Mr. Currier, Assistant Principal

Mr. Currier was born in Carlisle, Pennsylvania. He has spent a great deal of time both in and around the military. His father was career Army, he was an Army soldier himself and he has taught with DoDDS since 1984. His vast experience with the military gives him a deep understanding of the unique needs of our students.

Outside of school, Mr. Currier keeps very busy with a variety of activities and interests. He is very active with the Scouting program, both as a leader and as an advisor. He loves to read, to travel, to work on the computer and spending time with his family.

Round-Table Advisories

Advisory classes are a very important part of our school. Each day every student meets with his or her Advisory Class at the end of the day. The advisory time is spent on several different topics. Part of the time is used for team building and discussion. The advisories also spend time helping with organization and time management utilizing our student planners; this helps everyone keep track of homework and long-term assignments. Advisories also work on school improvement activities like silent reading, writing summaries and basic math skills.
