Dear Boys and Girls,

A yearbook is a memory of the years you have spent with friends and teachers. The yearbook is a treasure that keeps the memories of all those things you did during your yesteryears at Seoul American Elementary School (SAES). The K-5 years are in some way the golden years of your life. These are the years that earn you friends for a lifetime and truly train you to live. Every year you spend in school is special each for a distinctive reason. Every school year is special and worth a flashback.

The yearbook stores all the memories of your teachers and friends at SAES, which is worth being cherished throughout life. Years from now, you will look at this yearbook and smile at some of the things you did which seem silly or important during these special learning years. Write something in your friends' yearbooks that is warm and sincere. One day, when you read these messages, you will be glad you did.

It has been wonderful to visit your classrooms and watch you learn and grow. Our school is special because of you and we are grateful to be part of such a critical period in your lives.

For the student going to middle school or another overseas school or back to the United States, we wish you the best. For those students returning to SAES, we look forward to another wonderful and successful school year.

Yearbook Club

The SAES yearbook had meetings two times a week to create the yearbook pages from scratch. The students spent the first couple of months becoming proficient in Microsoft Publisher and Adobe Photoshop Elements and then spent the rest of the time taking pictures and making their pages. Each student had their own responsibility and it was their job to take pictures and develop the page for their club page or grade level. Ms. Martinez and Ms. Tuttle were the club sponsors but most of the picture taking and page design was done by the students.

It was a lot of hard work but it will be worth it in the end.
