#### WHERE NOW WE STAND

Where now we stand,  
 There was nothing.  
 Just sea no land.  
 Grande Island didn't use to be,  
 But it's here now green, quiet and pretty.  
 Born out of the ocean a beautiful green,  
 Making a wonderfully beautiful scene.  
 With blossoms like rubies and skies like  
 a rose.  
 It looks as beautiful to you and me,  
 As an emerald set in a sapphire sea.

#### THE SPOT

There stands a spot all big and square  
 With a tree in the middle.  
 On the tree are giant ants  
 Looking for a place to stay.  
 All of a sudden a butterfly came  
 And it stayed on the tree for a while  
 and left.  
 Then all of the bugs left their place.  
 The tree in the middle was just standing  
 there.  
 The leaves were swaying in the breeze.

# REFLECTIONS:

## written as part of The Outdoor Classroom Camp

Writing was supervised by Mrs. Ashurst,  
 B.E.S. Librarian

#### MOODS

A mood can be happy or gay  
 Or it could be mad and  
 Full of fury.  
 Mood can be peaceful and calm or dreamy  
 Like the limb of a palm;  
 But all moods are just  
 Moods and they'll go away,  
 Just like the snow on,  
 An Early Spring day.

#### HAIKU INSECTS

In a big tree ants crawl  
 spiders spin their webs  
 Worms squiggle and wiggle,  
 Good sounds of Nature  
 Reefs splashing  
 Air whistling  
 Nice birds singing,  
 Deep forests cracking  
 Even snakes hissing

#### A SEAGULL CIRCLES OVERHEAD

A seagull circles overhead looking for  
 a home,  
 He wonders all around and roams.  
 Then he sees an island, just far ahead,  
 He looks for a place to rest and then  
 go to bed.  
 When he got up next morning,  
 He looked for a worm and ate it all up,  
 That worm was so silky, all he did  
 was slurp.  
 After breakfast he went flying,  
 He found a girl, and then was mating  
 After a while they had a boy,  
 And everything was with happiness and joy.

High in the treetop, a sentry hid.  
 He was a Japanese sniper.  
 His rank was private.  
 He had come from Honshu to fight  
 Now he was in an imperialistic war  
 against the U.S.  
 His tree was on a beachhead.  
 His assignment was to scout out  
 the Grande beachhead.  
 All of a sudden a lot of B-29s  
 2,000 pound bombs explode around him.  
 The next thing he heard were the  
 Japanese guns open up.  
 The invasion of Subic was on.  
 He could see where a bomb made a direct hit  
 on the American Battery Range.  
 Then he heard a whistling noise.  
 It was the last noise he would ever hear.

#### MY TREE

My tree, a baby tree  
 is a pine tree  
 It has pine needles nice and long  
 which aren't so strong  
 You will see it blowing in the breeze  
 It will make you smile instead of having  
 to sneeze  
 Come one, come all to see how tall  
 My baby pine tree has grown for all.

Ants walk around fighting over food  
 such as inch worms  
 But inch worms fight back.  
 But when that's done they take the inch  
 worms and stack them in their homes.  
 But before they do that they have to make  
 their homes.  
 They use things five times their weight  
 to make their homes.  
 Such as rocks shells and other interesting  
 things.

Listen to the trees softly swaying  
 in the wind and you can hear her  
 Calling you to be free.  
 And the love that is around you  
 and the peace of tranquility  
 of living.  
 Prosperity and justice will teach us to  
 be kind.

#### SEA GULLS

As the dawn approaches,  
 The seagulls fly overhead  
 Their cry is loud and clear  
 Ringing throughout the island.  
 They are free like the wind  
 Flying through glorious skies.

This tree here is old and big.  
 When you look at the bottom of the tree  
 You see cracks, bark and bees.  
 When you look at the top  
 You see leaves, branches and the sky  
 for background.  
 The leaves are so green and the branches  
 so brown.  
 This tree makes pretty sounds when the  
 wind runs through its branches.  
 The tree gives shade to animals,  
 Homes to insects and bird and loveliness  
 to people and places.

#### MY TREE

My tree has a big hole in its trunk,  
 Where animals may spend the night.  
 Its got grass to protect from washing  
 away and other mates to shake hands  
 with.  
 Many birds rest in the tree.  
 Some even live in it.  
 Sometimes bugs crawl on it and tickle  
 it for fun.  
 But my tree fears something really bad,  
 Its fire so don't be careless and  
 start a fire cause my tree want  
 to live for the rest of life.

#### ANTS

There are bugs where I am sitting  
 The name of the bugs are ants  
 They don't wear pants  
 Every where they go  
 People don't want to know  
 They are gathering food  
 They must be in a good mood  
 I wonder what language they speak  
 Maybe I can take a peek  
 No I can't they're too small  
 And I am much, much too tall  
 See you later, got to go  
 I hope you're not seen by a Troll.

#### MY OWN LITTLE SPOT

I'm sitting by a big old tree  
 Its bark is peeling off.  
 The birds are singing in its branches  
 The ants crawling up its trunk,  
 Little bushes circle "my tree"  
 Rocks circle the bushes  
 A little bridge on one side  
 A lamp post on the other  
 And sitting in "my little spot"  
 You also can find me.

-oOo-

#### GECHOS

Gechos make chirping sounds like gek-o  
 A gecko sounds like he is lost searching  
 for home knowing he will never find it.

#### RAIN WATER

The rain comes pouring down,  
 The rain water comes crashing through  
 bushes, over plants and flowers,  
 Worms and insects come upward,  
 Away from the water!

#### TREES

Trees gently swayed in the wind,  
 Leaves fall swirling toward the earth,  
 An acorn drops,  
 You can smell the hard bark from  
 the dry trees.

#### OUT FROM THE WATERS CAME

Once upon a time there was an open sea.  
 There were no islands.  
 But one year three islands came out  
 of the ocean.  
 Those islands were named Luzon, Visayas  
 and Mindanao.  
 The next year another island came out.  
 Its name was Grande Island.  
 One day insects invaded the island.  
 There were ants, (I meant soldiers of  
 army ants) giant caterpillars and  
 giant lizards and giant everything!  
 But during the years the big bugs died.  
 So Grande became a beautiful land.

#### GRASS

Grass is like a nature's cushion,  
 'Cause when you lay down in shade it makes  
 you day dream.  
 You can also listen to the different sounds  
 like the bird singing and the trees  
 swaying.  
 Then when you feel the cool wind you fall  
 asleep.
