Johnstown, Colorado  
Doane College,  
Colorado State College of Education

Principal

The Jonathan M. Wainwright High School existed as a correspondence study group from 1955 through 1959. The following year a two-teacher high school was established. Mention of the "high school tent" will bring mixed emotions to a few "old timers."

This year's student body is the first in a fully organized high school.

You have had many unique experiences as students in a foreign country. You have had an opportunity to spread Americanism—to show other peoples the true America. May these experiences make you more understanding of other peoples of the world and help you to be better citizens of your own country.

The staff would like to thank you for all the assistance you have given the students with their many problems — from headaches to tardiness!

It has been a great joy to have had you on the faculty.
