Carla, go on, I like you and  
put that girl's name  
at 11:5. Well, I'll  
Mark well in the  
place in the  
years to come  
if you both  
at it. Good  
Luck Mike

## Our Principal

School year 1964-65 has been a successful and significant one for each of us in many ways. It has been a year of change and investigation of methods to achieve more significant goals. Students played vital roles in which enthusiasm and cooperation were important factors in any successes experienced. My association with all of you has been one of pleasure, pride and expectation. It is my wish for all of you who keep this book that it will recall for you the outstanding events of this year and be a lasting reminder of one of your most important years.

Carla,

It seems hardly possible that you've still got 4 years to go and here I am all through. Well I hope those four years for you are as great as they could be, I'm sure they will be. You have a wonderful personality and always a smile for everyone - they're wonderful assets so don't ever change. I hope the big U.S. treats you kindly when you get back, we'll miss you especially one egg-head I know. I sincerely hope that if you & Mark feel sincerely that there is something between you that someday you both will get together again.

Till then lots of happiness to you,  
Cathy Johnson '65
