LE CAPITAINE

(Our Principal)

Students and Faculty:

The work that you have put into this year at Toul American High School is evident everywhere. Our Student Council has shown much responsibility. Our Athletic teams have won championships. Our band has been born. Non-graded Junior High, team teaching and large group instruction have been developed and represent many hours of work and creative imagination toward better teaching. The responsibility and leadership shown by the students who have participated in the individual study program and the honors lounge has given the entire school stature and maturity. The students of Toul High School participated in "work days" for the beautification of their school. There are few student bodies in the United States who have helped better their school and education in this manner.

I am proud to have been a part of your year. May your stay in France be very enjoyable. I trust that your efforts to make our host country an integral part of your experience overseas will reflect as much interest and energy as you have shown in other phases of your education.

This yearbook will serve to bring back many memories of France and Toul American High School. Good Luck!

R. Wiley Brownlee, University of Michigan, Michigan State University.
