UPPER HEYFORD HIGH SCHOOL
ENGLAND
TRIDENT

Linda A. Williams, Editor

The word that has been on our lips this year is "First". The first year of a new high school, the first year for an annual to be published, the first year for basketball, football, track, and soccer. The important things that make a high school a success -- our colors, our traditions, our ways of doing things -- have had to be decided and formed on a first basis. Many people have worked hard to make our first year a success -- teachers, parents, and military leaders. But above all, my hat is off to those students in all the grades who are our first high-school student body. You are the ones who accomplished the miracle of the first. You made Upper Heyford a High School!

William J. Easley, Principal

Originally from Winlock, Washington, he has received his B.A. from the University of Maryland and his Masters Degree at Central Washington State College.

While teaching here at Heyford High he has demonstrated his talent for working with people, especially students, in a wide range of undertakings including advising Student Councils and the Annual Staff. As a teacher, his inspiration has won him the admiration and respect of the entire student body and faculty.

By dedicating this yearbook to Mr. Raymond D. Perkins, we have tried in a small way to express our gratitude to him for the countless hours he has given us. We have grown to rely on him, for we have learned to trust his unselfish work even though much of his work has gone unnoticed and unmentioned. We know that as long as we need his guidance or respective service that he will help in every possible way.

To Mr. Perkins, we dedicate our annual, "The Trident."

To a Swell guy,
It was nice having you
as a school buddy. I hope you
play football in the states. Here's
a little poem for you.

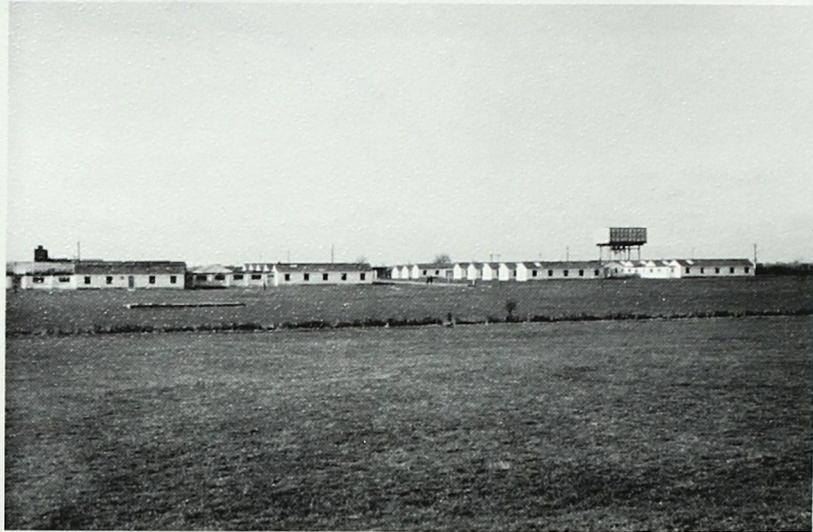

God made the rivers

God made the lakes

God made you but we all
make mistakes.

I hope you have a pleasant
and prosperous future.

JIM:

To A real cool guy
who I think is a real good
football player. Keep up the
good work.

Many people put together an annual. The students who worked after school and during what for others was a Christmas vacation; both professional and amateur photographers, with outstanding patience; the teachers whose classes were interrupted; the base personnel and a few students who cooperated beyond the call of duty and without whose financial support this annual would not have been. To all we extend appreciation and trust that a memory will be treasured here and never lost . . . for this is your year and this is your Trident.

Bob's Jim, we had to
get together in the state
for me to sign the state
the "even try to sign the state"
the experiences "we've had all
sure will be a great deal, and I am
