

The background of the entire page is a patriotic design featuring a circular sunburst pattern. The sunburst is composed of alternating red and blue rays emanating from a central white circle. The rays are bordered by white lines, and the background is filled with a pattern of red and blue stars. At the top, the year '2010' is written in large, stylized, overlapping white letters. At the bottom, the word 'ELEVEN' is written in large, stylized, overlapping white letters. In the center, the school's name is displayed within a white circle, and a red banner with white stars contains the school year.

2010-2011

the YEAR in review 2010

News • Politics • Entertainment • Trends • Sports • Science • Technology

A. Medal of Honor On November 16, 2010, President Barack Obama awarded U.S. Army Staff Sgt. Salvatore Giunta the Medal of Honor for conspicuous gallantry. Staff Sgt. Giunta, of Cedar Rapids, Iowa, received the Medal of Honor for his courageous actions during combat operations in the Korengal Valley, Afghanistan. Giunta is the first living recipient of the Medal of Honor since the Vietnam War.

B. Census The Census Bureau has determined the current total population of the United States to be almost 309 million, with a net gain of one person every 13 seconds. The majority of the nation's rural counties lost even more residents over the last decade, though some rural counties – particularly those in the mountain West – saw population gains that may be the result of retirees striking out for areas that are both scenic and affordable, according to a *Los Angeles Times* analysis of figures released by the Census Bureau.

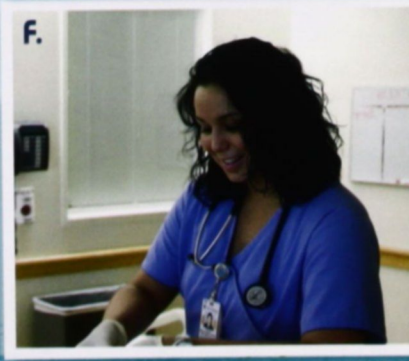

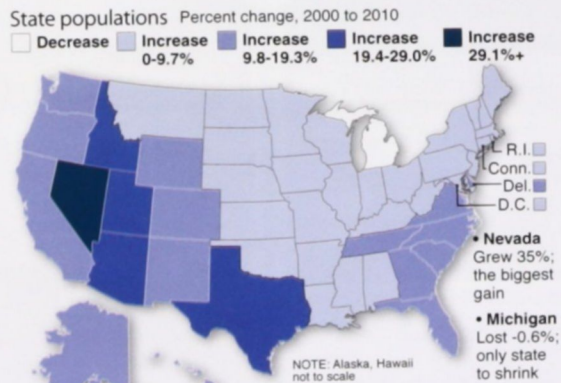

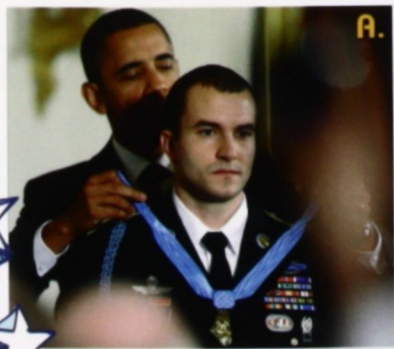

C. Paper Cranes Japanese legend says anyone who folds 1,000 paper cranes will be granted one wish. Even though 10-year-old David Heard knows it's the stuff of folklore, he wants to gather 5,000 colorful paper cranes to brighten the five pediatric wards where he has been treated for terminal pediatric cancer. With the help of the students at Lafayette College and East Stroudsburg University, he only has 3,000 to go.

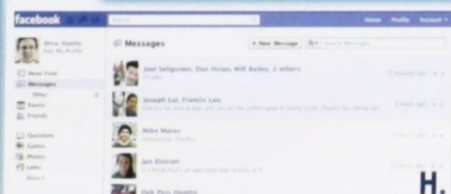

D. Election Results With 42% voter turnout, the midterm elections in November 2010 returned a majority of seats in the governor's office and U.S. House of Representatives to the Republican party, leaving the Democratic party a very slim majority in the Senate. Candidates backed by grassroots groups called the "Tea Party" made a good showing. In Alaska, the incumbent Senator won a write-in campaign after losing her primary.

E. Lunar Eclipse The first total lunar eclipse across North America in nearly three years took place on Dec. 20-21, 2010. It coincided with the northern hemisphere's mid-winter solstice for the first time in nearly four centuries. The five-exposure-sequence composite photograph (below) shows the moon headed toward full lunar eclipse.

F. Health Bill Passes

The House of Representatives passed the Health Care and Education Reconciliation Act on March 21, 2010. The bill was later approved by the Senate and signed by President Obama. Insurers are now barred from denying people coverage when they get sick, denying coverage to children with pre-existing conditions and imposing lifetime caps on coverage. Insurers are also required to allow young people to stay on their parents' policies until they turn 26.

A. Trend Watch

The tall boot wasn't the only big fashion trend of 2010. How can we forget about jeggings? Chances are you also wore – or at least spotted – plenty of the following: Western inspired plaid shirts; military-inspired looks, especially on jackets and boots; a special top of some type – embellished, ruffled, pleated; floral dresses; critter hats (pandas, cats, etc.); cluster necklaces and bracelets – the more bling the better!

B. Popular Video Games

Donkey Kong Country Returns	Super Mario Galaxy 2
Golden Eye 007	MLB 10: The Show
Rock Band 3	The Sims 3: High-End Loft Stuff
The Lord of the Rings: Aragorn's Quest	Scene It? Twilight Edition
StarCraft II: Wings of Liberty	Naruto Shippuden: Ultimate Ninja Storm 2

C. Final Farewells A number of famous people passed away in 2010. We bid a sad farewell to the following: Tom Bosley (1927-2010); Gary Coleman (1968-2010); Elizabeth Edwards (1949-2010); Corey Haim (1971-2010); Dennis Hopper (1936-2010); Rue McClanahan (1935-2010); and Leslie Nielsen (1926-2010).

D. Techy Gloves Etre Touchy gloves are made without thumb and index fingertips, enabling users to keep their hands warm and have access to touch screens and buttons. The gloves are made with 100 percent lamb's wool, come in many colors and are sized small, medium and large.

E. Super Storage The Verbatim Clip-it USB Drive is a small electronic storage device uniquely designed as a paper clip. The drive slips into any USB port without the need of any cover or protection. It's water- dust- and dirt-resistant.

F. Glee Camp Thanks to the popularity of the musical comedy-drama on the Fox network, dozens of *Glee* summer camps for kids have formed in North Carolina, Florida, Arizona, Indiana and Utah. The camps are aimed at budding stars, usually from 8 to 17 years old, and run for one or two weeks, culminating in a final performance. Series creator Ryan Murphy and the cast of *Glee* are shown in the image above, at the 67th Annual Golden Globe Awards show at The Beverly Hilton in Beverly Hills, California on Sunday, January 17, 2010.

G. Top Box Office Movies

Toy Story 3	Harry Potter and the Deathly Hallows Part 1
Alice in Wonderland (2010)	Despicable Me
Iron Man 2	Shrek Forever After
The Twilight Saga: Eclipse	How to Train Your Dragon
Inception	The Karate Kid

Top DVD Rentals

Avatar	Iron Man 2
Toy Story 3	How to Train Your Dragon
The Twilight Saga: New Moon	The Princess and the Frog
The Blind Side	Alice in Wonderland (2010)
The Twilight Saga: Eclipse	Alvin and the Chipmunks: The Squeakquel

H. Facebook: the Face of Change Facebook introduced a new message service combining e-mail, text messaging, instant messages and the social network's current messaging system into one "social inbox." All exchanges with an individual, whether through e-mail, text message or chat, will be archived in one place (see chart above). The inbox will prioritize messages from your closest friends to your least close. The more than 500 million members of Facebook will be invited to subscribe; once invited, they can invite friends.

the YEAR in review 2010

News • Politics • Entertainment • Trends • Sports • Science • Technology

A. Super Bowl XLIV The New Orleans Saints beat the Indianapolis Colts 31-17 on February 7, 2010, in Super Bowl XLIV at Sun Life Stadium in Miami Gardens, Florida.

B. 2010 World Series The San Francisco Giants rejoiced after winning the World Series over the Texas Rangers, 3-1 in game 5, at Rangers Ballpark in Arlington, Texas, on November 1, 2010.

C. The Stanley Cup For the first time in 49 years, the Chicago Blackhawks won the National Hockey League's ultimate prize, the Stanley Cup on June 9, 2010. The Blackhawks beat the Philadelphia Flyers 4-3 in overtime of game 6 to take the title.

D. NASCAR Jimmie Johnson celebrated after winning his fifth consecutive NASCAR Sprint Cup Series Championship at Homestead-Miami Speedway in Homestead, on Sunday, November 21, 2010.

E. NCAA Men's Championship The Duke Blue Devils defeated the Butler Bulldogs 61-59 to win the NCAA Men's basketball championship trophy April 5, 2010.

F. NCAA Women's Championship The University of Connecticut Huskies defended their champion status with a win over the Stanford Cardinal, 53-47 on April 6, 2010. The UConn team was undefeated for the second season in a row, and played to a 90-game winning streak that ended December 30, 2010, against Stanford.

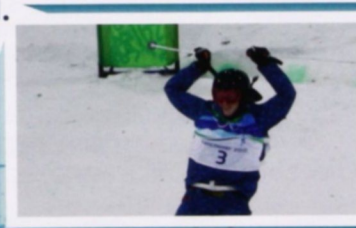

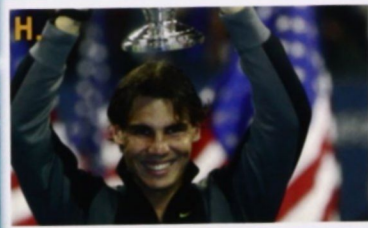

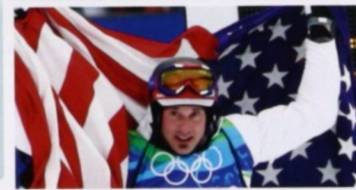

G. Women's U.S. Open United States Open women's tennis singles Champion Kim Clijsters holds her trophy after defeating Vera Zvonareva on September 11, 2010, to defend her 2009 win.

H. Men's U.S. Open Rafael Nadal defeated Novak Djokovic in the finals of the 2010 U.S. Open men's tennis singles on September 13, 2010.

2010 Winter Olympics

The 2010 Winter Olympics was held in February of 2010 in Vancouver, British Columbia, Canada. Team USA took home the gold in 9 events:

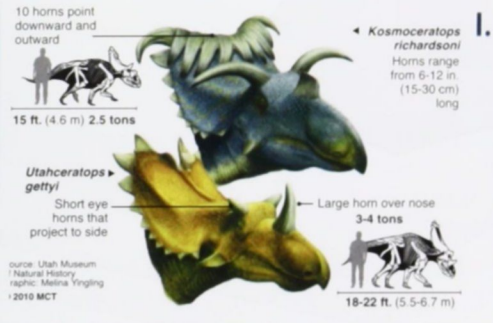

- Shani Davis – Men's 1000-meter Speed Skating
- Bill Demong – Men's Individual Nordic Combined
- Evan Lysacek – Men's Individual Figure Skating
- Hannah Kearney – Women's Moguls
- Bode Miller – Men's Super Combined
- Team USA 1: Steve Mesler, Steven Holcomb, Curtis Tomasevicz, Justin Olsen – Men's Four-man Bobsled
- Lindsey Vonn – Women's Downhill
- Seth Wescott – Men's Snowboard Cross
- Shaun White – Men's Snowboard Halfpipe

Chevy Volt

Nissan Leaf

A. Robonaut 2

In early 2011, the six *Discovery* astronauts bound for the International Space Station are planning on a seventh passenger, a robotic astronaut helper developed jointly by NASA and General Motors. The Robonaut 2 looks almost human, and is operated by sensors in head gear and gloves worn by the astronaut in control. Robonaut 2 has an infrared camera for depth perception, grasping fingers that can control fine tools and enter text on handheld devices, and visible light cameras that provide stereo vision.

B. Solar-Powered Trash Cans It's the latest technology in waste disposal – trash cans powered by a solar panel on top that recharges a 12-volt battery. Once trash reaches the level of an electric beam near the top, it triggers a ram that compacts the garbage. The bins were installed in several large cities in 2010, to cut labor and fuel costs and lower carbon dioxide emissions by reducing the number of city vehicles on the roads.

C. Comet "Snowstorm" In November of 2010, scientists from NASA's EPOXI mission released data and images about Comet Harley 2. Scientists discovered two different mechanisms by which water vapor escaped the comet. At the ends of the peanut-shaped comet, jets of carbon dioxide spewed out tons of golf-ball to basketball-sized fluffy ice particles. At the comet's mid-section, below-the-surface water ice turns into water vapor that flows through the porous material, making it look like a scene in a crystal snow globe.

D. Electric! Electric cars are about to move into the fast lane. In December 2010, General Motors Co. started shipping its Chevrolet Volt, and Nissan Motor Co. launched its Leaf. They represent vastly different approaches to electric car technology. The Leaf's range (on a fully charged battery) is about 100 miles because it relies solely on battery power. However, it gets points for being a true electric car. The Volt can go about 300 miles (on a fully charged battery), primarily because it is a hybrid rather than a 100% electric vehicle.

E. New Species in the Amazon Scientists searching the Amazon over the last decade have discovered new species, including an "Ant from Mars" – a blind, subterranean, predatory ant. It belongs to the first new genus of living ants discovered since 1923, and is likely to be a direct descendant of one of the very first ants believed to have evolved on Earth over 120 million years ago. The new ant was named *Martialis heureka*, which translates roughly as "ant from Mars," because it has a combination of characteristics never before recorded.

F. A Peach of a Find Lab tests in 2010 at Texas A&M University Research found that treatments with peach and plum extracts destroyed certain types of cancer cells without harming normal cells. Food scientists found that two phenolic acid compounds, chlorogenic and neochlorogenic, were responsible for killing the cancer cells.

G. BP Oil Spill A BP oil rig exploded in the Gulf of Mexico on April 20, 2010, causing an oil spill that lasted well into the summer. The explosion killed 11 workers and injured 17. NASA's *Aqua* satellite captured this image of the spill in the Gulf of Mexico using its Moderate Resolution Imaging Spectroradiometer (MODIS) instrument.

H. Earthquakes

A 7.0-magnitude earthquake caused incredible damage to Port au-Prince, Haiti, on January 12, 2010. An estimated 200,000 or more died, hundreds of thousands more were injured, and a million people lost their homes. Chile was struck with an 8.8-magnitude earthquake on February 28, 2010. About 750 people were killed in the quake, with more than 1.5 million displaced. Chile's second largest city, Concepcion, was hit hard by the earthquake followed by a tsunami.

I. New Dinosaur Fossils In September of 2010, scientists discovered fossils in a southern Utah desert of two new species of dinosaur, closely related to the Triceratops, that they believe lived 76 million years ago.

West Point Middle School

West Point Middle School ensures highest achievement for all learners.

THE PRINCIPAL'S MESSAGE

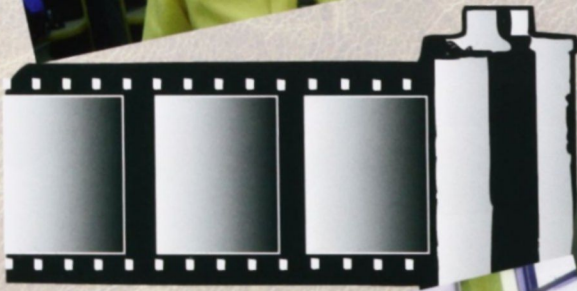

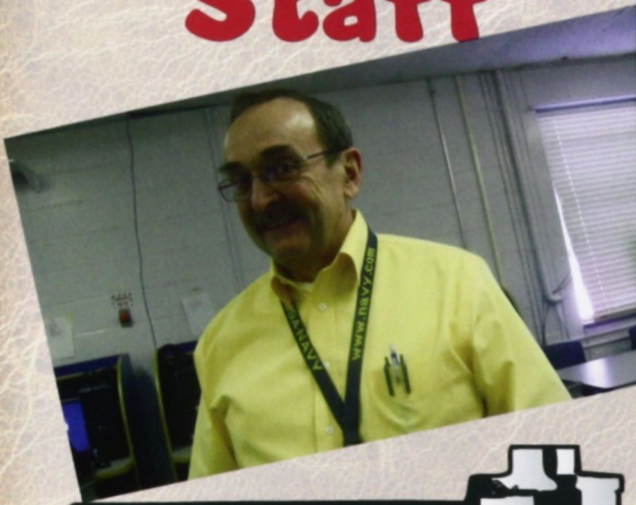

This edition of the West Point Middle School yearbook is yet another example of how our dedicated teachers and intelligent, resourceful, diligent students have worked together to ensure highest achievement for all this school year. A completely student-produced publication, this book contains within its covers the school year that was 2010-2011; friends, teachers, and a host of activities that made for an exciting and engaging educational experience for everyone. This year marks the first year that an all-color book was created just for fifth through eighth grade, formatted and submitted for publication electronically. It is hoped that its hard cover will stand the test of time, so that it can be flipped through again and again in the years and even decades to come.

It is such a unique experience to live at West Point and attend this special school, something that I hope every one of you will grow to appreciate as you progress in your educational pursuits. Our learning community believes very strongly that we are building the foundation for top-notch secondary and post secondary learning, as well as caring compassionate citizens of our great Nation. Just as your parents have answered the call to serve our country, I encourage all of you to look for ways to be of service to your community in a way that makes the best use of your talents and intellect. Best wishes to all of you for a safe enjoyable summer.

ART CLUB

The Art Club is a great way to express feelings and to have fun at the same time! Art Club makes pieces of art for school functions such as the Veterans' Day Assembly. The students who participate in Art Club also make individual art projects.

Student Council

Spanish Club

Nosotros somos los mejores!
We are the best!

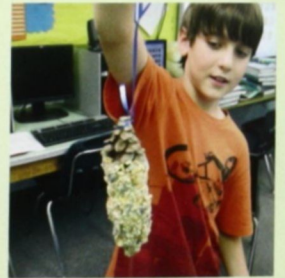

Newspaper Club

"It is impossible to read a newspaper without being exposed to ideas. Ideas more than money are the real currency for success."
Eli Broad-American Philanthropist and Businessman.

Environmental Club

Environmental Club, also known as the "Green Team" has had a very busy year. We started the year making all-natural bird feeders and hanging them on the campus. After researching endangered animals on the World Wildlife web-site, we chose three animals to adopt: a manatee, a hellbender salamander, and a wildcat. Along with many other activities, our club served as the POC for the post-wide "Recycled Material Holiday Decoration Contest" which was a great success. Two of our members won top prizes in that event.

HOMEWORK CLUB

Homework Club is a wonderful opportunity which provides a work place and various resources for students to initiate their assignments immediately after school. Some benefits of attending Homework Club include: managing time better, receiving assistance, and improving grades. More free time at home to spend with families and friends and a feeling of accomplishment is are additional bonuses. When asking a student why he or she likes to come to homework club most would say, "I like getting my homework done."

SPORTS

**"CHAMPIONS KEEP PLAYING UNTIL
THEY GET IT RIGHT"
-BILLIE JEAN KING**

Girls' Basketball

"Some want it to happen,
some wish it would
happen, others make it
happen."- Michael Jordan

Boys' Basketball

*"Talent wins games, but
teamwork and intelligence
wins championships."*

-- Michael Jordan

Cross Country

*"Run hard, be strong, think big!"
--Percy Cerutti*
