Action

America the Beautiful

Outside the hospital complex television news crews spent the early-morning hours laying cables, checking equipment, and huddling in their vans against the cold.

... They're Here

After a 13-hour-plus trip from Iran our 52 American hostages arrived in Wiesbaden early Wednesday morning, January 21, 1981.

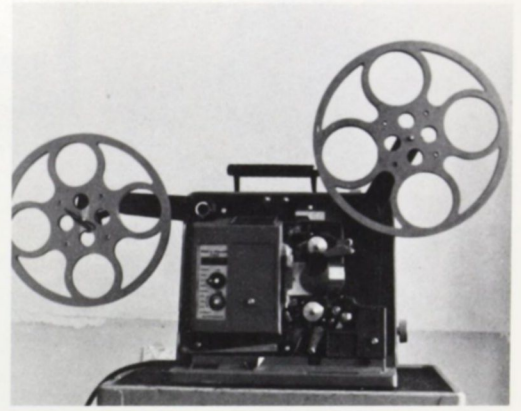

Everywhere yellow ribbons

Hostages undergo medical examinations.

Middle School is synonymous with change in many ways. This is certainly true when one thinks about students. You come to us as children from the elementary school and emerge as high school young adults. Your yearbook is a chronicle of the changes that have occurred during a portion of that time. With the passing of the years you will cherish it as a reminder of friends, field trips, activities, events, teachers who have played an important role in your maturation. You will continue to change but it will be a constant reminder of this phase of your life.
