

WILDCATS

These could be the last Wiesbaden **WILDCATS** *you'll ever see!*

Endangered Species?

WILDCATS

Wiesbaden American Middle School
Wiesbaden, West Germany

1984-1985

Illustrations by Adrian Turner

Wildcats live in a
Jungle.

Jennifer Parker

Wildcats are wild
animals that live in the
hills in some of the
colder regions. Like
Wiesbaden.

Christine Kimball

There are no two
wildcats exactly the
same, but we do have
a couple of sets of
twins.

Robbie Hansen

Wildcats and men live
in many different
places.

Andy Sharp

They are called wildcats
because middle school
students are big and bad.
Lunch comes four hours
after school starts so
everyone is hungry . . .
running wild, like
wildcats.

Mike Rueschenberg

They are called wildcats
because they are a wild
bunch of kids who
don't take nothing
from nobody.

Taya Lander

Wildcats are ready for
anything.

Laura Yerrick

Wildcats are small,
vicious and the best.

Mitch Smithey

We are in the middle of
the school the way
wildcats are in the
middle of the cat family.
We share many of the
same feelings. Both of us
are quick thinking,
aggressive, fierce and
hot-tempered.

Tom Shaw

Why Wildcats?

Ever since it's been Wiesbaden Middle
School, we've called the beasts
roaming the halls "Wildcats." When we
assembled more than fifty yearbook
staff members back in September, we
asked them to ask themselves why.
Who are the Wildcats? Why that
name? Do we have anything in
common with Wildcats? Is it a good
name for us?

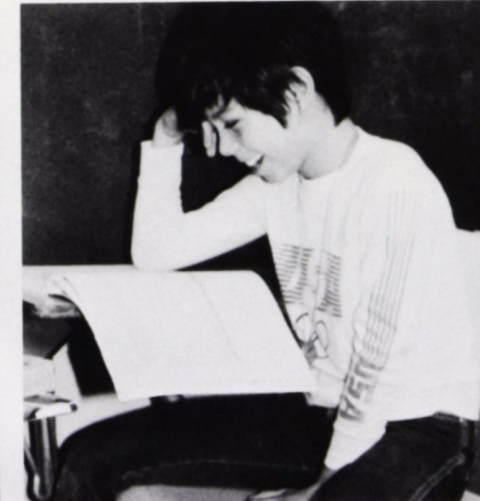

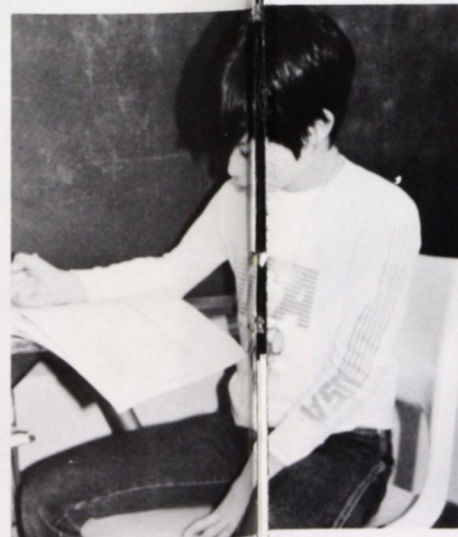

In short order, the staff came back with
a wider range of answers than we
ever expected, and a surprising loyalty
to what could be considered a less
than flattering moniker.

We got poems. We got artwork. We
got one-word answers, and even
apologies for a few that went over
the requested one hundred words.

We pass on to posterity a few of the
choicer remarks. To be honest, we
found their answers closer to what
we'd have expected from the domestic
cat, that well-bred descendent of the
yellowish gray, black-striped European
feline with short tail and tufted ears
that's usually associated with the
Wildcat name.

But there has to be a missing lynx . . .

Robert Dawson, Advisor

The wildcat symbol is good because we are at an age where we can get very excited, just like a wildcat.

Suzanna Hudson

Tame Wildcats calm down. It's almost the same with middle school students.

Tammy Schanke

Like wildcats, we give our opponents competition. Although we may not win, no one can say we don't try or don't have enough spirit to lose. Because we do! Because we are the Wildcats.

Kimberly Holcomb

Wildcats, as you know, are animals. Well so are we. So why shouldn't we act that way?

Steven Dell'Orto

I think we have a perfect name for our perfect school.

Suzannah Hudson

I would stay away from animals and go with something more human.

Mike Walker

We're probably called the Wildcats because it was the only thing left.

Tommy Burnette

We're the ones who picked the name in the first place, so we must have liked it then, and we like it now.

Christine Kimball

We are the Wildcats, Lovers of fun. We are the classes of '89 and '91.

Steven Dell'Orto

The Wildcats are the student body of the middle school. If you want to consider the teachers and the school staff wildcats, you can, because I have no idea whether they are or not.

Mike Walker

So once again, the Wildcats filled the jungle with Joy.

Jennifer Parker

*Wildcats, Wildcats,
What an appropriate name.
The boys are the lions,
Impossible to tame.*

*The girls are the lynxes,
so cunning and sly.
The teachers are cheetahs,
to cheer the students by.*

*Wildcats gives the kids a title,
And the students live up to
their name.*

*Their coaches are the teachers
of students who have earned
their fame.*

Claire Gayley
