1993-1994

WORMS AMERICAN ELEMENTARY SCHOOL

5015 Von Stueben Str.

Worms, Germany

Hi! This is my yearbook. Here is a picture of me. If you want to see another picture of me, turn to page ____.

My name is _____.

I am in the ____ grade.

My teacher's name is _____.

We are in room ____.

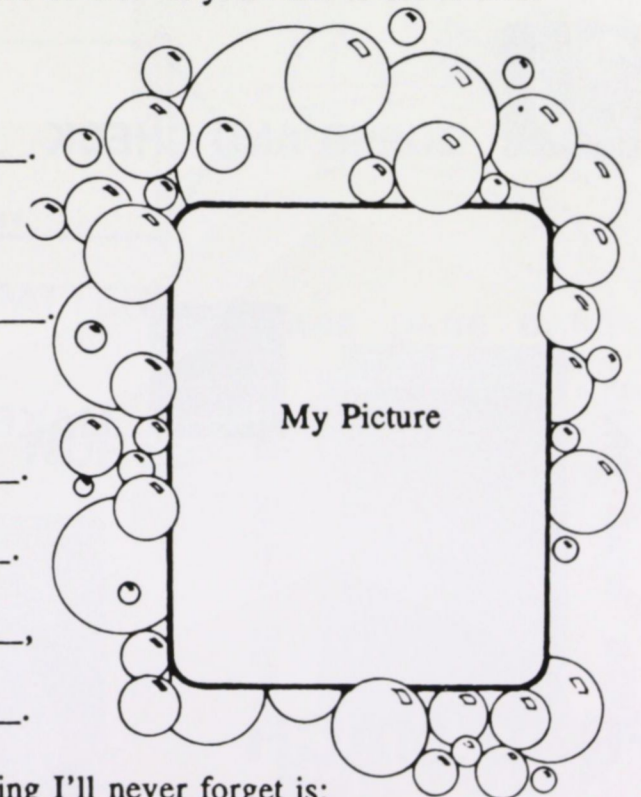

My best friend is _____.

We play _____.

I am really good at _____,

but not so good at _____.

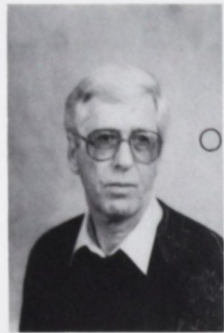

This has been a pretty good year. One thing I'll never forget is:

My Picture

Many thanks to all those who helped with this yearbook!
Sandy Hoffman

COUNSELOR

It's been a wonderful year in P.E. and Counseling. In P.E. we have worked very hard toward the President's Physical Fitness Challenge and learning to be good sports. Counseling classes covered everything from self-esteem and good manners to relaxation during testing. I hope all of the students' hard work pays off! Have a great summer.

MR. GRIFFITH - GRADE FIVE

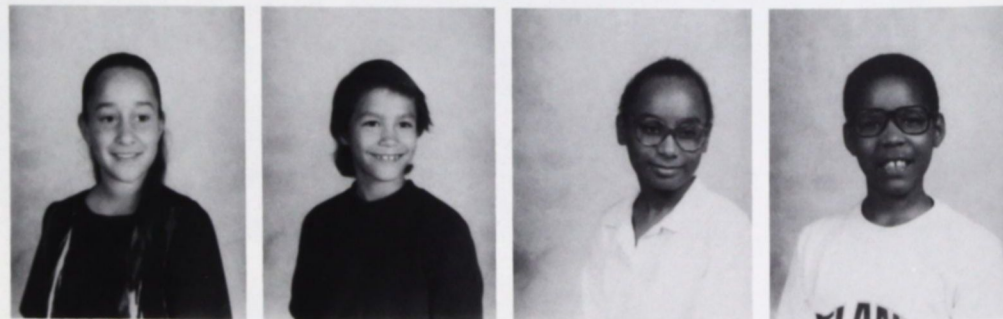

This year, for the first time at Worms Elementary School, the 5th grade received all of the D.A.R.E. instructions. Our instructor was Officer Taylor. We also began using a new science program that had more activities. As any scientist knows, and we found out, sometimes the activity didn't work like it was supposed to. So then we tried to re-do, with minor changes, the activity. We also made an effort to become more aware of daily happenings in the news and gradually began to "follow certain stories" in the news.

GRADE FOUR

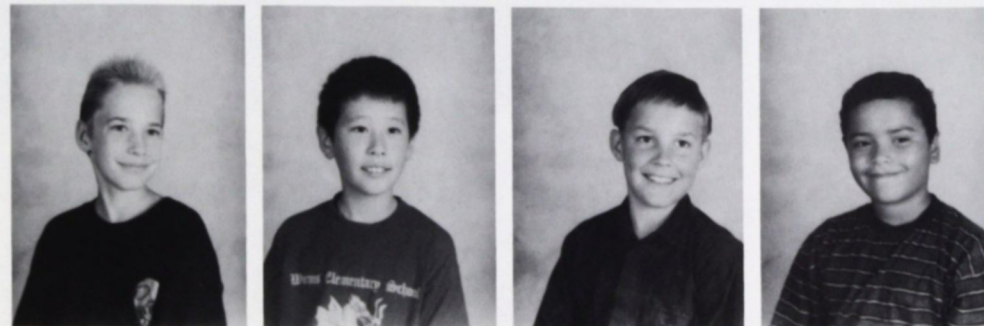

The most fun we've had this year is with our swimming lessons. We went for six weeks in the Fall and will return again for six weeks in the Spring. It's been interesting learning about the United States and the solar system and we've learned a lot doing our research reports. Probably our biggest problem is keeping quiet--but we're working on it!

MS. BAGWELL - GRADE FOUR

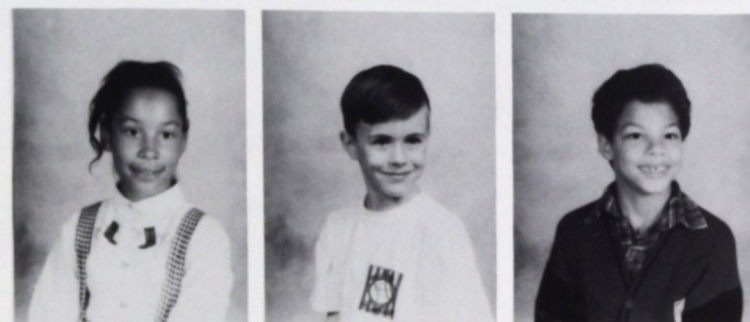

What a busy year we all have had! In science, we were detectives and investigated fingerprints. We were inventors and invented our own animals. We were gardeners and grew our own flowers to plant around the school. In social studies, we learned more about our world through maps and globes. We studied about Native Americans and each of us did a research report on a tribe. In math, we investigated whole numbers, fractions, and decimals. We used manipulatives (remember all of those beans) to help us understand how numbers are related. We all became cursive writers! We wrote stories about our lives and about the places we have visited. We all worked hard and reached to do our best! I will miss you all!

MRS. SAYER - GRADE THREE

Our class did many interesting things this year. In addition to our daily learning activities, we took two study trips. We first went to the Reiss Museum in Mannheim to learn about the Mayan culture. Later we went to the city Museum in Worms where we learned about the Stone Age culture. We made cave paintings on paper and on clay. We made pottery with designs from Stone Age pottery. We also baked bread from ground grain just like the Stone Age people used. We spent many hours on computers writing letters, stories, and reports. We did research and wrote reports about Native Americans. We even learned how to do Indian dancing from one of our very own classmates.

MS. BAIRD - GRADE TWO

During the school year, our class has done many wonderful things! We've learned how to write stories on our school computer, discovered interesting facts during our Current Events sessions with Mr. O'Brien and have had "hands on" experience with experiments using our new science kits.

MRS. HICKS - GRADE ONE

Mrs. Hick's 1st grade class enjoy reading aloud to the class and do a very good job. All the children like making patterns with colored shapes and geo boards. They are learning about money and time and measurement. Some of the things the children remember are: the Valentine's Day party, the Pumpkin Bash, the Snow White play in German, the pizza party and when they all put paper in the big pumpkin.

MRS. HIRAMOTO - GRADE ONE

We made great gains in our learning this year. We thank our parents and the parent volunteers: Mrs. Brancamp, Mrs. Braunscheidel, Mrs. Hoffman, Mrs. Jeter, and Mrs. Mayer for helping us become very good readers. By sounding out words we have written many good stories and books. In math we enjoyed exploring with manipulatives, using a number line to help count by 2's, 5's, and 10's, telling time, measuring, celebrating the 100th day of school, and using the computer.

MRS. AVERETT

A.M. KINDERGARTEN

Kindergarten was a busy year. The children practiced their manners and earned ten popcorn parties for their good behavior. To earn a popcorn party the class needed twelve popcorn points. We worked on alphabet recognition and sounds. We learned to write our name and letters in D'Nealian. In math we used the Math Their Way "hands on" activities and count daily. By the end of the year we'll count to one hundred. We went on a field trip to Coleman Barracks where we visited the fire department, the post office and we saw and inspected many helicopters. We enjoyed making turtle cookies, porcupine biscuits, french toast and waffles in our cooking activities.
