

The background of the entire page is a stylized American flag. It features horizontal stripes in red, white, and blue. Overlaid on these stripes are numerous stars in white, red, and blue. Some stars are large and prominent, while others are small and form part of a repeating pattern. The text is positioned in the upper right area, and the dates are in the lower left area.

YEARBOOK DESIGNED BY: MS. AUDREY COOPER BRUNING

Now Entering The Year In Review

population: 2005

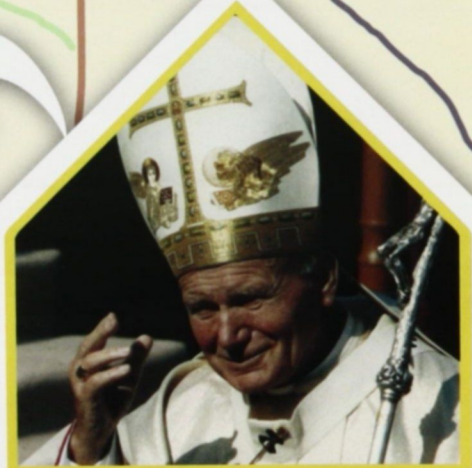

Hurricanes Wreak Havoc on Southern States

On August 29, 2005, Hurricane Katrina, a category 4 storm pounded the Gulf Coast. Parts of Mississippi were hit particularly hard. The following day New Orleans, which had been spared the full force of the storm, suffered major damage as levees holding back flood waters broke, submerging around 80% of the city. Only a month later, on September 23, a category 3 storm (Rita) caused waves to flood parts of New Orleans and breach yet another levee.

Pope John Paul II Dies

Pope John Paul, 84, died after a long struggle with Parkinson's disease on April 2, 2005. On April 8, he was laid to rest in St. Peter's Basilica after 26 years of leading the world's Catholics. Leaders from more than 70 nations gathered for the largest funeral for a Pope in history. John Paul II was the first Polish Pope and the first non-Italian Pope since the 1500's.

2005 Was A Long Year...

Actually, slightly longer than usual. An extra second was added to the end of 2005 to make up for the slowing down of the Earth's rotation. "Leap seconds" used to be very common. This is the first in seven years and shows the unpredictable nature of the planet's behavior. The International Earth Rotation & Reference Systems Service keeps track of time by measuring the Earth's rotation, which varies, along with an atomic clock, which is unwavering. When a difference between the two appears, IERS adds or subtracts a second to keep the two timing systems in sync.

Space Shuttle Discovery

On July 26, 2005, Space Shuttle Discovery lifted off. The mission of the shuttle was to deliver supplies and test new safety procedures at the International Space Station. Despite difficulties at take off, and two missed passes at a landing, the Discovery and its crew landed safely on August 9, 2005.

Happy Birthday!

On July 17, thousands of Disney fans came together to celebrate Disneyland's 50th birthday in Anaheim, California. Since the 1955 opening of Disneyland in California, ten other Disney parks have opened worldwide, one of the most popular being Disneyworld (FL) in 1971.

A Melty Mess

In an attempt to break a world record, Snapple beverage company tried to construct the largest popsicle ever in Union Square on a warm June day in 2005. The 25 foot, 17 ton frozen treat melted much faster than anyone expected. The end result? No record and a sticky mess local firefighters were left to clean up. The attempt at breaking the record was part of a campaign to launch a new line of frozen snacks the beverage company designed.

Around The World...

Steve Fosssett completed the 23,000 mile flight circumnavigating the globe on March 3, 2005. He's the first person to make the solo non-stop journey.

A Discovery Down Under

Researchers recently found a new dolphin species along the coast of Australia. The new Snubfin dolphin was given its name because of their bluntly rounded noses and a stubby dorsal fin on their backs. This is the first new dolphin species in over 30 years.

Largest Passenger Plane Launched

A prototype of the Airbus A380 had what would be considered a very successful test flight in Toulouse, France in January, 2005. The plane can seat 555 passengers, has a tail the height of a seven story building, and is three quarters the length of a football field.

One More Time

Lance Armstrong wins his seventh Tour de France on July 25, 2005. Earlier in the year, he had announced his plan to retire from the sport after finishing the July race.

Her Rookie Year

Danica Patrick took the IndyCar Series by storm in 2005. The 23 year old isn't the first woman driver in the series, but she has quickly proven herself to be the best so far, in terms of on-track performances during her first year.

The World of Sports

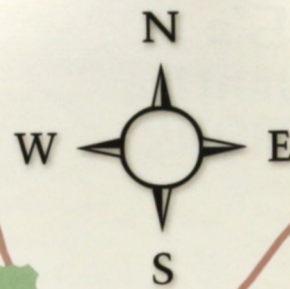

- The Chicago White Sox swept the Houston Astros claiming the World Series Championship in game four.
- The San Antonio Spurs beat the Detroit Pistons in game 7 of the NBA championship with a final score of 81-74.
- The Sacramento Monarchs defeated the Connecticut Sun in the WNBA Championship. The final score of game 4 was 62-59.
- Superbowl XL was taken by the Pittsburgh Steelers in a 21-10 victory over the Seattle Seahawks. The Steelers now share the title of "Most Superbowl Wins" with the San Francisco 49ers and the Dallas Cowboys with 5 wins each.

Big Hits On The Big Screen

- The third installment to George Lucas's prequel trilogy made its big screen debut in 2005. Star Wars Episode III: Revenge of the Sith is the 7th highest grossing film of all time to date.
- Harry Potter And The Goblet of Fire
- The Chronicles of Narnia - The Lion, The Witch, and The Wardrobe
- Madagascar • Charlie & The Chocolate Factory

FUN MOVIE FACTOID: Did you know that Deep Roy, the face of the new Oompa Loompa in Charlie & The Chocolate Factory, actually played every single Oompa in the movie? He was digitally replicated to make it seem like there were hundreds of these pint-sized, cocoa bean worshipping workers running the factory.

Rising Star

Tennis sensation Maria Sharapova has been playing pro since she was 14 years old. She continues to burn up the court at the 'ripe old' age of 18. The 6 foot Russian won Wimbledon in 2004 and was beat in the semi-finals by Venus Williams who went on to win the tournament in June of 2005.

One Time Only!

The only father and son in history to hit back-to-back home runs in a major league baseball game are Ken Griffey, Jr., and his father, Ken Griffey, Sr., both of the Seattle Mariners in a game against the California Angels on September 14th, 1990.

2005's Most Inventive INVENTIONS

Disposable Camcorders

For around \$45, you can pick up a camcorder, make a 20 minute movie, and have it burned to DVD. These one-time use camcorders are compact and user friendly, with enough bells and whistles to get your money's worth. Once you've shot your 20 minutes, return the device and have your movies processed onto a DVD.

Time To Wake Up...Or Is It?

Ever noticed that you feel sleepier some mornings than others? Researchers believe waking to an alarm during a deep sleep cycle may cause this feeling. The new Sleeptracker watch solves this problem by waking the wearer only when in a 'light' sleep. You choose a window of time it would be 'ok' to wake up in, and Sleeptracker's built in motion sensors will wake you during the closest "light" sleep cycle based on your body's restlessness.

Seeing The World

through amber tinted lenses? The new MaxSight contact lenses from Nike filter out blue light to improve an athlete's ability to focus on a baseball, tennis ball or other moving target. There's also a grayish green version that enhances your golf game by accenting the dips and curves of the distant putting green. The lenses also filter out ultra violet rays and are already being used by many professional athletes.

Summer Travel Trivia - Did You Know?

- In the sixteen week period between Memorial Day weekend and Labor Day weekend, Americans annually take around 650 million long distance (greater than 50 miles) trips.
- 90% of summer trips are in a personal vehicle (i.e. car, RV).
- 97% of summer trips are to a location within the U.S.

U.S. Landmark Trivia

- Did you know there is only one mobile U.S. monument? The cable cars in San Francisco.
- America's highest point is Mt. McKinley at 20,320 feet.
- The U.S.'s lowest point is Death Valley at 282 feet.

A Record Breaking Year!

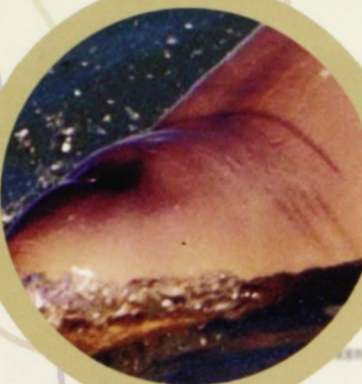

2005 saw the most major hurricanes to hit the U.S. Dennis, Katrina, Rita and Wilma all touched the Southern U.S. The previous record was 3, set most recently in 1954.

Up Close & Personal

Let's see how close you were paying attention! See if you can match up these extreme close ups with the topic from the 'year in review' they belong to!

- After 26 years of leadership, Pope John Paul II died in April.
- Researchers in Australia discover a new blunt nosed species of dolphin.
- The Space Shuttle Discovery successfully delivers supplies and tests new safety procedures in July.
- Cyclist Lance Armstrong wins his seventh Tour de France and retires.
