ART WORK

How can any one ever forget the rocky plateau of Zaragoza, Spain, the bitter wind, the scorching sun or even our new school?

It takes more than people to make a united school. Work, spirit, and communication are what have made it so. Sure we've had our troubles, breakdowns in communication but all new schools are the same. We had to work for what we have gained.

We had nothing when we came except the school, no name, colors, athletic teams, cheerleaders or any other things. Look at us now, at what we have created. We haven't received all we had hoped for this year, but what can be expected everything can't be worked out in just one, new year.

We have set the tradition for Zaragoza High. This tradition shows our efforts and will be remembered for as long as the school exists. It represents our life, needs, and ideas.

C.S.

TOO DEEP

I am thinking a thought,
That is deep in my mind,
Searching for a release,
But it's so hard to find . . .

Help me

YOUTH

Oh youth . . . beautiful youth,
Run wild . . . run in glee,
For once the current of life
Catches you,
You'll never be free.
