Grandiflora

Collier Campbell at our brightest! Beautiful bold painterly blooms in stunning colours - a glorious celebration of the garden, taken from one of our vintage designs from 1970's. With vintage stripe as co-ordinate.

Tropical Birds

Inspired by a painting on an ancient Egyptian papyrus. Recoloured to create a different mood. One of our most iconic designs, selected by National Trust for bags and washbags.

Painted Garden

Painted as an illusion of a real garden, inspired by a visit to the Chelsea Flower Show - this floral design taps into the current watercolour trend. With a lyrical stripe as co-ord.

Cleo/Hummingbird

An exotic archive treasure inspired by classic chinoiserie - its painted blooms create a delicate mix of pattern and colour.

Kandi/Quicksilver

Tapping into the growing geometric trend, Kandi is one of our vintage designs inspired by the shimmering sails of boats in a harbour on the Indian Ocean. It reflects our love of the geometric designs of the 1930s.

Biarritz

A vivid landscape viewed through a window.
A pictorial interpretation of summer holidays on the Mediterranean.
Sun, boats, trees, birds and breeze add to the colourful narrative.
