# *art with purpose* GIVING BACK TO OUR PLANET

Nature is at the heart of everything I create, making it essential to give back to the very source of my inspiration. As a proud member of 1% for the Planet, I am committed to supporting impactful environmental initiatives that help protect and restore our world. A portion of every purchase made through my licensing partners goes directly toward this mission—because art should do more than inspire; it should create meaningful change.

## *a bit more* ABOUT THE ARTIST

LEAH BISCH is a watercolor artist and designer whose signature style strikes a fine balance between modern minimalism and lush floral expression. Inspired by her native Californian landscape, Leah's artistry comes alive through her graceful brush strokes and floral watercolor paintings. She opened her solo studio in 2014 and debuted her first collection of holiday cards with the indie-artist retailer Minted that very same year. In 2019, Leah began licensing her art and design to bring her signature artistic style to a broader audience of manufacturers and retailers. Today, Leah collaborates with a growing list of clientele on a wide range of products.

She works out of her home studio on the Palos Verdes Peninsula where she lives with her husband, daughter, and their pup, Maisy.
