Hey there!

I'm Rachel, an illustrator & surface designer in Colorado.

I'm a life-long artist with a passion for color & texture. I've been a professional designer for over a decade. A few years ago, I made a career switch from graphic design to surface design. It's an industry I'm really passionate about - I love creating beautiful things!

I have worked as both an in-house print designer and a freelancer. This year I left my position as the print designer at Bebe au Lait, an internationally sold baby goods company. You can find product with my patterns in Target, Nordstrom, TJ Maxx and in boutiques around the country. It's really fun to walk into a store and find something I've made!

I especially love designing with fabric in mind. I'm an avid sewist and like many others, I can hardly pass up a beautiful fabric collection. I would absolutely love to have a fabric collection of my own!

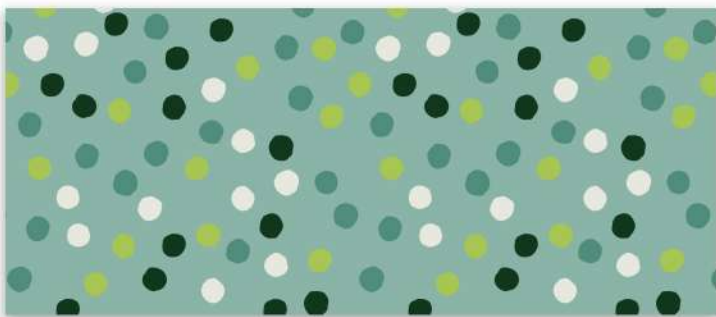

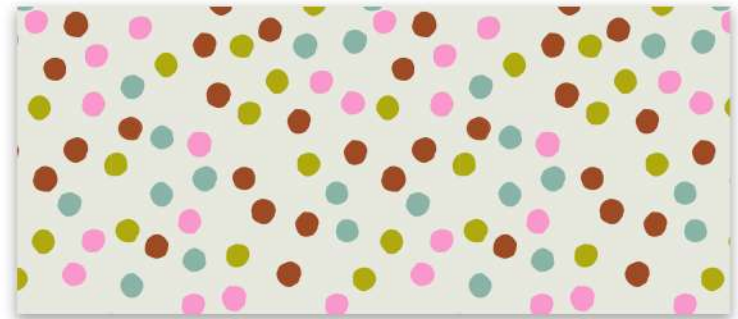

My artwork is cheerful, whimsical, and colorful - perfect for a variety of popular sewing projects. I can see these designs being used for children's sewing, home decor, quilting, and craft projects such as tote bags. I would love to work with you and create something beautiful!
