BOCK
BOCK!

Hi, I'm Steph Calvert.

(No - not the chicken. The gal in glasses. You got it, there I am. Hooray!)

I hope you enjoy my Farm Fresh Fun group! Inspired by our old ten acre farm just outside of Savannah, Georgia, you'll find all kinds of super cute product concepts with more than just a few nods to our forty five chickens.

I experimented with handpainted textures created by smooshing my paintbrush onto the paper in interesting ways; I created some joyous dancing chickens celebrating farm life. I had a blast.

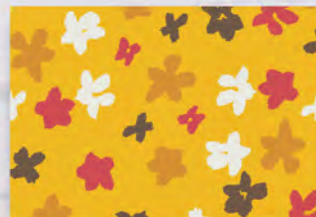

I really, really, really want to see the metal garden stakes become a reality.
