

Hi, I'm Barbara Abbatiello an illustrator, surface designer and educator. I am a recent transplant to Naples, Florida from Northern California with my husband and two daughters. I find inspiration for art in my every day surroundings whether it is a family adventure, a walk around the neighborhood, or a trip to a museum. I am a trained graphic designer and I have a passion for all things digital. It is complemented by deep and unending love of painting and drawing.

You can reach out me at:

The Gilded Garden collection is inspired by my love for spring and gorgeous bird cages. I find the shapes and sizes of bird cages so interesting. I grew up with a grandmother who loved birds and had an aviary. I would watch as she fed all the varieties of birds. To this day, I enjoy watching them from afar and drawing them.
